March 22 (Thu)

	9:00	10:00	11:00	12:00	13:00
Room A **1F Main Hall**		**Tsukahara Named Lecture:** Neuronal migration as an essential step for the establishment of CNS functional units	**Special Lecture 3** Asking questions inside a nerve terminal		
Room B **2F MET Hall**		**Symposium 29** Epithelial transport in cells of the digestive tract			
Room C **2F** **"SAKURA" West**		**Symposium 30** Representation of 3 dimensions in the brain: Approaches from psychophysics, physiology and medical practice			
Room D **2F** **"SAKURA" East**		**Symposium 31** Functions of lipid mediators in the brain		**Luncheon Seminar 8** Yokogawa Electric Corporation	
Room E **2F Conference** **Room A+B**		**Symposium 32** Molecular and cellular mechanisms in proton signaling		**Luncheon Seminar 9** SHIMADZU CORPORATION	
Room F **2F Conference** **Room C+D**		**Symposium 33** Control of homeostasis during exercise in humans			
Room G **3F Conference** **Room 1+2**		**Symposium 34** Function of sex hormones: their roles in the physiological responses to environmental stresses			
Room H **1F "Atrium"**	**Mounting**	**Viewing** **Heart & circulation; respiration; blood; kidney & body fluids; gastrointestinal functions (I)**	**Presentation**	**Removal**	
Room I **3F "Icho"**	**Mounting**	**Viewing** **Heart & circulation; respiration; blood; kidney & body fluids; gastrointestinal functions (II)**	**Presentation**	**Removal**	
Exhibition booths **1F "Gallery"** **1F "Atrium"**		**Company Exhibition**			

13:00	14:00	15:00	16:00	17:00	18:00	19:00
	Symposium 35 What is "Mind"? The feasibility of the physiological approach to "self"					
	Symposium 36 Airway epithelial function as a host defense mechanism: molecular mechanism and regulation in airway epithelia					
	Symposium 37 From coding of reward value to computation of reward information					
	Symposium 38 Synaptic trafficking of AMPA receptors - how are the number and the location regulated?					
	Symposium 39 Regulation of cellular function by extra-cellular proteases					
	Symposium 40 Recent advances in anion transport physiology: From Cl^--mediated cell signaling to single channel biophysics					
	Symposium 41 Behaviors, electrical activity and gene expression of biological rhythms					
Mounting	**Viewing** **Ionic channels & receptors; autonomic nervous functions; etc. (I)**	**Presentation**	**Removal**			
Mounting	**Viewing** **Ionic channels & receptors; autonomic nervous functions; etc. (II)**	**Presentation**	**Removal**			
Company Exhibition
