

List of Categories for Free Papers (Poster Presentations)

1.1	Basic Science – Animal Models
1.2	Basic Science – Angiogenesis / Vasculogenesis
1.3	Basic Science – Cellular Metabolism
1.4	Basic Science – Extracellular Matrix
1.5	Basic Science – Inflammation / Immunology
1.6	Basic Science – Macrophages / Smooth Muscle Cells / Endothelium / Adipocytes
1.7	Basic Science – Oxidative Stress
1.8	Basic Science – Pathology / Histopathology
2.1	Genetics – Basic
2.2	Genetics – Clinical
3.1	Lipoprotein Metabolism – LDL Cholesterol / Oxidized LDL
3.2	Lipoprotein Metabolism – Triglycerides
3.3	Lipoprotein Metabolism – HDL Cholesterol
3.4	Lipoprotein Metabolism – Lipid Profile / non HDL Cholesterol
3.5	Lipoprotein Metabolism – Lipid-related Enzymes
4	Epidemiology
5.1	Imaging and Vascular Function – CT / MRI
5.2	Imaging and Vascular Function – Intravascular Imaging
5.3	Imaging and Vascular Function – Ultrasound
5.4	Imaging and Vascular Function – Vascular Function
6.1	Clinical Aspects of Atherosclerotic Disease – Abnormal Glucose Metabolism and Diabetes
6.2	Clinical Aspects of Atherosclerotic Disease – Aging
6.3	Clinical Aspects of Atherosclerotic Disease – Bile Acid Metabolism
6.4	Clinical Aspects of Atherosclerotic Disease – Biomarkers/Risk Factors
6.5	Clinical Aspects of Atherosclerotic Disease – Coronary Atherosclerosis and Cardiac Function
6.6	Clinical Aspects of Atherosclerotic Disease – Gender Difference
6.7	Clinical Aspects of Atherosclerotic Disease – Hypertension
6.8	Clinical Aspects of Atherosclerotic Disease – Non-alcoholic steatohepatitis/Fatty Liver
6.9	Clinical Aspects of Atherosclerotic Disease – Obesity, Metabolic Syndrome, and Insulin Resistance
6.1	Clinical Aspects of Atherosclerotic Disease – Pediatrics and Adolescents
6.11	Clinical Aspects of Atherosclerotic Disease – Periodontal Disease
6.12	Clinical Aspects of Atherosclerotic Disease – Peripheral Arterial Disease
6.13	Clinical Aspects of Atherosclerotic Disease – Renal Artery Disease/Chronic Kidney Disease
6.14	Clinical Aspects of Atherosclerotic Disease – Thrombosis/Coagulation/Platelet Function
7.1	Interventional Studies and Clinical Trials – Abnormal Glucose Metabolism and Diabetes
7.2	Interventional Studies and Clinical Trials – Aortic Disease
7.3	Interventional Studies and Clinical Trials – Cerebrovascular Disease
7.4	Interventional Studies and Clinical Trials – Coronary Artery Disease
7.5	Interventional Studies and Clinical Trials – Chronic Kidney Disease/Renal Artery Disease
7.6	Interventional Studies and Clinical Trials – Dyslipidemia
7.7	Interventional Studies and Clinical Trials – Hypertension
7.8	Interventional Studies and Clinical Trials – Metabolic Syndrome/Obesity/Insulin Resistance
7.9	Interventional Studies and Clinical Trials – Peripheral Arterial Disease
8	Nutrition and Life Style
9	Clinical Pharmacology
10	Health Care/Health Economy
11	Miscellaneous
