## Program June 22, 2024 (Sat) Room A

9:10~9:20            Opening Remarks

9:20~10:10        Stomach

Chairperson: Kenichi Iwasaki

(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)

- A-1-1      Prognostic significance of adipose tissue radiodensity in gastric cancer patients.  
Shinichiro Iida  
(Department of Frontier Surgery, Graduate School of Medicine, Chiba University.)
- A-1-2      Clinical factors of postoperative diarrhea in minimally invasive surgery for gastric cancer  
Masahiro Fujita  
(Department of Surgery, Fujita Health University)
- A-1-3      Feasibility of EFT-CSS in ex vivo porcine models  
Takuya Hirotsuna  
(Department of Frontier Surgery, Graduate School of Medicine, Chiba University.)
- A-1-4      A case of laparoscopic distorsion release for small intestinal axis torsion with chylous ascites.  
Kosuke Isomura  
(Department of Gastroenterological and General Surgery, St. Marianna University of Medicine  
Yokohama Seibu Hospital)
- A-1-5      Outcomes of adjuvant chemotherapy and establishment of a novel cell line for small bowel  
adenocarcinoma  
Yuri Nishioka  
(Department of Frontier Surgery, Chiba University Graduate School of Medicine)

10:20~11:00       Esophagus

Chairperson: Takeshi Toyozumi

(Departments of Frontier Surgery, Graduate School of Medicine, Chiba University)

- A-2-1      Clinical practice of AERO stent placement for Tracheoesophageal fistulas  
Daisuke Takagi  
(Department of Surgery Tokyo Medical University)
- A-2-2      A case of refractory anastomotic stenosis after esophageal cancer surgery  
Karin Nagayama  
(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)

- A-2-3 SIRT1 as a Predictive Biomarker for Chemoradiotherapy Response in Esophageal Squamous Cell Carcinoma  
Hiroki Morishita  
(Department of Frontier Surgery, Graduate School of Medicine, Chiba University)
- A-2-4 Expression and role of KCNB1 in esophageal cancer  
Atsuki Ota  
(Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University)

**11:00~11:40 Breast & Thyroid**

Chairperson: Yoshiya Horimoto  
(Tokyo Medical University)

- A-3-1 A case of advanced breast cancer originated from Paget's disease  
Yoi Imai  
(Toho University Ohashi Medical Center)
- A-3-2 Reliability and Validity Assessment of PRHISM (Principles for Health-Related Information on Social Media) on YouTube  
Hiroki Kusama  
(Tokyo Medical university)
- A-3-3 Inter- and intra-observer variability of qualitative visual breast composition assessment in mammography among Japanese physicians  
Yoichi Koyama  
(Tokyo medical university)
- A-3-4 NEW THERAPEUTIC APPROACH FOR MULTIPLE LUNG METASTASES OF THYROID CANCER ASSOCIATED WITH TRACHEAL INVASION OF RECURRENT TUMOR  
Monami Hayashi  
(Department of Thoracic and Thyroid Surgery, Tokyo Medical University, Tokyo, Japan)

**12:10~13:00 Luncheon Seminar**

Chairperson: Yoshihisa Shimada  
(Department of Thoracic Surgery, Tokyo Medical University)  
Co-organized by Chugai Pharmaceutical Co., Ltd.

The state of the art in the treatment of early stage non-small cell lung cancer: sublobar resection and immunotherapy

Yasuhiro Tsutani  
(Division of Thoracic Surgery, Department of Surgery, Kindai University Faculty of Medicine)

**13:10~13:40 General Assembly**

**13:40~14:20 Special Lecture**

Chairperson: Norihiko Ikeda  
(Department of Surgery, Tokyo Medical University)

**Utilization of Social Media in Academic Research and Challenges for Japanese Surgeons**

Takehito Yamamoto  
(Department of Gastroenterological Surgery and Oncology, Medical Research Institute Kitano Hospital /  
Public Relations Committee, Japanese Society of Surgery)

**14:30~15:20 Liver**

Chairperson: Takanori Konishi  
(Department of General Surgery, Chiba University Graduate School of Medicine)

- A-4-1 Long-term outcomes of laparoscopic anatomical hepatectomy for HCC  
Tomotaka Kato  
(Saitama Medical University, International Medial Center)
- A-4-2 The prognostic impact of perioperative dynamic changes in cachexia index in patients with hepatocellular carcinoma  
Munetoshi Akaoka  
(Division of Hepatobiliary and Pancreatic Surgery, Department of Surgery, The Jikei University School of Medicine, Tokyo, Japan)
- A-4-3 Significance of para-aortic lymph node sampling for perihilar cholangiocarcinoma patients.  
Akira Takenouchi  
(Department of Gastroenterological Surgery, Yokohama City University Graduate School of Medicine)
- A-4-4 Real-time depicting intrahepatic biliary anatomy during recipient surgery with contrast-enhanced ultrasonography in living donor liver transplantation  
Li Luyang  
(Nagasaki university hospital surgery department)
- A-4-5 Laparoscopic liver resection using a SAND balloon catheter for a large cystic lesion of the liver  
Nana Obata  
(Department of Surgery, Toho University Ohashi Medical Center)

**15:30~16:10 Pancreas 1**

Chairperson: Takeshi Gocho  
(The Jikei University School of Medicine, Department of Surgery)

- A-5-1 A case of robot-assisted pancreaticoduodenectomy for primary pancreatic SFT  
Tatsufumi Kosuge  
(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University, Tokyo, Japan)

- A-5-2 A resected case of high grade PanIN diagnosed as early PDAC due to focal parenchymal atrophy  
Daren Zhou  
(Chiba University graduate school of medicine, department of general surgery)
- A-5-3 Robotic pancreaticoduodenectomy for recurrence of Intraductal Papillary Mucinous Neoplasm after laparoscopic single duct resection  
Baglan Askeyev  
(Nagasaki University Graduate School of Biomedical Sciences)
- A-5-4 Combined with resection of common hepatic artery without reconstruction in pancreaticoduodenectomy withpreserving the right gastric artery: two cases report  
Kentaro Yamamoto  
(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)

16:20~17:00 Pancreas 2

Chairperson: Chie Takishita  
(Department of Surgery, Toda Chuo Central Hospital)

- A-6-1 Prognostic value of the fibrinogen to prognostic nutritional index ratio in pancreatic ductal adenocarcinoma  
Yosuke Igarashi  
(Division of Hepatobiliary and Pancreas Surgery, Department of Surgery, The Jikei University School of Medicine)
- A-6-3 A case of BR-A pancreatic head cancer that responded well to chemotherapy  
Machi Shibata  
(St. Marianna University School of Medicine Department of Gastroenterological and General Surgery)
- A-6-4 A case of giant splenic hemangioma resected under laparoscopy  
Sae Kimura  
(The Division of Gastroenterological and General Surgery, St. Marianna University School of Medicine)

17:00~17:10 Closing Remarks

**Program June 22, 2024 (Sat) Room B**

**9:20~10:10 Colorectal + Gynecology 1**

Chairperson: Yasuhiro Ishiyama  
(Saitama Medical University International Medical Center)

- B-1-1 Trial of predicting difficulty in colorectal ESD by CT-colonography  
Shutaro Hike  
(Department of Frontier Surgery, Graduate School of Medicine, Chiba University.)
- B-1-2 A Case of High-Grade Appendiceal Mucinous Neoplasm  
Ayu Kosaka  
(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- B-1-3 Oral and anal side stoma prolapse of loop colostomy with the stapled modified Altemeier method using indocyanine green fluorescence imaging  
Koji Komori  
(Department of Gastroenterological Surgery, Aichi Cancer Center Hospital)
- B-1-4 A case of perforated appendicitis requiring open abdomen management  
Kanami Iwama  
(Tokyo Medical University Hachioji Medical Center)
- B-1-5 A case of strangulated bowel obstruction due to vaginal dissection after total hysterectomy  
Hiro Nishizawa  
(Division of Gastroenterological and General Surgery, Department of Surgery, St. Marianna University School of Medicine)

**10:10~11:00 Colorectal + Gynecology 2**

Chairperson: Ryoji Makizumi  
(Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine)

- B-2-1 Single-incision robot-assisted surgery for resection of colon cancer using the da Vinci Xi system  
Yasuhiro Ishiyama  
(Saitama medical University International medical center)
- B-2-2 Detailed long-term follow-up of the sequelae of lower urinary tract complications in male imperforate anus patients with rectovesical/rectourethral fistula  
Kentaro Fujiwara  
(Department of Gastrointestinal and Pediatric surgery, Tokyo Medical University)

- B-2-3 Combined surgery using the Senhance Digital Laparoscopy System and conventional laparoscopy for right-sided colon cancer  
Misuzu Yamato  
(Department of Gastroenterology, Saitama Medical University International Medical Center Saitama Japan.)
- B-2-4 The function and clinical analysis of TRPV2 in human colon cancer  
Naosuke Nakamichi  
(Kyoto prefectural university of medicine)
- B-2-5 Palliative Treatment of Intestinal Obstruction in Patients with Advanced or Recurrent Gynecological Cancer  
Jun Takeuchi  
(Department of Obstetrics and Gynecology, St. Marianna University School of Medicine)

11:00~12:10 Head and Neck

Chairperson: Joji Sekine  
(Nagasaki Diagnostic Pathology Clinic)

- B-3-1 Use of Intraoperative Fluoroscopy for Safe and Reliable Removal of a Migrated Broken Dental Needle  
Shotaro Nagata  
(Department of Oral and Maxillofacial Surgery, Faculty of Medicine Kagawa University)
- B-3-2 A case of early invasive squamous cell carcinoma in an 18-year-old Japanese woman manifested by smear cytology  
Joji Sekine  
(Nagasaki Diagnostic Pathology Clinic, Nagasaki, Japan / Division of Oral and Maxillofacial Surgery, Medical Corporation Yushikai, Togashi Dental Office, Kashima, Saga, Japan)
- B-3-3 Consideration of treatment with buccal fat body stem grafts  
Yoshino Mino  
(Department of Oral and Maxillofacial Surgery, Faculty of Medicine, Kagawa University)
- B-3-4 Evaluation of multi-task learning in deep learning-based positioning classification of mandibular third molars  
Shintaro Sukegawa  
(Department of Oral and Maxillofacial Surgery, Kagawa University Faculty of Medicine)
- B-3-5 Strength Comparison Between Titanium and Bioactive Resorbable Screw Systems for Fixation of Mandibular Condylar Head Fracture  
Rei Hanai  
(Department of oral and Maxillofacial Surgery, Faculty of Medicine Kagawa University)

B-3-6 Advantage of Alveolar Ridge Augmentation with Bioactive Screws Made of Composites of Unsintered Hydroxyapatite and Poly-L-lactide

Ken Nakagawa

(Department of Oral and Maxillofacial Surgery, Faculty of Medicine, Kagawa University)

B-3-7 Comparative study of masticatory function of maxillary prosthesis and implant over denture (IOD) in patients with jaw defects

Yasuhiro Nakai

(Department of Oral and Maxillofacial Surgery, Faculty of Medicine, Kagawa University)

14:30~15:20 Afternoon Seminar

Chairperson: Norihiko Ikeda

(Department of Surgery, Tokyo Medical University)

Co-organized by Pfizer

ALK-positive lung cancer 1<sup>st</sup> line treatment strategies

Noriko Yanagitani

(Department of Thoracic Medical Oncology, The Cancer Institute Hospital of JFCR)

15:20~16:20 Lung 1

Chairperson: Hisashi Saji

(Department of Thoracic Surgery, St. Marianna University School of Medicine)

B-4-1 The First Experience in Japan of Photon-Counting Detector-Equipped CT for Qualitative Evaluation of Lung Cancer

Seiyu Ohtani

(Department of Thoracic Surgery, National Cancer Center Hospital East)

B-4-2 The Prediction of Pathological Pleural Invasion of Lung Cancer by Artificial Intelligence Assisted Imaging Analysis

Wakako Nagase

(Department of Surgery, Tokyo Medical University)

B-4-3 The prediction of STAS using artificial intelligence driven three dimensional image analysis in clinical stage 0-IA primary lung adenocarcinoma

Ryosuke Amemiya

(Department of Surgery, Tokyo Medical University, Tokyo, Japan.)

B-4-4 Association between pathological infiltrative tumor growth pattern and prognosis in patients with resected lung squamous cell carcinoma

Chiaki Kanno

(Tokyo Medical University Department of thoracic and thyroid surgery / Kanagawa Cancer Center  
Department of thoracic surgery)

- B-4-5 Contralateral pleural effusion following video-assisted thoracic surgery for metastatic lung tumor in patient with Buffalo Chest after esophagectomy  
Haruka Mori  
(Tokyo Medical University Department of Surgery)
- B-4-6 Association between whitish exudate on anastomotic rings and intraluminal granulation formation following bronchial sleeve resection: a retrospective study  
Kanji Otsubo  
(National Cancer Center Hospital East)

16:20~17:10 Lung 2

Chairperson: Taro Oba

(Department of Thoracic Surgery, Tokyo Medical University Hospital)

- B-5-1 Feasibility of Small Peripheral Lung Cancer Resection Using Preoperative CT-Guided Marking  
Yuuya Tomioka  
(Nippon Medical School Hospital / Nippon Medical School Musashikosugi Hospital)
- B-5-2 Anomalous Arterial Supply to the Normal Basal Segment of the Right Lower Lobe: Thoracoscopic Surgery Following Endovascular Vascular Plug Embolization  
Takayuki Hatakeyama  
(St. marianna university of medicine)
- B-5-3 Optimal Surgical Management of Azygos Vein Aneurysm: A Case Report and Comprehensive Treatment Approach  
Maki Ito  
(Department of Thoracic Surgery, Funabashi Municipal Medical Center)
- B-5-4 Treatment Experience of Pulmonary Arteriovenous Fistula at Our Institution  
Junichi Maeda  
(MITSUI MEMORIAL HOSPITAL Division of Thoracic Surgery)
- B-5-5 Stent Placement Followed by Radiation Therapy for Central Airway Stenosis in Adenoid Cystic Carcinoma: Case Series  
Takehiko Tanaka  
(Department of Thoracic Surgery, Tokyo medical university Ibaraki medical center / Department of Surgery, Tokyo medical university)
