

Poster Session

Among the abstracts for poster presentation, excellent abstracts of young investigators were selected for “Selected Poster Discussion”. The selected posters are displayed in “Selected Poster Room” (1F, Centennial Hall).

Selected Poster Discussion (12:55-13:55)

Chair: Koh-Hei Sonoda (Kyushu University)

- P-1 Noninvasive assessment of tear film and corneal wavefront change of Diquafosol solution for patients with dry eye after cataract surgery ······115
Bongjoon Choi (Lee Eye Clinic)
- P-2 Outcome for advanced sliding conjunctival flap as the surgical management of primary and recurrent pterygium ······115
Soo Gyeong Jang (Pusan National University Hospital)
- P-3 Infectious scleritis in eyes with scleral calcification after pterygium excision ······116
Jong Joo Lee (Chungnam National University College of Medicine)
- P-4 A case of recurrence of Mooren’s corneal ulcer long-term inactive state after cataract surgery ······116
Hye Jin Park (Department of Ophthalmology, Chungnam National University College of Medicine)
- P-5 Study on the Biomechanical Properties of Cornea in Vitro Based on Ultrasonic Indentation ······117
Lei Tian (Beijing Institute of Ophthalmology)
- P-6 Is central corneal thickness a constant during air puff indentation with Corvis ST? ······117
Lei Tian (Beijing Institute of Ophthalmology)
- P-7 Ocular Side Effects Induced by 0.25% Alcaftadine Ophthalmic Solution in allergic conjunctivitis ······118
Jae yeong Park (Pusan National University Hospital)
- P-8 The Effect of 0.5% Timolol Maleate on Cornea ······118
Cho YangKyung (St. Vincent’s Hospital, The Catholic University of Korea)
- P-9 Effect of non-invasive tear stability assessment on the upper and lower tear meniscus height ······119
Lei Tian (Beijing Institute of Ophthalmology)
- P-10 Fitting the Miniscleral Contact Lens in Patients with Corneal Abnormalities ······119
Jieun Lee (Pusan National University)
- P-11 Clinical analysis of 46 cases of neurotrophic keratitis ······ 120
Lei Tian (Beijing Institute of Ophthalmology)
- P-12 Assessment of corneal biomechanical properties using new method with CBI at different stages of keratoconus ······ 120
Lei Tian (Beijing Institute of Ophthalmology)

Scientific Program

- P-13 Epithelium-off and trans-epithelial pulsed accelerated corneal cross-linking for treatment of progressive keratoconus: Twelve-month results ····· 121
Lei Tian (Beijing Institute of Ophthalmology)
- P-14 The influence of orthokeratology lens change period on axial length control in myopia children ····· 121
Wei Wei (Xi'an No.1 Hospital)
- P-15 The factors related to the orthokeratology decentration ····· 122
Wei Wei (Xi'an No.1 Hospital)
- P-16 Assessment of Corneal Densitometry in Rheumatoid Arthritis Patients ····· 122
Hua Wang (Eye Hospital, China Academy of Chinese Medical Sciences)
- P-17 A novel case of using femtosecond laser-acquired lenticule for corneal thinning due to recurrent pterygium ····· 123
Ji-long Hao (The First Hospital of Jilin Universtiy)
- P-18 Black carbon activate NLRP3 inflammasome in human corneal epithelial cells ····· 123
Qin Long (Peking Union Medical College Hospital, Chinese Academy of Medical Sciences)
- P-19 The influence of three year lens change period on the corneal endothelium ····· 124
Xiaorui Wang (Xi'an No.1 Hospital)
- P-20 Long-term follow-up of heteroepikeratophakia with lenticule from rhesus monkeys ····· 124
Kwok Shing YU (Dept. Ophthalmology, The First Affiliated Hospital of Jinan University)
- P-21 A patient with Kimura's disease presented initially with "edema in left eyelid and right preauricular area" ····· 125
Liu Hongjuan (The Chinese PLA General Hospital)
- P-22 Long-term prognosis and clinical score analysis of proactive therapy to vernal keratoconjunctivitis ····· 125
Aya Hirano (Department of Ophthalmology, Fukuoka University School of Medicine)
- P-23 Feasibility of "stromal sandwich" for the treatment of keratoconus and keratectasia by using decellularized porcine corneal sheet ····· 126
Yusuke Hirono (Department of Biomedical Engineering, Faculty of Life and Medical Sciences, Doshisha University)
- P-24 Prognostic Value of Myelin Oligodendrocyte Glycoprotein Antibodies in Chronic Relapsing Inflammatory Optic Neuropathy ····· 126
Liu Hongjuan (The Chinese PLA General Hospital)
- P-25 Elevated serum chemokines for eosinophils in acute demyelinating optic neuritis ····· 127
Hao Kang (Beijing Chaoyang Hospital, Capital Medical University)

Scientific Program

- P-26 Simultaneous bilateral optic neuritis in China: clinical, serological and prognostic characteristics 127
Hao Kang (Beijing Chaoyang Hospital, Capital Medical University)
- P-27 Different clinical subtype and prognosis of Atypical Optic Neuritis in China 128
Sun Mingming (Department of Ophthalmology, General Hospital of PLA)
- P-28 NMOSD-ON: A 5-year follow-up study in China 128
Huanfen Zhou (Chinese PLA General Hospital)
- P-29 Clinical Spectrum and Prognostic Value of Pregnancy induced Optic Neuritis in China ··· 129
Huanfen Zhou (Chinese PLA General Hospital)
- P-30 A systematic analysis of the complement pathways in cerebrospinal fluid of patients with neuromyelitis optica spectrum disorders 129
Shanshan Cao (Chinese PLA General Hospital)
- P-31 Clinical Spectrum and the Prognostic Value of Male Optic neuritis in China 130
Hui Cui (Department of Ophthalmology, Chinese PLA General Hospital)
- P-32 The Prevalence and Prognostic Value of Myelin Oligodendrocyte Glycoprotein Antibody in Adult Optic Neuritis 130
Liu Hongjuan (The Chinese PLA General Hospital)
- P-33 Different Clinical Characteristics of Leber Hereditary Optic Neuropathy with Rare Primary Site Mutation 131
Wang Huifang (The Chinese PLA General Hospital)
- P-34 Application of OCTA in optic neuritis 131
Mo Yang (PLAGH)
- P-35 Long-term change of optic disc appearance in children with pathologic myopia and its impact on visual field 132
Reina Saito (Tokyo Metropolitan Tama Medical Center Department of Ophthalmology)
- P-36 High myopia and primary open-angle glaucoma susceptibility----The Handan Eye Study 132
Jian Wu (Beijing Tongren Hospital, Capital Medical University)
- P-37 Is high myopia a risk factor for open-angle glaucoma? 133
Jian Wu (Beijing Tongren Hospital, Capital Medical University)
- P-38 Clinical features of oculomotor nerve Inflammation 133
Sun Mingming (Department of Ophthalmology, General Hospital of PLA)
- P-39 Polymorphisms of presenilin-1 gene associate with Primary Open Angle Glaucoma 134
Hong Wei (West China Hospital, Sichuan University)

Scientific Program

- P-40 Phacoemulsification combined with goniosynechialysis versus phacoemulsification alone for glaucoma and coexisting cataract: A global meta-analysis based on randomized controlled trials 134
Nuo Wang (Department of Ophthalmology, The Second Xiangya Hospital, Central South University)
- P-41 Phacoemulsification Combined with Goniosynechialysis might be the Optimal Procedure to Treat Primary Angle-Closure Glaucoma: A Systematic Review and Two-Armed Meta-Analysis 135
Fancheng Yan (Aier School of Ophthalmology, Central South University)
- P-42 Assessment of Anxiety and Depression in Young Chinese Patients with Early-Stage Primary Open Angle Glaucoma 135
Zhenni Zhao (Zhongshan Ophthalmic Center, Sun Yat-sen University)
- P-43 Withdrawn
- P-44 A Case report of Syphilitic neuroretinitis present as Acute Zonal Occult Outer Retinopathy (AZOOR) 136
Yue Liu (The affiliated hospital of Gui Zhou medical university)
- P-45 Utility of newly developed zonal ganglion cell-inner plexiform layer measurement with Swept-Source OCT in diagnosing glaucoma 136
Jonghoon Shin (Department of Ophthalmology, College of Medicine, Pusan National University Yangsan Hospital)
- P-46 An experimental study of SMILE-derived corneal stromal lenticule punctal plug in the treatment of perimenopausal female rabbits with dry eye 137
Juan Li (Department of Ophthalmology, Xi'an No.4 Hospital)
- P-47 Effect of Anerdian Disinfectant on the Function of Eye Surface and Tear Film 137
Li-huan Hou (Operation Room, The First Affiliated Hospital of Jinan University)
- P-48 Result of Cataract Surgery depending on Continuation of Medication in patients taking Anticoagulants or Antiplatelet Agents 138
Hae Rang Kim (Department of Ophthalmology, Haeundae Paik Hospital, Inje University College of Medicine)
- P-49 Evaluation of Visual Outcome after Cataract Surgery in Patients with Legal Blindness 138
Seung-Jun Lee (Kangwon National University Hospital)
- P-50 Compare the Predictive Refractive Error of Different Formula in Eyes with Short Axial length 139
Yongwoo Lee (Konyang University, Kim's Eye Hospital)
- P-51 Laser Treatment of Silicon IOL Opacification Associated with Asteroid Hyalosis 139
Yun Ji Lee (Kangwon National University Hospital)
- P-52 Comparison of ocular parameters between two biometry measurement devices in high myopia and non-high myopia eyes 140
Xiaoxiao Guo (Department of Ophthalmology, Beijing Friendship Hospital, Capital Medical University)

Scientific Program

- P-53 Comparison of clinical outcomes between Zeiss Callisto Eye System and Alcon Verion Image Guided System for toric intraocular lens implantation 140
Xi Liu (The First Affiliated Hospital of Army Medical University)
- P-54 Assessment of Toric Implantable Collamer Lens alignment by a refractive power/corneal analyzer system and slitlamp observation 141
Xi Liu (The First Affiliated Hospital of Army Medical University)
- P-55 A comparison of the diameters of different optical zones in visual quality after FS-LASIK . . . 141
Wei Wei (First Affiliated Hospital of Northwestern University)
- P-56 Diplopia after TransPRK: A case report of acute acquired concomitant esotropia 142
Juan Li (Department of Ophthalmology, Xi'an No.4 Hospital)
- P-57 Comparison of clinical outcomes after femtosecond lasik in eyes with low or high myopia 142
Jieun Lee (Pusan National University)
- P-58 Effect of vertical and inverted bevel-in side-cut angle on corneal biomechanics using the Femtosecond Laser 143
Xiyu Sun (First Affiliated Hospital of Northwestern University)
- P-59 Macular and peripapillary perfusion in myopic eyes of young Chinese adult obtained with Optical Coherence Tomography Angiography 143
Dawei Yang (1.Guangdong General Hospital, Guangdong Academy of Medical Sciences, Department of Ophthalmology)
- P-60 The application of frontal and posterior chop technique in phacoemulsification for hard nuclear cataracts 144
Hua Wang (Eye Hospital, China Academy of Chinese Medical Sciences)
- P-61 Ultrasound power-free chop technique 144
Lin Yao (Qingdao Xinsihjie Eye Hospital)
- P-62 Comparison of clinical outcomes between cystotome-assisted prechop phacoemulsification surgery and conventional phacoemulsification surgery for hard nucleus cataracts 145
Tian Ying (Department of Ophthalmology, Beijing Chao-Yang Hospital, Capital Medical University)
- P-63 Modified posterior scleral reinforcement as a treatment for high myopia and its curative effect 145
Zequn Miao (Peking University People's Hospital)
- P-64 Analysis of the immunomodulatory roles of IL23 and IL12 in experimental subretinal fibrosis 146
Yang Yang (Tianjin Medical University Eye Hospital)
- P-65 Ocular Factors Associated with Axial Length Elongation in High Myopia 146
Hong Kyu Kim (Department of Ophthalmology, Dankook University Hospital, Dankook University College of Medicine)

Scientific Program

- P-66 (Withdrawn)
- P-67 Comparison of Long-term Surgical Outcomes of Foveal Internal Limiting Membrane Peeling V.S. Nonpeeling for Myopic Foveoschisis 147
Tian Tian (Department of Ophthalmology, Xinhua Hospital, Affiliated to Medicine School of Shanghai Jiaotong University)
- P-68 Development of morphological features in the process of myopization in highly myopic eyes 147
Xiaoxiao Guo (Department of Ophthalmology, Beijing Friendship Hospital, Capital Medical University)
- P-69 Is the Retinal Vasculature Related to β -Peripapillary Atrophy in Non-pathological High Myopia? An Optical Coherence Tomography Angiography Study in China 148
Jiao Sun (Beijing Friendship Hospital, Capital Medical University)
- P-70 Choroidal Vasculature Morphological Features in Non-pathological High Myopia patients: Applying an EDI-OCT Derived Tool for Monitoring Disease Progression 148
Ran You (Department of Ophthalmology, Beijing Friendship Hospital, Capital Medical University)
- P-71 The effect of duration of macular detachment on visual outcome after pars plana vitrectomy of macula-off rhegmatogenous retinal detachment 149
Hyunduck Kwak (Department of Ophthalmology, Busan Paik Hospital, Inje University College of Medicine)
- P-72 Outcomes of 25-gauge Transconjunctival Sutureless Vitrectomy for Primary Rhegmatogenous Retinal Detachment in the Ambulatory Surgery Center 149
Hoyoung Lee (Good Morning st.mary's Eye Clinic)
- P-73 Acute bacterial endophthalmitis after scleral buckling with wide-angle viewing system combined with endoilluminator 150
Takato Sakono (Department of Ophthalmology Kagoshima University Graduate School of Medical and Dental Sciences)
- P-74 Segmental Scleral Buckling without Sling Sutures Around the Muscles 150
Lei Gao (Weifang Eye Hospital)
- P-75 Partial Thickness Sclerectomy and Intravitreal Anti-VEGF Therapy for Intractable Uveal Effusion Syndrome 151
Jing Guo (Beijing Tongren Hospital)
- P-76 Clinical observation of foldable capsular vitreous body implantation 151
Shuchan Li (China)
- P-77 Efficacy and Safety of 23-Gauge Pars Plana Vitrectomy/Silicone Oil Tamponade Combination for Treatment of Pediatric Post-Traumatic Endophthalmitis 152
Wei Jin (Eye Center, Renmin Hospital of Wuhan University)
- P-78 A Case of Ear Brain Glue Using in Choroidal Avulsion 152
Susu Lu (Weifang Eye Hospital)

Scientific Program

- P-79 Perioperative Intraretinal Fluid Observed on Optical Coherence Tomography in Epiretinal Membrane 153
Jae Jung Lee (Pusan National University Hospital)
- P-80 Novel Surgical Technique of Peeled Internal Limiting Membrane Reposition for Idiopathic Macular Holes 153
Tian Tian (Department of Ophthalmology, Xinhua Hospital, Affiliated to Medicine School of Shanghai Jiaotong University)
- P-81 Palliative vitrectomy for the management of Cholesterosis bulbi: Case report with Chinese literature review of 28 eyes 154
Lei Gao (Weifang Eye Hospital)
- P-82 Perfluorocarbon liquid hold-down technique for macular hole retinal detachment in highly myopic eyes 154
Jiao Lyu (Department of Ophthalmology, Xinhua Hospital, School of medicine, Shanghai Jiao Tong University)
- P-83 Autologous blood clot covering instead of gas tamponade for macular hole 155
Dongqing Zhu (Ninth Peoples Hospital, Shanghai Jiaotong University School of Medicine)
- P-84 Changes in the inner retinal layer thickness after treatment with intravitreal anti-vascular endothelial growth factor according to dose of injection 155
Inboem Chang (Department of Ophthalmology, Busan Paik Hospital, Inje University)
- P-85 Combined CRVO with CRAO in a Patient with Elevated Level of Factor VIII 156
Inboem Chang (Department of Ophthalmology, Busan Paik Hospital, Inje University)
- P-86 Selective Retina Therapy with Real-Time Feedback-Controlled Dosimetry for Treating Acute Idiopathic Central Serous Chorioretinopathy in Korean Patients 156
Jae Hui Kim (Kim's Eye Hospital, Konyang University College of Medicine)
- P-87 Efficacy of photodynamic therapy only or intravitreal ranibizumab injection combined with photodynamic therapy for polypoidal choroidal vasculopathy 157
Nan Yang (Huaxia Eye Hospital Group)
- P-88 Effectiveness of diabetic macular edema (DME) with injection Vitreous cavity Lucentis (IVL) 157
Nan Yang (Huaxia Eye Hospital Group)
- P-89 Fluorescein angiography of retinal vascular involution after intravitreal injection of ranibizumab for retinopathy of prematurity 158
Yong Cheng (Peking University)
- P-90 Argon laser with intravitreal injections of conbercept therapy for macular PCV 158
Shanshan Hua (The No. 1 People's Hospital of Ningbo)
- P-91 Treatment of polypoid choroidal vasculopathy and vitreous hemorrhage with vitrectomy combined with acercept 159
Wencui Wan (The First Affiliate Hospital of Zhengzhou University)

Scientific Program

- P-92 Clinical and Genetic Features of Familial Exudative Vitreoretinopathy with Only Unilateral Abnormalities in a Large Chinese Cohort ····· 159
Tian Tian (Department of Ophthalmology, Xinhua Hospital, Affiliated to Medicine School of Shanghai Jiaotong University)
- P-93 Multimodality Imaging Assessment of Ocular Ischemic Syndrome ····· 160
Hui Wang (Beijing Chaoyang Hospital, Capital Medical University)
- P-94 Macular and peripapillary perfusion measurement in the evaluation of Non-proliferative Diabetic Retinopathy ····· 160
Dawei Yang (Guangdong General Hospital, Guangdong Academy of Medical Sciences, Department of Ophthalmology)
- P-95 Proper Operative Route for Pediatric Patients with Ocular Toxocariasis in China ····· 161
Di Yang (Department of Ophthalmology, First Affiliated Hospital of Kunming Medical University, Kunming Medical University)
- P-96 FD-OCT as a monitor is applied in patients with retinitis pigmentosa ····· 161
Nan Yang (Huaxia Eye Hospital Group)
- P-97 Abnormal Levels of Aqueous Humor Trace Elements in Patients with Cytomegalovirus Retinitis ····· 162
Jing Feng (Department of Ophthalmology, Beijing Chaoyang Hospital, Capital Medical University)
- P-98 Fluorescein Angiographic Abnormalities in Fellow Eyes in Unilateral Persistent Fetal Vasculature ····· 162
Qiuqing Huang (Xin Hua Hospital Affiliated to Shanghai Jiao Tong University School of Medicine)
- P-99 Optical coherence tomography anigography findings in eyes with paracentral middle maculopathy exhibiting normal fluorescein angiography ····· 163
Masako Murata (Department of Ophthalmology, Matsumoto Medical Center, National Hospital Organization)
- P-100 Multifractal and Lacunarity Analyses of Microvascular Morphology in Eyes with Diabetic Retinopathy Using Optical Coherence Tomography Angiography ····· 163
Tiepei Zhu (Eye Center, The Second Affiliated Hospital, School of Medicine, Zhejiang University)
- P-101 Ocular Image and Haemodynamic Features Associated with Different Gradings of Ipsilateral Internal Carotid Artery Stenosis ····· 164
Hui Wang (Beijing Chaoyang Hospital, Capital Medical University)
- P-102 Quantitative assessment of retinal vessel density and foveal avascular zone in healthy subjects by Optical Coherence Tomography Angiography ····· 164
Dawei Yang (Guangdong General Hospital, Guangdong Academy of Medical Sciences)
- P-103 Leber stellate neuroretinitis: one case ····· 165
Yue Liu (Affiliated hospital of Gui zhou medical university)
- P-104 Multimodal imaging of leopard spot ····· 165
Xuan Shi (Peking University, People's Hospital)

Scientific Program

- P-105 Incidence of exudative age-related macular degeneration and treatment load under the Korean National Health Insurance during 2010-2015 ····· 166
Tyler Hyungtaek Rim (Department of Ophthalmology, Severance Hospital, Institute of Vision Research, Yonsei University College of Medicine)
- P-106 Accumulation of Advanced Glycation End Products and Intraocular Oxidative Stress in Diabetic Eyes ····· 166
Yuichi Toriyama (Shinshu University)
- P-107 The occurrence of a VHK case after lymphocyte transplantation from spouse ····· 167
Sho-Hei Uchi (Department of Ophthalmology Yamaguchi University Graduate School of Medicine)
- P-108 Value of Beta-D-glucan testing on clinical diagnosis of fungal endophthalmitis ····· 167
Li Chen (Eye Department, Beijing Jiangong Hospital)
- P-109 Ankylosing spondylitis or Reiters syndrome ····· 168
Shanshan Hua (The No. 1 People's Hospital of Ningbo)
- P-110 Surgical management of iris stromal cysts ····· 168
Yun Li (the 2nd Xiangya Hospital of Central South University)
- P-111 Effect of Inferior Oblique Posterior Myectomy (IOPM) on Ocular Torsion ····· 169
Hyosook Ahn (Asan Medical Center)
- P-112 Recovery from Suppression with Target Motor Alignment Following Surgery for Intermittent Exotropia ····· 169
Jungah Huh (Department of Ophthalmology, Korea University College of Medicine)
- P-113 The Surgical Outcomes of Rectus Muscle Plication and Resection in Intermittent Exotropia ····· 170
So Young Kim (Department of Ophthalmology, College of Medicine, Soonchunhyang University)
- P-114 Does The Eye Only Rotate? Three Dimensional Magnetic Resonance Imaging Study ··· 170
Hanwoong Lim (Department of Ophthalmology, Hanyang University Medical Center)
- P-115 Postoperative Exodrift Patterns after Bilateral or Unilateral Lateral Rectus Recession in 20 Prism-diopter Intermittent Exotropia ····· 171
Hae Jung Paik (Gachon University Gil Medical Center)
- P-116 Comparison of Recovery Period from Diplopia According to Age after Surgery in Intermittent Exotropia Patients ····· 171
Cho Sung Won (Department of Ophthalmology, Korea University College of Medicine)
- P-117 Rectus Border Transposition for Paralytic Strabismus: a Novel Procedure ····· 172
Chen Zhao (Eye & ENT Hospital, Shanghai Medical College, Fudan University)
- P-118 Intelligentized functional electrical stimulation can treat congenital nystagmus ····· 172
Lejin Wang (Peking University People's Hospital)
- P-119 Surgical repair of traumatic isolated inferior rectus muscle avulsion ····· 173
Xuhong Zuo (Yantai Yuhuangding Hospital)

Scientific Program

- P-120 A Case of Langerhans Cell Histiocytosis at The Same Site after A Trauma in Child ····· 173
Sang Moon Youn (Department of Ophthalmology, Busan Paik Hospital, Inje University College of Medicine)
- P-121 Clinical characteristics and emergency surgical techniques of lacrimal canaliculi laceration with severe eyelid laceration ····· 174
Huiling Qing (Henan Eye Hospital, Henan Eye Institute, Henan Provincial People's Hospital)
- P-122 Secondary reconstruction of residual enophthalmos using an endoscope and considering the orbital floor and medial wall slope ····· 174
Jinhwan Park (Department of Ophthalmology, Korea University College of Medicine)
- P-123 Health Burden Associated with Visual Impairment in China: The Handan Eye Study ····· 175
Jian Wu (Capital Medical University associated Beijing Tongren Hospital)
- P-124 In vitro Adipogenesis and Differentiation of Pediatric and Adult Orbital Preadipocytes affected by Lipopolysaccharide(LPS)- induced inflammation ····· 175
Jung Hyo Ahn (Department of Ophthalmology, Pusan National University Yangsan Hospital)
- P-125 Amyloid beta deposition could cause corneal epithelial cell degeneration associated with increasing apoptosis in APPswePS1 transgenic mice ····· 176
Juan Li (Department of Ophthalmology, Xi'an No.4 Hospital)
- P-126 A mouse dry eye model induced by topical administration of the air pollutant particulate matter 2.5 ····· 176
Juan Li (Department of Ophthalmology, Xi'an No.4 Hospital)
- P-127 The Effects of Gene Mitofusin 2 Conditional Knockout on Corneal Morphologic Development in Mice ····· 177
Jiao Zhang (The Fourth Affiliated Hospital of China Medical University)
- P-128 The level of autophagy altered by GJA8 in HLE cells ····· 177
Xiyuan Ping (Eye Center of the 2nd Affiliated Hospital, Medical College of Zhejiang University)
- P-129 The proteins of mitochondrial dysfunction and integrin signaling change in the rat retina following cerebrospinal fluid pressure reduction ····· 178
Fancheng Yan (Aier School of Ophthalmology, Central South University)
- P-130 A Novel Rat model of Retinal Ischemia-Reperfusion Injury and the Short-term Observation of Retinal Vascular Filling and Thickness Change ····· 178
Fancheng Yan (Aier School of Ophthalmology, Central South University)
- P-131 Muller cell activation by retinal ganglion cell injury after unilateral optic nerve transection ··· 179
Fancheng Yan (Aier School of Ophthalmology, Central South University)
- P-132 Study of structural and functional specificity of Nm23, a possible player in diabetic retina microangiopathy ····· 179
Yuanjun Li (Department of Ophthalmology, The Sun Yat-Sen Memorial Hospital, Sun Yat-Sen University)

Scientific Program

- P-133 Activation of JAK/STAT signaling mediates NMDA-induced excitotoxicity in retinal ganglion cells 180
W Wang (Eye Center, Renmin Hospital of Wuhan University)
- P-134 Protective effects of autophagy against blue light-induced retinal degeneration in aged mice 180
