

The 21st Annual Meeting of Japanese Association for Coronary Artery Surgery Program

★ Simultaneous interpretation or English presentation

	July 14 (Thu.)				July 15 (Fri.)			
	Room A	Room B	Room C	Exhibition	Room A	Room B	Room C	Exhibition
	4F	3F	3F	4F	4F	3F	3F	3F
8:00	8:15-8:20 Opening Ceremony							
9:00	8:20-10:20 Symposium 1 Off pump vs On pump CABG pros and cons Keynote comment: David Taggart, A. Pieter Kappetein	8:20-9:20 Focus Session 1 Surgical treatment for the mechanical complications of acute myocardial infarction	8:20-9:00 Oral Presentation 2 Graft selection for CABG	8:20-18:30 Exhibition	8:30-9:10 Invited Lecture 3 ★ External Stenting of Saphenous Vein Grafts in 2016 Speaker: David Taggart	8:30-10:00 Focus Session 2 Surgical Strategy for Ischemic cardiomyopathy + Mitral valve insufficiency / Surgical treatment strategy for moderate MR accompanied by CABG operation example	8:30-9:02 Oral Presentation 10 Coronary AV fistula	8:30-17:00 Exhibition
10:00		9:25-10:21 Oral Presentation 1 Ventricular septal perforation	9:05-9:53 Oral Presentation 3 CABG for Low EF pts		9:55-10:35 Oral Presentation 4 MIDCAB	9:10-11:00 Symposium 2 How we can use vein graft and improve its long term patency?	10:05-11:05 Focus Session 3 Regenerative medicine and Surgical strategy for severe ischemic heart failure	
11:00	10:30-11:15 Special Invited Lecture ★ Update on the Vascular Biology of Atherosclerosis Speaker: Peter Libby						9:40-10:12 Oral Presentation 12 Risk assessment for CABG	
12:00	11:20-11:50 Lecture by President of JACA ★ Speaker: Hirokuni Arai	11:20-11:50 As a new leader of JACAS			11:10-11:50 Presidential Address Messages from my 35years carrier as cardiac surgeon		10:15-10:47 Oral Presentation 13 Prevention of perioperative AF	
13:00	12:00-12:50 Luncheon Seminar 1 ★ OPCABG in 2016 : The evidence basis Speaker: David Taggart	12:00-12:50 Luncheon Seminar 2 Current data, evidence and future trends in transcatheter valve therapies in Europe Speaker: A. Pieter Kappetein ★	12:00-12:50 Luncheon Seminar 3 Confronting residual risk in patients post acute coronary syndromes Speaker: Peter Libby ★		12:00-12:50 Luncheon Seminar 4 The challenge for the second arterial graf: RA vs RITA Speaker: Mario F.L. Gaudino ★	12:00-12:50 Luncheon Seminar 5 My final lecture: from my 25 years experiences on OPCAB	12:00-12:50 Luncheon Seminar 6 Quality Assurance for Coronary Surgery: Transit-time Flow Measurement and Epicardial Ultrasound Go Hand-in-Hand Speaker: Teresa M. Kieser ★	
14:00	13:00-14:40 Workshop 1 ★ How we can prevent strokes after CABG?	13:00-14:40 Workshop 2 Treatment strategy for CAD with moderate or severe AS in TAVR era	13:00-13:48 Oral Presentation 5 CABG for pts with various co-morbidities 1		13:00-13:30 General Assembly		13:30-14:10 Coffee-break Seminar 3	
15:00	14:45-15:25 Invited Lecture 1 ★ Speaker: A. Pieter Kappetein	14:45-15:25 Evidence You Need to Know from SYNTAX, FREEDOM, and Real world Registries; what to expect from EXCEL?	13:50-14:38 Oral Presentation 6 CABG for pts with various co-morbidities 2		13:30-14:10 Focus Video Session 1 Surgery for ventricular septal perforation	13:30-14:30 Focus Session 4 Coronary artery reconstruction concomitant with aortic surgery	14:15-15:15 Focus Session 6 Intraoperative graft flow evaluation using transit flow meter	
16:00	15:30-17:00 Joint Symposium with JCAC Japanese Coronary Association Heart team for CAD ★ — light and shadow — Keynote Lecture: A Pieter Kappetein The heart-team is thriving better than ever before	15:30-16:10 Invited Lecture 2 ★ The Arterial Bypass: A Graft for all Reasons Speaker: Teresa M. Kieser	15:30-16:10 Coffee-break Seminar 1 no touch SVG in CABG		14:15-15:15 Focus Video Session 2 LV reconstruction and/or mitral valve surgery for ICM	14:35-15:15 Coffee-break Seminar 2 EVH as added value in CABG	15:20-16:00 Oral Presentation 14 Graft evaluation after CABG	
17:00	17:00-18:40 Korea-Japan Coronary Artery Surgery Summit ★ Speaker: Ki-Bong Kim, Suk Jung Choo, Kwang Ree Cho	16:15-18:15 Video Symposium ★ My grafting techniques in CABG Keynote Lecture: Teresa M. Kieser Bilateral Internal Mammary Artery Usage and Pitfalls	16:15-16:55 Oral Presentation 7 On pump vs Off pump		15:20-17:00 Workshop 3 Coronary revascularization in future. MICS CABG or Hybrid CABG?	15:15-16:45 Focus Session 5 What in the best graft selection following BITA/SITA; RA? SVG? or GEA? Keynote Lecture: Mario F. L. Gaudino Twenty years follow-up of radial artery grafts or myocardial revascularization. ★	16:05-16:53 Oral Presentation 15 Basic science / Others	
18:00			17:00-17:40 Oral Presentation 8 Left ventricular reconstruction		17:05-17:10 Closing Ceremony			
19:00	18:50-19:20 Board of Councilors		17:45-18:25 Oral Presentation 9 Perioperative management / Others					
20:00		19:40-21:40 Dinner Reception Tsuruno-ma, 4F, Hotel New Otani Hakata						
21:00								
22:00
