

Congress Announcement

The 8th Congress of the Asia-Pacific Society for Medical Mycology (APSMM2024) will be convened jointly with the 68th Annual Meeting of the JSMM, at the Kyoto International Conference Center from November 6-9, 2024.

The APSMM Congress will be hosted in Japan for the first time, and we have chosen the city of Kyoto, one of Japan's most beautiful and popular cities as the venue. Kyoto is one of the ancient capitals of Japan and is home to many historic architectures and offers a glimpse into Japan's rich culture and traditions. The city has lovely landscapes that change according to the seasons, with November being an ideal time of the year to enjoy the autumn foliage. At the same time, Kyoto is also well known for its exceptional cuisine, which is one of the highlights of our food culture.

I look forward to seeing you in Kyoto and am happy to have the opportunity to facilitate fruitful professional and social exchanges among scientists from all over the world.
