**The 28th International Symposium  
on Glycoconjugates  
(Glyco28)**

**Glyco 2027  
Chiba, Japan**

**August 1-6, 2027**

# Greeting from the Symposium Chair

Dear Colleagues and Friends,

The 28th International Symposium on Glycoconjugates (Glyco28) will be held from August 1 to 6, 2027, at Makuhari Messe (Chiba, Japan). This “Glyco” symposium, first held in 1964, is one of the largest international symposiums in the field of glycobiology. This symposium is generally held every two years, and Glyco27 was successfully held in Edmonton, Canada in May 2025. This will be the third time the Glyco meeting will be held in Japan, following Glyco VI (1981 in Tokyo) and Glyco XV (1999 in Tokyo).

Japan has a long tradition of leading the world in glycochemistry and glycobiology. We expect approximately 500 participants from Japan and 300 participants from abroad to attend this symposium, and we anticipate that significant expenses will be required for preparation and operation, especially under the current Yen exchange rate. While the majority of these expenses should be covered by registration fees, given the recent rise in various costs, we anticipate that operating the conference solely on registration fees will be extremely difficult, and we would like to request support from related companies. Your support will be the key to the success of this symposium. We sincerely appreciate your cooperation in holding this symposium.

Sincerely,

Tadashi Suzuki

Symposium Chair of Glyco28

President Elect of International Glycoconjugate Organization (IGO)
