

10.Atherosclerosis (clinical/treatment)

Abstract No.	First Name	Last Name	Program No.	Session	Session Title	Date	Time	Order	Room	Abstract Title
10400	Takuya	Hashimoto	PE33-5	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	5	New Hall, 1F ,Kyoto International Conference Center	Achilles Tendon Thickening is Associated with Higher Incidence of Adverse Cardiac Event in Patients with Coronary Artery Disease
10659	Masahiro	Toyama	OJ27-5	一般演題口述 (日本語) 27	Atherosclerosis (clinical/pathophysiology) 2	March 14 (Sat), 2020	16:10-17:10	5	Room 555, 5F ,Kyoto International Conference Center	The Effects of Statins: The Detailed Lipid Profile Analysis in the Real-World Patients with Suspected Coronary Heart Disease
10681	TAIKAN	TERAUCHI	OE029-4	Oral Presentation(English) 029	Atherosclerosis (clinical/treatment) 1	March 12 (Thu)	15:30-16:30	4	Room C-2, 1F ,Kyoto International Conference Center	The Difference Between Acute Coronary Syndrome And Stable Ischemic Heart Disease From The Analysis Of The Detailed Lipid Profile Data
10744	Masayoshi	Takeno	PE33-2	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	2	New Hall, 1F ,Kyoto International Conference Center	Impact of Statin Pretreatment without Systemic Inflammation and Myocardial Perfusion in patients undergoing Primary Angioplasty with Acute Myocardial Infarction
10812	Yoichiro	Sugizaki	OE029-1	Oral Presentation(English) 029	Atherosclerosis (clinical/treatment) 1	March 12 (Thu)	15:30-16:30	1	Room C-2, 1F ,Kyoto International Conference Center	Alirocumab improve coronary plaque vulnerability: first randomized control trial to assess the effect of alirocumab for plaque vulnerability
10876	Daisuke	Sunohara	OJ03-3	一般演題口述 (日本語) 03	Atherosclerosis (clinical/treatment) 2	March 12 (Thu)	16:35-17:35	3	Room C-2, 1F ,Kyoto International Conference Center	Prognostic Predictor of Death without Wound Healing in Patients with Critical Limb Ischemia: Insights from the I-PAD Registry
11138	Norifumi	Kamiya	PE33-8	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	8	New Hall, 1F ,Kyoto International Conference Center	Color mapped Coronary CT angiography (CCTA) clearly demonstrated the regression and stabilization of vulnerable coronary plaques treated by anti-PCSK9 antibody.
11174	Naruhiko	Ito	OE029-5	Oral Presentation(English) 029	Atherosclerosis (clinical/treatment) 1	March 12 (Thu)	15:30-16:30	5	Room C-2, 1F ,Kyoto International Conference Center	Prognostic Factor of Patients with Chronic Limb Ischemia Who Underwent Endovascular Therapy for Below the Knee Lesion
11603	Toshiki	Asada	OJ03-2	一般演題口述 (日本語) 03	Atherosclerosis (clinical/treatment) 2	March 12 (Thu)	16:35-17:35	2	Room C-2, 1F ,Kyoto International Conference Center	Intensive Lipid Lowering Therapy with PCSK9 Inhibitor for Myocardial Ischemia
11636	Takashi	Kitao	OE029-6	Oral Presentation(English) 029	Atherosclerosis (clinical/treatment) 1	March 12 (Thu)	15:30-16:30	6	Room C-2, 1F ,Kyoto International Conference Center	Usefulness of Non high-density lipoprotein cholesterol for prediction of Major adverse cardiovascular events after Percutaneous Coronary Intervention
11699	Naohiko	Nemoto	PE33-7	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	7	New Hall, 1F ,Kyoto International Conference Center	The impact of multidisciplinary treatment for patients with critical lib ischemia
11791	Tadashi	Itagaki	OJ03-5	一般演題口述 (日本語) 03	Atherosclerosis (clinical/treatment) 2	March 12 (Thu)	16:35-17:35	5	Room C-2, 1F ,Kyoto International Conference Center	Prognostic Value of Lean Body Mass Index for Long-term Outcomes of Patients with Peripheral Artery Disease: From the I-PAD registry
11850	Shutaro	Goda	PE33-4	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	4	New Hall, 1F ,Kyoto International Conference Center	ARC-HBR Could Also Predict the BARC Bleeding Events in Patients Undergoing EVT for Iliac Artery Diseases
11964	Yuki	Shima	PE33-1	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	1	New Hall, 1F ,Kyoto International Conference Center	Outcome of Spot Versus Full Cover Stenting for Femoropopliteal Lesions
12294	Satoru	Toi	OJ03-6	一般演題口述 (日本語) 03	Atherosclerosis (clinical/treatment) 2	March 12 (Thu)	16:35-17:35	6	Room C-2, 1F ,Kyoto International Conference Center	The Clinical outcomes of Drug-Coated Balloon for De-Novo Various Coronary Artery Disease
12329	Keiichi	Hishikari	OJ03-4	一般演題口述 (日本語) 03	Atherosclerosis (clinical/treatment) 2	March 12 (Thu)	16:35-17:35	4	Room C-2, 1F ,Kyoto International Conference Center	Usefulness of Lipoprotein (a) for Predicting Clinical Outcomes after Percutaneous Coronary Intervention for Stable Angina Pectoris in Hemodialysis Patients
12395	Minami	Taki	PE33-6	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	6	New Hall, 1F ,Kyoto International Conference Center	Risk Factors for Occlusion after Endovascular Treatment to Open-vessel Lesions in Iliac and Femoral Regions
12810	Suguru	Ebihara	OJ03-1	一般演題口述 (日本語) 03	Atherosclerosis (clinical/treatment) 2	March 12 (Thu)	16:35-17:35	1	Room C-2, 1F ,Kyoto International Conference Center	Clinical Outcomes after Implantation of Epic self-expanding Nitinol Stents for Aortoiliac Occlusive Disease in Patients with Peripheral Arterial Disease
20019	Kwang K.	KOH	OE029-2	Oral Presentation(English) 029	Atherosclerosis (clinical/treatment) 1	March 12 (Thu)	15:30-16:30	2	Room C-2, 1F ,Kyoto International Conference Center	Cardiometabolic effects of dapagliflozine in patients with type 2 diabetes

10.Atherosclerosis (clinical/treatment)

Abstract No.	First Name	Last Name	Program No.	Session	Session Title	Date	Time	Order	Room	Abstract Title
20042	Mohammad Moynul	Islam	PE33-3	Poster Session (English) 33	Atherosclerosis (treatment)	March 14 (Sat), 2020	08:10-09:06	3	New Hall, 1F ,Kyoto International Conference Center	Endovascular sharp recanalization for calcified femoropopliteal artery occlusion
20082	Yuichi J.	Shimada	OE029-3	Oral Presentation(English) 029	Atherosclerosis (clinical/treatment) 1	March 12 (Thu)	15:30-16:30	3	Room C-2, 1F ,Kyoto International Conference Center	Bariatric Surgery is Associated with Reduced Risk of Hospitalizations for Stable Angina Pectoris in Obese Adults
