Program
Address of JGES President

May 12(Thu) 13:00~13:50
Room1 (Hiton, Grand Prince Hotel New Takanawa B1F)

JGES activities and future prospects

Hisao Tajiri
(President, Japan Gastroenterological Endoscopy Society, Tokyo, Japan)
Moderator: Rikiya Fujita (Showa University, Japan)

Lecture by Congress President

May 13(Fri) 13:00~13:50
Room1 (Hiton, Grand Prince Hotel New Takanawa B1F)

My History of Endoscopy and its Passion

Tetsuya Mine
(Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, Tokai University, School of Medicine, Kanagawa, Japan)
Moderator: Tatsuo Yamakawa (Teikyo University School of medicine University Hospital, Mizonokuchi, Japan)

Special Lecture 1

May 12(Thu) 10:00~10:50
Room4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

From East to West: How to widespread endoscopic knowledge

Jean-François Rey
(Institute Arnault Tzanck, Saint Laurent Du Var, France)
Moderator: Masaki Kitajima (International University of Health and Welfare, Japan)
Special Lecture 2
May 12(Thu) 11:00~11:50
Room4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Acute Hemorrhagic Rectal Ulcer: An Experience in an Urban Emergency Hospital in USA
Choichi Sugawa
(Dept. of Surgery, Detroit Receiving Hospital, Wayne State University, Detroit, Michigan, USA )
Moderator: Tanaka Masao (Shimonoseki City Hospital, Japan)

Special Lecture 3
May 13(Fri) 10:00~10:50
Room1 (Hiten, Grand Prince Hotel New Takanawa B1F)

Global Trend and Issues of Health Care in Japan
Fumiaki Ueno
(Governor, American College of Physicians, Japan Chapter)
Moderator: Michio Kaminishi (Showa General Hospital, Japan)

Special Lecture 4
May 13(Fri) 11:00~11:50
Room1 (Hiten, Grand Prince Hotel New Takanawa B1F)

The Wall of Medical Society
~How Medical Society can Serve the Needs of the Public~
Takeshi Yoro
(Professor Emeritus, The University of Tokyo, Tokyo, Japan)
Moderator: Soichiro Miura (President, National Defense Medical College, Japan)
Keynote Lecture 1
May 13(Fri) 14:00~14:30
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Pancreatitis: When to intervene endoscopically

Douglas O. Faigel
(Mayo Clinic, Scottsdale, AZ, USA)
Moderators: Naotaka Fujita (Miyagi Medical Check-up Plaza, Japan)
Yoshiki Hirooka (Dept. of Endoscopy, Nagoya University, Japan)

Keynote Lecture 2
May 13(Fri) 8:30~9:00
Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)

ERCP – specific challenges

Lars Aabakken
(Oslo University Hospital – Rikshospitalet, Oslo, Norway)
Moderators: Naohisa Yahagi (Cancer Center, Keio University School of Medicine, Tokyo, Japan)
Douglas O. Faigel (Mayo Clinic, Scottsdale, AZ, USA)

Educational Lecture 1
May 12(Thu) 9:00~9:50
Room4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

History and Classification of Gastritis

Ken Haruma
(Dept. of General Internal Medicine 2, Kawasaki Hospital, Kawasaki Medical School, Japan)
Moderator: Tetsuo Arakawa (Dept. of Gastroenterology, Osaka City University Graduate School of Medicine, Japan)
Educational Lecture 2

May 12(Thu) 14:00~14:50
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Pancreatobiliary endoscopy from the viewpoint of surgeons

Masanori Sugiyama
(Dept. of Surgery, Kyorin University School of Medicine, Tokyo, Japan)
Moderator: Hiroaki Suzuki (The Jikei University School of Medicine, Japan)

Educational Lecture 3

May 12(Thu) 15:00~15:50
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Knack of lower esophageal endoscopic observation
—for the sensitive detection of RE, Barrett, and EoE—

Yoshikazu Kinoshita
(Dept. of Gastroenterology and Hepatology, Shimane University School of Medicine, Shimane, Japan)
Moderator: Kentaro Sugano (Professor Emeritus, Dept. of Medicine, Jichi Medical University, Japan)

Educational Lecture 4

May 12(Thu) 16:00~16:50
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Helicobacter pylori infection and Gastric cancer: Including Medical check-up for Gastric cancer risk

Naomi Uemura
(Kohonodai Hospital, National Center for Global Health and Medicine, Japan)
Moderator: Choitsu Sakamoto (Gyotokukai Medical Corporation, Japan)
Educational Lecture 5

May 13(Fri)  9:00～9:50  
Room1 (Hiten, Grand Prince Hotel New Takanawa B1F)  

The progression of magnifying endoscopic diagnosis of colorectal cancer -pit pattern, Endocytoscopy, and Computer–Aided Diagnosis

Shin–ei Kudo  
(Showa University Northern Yokohama Hospital, Digestive Disease Center, Kanagawa, Japan)  
Moderator:  Shigeaki Yoshida (Aomori Prefectural Central Hospital, Japan)

Educational Lecture 6

May 14(Sat)  9:00～9:50  
Room4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)  

Collaboration of internal medicine and surgery for gastric cancer treatment

Yasuyuki Seto  
(Dept. of Gastrointestinal Surgery, The University of Tokyo Hospital, Tokyo, Japan)  
Moderator:  Seigo Kitano(Oita University, Japan)

Educational Lecture 7

May 14(Sat)  10:00～10:50  
Room4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)  

Unveiling of inflammatory bowel disease using endoscopic biopsied specimen

Mamoru Watanabe  
(Tokyo Medical and Dental University, Dept. of Gastroenterology and Hepatology, Tokyo, Japan)  
Moderator:  Toshifumi Hibi (Center for Advanced IBD Research and Treatment, Kitasato University Kitasato Institute Hospital, Japan)
The 5th JGES-ASGE Joint Symposium

East versus West: Differences and Similarities in GI Endoscopy

May 13(Fri)  9:00~11:30
Room9  (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)

Moderators:  Naohisa Yahagi
             Cancer Center, Keio University School of Medicine, Japan
             Douglas O. Faigel
             Mayo Clinic, Scottsdale, AZ, USA

IS1-1.  Endoscopic aspects of superficial esophageal cancer in Eastern and Western countries
        Dept. of Endoscopy, The Jikei University School of Medicine, Tokyo, Japan  Kenichi Goda

IS1-2.  Endoscopic diagnosis and treatment of early colorectal cancer in Japan
        Dept. of Gastroenterology and Hepatology, Kinki University Faculty of Medicine Osaka-Sayama, Japan
        Toshiharu Sakurai

IS1-3.  Techniques to Improve the Detection of Adenomas during Colonoscopy
        Sansum Clinic, Santa Barbara, California, USA  John Petrini

IS1-4.  Current status of peroral cholangioscopy
        Saitama Medical University International Medical Center, Saitama, Japan  Shomei Ryozawa

IS1-5.  Therapeutic approach in the biliary tract and pancreas
        Mayo Clinic, USA  Bret T. Petersen
The 10th JGES–ESGE Joint Symposium

Device-assisted endoscopy

May 13(Fri) 14 : 00～16 : 30
Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)

Moderators:  Hironori Yamamoto
Jichi Medical University, Japan
Lars Aabakken
Oslo University Hospital Rikshospitalet, Oslo Norway

IS2-1.  Double-balloon enteroscopy
Dept. of Medicine, Div. of Gastroenterology, Jichi Medical University, Tochigi, Japan  Tomonori Yano

IS2-2.  The usefulness of single-balloon enteroscopy
Endoscopy, University Hospital of Medicine, Tokyo Medical and Dental University, Tokyo, Japan  Kazuo Ohtsuka

IS2-3.  Innovations and techniques for short type double balloon endoscope assisted ERCP in patients with altered gastrointestinal anatomy
The Third Dept. of Internal Medicine, Div. of Gastroenterology and Hepatology, Kansai Medical University, Osaka, Japan  Masaaki Shimatani

IS2-4.  Balloon assisted ESD～How to conquer difficult cases in colonic ESD～
Center of Gastroenterology, Otaru Ekisaikai Hospital, Otaru, Japan  Shinichi Katsuki

IS2-5.  Difficult colonoscopy – role of device assisted intubation
Translational Gastroenterology Unit, John Radcliffe Hospital, University of Oxford, Oxford, United Kingdom  James East

IS2-6.  Endoscopic handling of small bowel strictures
Dept. of Internal Medicine I / Frankfurt University Hospital, Frankfurt, Germany  Jorg G. Albert

IS2-7.  Spiral enteroscopy
European Georges Pompidou Hospital, Paris, France  Gabriel Rahmi
JGES-Asian International Joint Symposium - with the 15th JKSGE

Session 1: Up-to-date diagnosis and treatment in upper GI endoscopy

May 12 (Thu) 14:00~16:30
Room6 (Zuiko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Haruhiro Inoue
Showa University Koto-Toyosu Hospital, Digestive Disease Center, Japan
Myung-Gyu Choi
The Catholic University of Korea, Korea

IS3-1-1. Where is the Confocal Laser Endomicroscopy going to? : The Past, Present, and Future
CHA Bundang Medical Center, Seongnam-si, Korea Joo Young Cho

IS3-1-2. Diagnosis of Upper GI
Dept. of Endoscopy, Jikei University School of Medicine, Tokyo, Japan Kazuki Sumiyama

IS3-1-3. Endoscopic resection of pyloroduodenal tumors : tips and pitfalls
Korea University, Guro Hospital, Korea Jong-Jae Park

IS3-1-4. Advances in endoscopic therapy for treatment of Upper GI diseases
The Chinese University of Hong Kong, China Philip Wai Yan Chiu
JGES–Asian International Joint Symposium – with the 15th JKSGE

Session 2 : Up-to-date treatment in pancreaticobiliary endoscopy

May 12(Thu) 14 : 00～16 : 30
Room6 (Zuiko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Yoshinori Igarashi
Div. of Gastroenterological and Hepatology, Toho University Omori Medical Center,
Japan
Yong-Tae Kim
Seoul National University Hospital, Korea

IS3-2-1. Therapeutic EUS for Pancreas Disease
Seoul National University College of Medicine, Seoul, Korea  Ji Kon Ryu

IS3-2-2. Balloon enteroscopy–assisted therapeutic ERCP in patients with Roux-en-Y anastomosis and intact papilla
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan  Takao Itoi

IS3-2-3. New Endoscopic Approach to the Inside of Bile and Pancreatic Duct
SoonChunHyang University School of Medicine, Bucheon/Seoul, Korea  Jong Ho Moon

IS3-2-4. Long-term follow-up after 1-minute versus 5-minute endoscopic papillary balloon dilation (EPBD) for bile duct stones
National Taiwan University Hospital, Taipei, Taiwan  Hsiu-Po Wang

Gastroenterological Endoscopy
JGES Core Session 1 — Panel Discussion —

Advanced diagnostic endoscopy for treatment in the upper GI tract

May 12(Thu) 9:00~11:30
Room1 (Hiten, Grand Prince Hotel New Takanawa B1F)

Moderators: Mototsugu Kato
Div. of Endoscopy, Hokkaido University Hospital, Japan
Mitsuru Kaise
Dept. of Gastroenterology, Toranomon Hospital, Japan
Satoshi Tanabe
Div. of Therapeutic Endoscopy, Dept. of Advanced Medicine, Research and Development Center for New Medical Frontiers, Kitasato University School of Medicine, Japan

Keynote Lecture

CS1-1. Usefulness of Dual red imaging in diagnosing and treating esophageal varices
Dept. of Gastroenterology and Hepatology, Tokyo Medical University Hospital, Tokyo, Japan Yoshiiro Furuichi

CS1-2. The efficiency of 0-1 protrusion and B2 vessel for diagnosis of esophageal carcinoma deeper than SM2
Dept. of Gastrointestinal Oncology Noriko Matsuura

CS1-3. Esophageal squamous cell carcinoma detection by topically applying DPPIV-activatable fluorescence probes
Dept. of Gastrointestinal Surgery, Grad. Sch. of Med., Univ. of Tokyo, Tokyo, Japan Haruna Onoyama

CS1-4. Fluorescent Imaging of early Head and Neck Squamous Cell Carcinoma Using a g-Glutaryltranspeptidase-Activated Probe
Dept. of Gastroenteral Hepatol, Hokkaido Univ Grad Sch Med Sapporo, Japan Takeshi Mizushima

CS1-5. Endocytoscopic observation for esophageal lesions. Possibility for omission of biopsy histology
Dept. of Digestive Tract and General Surgery, Saitama Medical Center, Saitama Medical University, Japan Youichi Kumagai

CS1-6. Observer agreement in the assessment of Barrett’s esophagus using a simplified NBI classification: a multicenter study
Dept. of Endoscopy, The Jikei University School of Medicine, Tokyo, Japan Hiroto Furuhashi

CS1-7. Clinical application of endoscopic diagnosis with blue laser imaging and linked color imaging for early gastric cancer
Dept. of Gastroenterology and Hepatology, Kyoto Pref. Univ. of Med., Kyoto, Japan Yusuke Horii

CS1-8. Usefulness of Chromo–LCI magnifying endoscopy in diagnosis of gastric depressive lesions
Div. of Endoscopy, Chiba Cancer Center, Chiba, Japan Yoshiyasu Kitagawa

CS1-9. Histological verification of usefulness of NBI for lateral extent diagnosis of intestinal type early gastric cancers
Div. of Endoscopy, Yokohama City University Medical Center, Yokohama, Japan Makomo Makazu

Gastroenterological Endoscopy
CS1-10. Scrutiny of standard and extended ESD indicative cases of low-grade, well-differentiated gastric tubular adenocarcinoma
Dept. of Gastrointestinal Endoscopy and Gastroenterology and Hepatology, Toyosaka Hospital, Niigata, Japan
Takashi Saitoh

CS1-11. Diagnostic demarcation of undifferentiated-type early gastric cancers post eradication using NBI magnifying endoscopy
Dept. of Gastroenterology, Cancer Institute Hospital, Tokyo, Japan
Yusuke Horiuchi

CS1-12. Recognition accuracy using 3D endoscopic images for superficial gastrointestinal cancer
Dept. of Gastroenterology, Toranomon Hospital, Tokyo, Japan
Kosuke Nomura

Endoscopy Division, National Cancer Center Hospital, Japan
Seiichiro Abe

CS1-14. Development of a new classification for in vivo diagnosis of duodenal epithelial tumors with CLE
Dept. of Gastroenterology, NTT Medical Center, Tokyo, Japan
Kouichi Nonaka
JGES Core Session 2 – Workshop –

Advanced Diagnostic endoscopy for treatment in the lower GI tract

May 13(Fri) 9:00~11:30
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Shinji Tanaka
Endoscopy and Medicine, Hiroshima University, Japan
Yusuke Saitoh
Digestive Disease Center, Asahikawa City Hospital, Hokkaido, Japan

Keynote Lecture

Digestive Disease Center, Asahikawa City Hospital, Hokkaido, Japan
Yusuke Saitoh

CS2-1. A pilot study of probe based confocal laser endomicroscopy for depth diagnosis in colorectal neoplasms
Div. of Gastrointestinal Endoscopy, National Cancer Center Hospital, Tokyo, Japan
Yusaku Tanaka

CS2-2. Investigation of the usefulness of the endocytoscopy (EC) diagnosis for colorectal tumors
Digestive Disease Center, Showa University Northern Yokohama Hospital, Japan
Toyoki Kudo

CS2-3. The role of LCI magnifying endoscopy using crystal violet staining in diagnosis of invasion depth for colorectal cancer
Chiba Cancer Center, Div. of Endoscopy, Chiba, Japan
Takuto Suzuki

CS2-4. Use of Blue Laser Imaging for Diagnosis of Deeply Invasive Colorectal Cancer (T1b) : Reading Test using 100 Lesions
Dept. of Coloproctology, Aizu Med. Center, Fukushima Med. Univ., Fukushima, Japan
Daiki Nemoto

CS2-5. Significance of WOS under magnifying NBI colonoscopy for the diagnosis of colorectal epithelial neoplasms
Div. of Gastroenterology, Dept. of Internal Medicine, Iwate Medical University, Morioka, Japan
Keisuke Kawasaki

CS2-6. Comparison of JNET classification and capillary pattern classification
Dept. of Endoscopy, National Cancer Center Hospital East, Chiba, Japan
Naoki Okamoto

CS2-7. Efficacy of The Japan NBI Expert Team (JNET) classification by magnifying narrow band imaging for colorectal neoplasms
Aichi Cancer Center, Dept. of Gastroenterology, Nagoya, Japan
Kazuhiro Toriyama

CS2-8. Prospective validation study with the Japan NBI Expert Team (JNET) classification
Gastrointestinal Center, SANO HOSPITAL, Hyogo, Japan
Mimeo Iwatake

CS2-9. Clinical validity and issue of JNET (Japan NBI Expert Team) NBI magnifying classification for colorectal lesions
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan
Kyoku Sumimoto

CS2-10. Feasibility of Narrow Band Imaging magnification for decision of treatment options for early colorectal cancers
Dept. of gastroenterology, Saitama red cross hospital, Saitama, Japan
Masanori Takahashi

CS2-11. Endoscopic invasion depth diagnosis of T1 colorectal carcinoma as total excisional biopsy using NBI
Dept. of Gastroenterology, Hokketsu General Hospital, Takatsuki, Japan
Makoto Sanemura
JGES Core Session 3 — Workshop —

Pancreatobiliary interventional EUS EUS-guided fistula creation: its complications and countermeasures
May 13(Fri) 14:30~17:00
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Naotaka Fujita
Miyagi Medical Check-up Plaza, Japan
Yoshiki Hirooka
Dept. of Endoscopy, Nagoya University, Japan

Keynote Lecture
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, Tokai University, School of Medicine, Kanagawa, Japan
Tetsuya Mine

CS3-1. Safe technique to prevent adverse events of EUS-guided biliary drainage
2nd Dept. of Internal Medicine, Osaka Medical College, Osaka, Japan
Takeshi Ogura

CS3-2. Utility of EUS-Guided Hepaticogastrostomy with Antegrade Stenting for Malignant Biliary Obstruction of ERCP Inability
Dept. of gastroenterology and hepatology, Kinki university school of medicine, Japan
Ken Kamata

CS3-3. EUS-guided hepaticogastrostomy using a long, partially-covered metal stent (LP-CMS)
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan
Yousuke Nakai

CS3-4. Novel method to avoid the migration of metallic stent during EUS-guided hepatogastrostomy: intra-channel deployment
General Internal Medicine 2, Kawasaki Medical School, Okayama, Japan
Hirofumi Kawamoto

CS3-5. Advantage and disadvantage of EUS-guided fistula creation as a biliary drainage method
Dept. of Gastroenterology and Hepatology, Hokkaido University Hospital, Sapporo, Japan
Masaki Kuwatani

CS3-6. Prevention of adverse events during EUS-guided antegrade treatment for biliary disorders
First Dept. of Internal Medicine, Gifu University Hospital, Japan
Takui Iwashita

CS3-7. Complication of endoscopic ultrasound-guided cyst drainage for Pancreatic fluid collections
The Dept. of Gastroenterology and Hepatology, Tokyo Medical University,Tokyo,Japan
Reina Tanaka

CS3-8. The adverse events and countermeasures of EUS-guided transmural pancreatic fluid collections drainage
Div. of Gastroenterology, Dept. of Med., Showa Univ. Sch. of Med., Tokyo, Japan
Katsuya Kitamura

CS3-9. The efficacy of double guide-wire technic for interventional EUS
Okayama University Hospital, Dept. of Gastroenterology, Okayama, Japan
Daisuke Uchida

CS3-10. Evaluation of the adverse events in EUS-guided drainage for pancreatic/peripancreatic fluid collection
Div. Gastroenterology, Dept. of Internal Medicine, Sch. of Med. Kurume Univ., Kurume, Japan
Yoshinobu Okabe

CS3-11. Outcomes and methods of EUS–PD (Endoscopic Ultrasonography guided Pancreatic Drainage) and procedural accidents
Dept. of Gastroenterological medicine, Aizu Central Hospital, Fukushima,Japan
Toshiyasu Iwao

Dept. of Gastroenterology and Metabolism, Hiroshima Univ., Hiroshima, Japan
Tomofumi Tsuboi

Gastroenterological Endoscopy
Symposium 1

Endoscopic treatment of IBD-associated tumors: Current issues and future prospects

May 12(Thu) 9:00~11:30
Room3 (Hakuun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Toshiyuki Matsui
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Japan
Kiyonori Kobayashi
Research and Development Center for New Medical Frontiers, Kitasato University, School of Medicine, Japan

S1-1. Problems and perspectives for endoscopic diagnosis of UC-associated neoplasia from pathological point of view
Div. of Clinical Pathology, Sch. of Med. Niigata Univ., Niigata, Japan Yoichi Ajioka

S1-2. SCENIC international consensus statement on surveillance and management of dysplasia in inflammatory bowel disease
Div. of Gastroenterology, Dept. of Internal Medicine, Iwate Medical Univ., Morioka, Japan Takayuki Matsumoto

S1-3. Comparative effectiveness of chromoendoscopy and AFI and NBI for dysplasia in ulcerative colitis: network meta-analysis
Center for Gastroenterology and Inflammatory bowel disease, Ofuna Chuo Hospital Atsushi Yoshida

S1-4. Endoscopic characteristics and treatments for UC associated intraepithelial neoplasia
Div. of Gastroenterology and hepatology, Sch. of Med. Keio Univ., Tokyo, Japan Makoto Naganuma

S1-5. Clinical Usefulness of EUS for Evaluation of the Invasion Depth of Ulcerative Colitis-associated Tumors
Dept. of Gastroenterology, Sch. of Med. Kitasato Univ., Kanagawa, Japan Miwa Sada

S1-6. Evaluation for differential diagnosis between sporadic and colitic neoplasm of UC patient
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan Rinzaburo Matsuura

S1-7. Clinical significance of NBI and chromo magnifying endoscopy for ulcerative colitis associated tumors
Dept. of Endoscopy, Hiroshima University Hospital Hiroshima, Japan Shiro Oka

S1-8. Surveillance program for ulcerative colitis associated neoplasia: the incidence and risk factors
Dept. of Surgical Oncology, The Univ. of Tokyo, Tokyo, Japan Keisuke Hata

S1-9. Current status of surveillance program for dysplasia in ulcerative colitis
Dept. of Surgery, the Institute of Medical Science, the University of Tokyo, Tokyo, Japan Masaru Shinozaki

S1-10. Endoscopic findings and clinical features of colorectal cancer with Crohn’s disease
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Fukuoka, Japan Yutaka Yano

Special Remarks
Jikei University Kashiwa Hospital, Japan Toshifumi Ohkusa

Gastroenterological Endoscopy
Symposium 2

Clinical evaluation of “Guideline for post-ERCP pancreatitis” and prospects for the future

May 12(Thu) 9:00～11:30
Room5 (Koun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators:
Shomei Ryozawa
Saitama Medical University International Medical Center, Saitama, Japan
Ryukichi Akashi
Kumamoto city medical association, Health Care Center, Japan

S2-1. Risk factors for post-ERCP pancreatitis: the analysis of a randomized clinical trial of oral diclofenac
Div. of Endoscopy, Shizuoka Cancer Center, Shizuoka, Japan
Hirotoshi Ishiwatari

S2-2. Efficacy of EST after IDUS in preventing post-ERCP pancreatitis
Dept. of Gastroenterology, Saitama Medical University International Medical Center, Japan
Hirotoshi Iwano

S2-3. Evaluation of the form of native papilla related to PEP and the appropriate time for cannulation by trainees during ERCP
Dept. of gastroenterology, digestive center, Kyoto Katsura Hospital, Kyoto, Japan
Kiyonori Kusumoto

S2-4. Retrospective study of post-ERCP pancreatitis in our hospital
Dept. of Gastroenterology, Kyoto Second Red Cross Hospital, Kyoto, Japan
Azumi Suzuki

S2-5. The clinical practice of post-ERCP pancreatitis, and examination of factors causing severe pancreatitis
Dept. of Gastroenterology, Kameda Medical Center, Chiba, Japan
Masayoshi Kobayashi

S2-6. Analysis of the risk factor for severe post ERCP pancreatitis at our institution
Dept. of Gastroenterology, Toyohashi Municipal Hospital, Toyohashi, Japan
Yuki Kinoshita

S2-7. Risk factors for severe post-ERCP pancreatitis
Dept. of Gastroenterology, University of Yamanashi, Yamanashi, Japan
Hiroko Shindo

S2-8. Clinical verification of post-ERCP pancreatitis(PEP) guidelines in 76 cases
Dept. of Gastroenterology, Kumamoto Regional Medical Center, Kumamoto, Japan
Kikuo Kanda

S2-9. Rescue ERCP and emergency pancreatic duct stent placement for the management of post-ERCP pancreatitis
Dept. of Gastroenterology, Japanese Red Cross Date General Hospital, Date, Japan
Hiroyuki Haisai

S2-10. The current state of post-ERCP acute pancreatitis in our institution
Dept. of gastroenterology, Toranomon Hospital, Tokyo, Japan
Tetsuo Tamura

S2-11. Post-ERCP pancreatitis and treatment of severe acute pancreatitis at Hyogo Prefectural Kaibara Hospital
Div. of Internal Medicine, Dept. of Hyogo Prefectural Kaibara Hospital, Tamba, Japan
Yasukazu Fujii

S2-12. A case of nephrogenic diabetes insipidus and sodium-losing nephropathy in post-ERCP severe acute pancreatitis
Dept. of Gastroenterology, Takagi Hospital, Fukuoka, Japan
Kouji Nishida

Special Remarks

Showa University, Japan
Rikiya Fujita

Gastroenterological Endoscopy
Symposium 3

Problems of gastric cancers after H. pylori eradication

May 13(Fri) 14:00～16:30
Room3 (Hakuun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Shin-Ichi Takahashi
Third Dept. of Internal Medicine, Kyorin University School of Medicine, Japan
Kazunari Murakaimi
Dept. of Gastroenterology, Faculty of Medicine, Oita University, Japan

S3-1. Clinicopathological features of gastric cancer detected after Helicobacter pylori eradication
Div. of Gastroenterology, Matsuyama Red-cross Hospital, Matsuyama, Japan  Hiroki Yaita

S3-2. Endoscopic evaluation of the risk for metachronous gastric cancer after HP eradication following endoscopic resection
Second Dept. of Internal Medicine, Wakayama Medical University, Wakayama, Japan  Kosaku Moribata

S3-3. The study of clinical feature and background mucosa of gastric cancer after H.pylori eradication therapy
Dept. of Internal medicine, Niigata Prefectural Yoshida Hospital, Niigata, Japan  Yoshitaka Nawada

S3-4. The factors associated with the development of metachronous gastric cancer after ESD in patients with eradication
Div. of Gastroenterology, Tohoku Univ. Graduate Sch. of Med. Sendai, Japan  Waku Hatta

S3-5. Gastric Xanthoma is an important cancer biomarkers after Helicobacter pylori eradication
Dept. of Gastroenterology & Oncology, University of Tokushima, Japan  Shinji Kitamura

S3-6. Somatic mutations in Noncancerous gastric mucosa with Helicobacter pylori infection
Dept. of Gastroenterology, Yamanashi Prefectural Central Hospital, Kofu, Japan  Natsuhiko Kuratomi

S3-7. Clinical features of advanced cancer discovered after H. pylori eradication
Dept. of Health Care Medicine, Kawasaki Medical School, Okayama, Japan  Tomoari Kamada

S3-8. Pre-invasive gastric cancers discovered after H. pylori eradication
Dept. of Gastroenterology and Hepatology, Uonuma Institute of Community Medicine, Niigata University Medical and Dental Hospital, Niigata, Japan  Masaaki Kobayashi

S3-9. Clinicopathological difference between early and advance gastric cancer following H. pylori eradication
Dept. of Gastroenterology, Faculty of Medicine, Oita Univ., Yufu, Oita, Japan  Masaaki Kodama

S3-10. The study about treatment, pathology, background of gastric cancer after eradication and HP infected gastric cancer
Gastroenterology, Aichi Cancer Center Aichi Hospital, Aichi, Japan  Masatoshi Sakakibara

S3-11. Endoscopic characteristics of gastric cancer and analyses of rapidly progressive cases after HP eradication
Foundation for Detection of Early Gastric Carcinoma, Tokyo, Japan  Yoshitaka Tokai

Special Remarks
Gastroenterological Center, Yokohama City University Medical Center, Japan  Chikara Kunisaki

Gastroenterological Endoscopy
Video Symposium 1

Endoscopic treatment of colorectal LST: Progress and limitations

May 13 (Fri) 14:00~16:30
Room4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Hiroto Kita
Dept. of Internal Medicine, Teikyo University, School of Medicine, Japan
Takashi Toyonaga
Dept. of Endoscopy, Kobe University Hospital, Japan

VS1-1. Usefullness of the Pocket-creation method in ESD for colorectal LST–NG
Div. of Gastroenterology, Dept. of Medicine, Jichi Medical University, Shimotsuke, Japan
Hirotugu Sakamoto

VS1-2. Underwater endoscopic submucosal dissection is usefull technique in the treatment of colorectal neoplasia
Div. of Gastroenterology, Kainan Hospital, Aichi, Japan
Shin Kunii

VS1-3. SB Jr assisted FlushKnife significantly improved a self-completion rate of colorectal ESD performed by trainees
Dept. of Gastrointestinal Oncology, Osaka Medical Center for Cancer and Cardiovascular Diseases, Osaka, Japan
Takeshi Yamashina

VS1-4. The efficacy and safety of Cold snare polypectomy for LST
Dept. of Molecular Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine, Graduate School of Medical Science, Kyoto, Japan
Ryohei Hirose

VS1-5. PGA felt sealing method for prevention of bleeding related to colon ESD in patients taking antithrombotic agents
Dept. of Endoscopy, Nagasaki University Hospital, Nagasaki, Japan
Naoyuki Yamaguchi

VS1-6. Treatment outcome and strategy of ESD for LST on appendiceal orifice
NTT Medical Center Tokyo, Dept. of Gastroenterology, Japan
Tomoaki Tashima

VS1-7. Comparison of the treatment difficulty of ESD to the cecum LST lesions in our hospital
Div. of gastroenterology, Sch. of Med. Kitasato Univ, Tokyo, Japan
Toshihiro Kawano

VS1-8. Feasibility and safety of endoscopic submucosal dissection for lower rectal tumors with hemorrhoids
Dept. of Endoscopy, Kobe University Hospital, Hyogo, Japan
Shinwa Tanaka

VS1-9. Endoscopic submucosal dissection for residual laterraly spreading tumors
Digestive Disease Center, Showa University Northern Yokohama Hospital, Yokohama, Japan
Tomoyuki Ishigaki

VS1-10. Progress and limitations of endoscopic submucosal dissection for laterally spreading tumors
Endoscopy Division, Cancer Institute Hospital, Tokyo, Japan
Yoshiro Tamegai

VS1-11. Influence of preoperative biopsy on colorectal ESD for laterally spreading tumor
Dept. of Gastroenterology, Osaka City University Graduate School of Medicine, Osaka, Japan
Shusei Fukunaga

VS1-12. Analysis of endoscopic treatment of laterally spreading tumors with skirt
Dept. of Gastroenterology, Endoscopy Division, National Cancer Center Hospital East, Chiba, Japan
Shozo Osera

Special Remarks
Dept. of Internal Medicine, Sumitomo Bessi Hospital, Japan
Seiyo Suzuki

Gastroenterological Endoscopy
Panel Discussion 1

Current status and limitation of endoscopic treatment for colorectal T1 (SM) cancer

May 12 (Thu) 9:00~11:30
Room7 (Kyokko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Toshiaki Watanabe  
Dept. of Surgical Oncology, The Univ of Tokyo, Japan  
Yutaka Saito  
Div. of Endoscopy, National Cancer Center Hospital, Japan

Special Remarks  
Endoscopy and Medicine, Hiroshima University, Japan  
Shinji Tanaka

Pathological Commentator  
Fukuoka University, Faculty of Medicine, Dept. of Pathology, Fukuoka, Japan  
Satoshi Nimura

PD1-1. Validity of JSCCR guidelines from the results of a surgical treatment after endoscopic resection for T1 colorectal cancer  
Colorectal Surgery Division, National Cancer Center Hospital, Japan  
Yukihide Kanemitsu

PD1-2. Validation study of endoscopic submucosal dissection for T1b colorectal cancer  
Yokohama City University Medical Center Institute of Gastroenterology, Yokohama, Japan  
Takehide Fukuchi

PD1-3. Study on the lymph node metastasis and long-term outcomes in T1 colorectal cancer  
NTT Medical Center Tokyo, Japan  
Maiko Takata

PD1-4. Indication of endoscopic treatment for submucosal invasive colorectal cancer  
Dept. of Gastroenterology, Juntendo Univ., Tokyo, Japan  
Naoto Sakamoto

PD1-5. The expanded indication for endoscopic resection of T1 colorectal cancer  
Dept. of Gastroenterology, Sapporo Medical Center, NTT EC, Sapporo, Japan  
Shinji Yoshii

PD1-6. Risk factors of lymph node metastasis and recurrence in T1 colorectal carcinomas  
Digestive Disease Center, Showa University Northern Yokohama Hospital, Yokohama, Japan  
Katsuro Ichimasa

PD1-7. Extension of indication in endoscopic resection for SM invasive colorectal cancer  
Digestive Disease Center, Dept. of Gastroenterology and Hepatology, Kyoto Katsura Hospital, Kyoto, Japan  
Shigehiko Fujii

PD1-8. The treatment of submucosal invasive colorectal cancer  
Institute of Gastroenterology, Tokyo Women’s Medical University, Japan  
Yuji Inoue

PD1-9. Management of T1 colorectal cancer with reference to long-term outcome  
Div. of Endoscopy, National Cancer Center Hospital, Tokyo, Japan  
Taku Sakamoto

PD1-10. Five-year outcomes of treatments for deep submucosal invasive colorectal cancer with no other pathological risk factors  
Div. of Endoscopy, Shizuoka Cancer Center, Shizuoka, Japan  
Kenichiro Imai

PD1-11. Future prospect of endoscopic treatment for pT1 colorectal cancer  
Toyama Prefectural Central Hospital, Toyama, Japan  
Fumitaka Arihara
PD1-12. Long-term outcomes after treatment for T1 colorectal carcinoma – A multicenter study of Hiroshima GI Endoscopy Group –
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan  Yuzuru Tamaru

Keynote Lecture
Showa University Northern Yokohama Hospital, Digestive Disease Center, Japan  Shin-ei Kudo
Panel Discussion 2

Issues concerning sedation in gastrointestinal endoscopy: Toward a revision of the Guidelines

May 12(Thu) 9:00~11:30
Room8 (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Katsutoshi Obara
Dept. of Advanced Gastroenterological Endoscopy, Fukushima Medical University, Japan
Hiroyasu Iiishi
Dept. of Gastrointestinal Oncology, Osaka Medical Center for Cancer and Cardiovascular Diseases, Japan

PD2-1. Pethidine hydrochloride is useful for pharyngeal examination with transoral endoscopy
Dept. of Gastrointestinal Oncology, Osaka Medical Center for Cancer and Cardiovascular Diseases, Osaka, Japan
Yasushi Yamasaki

PD2-2. Safety and efficacy of midazolam for sedation during EUS for the elderly aged 75 and older
Dept. of Gastroenterology, Fukushima Medical University, Aizu Medical Center, Aizuwakamatsu, Japan
Ryo Igarashi

PD2-3. Study about efficacy of Dexmedetomidine as a novel sedative agent during ESD for esophageal cancer—prospective study
Dept. of Gastroenterology, Cancer Institute Hospital, Tokyo, Japan
Toshiyuki Yoshio

PD2-4. The evaluation of sedation with Dexmedetomidine on gastric ESD
Dept. of Gastroenterology and hepatology, Japanese red cross society Wakayama medical center, Japan
Yasuki Nakatani

PD2-5. Efficacy of sedation by propofol during endoscopic submucosal dissection
Kagawa prefectural central hospital
Kumiko Yamamoto

PD2-6. Efficacy and safety of sedation using propofol in endoscopic submucosal dissection of early gastric cancer
Dep. of Gastroenterology and Rheumatology, Sch. of Med. Fukushima Medical Univ., Fukushima, Japan
Hitomi Kikuchi

PD2-7. The safety of propofol sedation with a TCI/BIS system in elderly patients during complex upper endoscopy procedure
Dept. of Gastroenterology and Hepatology, Okayama University, Okayama, Japan
Tatsuhiro Gotoda

PD2-8. Propofol vs midazolam for sedation in ESD for esophageal squamous cell carcinoma: randomized controlled trial
Dept. of Gastroenterology, Osaka City University Graduate School of Medicine, Osaka, Japan
Masaki Ominami

PD2-9. Risk factors of sedation for ERCP related procedure
Dept. of Gastroenterology, Japanese Red Cross Kyoto Daini Hospital
Kojiro Nakase

PD2-10. Hybrid sedation using with propofol and dexmedetomidine for esophageal ESD
Dept. of Gastroenterology, Takeda General Hospital, Kyoto, Japan
Kengo Takimoto
PD2-11. Age-appropriate sedative strategy using dexmedetomidine for endoscopic retrograde cholangiopancreatography

Div. of Gastroenterology, Dept. of Internal Medicine, Shiga University of Medical Science, Shiga, Japan    Osamu Inatomi

Special Remarks

Dept. of Anesthesiology, Tokyo Women's Medical University, Japan    Makoto Ozaki
Panel Discussion 3

Current state of gastrointestinal endoscopy in the elderly (80 years and above)

May 13 (Fri) 9:00～11:30
Room3 (Hakuun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Taiji Akamatsu
Endoscopy Center, Nagano Prefectural Suzaka Hospital, Japan
Shigeaki Nagao
Div. of Endoscopy, National Defence Medical Collage Hospital, Japan
Osamu Hasebe
Dept. of Gastroenterology, Nagano Municipal Hospital, Japan

PD3-1. Safety and prognostic value of ESD for elderly patients with early gastric cancer
Dept. of Internal Medicine, Hiroshima City Hospital, Hiroshima, Japan
Koji Miyahara

PD3-2. Present status of endoscopic submucosal dissection for elder patients of early gastric cancer
Second Dept. of Internal Medicine, National Defense Medical College, Tokorozawa, Japan
Akinori Wada

PD3-3. Safety and effectiveness of gastric and esophageal endoscopic submucosal dissection for people over 80 years of age
National Cancer Center Hospital, Endoscopy Division, Tokyo, Japan
Yasu Miyamoto

PD3-4. Safety and prognosis of elderly patients who underwent endoscopic submucosal dissection
Dept. of Gastroenterol, NTT Medical Center, Tokyo, Japan
Eiji Sakai

PD3-5. Endoscopy of small bowel in the elderly
Kinki University Faculty of Medicine, Osaka-sayama, Japan
Mitsunari Yamada

PD3-6. Feasibility and safety of colonoscopy in elderly patient
Coloproctology Center Matsushima Hospital Matsushima Clinic, Japan
Ryonho Koh

PD3-7. The efficacy and safety of high concentrated PEG as a bowel preparation for colonoscopic examination in elderly people
Dept. of Molecular Gastroenterology and Hepatology, Japan
Naohisa Yoshida

PD3-8. Study about treatment results of colorectal ESD in older adults
Dept. of Gastroenterology, Ishikawa Prefectural Central Hospital, Ishikawa, Japan
Azusa Kawasaki

PD3-9. Can endoscopic sphincterotomy safely be performed in elderly patients with pancreatic and biliary diseases?
Dept. of Gastroenterology, Graduate School of Medicine, Chiba University, Japan
Yuji Sakai

PD3-10. Long-term and short-term outcomes of ERCP for bile duct stones in the elderly: a propensity score analysis
Div. of Gastroenterology, Ogaki Municipal Hospital, Gifu, Japan
Akira Kanamori

PD3-11. Long-term biliary stenting is safe for common bile duct stones in elderly patients
Digestive Endoscopy Center, Tsuyama Chuo Hospital, Tsuyama, Japan
Hirofumi Tsugeno

PD3-12. The effectiveness of endoscopic complete removal of bile duct stones in very elderly patients
Dept. of Gastroenterology, Nagano Municipal Hospital, Japan
Yasuhide Ochi

Gastroenterological Endoscopy
Special Remarks

Hasune Royal Clinic, Japan
Masayuki Fujino
Panel Discussion 4

Issues related to guidelines for gastrointestinal endoscopy in patients taking antithrombotic agents

May 13(Fri) 14 : 00〜16 : 30
Room6 (Zuiko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Akihito Nagahara
Dept. of Gastroenterology, Juntendo Shizuoka Hospital, Izunokuni-city, Japan
Masao Ichinose
Second Dept. of Internal Medicine, Wakayama Medical University, Japan

PD4-1. New criteria and point of endoscopic treatment to the NOAC user
Dept. of Gastroenterology and Hepatology, Hokkaido University Graduate school, Sapporo, Japan Masayoshi Ono

PD4-2. Clinical outcomes of ESD in patients taking antithrombotics-PGA felt shielding method for prevention of delayed bleeding
Dept. of Gastroenterology and Hepatology, Nagasaki University Hospital, Nagasaki, Japan Suguru Nakashiki

PD4-3. Safety of esophageal endoscopic submucosal dissection for the patients under oral antithrombotic medication
International University of Health and Welfare Mita Hospital, Japan Hanako Shishido

PD4-4. Issues related to guidelines for gastric endoscopic submucosal dissection with antiplatelet agents
Second Dept. of Internal Medicine, Wakayama Medical University, Wakayama, Japan Kenichiro Nakachi

PD4-5. The effects of anticoagulants on the clinical outcome of endoscopic submucosal dissection
Dept. of Gastroenterology, Ehime Prefectural Central Hospital, Ehime, Japan Hideomi Tomida

PD4-6. Colonoscopic management of patients receiving antithrombotic medication
Dept. of Gastroenterology, Juntendo University School of Medicine, Tokyo, Japan Tomoyoshi Shibuya

PD4-7. The comparison of postoperative bleeding between NOAC and Heparin bridging therapy for the colorectal polypectomy
Dept. of Gastroenterology, Asahi General Hospital, Japan Manabu Kubota

PD4-8. High incidence of postoperative hemorrhage in colorectal endoscopic submucosal dissection during antithrombotic therapy
Div. of Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine, Kyoto, Japan Takaaki Murakami

PD4-9. Cold Polypectomy under the anti–thrombotic therapy
Sapporo Medical Center NTT EC, Japan Mio Matsumoto

PD4-10. Management of antithrombotic agents in patients undergoing encoscopic sphincterotomy
Dept. of Gastroenterology, Kokura Memorial Hospital, Fukuoka, Japan Noriko Ishigaki

PD4-11. Post-EST bleeding after guidelines revision in patients undergoing anticoagulant treatment
Dept. of Internal, Fukuyama City Hospital, Hiroshima, Japan Shinichirou Muro

PD4-12. A multicenter prospective study evaluating a safety of EUS-FNA for patients with antithrombotic agents
Dept. of Gastroenterology and Hepatology, Hokkaido University Graduate School of Medicine, Sapporo, Japan Kazumichi Kawakubo
Special Remarks

Fujita Health University, Japan  Junji Yoshino
Panel Discussion 5

Endoscopic diagnosis and treatment of superficial esophageal cancer: Current state and limitations

May 14(Sat) 9:00~11:30
Room5 (Koun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Miwako Arima
Dept. of Gastroenterology, Saitama Cancer Center, Japan
Haruhiko Inoue
Showa University Koto-Toyosu Hospital, Digestive Disease Center, Japan

PD5-1. Endoscopic study on type B2 blood vessels of superficial esophageal cancer using BLI magnified endoscopy
Dept. of Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine, Kyoto, Japan  Tomohiro Ueda

PD5-2. Microvascular pattern around avascular area and pathological features of superficial esophageal cancers
Dept. of Gastroenterology, Saitama Cancer Center, Saitama, Japan  Mika Tsunomiya

PD5-3. Usefulness of Magnifying endoscopic diagnosis using Type B2 vessels for SM2 carcinoma
Dept. of Gastroenterology and Hepatology, Niigata Univ. Medical and Dental Hospital, Niigata, Japan  Manabu Takeuchi

PD5-4. Preoperative diagnosis for the invasion depth of Esophageal MM/SM1 cancer
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan  Takeshi Mizumoto

PD5-5. Evaluation of the utility of the steroid administration and the stenosis prevention after ESD of the esophageal cancer
Dept. of Gastroenterology, Cancer Institute Hospital, Tokyo, Japan  Akiyoshi Ishiyama

PD5-6. Indication of ESD for lateral spreading superficial esophageal carcinoma
Dept. of Surgery, Keio University School of Medicine, Tokyo, Japan  Hirofumi Kawakubo

PD5-7. Clinical course of MM/SM1 esophageal cancer treated by Endoscopic Submucosal Dissection
Dept. of Gastrointestinal Endoscopy, National Cancer Center, Tokyo, Japan  Hiroki Kuwabara

PD5-8. Clinical Outcome of endoscopic treatment for cStage I esophageal cancer with MM and SM invasion
Dept. of Endoscopy, Aichi Cancer Center Hospital, Nagoya, Japan  Makoto Ishihara

PD5-9. Multimodality treatments with EMR/ESD of Esophageal Squamous Cell Carcinoma with Submucosal Invasion
Dept. of Surgery, Institute of Gastroenterology, Tokyo Women’s Medical Univ., Tokyo, Japan  Masaho Ota

PD5-10. Surgery patients of additional and recurrent treatment cases after ESD for esophageal cancer
Dept. of Gastroenterological Surgery, Okayama Univ., Okayama, Japan  Shunsuke Tanabe

PD5-11. Efficacy and safety of combined treatment of endoscopic resection and chemoradiotherapy for superficial esophageal SCC
Dept. of Gastrointestinal Oncology, Osaka Medical Center for Cancer and Cardiovascular Diseases, Osaka, Japan  Kenta Hamada

Special Remarks
Dept. of Surgery, Tokai University, Japan  Hiroyasu Makuuchi
Panel Discussion 6

Tips for endoscopic diagnosis and treatment of colitis

May 14 (Sat) 9:00~11:30

Room7 (Kyokko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Takayuki Matsumoto

Div. of Gastroenterology, Dept. of Internal Medicine, Iwate Medical University, Japan

Takanori Kanai

Dept. of Internal Medicine, Div. of Gastroenterology and Hepatology, Keio University School of Medicine, Japan

PD6-1. Factors associated with endoscopic mucosal healing in ulcerative colitis

Dept. of Gastroenterology, Kanazawa Univ., Kanazawa, Japan Kazuya Kitamura

PD6-2. Evaluation of disease activity in patients with UC by white light, magnifying and autofluorescence imaging endoscopy

Div. of Gastroenterology and Hematology/Oncology, Dept. of Medicine, Asahikawa Medical University, Asahikawa, Japan Yoshi Nomura

PD6-3. Assessment of mucosal healing of ulcerative colitis using linked color imaging, a novel endoscopic enhancement system

Dept. of Molecular Gastroenterology and Hepatology, Graduate School of Medical Science, Kyoto Prefectural University of Medicine, Japan Tomohisa Takagi

PD6-4. Usefulness of endocytoscopy for long-term prognosis in endoscopic remission in patients with ulcerative colitis

Center for Diagnostic Therapeutic Endoscopy, School of Medicine Keio University, Tokyo, Japan Yoshi Nakazato

PD6-5. Cytomegalovirus colitis in our hospital

Dept. of Gastroenterology and Hepatology, Kobe City Medical Center General Hospital, Hyogo, Japan Hiroki Kitamoto

PD6-6. Endoscopic diagnosis of intestinal diseases related to HIV infection

National Hospital Organization, Osaka National Hospital, Osaka, Japan Yuko Sakakibara

PD6-7. Endoscopic findings of intestinal tuberculosis and getting the hang of diagnosis

Dept. of Gastroenterology, Japanese Red Cross, Kyoto Daichi Hospital, Japan Yusuke Okuyama

PD6-8. The features and diagnostic significance of characteristic endoscopic findings in acute intestinal GVHD

Div. of Gastroenterology, Dept. of Medicine, Graduate Sch. of Med. Tohoku Univ., Sendai, Japan Katsuya Endo

PD6-9. Terminal ileum imaging to evaluate acute graft-versus-host disease severity

Dept. of Gastroenterology and Hepatology, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama, Japan Yuusaku Sugihara

PD6-10. 5 cases of endoscopic findings in intestinal Behcet’s disease complicated with myelodysplastic syndrome and trisomy 8

Nagano Red Cross Hospital, Nagano, Japan Toru Fujisawa

Special Remarks

Center for Preventive Medicine, Keio University School of Medicine, Japan Yasushi Iwao
Workshop 1

Current state and potential of endoscopy database –Focus on Japan Endoscopy Database (JED) Project–

May 12(Thu) 9:00～11:30
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators:  Koji Matsuda
Gastroenterology and Endoscopy, St. Marianna University School of Medicine,
Yokohama City Seibu Hospital, Japan
Kiyohito Tanaka
Dept. of Gastroenterology, Kyoto Second Red Cross Hospital, Japan

W01-1. Current situation of the Japan Endoscopy Database (JED) project and future tasks
Dept. of Therapeutic Oncology Graduate School of Medicine, Kyoto University, Japan Takahiro Horimatsu

W01-2. Japan Endoscopy Database Project: Database for the stomach
Endoscopy Division, National Cancer Center Hospital, Tokyo, Japan Ichiro Oda

W01-3. Current situation of Japan Endoscopy Database for the colorectum
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan Shinya Kodashima

W01-4. Attempt of an enteroscopy database in Japan Endoscopy Database Project
Endoscopy, Univ. Hosp. of Med., Tokyo Medical and Dental Univ., Tokyo, Japan Kazuo Ohtsuka

W01-5. Preliminary reports on the result of Japan Endoscopy Database (JED) project in pancreaticobiliary endoscopy field
Dept. of Endoscopy, The Jikei University Katsushika Medical Center, Tokyo, Japan Masayuki Kato

W01-6. The necessity of the endoscopy database in the endoscopic gastric cancer screening
Dept. of Cancer Preventive Medicine, Hokkaido Univ. Graduate Sch. of Med., Japan Katsuhiro Mabe

W01-7. Trial of endoscopic database using a tablet terminal
Dept. of Gastroenterology, National Hospital Organization Kyoto Medical Center, Kyoto, Japan Yoshinori Mizumoto
Workshop 2

Drug-induced gastrointestinal injury in the esophagus and stomach, and small and large intestines: Current state and measures

May 12(Thu) 14:00~16:30

Room3 (Hakuun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Kazuma Fujimoto
Dept. of Internal Medicine, Saga Medical School, Japan
Kazuhide Higuchi
The Second Dept. of Internal Medicine, Osaka Medical College, Japan
Hiroshi Kashiwa
Dept. of Gastroenterology and Hepatology, Kinki University, Japan

W02-1. Dabigatran–induced esophageal mucosal injury –investigations in patients undergoing ablation for atrial fibrillation–
Dept. of Gastroenterology and Hepatology, Yamaguchi Univ. Grad. Sch. of Med., Yamaguchi, Japan
Takeshi Okamoto

W02-2. Clinicopathological features of drug induced gastroduodenal ulcer
Div. of Gastroenterology, Matsuyama Red-cross Hospital, Matsuyama, Japan
Masashi Kameda

W02-3. Gender Differrence of Upper Gastrointestinal Mucosal Injury in Low–Dose Aspirin Users
Dept. of Gastroenterology, Juntendo Shizuoka Hospital, Izunokuni–city, Shizuoka, Japan
Yuji Shimada

W02-4. The analysis of endoscopic findings for the dialysis patients treated with lanthanum carbonate
Dept. of Gastroenterology, Fukui Prefectural Hospital, Fukui, Japan
Hiroyuki Aoyagi

W02-5. Clinical and endoscopic characteristics of drug–induced gastrointestinal bleeding during targeted therapy
Kagawa University, Faculty of Medicine Dept. of Gastroenterology and Neurology, Japan
Shintaro Fujihara

W02-6. Gastrointestinal bleeding in patients taking antithrombotics including NOAC
Div. of Gastroenterology, Dept. of Internal medicine, Kawasaki Medical school, Kurashiki, Japan
Minoru Fujita

W02-7. Oxidative stress status and observation of small intestine in video–capsule endoscopy among chronic NSAIDs users
Dept. of Gastroenterology and Hepatology, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama, Japan
Yoshiyasu Kono

W02-8. Intestinal lesions in patients taking new oral anticoagulant drugs
Dept. of General Internal Medicine, Saitama Medical University, Saitama, Japan
Hiroyuki Imaeda

W02-9. CYP2C19 polymorphism influences the exacerbating effect of proton pump inhibitor on NSAIDs–induced small bowel injury
Dept. of Medicine and Clinical Science, Graduate School of Medical Sciences, Kyushu University, Fukuoka, Japan
Yoichiro Nuki

W02-10. Effect of proton pump inhibitor and healing effect of irsogladine on NSAIDs–induced small–intestinal lesions
Endoscopy Center, Osaka Medical College, Osaka, Japan
Yuichi Kojima
W02-11. Drug-induced small-bowel mucosal injuries evaluated by capsule endoscopy with obscure gastrointestinal bleeding
Dept. of Gastroenterology, Tokyo Medical University Ibaraki Medical Center, Ibaraki, Japan Junichi Iwamoto

W02-12. Current state and measures of drug-induced gastrointestinal injury in the large intestines in our hospital
Kindai University, Dept. of Gastroenterology and Hepatology, Osaka, Japan Kazuki Okamoto

Dept. of Gastroenterology, Sapporo Medical Center, NTT EC, Sapporo, Japan Shinji Yoshii

W02-14. Clinical features of drug-induced collagenous colitis
Dept. of Gastroenterology, Gifu Prefectural General Medical Center, Gifu, Japan Kenji Yamazaki

W02-15. Risk factor of lower gastrointestinal bleeding in patients with low-dose aspirin
Dept. of Central Endoscopy and Ultrasound, Nara Medical University, Nara, Japan Masayoshi Sawai

W02-16. Relationship between Onset, Relapse of Clostridium Difficile Infection and Drugs
Internal medicine, Okayama Saiseikai General Hospital, Okayama, Japan Masao Yoshioka
Workshop 3

Role of endoscopy in pancreaticobiliary lesions

May 12(Thu) 14:00~16:30
Room5 (Koun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Atsushi Irisawa
Dept. of Gastroenterology, Fukushima Medical University Aizu Medical Center, Japan
Toshiharu Ueki
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Japan

W03-1. The role of diagnostic ERCP
Center for Gastroenterology, Teine–Keijinkai Hospital, Sapporo, Japan Hideaki Koga

W03-2. Diagnostic usefulness of the KL–6 Concentration of pancreatic juice and bile in pancreaticobiliary lesions
Dept. of Gastroenterology, Tottori University School of medicine, Tottori, Japan Takumi Onoyama

W03-3. Utility of transpapillary biliary forceps biopsy for the pathological diagnosis of pancreatic head cancer
Div. of Endoscopy, Shizuoka Cancer Center, Japan Hiroyuki Matsubayashi

W03-4. Significance of performing ERCP and EUS in same day for obstructive jaundice and cholangitis
Fukushima medical university Aizu medical center Dept. of Gastroenterology, Aizuwakamatsu, Fukushima, Japan Koki Hoshi

W03-5. Value of EUS for remnant pancreas after pancreatectomy diagnosed as pancreatic cancer at early stage
JA Onomichi general hospital, Japan Juri Ikemoto

W03-6. The role of endoscopy for autoimmune pancreatitis
Dept. of Gastroenterology, Kanazawa Univ., Ishikawa, Japan Masaki Miyazawa

W03-7. The role of peroral cholangioscopy in bile duct lesion diagnosis
Dept. of Gastroenterology, Teikyo Univ. Misonoguchi Hospital, Kawasaki, Kanagawa, Japan Shinpei Doi

W03-8. Role of the peroral cholangioscopy in the diagnosis for tumor extension of extrahaepatic cholangiocarcinoma
Dept. of Gastroenterology and Metabolism, Hiroshima University Hospital, Hiroshima, Japan Yasutaka Ishii

W03-9. Clinical usefulness of cholangiopancreatogramscopy in the diagnosis of biliary stricture and IPMN
Div. of Gastroenterology, Chiba Cancer Center, Japan Emiri Kita

W03-10. Effectiveness of peroral direct cholangioscopy using an ultraslim endoscope for the treatment of biliary stones
Center for Gastroenterology, Okayama Univercity, Okayama, Japan Kazuyuki Matsumoto

W03-11. The role of ERCP related procedure in gallbladder disease
Dept. of Gastroenterology and Hepatology, St. Marianna Univ. Sch. of Med., Kawasaki, Japan Kazunari Nakahara

W03-12. The outcome of Endoscopic transpapillary gallbladder drainage for acute cholecystitis
Div. of Gastroenterology, Gifu Prefectural General Medical Center, Gifu, Japan Nobuhiro Ando

Gastroenterological Endoscopy
W03-13. Usefulness of Balloon Endoscopy in the Diagnosis and Treatment of Anastomotic Stricture after Choledochojjunostomy
    Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan  Hirofumi Kogure

W03-14. Endoscopic therapy for benign biliary stricture and anastomotic site stricture in patient with surgical altered anatomy
    Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan  Ryosuke Tonozuka

W03-15. Usefulness of treatment of PTCS for hepatolithiasis after reconstruction of biliary tract
    Dept. of Gastroenterology, Fukuoka university chikushi hospital, Fukuoka, Japan  Keiichiro Matsumura

W03-16. The role of endoscopic biliary drainage in the liver cirrhosis patient
    Dept. of Gastroenterology and Nephrology Chiba University, Graduate School of Medicine, Chiba, Japan  Junichiro Kumagai

Special Remarks
    Dept. of Community-based Medical Education, Nagoya City University Graduate School of Medical Sciences, Japan  Hirotaka Ohara
Workshop 4

Strategies for endoscopic treatment of small intestine disorders

May 12(Thu) 9:00~11:30
Room6 (Zuiko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Takayoshi Suzuki
Dept. of Internal Medicine, Div. of Gastroenterology and Hepatology, Tokai university
Tokyo Hospital, Japan
Naoki Ohmiya
Dept. of Gastroenterology, Sch. of Med. Fujita Health University, Japan

Keynote Lecture JGES Guideline for small-bowel capsule endoscopy and balloon enteroscopy: Obscure gastrointestinal bleeding, etc.
Dept. of Gastroenterology, Sch. of Med. Fujita Health University, Japan
Naoki Ohmiya

W04-1. Prevalence of small intestinal capsule endoscopic findings in asymptomatic patients with anemia
Digestive Endoscopy Center Tsuyama Central Hospital, Japan
Junro Kataoka

W04-2. Strategies for overt small bowel bleeding
Dept. of the Center of Gastroenterology, Otaru Eikaisaiki Hospital, Japan
Tomoki Fujita

W04-3. Efficacy of balloon endoscopy and capsule endoscopy for Overt ongoing OGIB
Dept. of Gastroenterology, Showa University Fujigaoka Hospital, Kanagawa, Japan
Kunio Asonuma

W04-4. Strategy of Examination for Obscure Gastrointestinal Bleeding
Digestive Disease Center, Showa University Northern Yokohama Hospital, Japan
Noriyuki Ogata

W04-5. Verification of clinical strategy for overt going OGIB
Dept. of Gastroenterology, Okayama University Hospital, Japan
Seiji Kawano

W04-6. Treatment strategy of small-bowel vascular lesions
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan
Atsushi Igawa

W04-7. Position of Double balloon endoscope in diagnosis and treatment of Small Intestine Cancer
multicenter study
Dept. of Gastroenterology, Osaka Rosai Hospital, Osaka, Japan
Motohiro Hirao

W04-8. Will the PillCam® SB3 change the strategy of diagnosing tumors of the small bowel?
Dept. of Gastroenterology and Hepatology, School of Medicine, Yokohama City University, Yokohama, Japan
Takayuki Kato

W04-9. The efficacy of single balloon enteroscopy on out patients with Crohn’s disease
The Dept. of Gastroenterology and Hepatology, Tokyo Medical and Dental University, Tokyo, Japan
Kento Takenaka

W04-10. Significance of monitoring of Crohn’s disease in remission phase by capsule endoscopy in terms of
prognosis prediction
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan
Tsunaki Sawada

W04-11. Postoperative follow-up study using capsule endoscopy in patients with Crohn’s disease
Div. of Gastroenterology, Tohoku University, Japan
Jun Kusaka

Gastroenterological Endoscopy
W04–12. Primary survey for the appropriate use of Patency Capsule: A Japanese multicenter prospective cohort study, J-POP Study
Dept. of Gastroenterology, Osaka City General Hospital, Osaka, Japan Kenji Watanabe

W04–13. Yogurt containing Lactobacillus gasseri improved aspirin induced small intestinal injury
Dept. of Internal Medicine, Div. of Gastroenterology and Hepatology, Tokai University Tokyo Hospital, Japan
Takayoshi Suzuki
Workshop 5

Capsule endoscopy for small and large intestines: Current state and future prospects

May 12(Thu) 14:00～16:30
Room7 (Kyokko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Tetsuya Nakamura
Dokkyo Medical University, Japan

Hideki Goto
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Japan

Evaluation of small bowel mucosal breaks of low-dose aspirin users by a fecal immunochemical test
Div. of Gastroenterology and Hepatology, Yokohama City University School of Medicine, Yokohama, Japan
Hiroki Endo

Examination of the small intestinal lesion in Crohn’s disease by capsule endoscopy
Div. of Disease Control and Homeostasis, Dept. of Gastroenterology, Sch. of Med. Kanazawa Univ., Ishikawa, Japan
Hirofumi Okafuji

Patency evaluation of Patency capsule – 24 hours judging method –
Tokyo Women’s Medical University, Institute of Gastroenterology, Japan
Teppai Omori

Usefulness and problems of patency capsule in hour hospital
Div. of Molecular Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine, Kyoto, Japan
Yosuke Suyama

Management strategy of patency capsule to predict and minimize the risk of impaction
Div. of Gastroenterology Dept. of Internal Medicine, Kawasaki Med. School, Okayama, Japan
Manabu Ishii

Colon capsule endoscopy in the elderly: safety, findings, diagnostic yield, and contrivance
Endoscopy Center, Aishinkai Nakae Hospital, Japan
Konosuke Nakaji

Diagnostic accuracy of small colonic polyps in colon capsule endoscopy
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Aichi, Japan
Junich Sato

Diagnostic Ability of Colon Capsule Endoscopy for Flat Lesions: Comparative Trial with CT Colonography (UMIN000014772)
Digestive Disease Center, Otaru Ekisaikai Hospital, Otaru, Japan
Shinichi Katsuki

The study of the factor of non-excretion in the recording time and the usefulness of FICE in colon capsule endoscopy
Dept. of Gastroenterology, Fujita Health University, Aichi, Japan
Takahumi Omori

Efficacy of colon capsule endoscopy on the diagnosis of advanced colorectal cancer: a prospective study
Dept. of Gastroenterology, The University of Tokyo, Tokyo, Japan
Yumiko Ota

A new regimen of bowel preparation using nasal endoscopy for colon capsule endoscopy
Dept. of Gastroenterology and Hepatology, Nijigaoka Hospital, Nagaaki, Japan
Junich Masuda

Study on the detectability of flat lesions using by the stereoscopic capsule endoscope
Dept. of Gastroenterology, Sapporo Orthopaedics and Cardiovascular Hospital, Sapporo, Japan
Hidetoshi Ohta

Gastroenterological Endoscopy
W05-13. Observation of the Human Digestive Tract with a Self-Propelling Capsule Endoscope

2nd Dept. of Internal Medicine, Osaka Medical College, Osaka, Japan

Sadaharu Nouda

Special Remarks

Dokkyo Medical University, Japan

Akira Terano
Workshop 6

Endoscopic diagnosis and treatment of benign esophageal diseases (including functional assessment of swallowing)

May 12(Thu) 14:00~16:30

Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)

Moderators: Tomoyuki Koike
Div. of Gastroenterology, Tohoku University hospital, Japan
Katsuhiko Iwakiri
Dept. of Gastroenterology, Nippon Medical School, Japan

Keynote Lecture

Gastrointestinal endoscopy, School of Medicine, Saga University, Japan Ryuichi Iwakiri

W06-1. The significance of the evaluation of swallowing disorders in the prediction of oral intake in tube-feeding cases
Kyoto Ohara Memorial Hospital, Kyoto, Japan Tomoko Nishimura

W06-2. Endoscopic evaluation of swallowing using transnasal videoendoscope and HyodoKomagane score
Digestive Disease Center, Showa Inan General Hospital, Komagane, Japan Akira Horiuchi

W06-3. Study of Relationship between GERD symptom and pharyngeal and esophageal damages
Dept. of Gastroenterology and Hepatology, Tokyo Medical University Hospital, Tokyo, Japan Takemasa Satou

W06-4. Comparison of the endoscopic findings and 24 hour MII-pH monitoring in the patients with PPI-refractory NERD
Div. of Gastroenterology, Tohoku University Graduate School of Medicine, Sendai, Miyagi, Japan Masahiro Saito

W06-5. Real-time Endoscopy-Guided Measurement of Mucosal Admittance to Diagnose Mucosal Integrity in Patients with GERD
Chiba University Hospital, Japan Tomoaki Matsumura

W06-6. The comparison between endoscopic and manometric findings for evaluating esophago-gastric junction morphology
Dept. of Gastroenterology and Hepatology, Gunma University Hospital, Maebashi, Japan Shiko Kuribayashi

W06-7. Endoscopic diagnosis of hiatus hernia is not consistent with esophageal manometric diagnosis
Dept. of Gastroenterology, Nippon Medical School, Tokyo, Japan Shintaro Hoshino

W06-8. Endoscopic treatment for PPI-refractory GERD : ARM (Anti-Reflux Mucosectomy)
Digestive Disease Center, Showa University Koto Toyosu Hospital, Japan Kazuya Sumi

W06-9. Usefulness of new endoscopic indicator of esophageal achalasia : "Corona appearance"
Dept. of Gastroenterological Surgery Fukuoka University Faculty of Medicine, Fukuoka, Japan Hironori Shiwaku

W06-10. New endoscopic classification of the cardiac orifice in esophageal achalasia : "Champagne glass sign"
Dept. of Gastroenterology, Showa University Fujigaoka Hospital, Yokohama, Japan Kuniyo Gomi

W06-11. Clinical features of eosinophilic esophagitis in Japan
Dept. of Gastroenterology, Yamagata University Faculty of Medicine, Yamagata, Japan Yasuhiro Abe

W06-12. Endoscopic findings of pediatric eosinophilic gastrointestinal disorders with esophageal eosinophilia
Dept. of Pediatrics, Okinawa Chubu Hospital, Japan Itaru Iwama

Gastroenterological Endoscopy
W06–13. Eosinophilic esophageal myositis (EoEM) diagnosed by peroral esophageal muscle biopsy (POEM-b)
Div. of Gastroenterology and Hepatology, Niigata University Medical and Dental Hospital, Niigata, Japan
Hiroki Sato
Workshop 7

Current state and future of transnasal endoscopy

May 13(Fri) 9:00~11:30
Room5 (Koun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Takashi Kawai
Endoscopy Center, Tokyo Medical University Hospital, Japan
Naohiko Harada
Kyushu medical center, Japan

W07-1. The usefulness of transnasal upper gastrointestinal endoscopy for gastric cancer screening
Dept. of Surgery, Saiseikai Toyama Hospital, Japan Tadashi Bando

W07-2. The importance of ultra-slim Endoscopy in the population-based screening using endoscopy for gastric cancer
Dept. of gastroenterology, Nagasaki Harbor Medical Center City Hospital, Japan Tetsuro Honda

W07-3. Current cancer screening by transnasal endoscopy –Comparison with transoral endoscopy–
Medical Health Check-up Center, Murakami Memorial Hospital, Asahi Univ., Gifu, Japan Akihiro Obra

W07-4. The prospective study of risk factors for nasal bleeding in transnasal endoscopy
Div. of Internal medicine, Izumo–City General Medical Center, Shimane, Japan Mika Yuki

W07-5. Investigation into the frequency and the prevention of nasal bleeding in transnasal endoscopy
Transnasal Endoscopy Center, Shizuoka Red Cross Hospital, Shizuoka, Japan Kazuaki Kawada

W07-6. The transnasal endoscope medical examination and the future prospects in consideration of Helicobacter pylori infection
Medical Checkup Center Wellness, Fukuoka, Japan Rie Yoshimura

W07-7. Current status and issues of judging method of Helicobacter pylori infection status by using ultrathin endoscope
Ningen Dock Center, Federation of Public Services and Affiliated Personal Aid Association, Takamatsu Hospital, Takamatsu, Japan Mitsugu Yasuda

W07-8. Transnasal endoscopic examination for high risk patients of esophageal cancer
Dept. of Esophageal Surgery, Tokyo Medical and Dental University, Japan Kenro Kawada

W07-9. Evaluation of early esophageal cancer diagnosis by NBI close examination using ultrathin endoscopy
Dept. of Endoscopy and Endoscopic Surgery, Shirakawa Clinic, Japan Naondo Sohara

W07-10. Usefulness of transnasal ultrathin endoscopy with image enhancement for detection of early laryngopharyngeal neoplasms
Dept. of Gastroenterology, Clinical Research Institute, Kyushu Medical Center, Fukuoka, Japan Yoichiro Iboshi

W07-11. Usefulness of Linked Color Imaging (LCI) for Esophagogastric junction observation by using nasal endoscope
Iwata City Hospital, Dept. of Gastroenterology, Japan Takanori Yamada

W07-12. A Study on the brightness of the LCI observation and white light observation with ultraslim endoscope
Div. of Gastroenterology, Murakami memorial hospital, Asahi Univ., Gifu, Japan Hiroaki Kitae

Gastroenterological Endoscopy
W07–13. Study of the Endoscopic diagnosis of stomach depression type lesions using transnasal endoscopy
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan  Kenji Yagi

W07–14. The usefulness of peppermint oil during the transnasal endoscopy
Endoscopic Center, University of Tsukuba Hospital, Ibaraki, Japan  Yuji Mizokami

Nakata Medical Clinic, Japan  Hiroya Nakata

Special Remarks
Former Chief, Clinics of the Ministry of Economy, Technology and Industry, Japan  Yoshio Hoshihara
Workshop 8

Diagnosis and treatment of gastrointestinal hemorrhage: current status and future outlook

May 13 (Fri) 14:00～16:30
Room5 (Koun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Takushi Joh
Dept. of Gastroenterology and Metabolism, Nagoya City University Graduate school of Medicine Sciences, Japan
Masashi Oka
Dept. of Gastroenterology and Hepatology, Saitama Medical Center, Saitama Medical University, Japan

W08-1. Gastric endoscopic submucosal dissection with antithrombotic agents and postoperative bleeding
Second Dept. of Internal Medicine, Wakayama Medical University, Wakayama, Japan
Kenichiro Nakachi

W08-2. Risk factors of Peptic ulcer bleeding
Div. of Gastroenterology, Graduate Sch. of Med. Tohoku Univ. Sendai, Japan
Takeshi Kanno

W08-3.Clinical feature of drug induced peptic ulcer bleeding
Div. of Gastroenterology, Matsuyama Red Cross Hospital, Ehime, Japan
Tomohiro Nagasue

W08-4. Clinical features of hemorrhagic gastroduodenal ulcers : The changes in last 10 years
Dept. of Hepatology & Gastroenterology Sch. of Med. Univ., Saitama, Japan
Yoichi Saito

W08-5. The background and treatment results of the elderly patients of bleeding gastric and duodenal ulcer
Second Dept. of Gastroenterology, National Defense Medical College Hospital, Saitama, Japan
Yoshinori Hanawa

W08-6. Clinical usefulness of endoscopic hemostasis for bleeding from gastric tumor
Dept. of Gastroenterology, Hiroshima City Asa Citizens Hospital, Hiroshima, Japan
Taiki Aoyama

W08-7. Assessment of the necessity of emergency endoscopy for colonic diverticular hemorrhage
Dept. of Gastroenterology, Saitama Redcross Hospital, Saitama, Japan
Hirosato Doi

W08-8. Current status of diagnosis method for obscure gastrointestinal bleeding using CT enteroclysis/enterography
Dept. of Gastroenterology and Hepatology, Yamaguchi University Graduate School of Medicine, Yamaguchi, Japan
Shinichi Hashimoto

W08-9. Efficacy of endoscopic hemostasis with hemostatic forceps for acute hemorrhagic rectal ulcer
Tane General Hospital, Dept. of Gastroenterology, Osaka, Japan
Eisuke Nakao

W08-10. A new treatment method for diverticular hemorrhage with detachable snare
Div. of endoscopic center, University of Tsukuba Hospital, Ibaraki, Japan
Toshiaki Narasaki

W08-11. Endoscopic hemostasis by using gel immersion endoscopy
Div. of Gastroenterology, Dept. of Medicine, Jichi Medical University, Tochigi, Japan
Manabu Nagayama

W08-12. New closure method for a large mucosal defect after colonic ESD in terms of prevention of postoperative bleeding
Cancer Center, School of Medicine, Keio University, Tokyo, Japan
Osamu Goto

W08-13. Endoscopic band ligation (EBL) method using PCF-PQL/I for colonic diverticulum bleeding
Div. of Gastroenterology, Sch. of Med. St. marianna Univ, Kanagawa, Japan
Yoshinori Sato
W08–14. Study of the effectiveness of the OTSC for refractory gastrointestinal bleeding cases
Yokkaichi Municipal Hospital, Japan  Arata Kobayashi

W08–15. Evaluation of upper gastrointestinal bleeding in patients with DAPT and NOAC user
Gastrointestinal Endoscopy Center, Osaka Medical College Hospital, Osaka, Japan  Toshihisa Takeuchi

W08–16. The current state of the frequency of gastrointestinal bleeding and the reasons of endoscopy in patients taking NOAC
Dept. of Gastroenterology, Sch. of Med., Fujita Health Univ., Toyoake, Japan  Tomoyuki Shibata

Special Remarks
Dept. of Gastroenterology, Dokkyo Medical Univ., Tochigi, Japan  Hideyuki Hiraishi
Workshop 9

Progress of EUS/EUS-FNA diagnosis of gastrointestinal diseases

May 13(Fri) 9:00~11:30
Room6 (Zuiko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Mitsuhiro Kida
Dept. of Gastroenterology Kitasato University School of Medicine, Japan
Taketo Yamaguchi
Chiba Cancer Center, Japan

W09-1. Diagnostic accuracy for gastrointestinal submucosal tumors evaluated by EUS
Dept. of Center for Epidemiology and Preventive Medicine, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan
Niimi Keiko

W09-2. Utility of contrast–enhanced harmonic EUS for the diagnosis of pancreatic tumors
First Dept. of internal medicine, University of Yamanashi, Yamanashi, Japan
Mitsuharu Fukasawa

W09-3. Contrast-enhanced harmonic EUS for diagnosis of pancreatic lesions
Dept. of Gastroenterology and Hepatology, Kinki University School of Medicine, Osaka, Japan
Tomohiko Matsuda

W09-4. Contrast-enhanced endoscopic ultrasonography with time intensity curve analysis for diagnosing IPMN
Dept. of Gastroenterology and Hepatology, Okayama University Hospital, Okayama, Japan
Naoki Yamamoto

W09-5. Novel technique for the quantitative diagnosis of tissue elasticity using newly developed EUS
Dept. of Endoscopy, Nagoya University Hospital, Nagoya, Japan
Yoshiki Hirooka

W09-6. Is slow pull technique effective in EUS-FNA? –Results from both experimental and clinical studies
Center for Gastroenterology, Teine–Keijinkai Hospital, Japan
Toshifumi Kin

W09-7. FNA 19g tissue collection needle Examination of multicenter prospective randomized controlled trials subgroup analysis
First Dept. of Internal Medicine, Gifu University Hospital, Japan
Akinori Maruta

W09-8. EUS guided fine needle aspiration versus ProCore biopsy in the evaluation of gastric submucosal tumor
Dept. of Gastroenterology Kitasato University School of Medicine, Japan
Tomohisa Iwai

W09-9. Clinical benefit of EUS-guided FNA for biliary disease
2nd Dept. of Internal Medicine, Osaka Medical College, Japan
Saori Onda

W09-10. Does EUS-FNA change the management for lung cancer?
Dept. of Gastroenterology, Teikyo Univ. Mizonokuchi Hospital, Tokyo, Japan
Masatoshi Mabuchi

W09-11. Examination of EUS-FNA for intraperitoneal, retroperitoneal, and mediastinal mass
Dept. of Internal Medicine, Toyama Prefectural Central Hospital, Toyama, Japan
Masaaki Yano

W09-12. Results and problems of EUS-FNA using Rapid On–Site cytological evaluation (ROSE)
Japanese foundation for cancer research, Tokyo, Japan
Ryo Kanata

W09-13. Clinical trial of liquid based cytology for preparation of pancreatic cell samples obtained by EUS-FNA
Div. of Gastroenterology, Dept. of Medicine, Sch. of Med. Kurume Univ., Fukuoka, Japan
Yusuke Ishida

W09-14. The utility and limitation of Target sample check illuminator for EUS-FNA samples
Div. of Medicine and Clinical Science, Faculty of Medicine, Tottori University, Yonago, Japan
Soichiro Kawata

Gastroenterological Endoscopy
W09–15. Human equilibrative nucleoside transporter-1 expression in EUS–FNAB samples is a strong predictor of pancreatic cancer  
Gastroenterology and Hepatology, Mie University Graduate School of Medicine, Mie, Japan  
Reiko Yamada

Dept. of Gastroenterology, Chiba Cancer Center, Chiba, Japan  
Kentaro Sudo

Special Remarks  
Dept. of Gastroenterology, Kyoto Second Red Cross Hospital, Japan  
Kenjiro Yasuda
Workshop10

Endoscopic practice for functional gastrointestinal diseases

May 13(Fri)  9:00~11:30
Room7 (Kyokko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Kunio Kasugai
Dept. of Gastroenterology, Aichi Medical University School of Medicine, Japan
Yoshisasa Urita
Dept. of General Medicine and Emergency Care, Toho University Omori Medical Center, Japan

W10-1. The physiological function and mucosal atrophy of the stomach
Saitama Medical Center, Saitama Medical University, Japan Kenjiro Hayashi

W10-2. Investigation of the relationship between functional dyspepsia like symptoms and endoscopic findings
Dept. of Gastroenterology, Kyoto Kuramaguchi Medical Center, Kyoto, Japan Ryusuke Horie

W10-3. Response to air insufflation in patients with FD
Toho college of health sciences, Japan Tsuyoshi Suzuki

W10-4. Possible association with endoscopic findings and efficacy of acotiamide in patients with functional dyspepsia
Dept. of Internal Medicine, Teikyo Univ. Sch. of Med., Tokyo, Japan Takatsugu Yamamoto

W10-5. Evaluation for functional gastrointestinal disorder using capsule endoscopy : What is clinical benefit?
Office of Postgraduate Medical Education, Yokohama City University Hospital, Yokohama, Japan Masahiko Inamori

W10-6. A new evaluation method of motility of small bowel using capsule endoscopy
Dept. of Gastroenterology and Hepatology, Gunma University Hospital, Maebashi, Japan Shingo Ishihara

W10-7. Impact of EUS for diagnosis of the patients with functional dyspepsia accompanying with mild chronic pancreatitis
Div. of Gastroenterology, Nippon Medical School, Tokyo, Japan Satomi Hashimoto

W10-8. The study of functional correlation between pancreas and jejunum using small bowel endoscope with magnifying function
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan Tomoaki Takeyama

Div. of Gastroenterology, Dept. of Internal medicine, Kobe Univ., Kobe, Japan Seiji Fujigaki

W10-10. Long-term outcomes after endoscopic sphincterotomy for pancreatic sphincter of Oddi dysfunction
Dept. of Internal Medicine, Div. of Gastroenterology and Hepatology, Keio University School of Medicine, Tokyo, Japan Eisuke Iwasaki

Dept. of Gastroenterology, Fujita Health Univ., Sch. of Med., Aichi, Japan Tomomitsu Tahara

W10-12. Positioning of bile acid malabsorption in FGIDs : "Effect of bile-acid-binding resin on refractory IBS-D"
Dept. of General Medicine and Emergency Care, Sch. of Med., Toho Univ., Tokyo, Japan Hiroaki Zai

Gastroenterological Endoscopy
W10-13. Diagnosis of intestinal spirochetosis by endoscopy, a differential diagnosis from diarrhea predominant IBS
Dept. of internal medicine, National Defense Medical College, Saitama, Japan
Hirotaka Furuhashi

W10-14. Difficulty of colonoscopic insertion is associated with functional bowel disorders
Dept. of Gastroenterology and Hepatology Hokkaido University Graduate School of Medicine, Sapporo, Japan
Masayoshi Ono

W10-15. Endoscopic findings of Celiac Artery Compression Syndrome
Dept. of General Medicine, Kawasaki Medical School, Kurashiki, Japan
Hiroaki Kusunoki

W10-16. The role of mechanical stress and frequency of fibromuscular hyperplasia in the gastric mucosa with GAVE
Hiroaki University, Graduate School of Medicine, Community Medicine, Hirosaki, Japan
Hidezumi Kikuchi

W10-17. Endoscopic visualization of the deep layer of GI wall
Dept. of Internal Medicine, The Jikei University School of Medicine, Tokyo, Japan
Masakuni Kobayashi

Special Remarks
Dept. of Internal Medicine, Div. of Gastroenterology and Hepatology, Keio University School of Medicine, Japan
Hidekazu Suzuki
Workshop 11

The promotion of gender equality in gastrointestinal endoscopy: Present situation and the next steps for improvement.

May 13 (Fri) 14:00～16:30
Room 7 (Kyokko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Akiko Shiotani
Div. of Gastroenterology Dept. of Internal Medicine, Kawasaki Med. School, Japan
Tadashi Sato
First Dept. of internal medicine, University of Yamanashi, Japan

W11-1. The differences of work condition between Japan and USA
Dept. of Cancer Survey and Gastrointestinal Oncology, Osaka Medical Center for Cancer and Cardiovascular Diseases, Japan
Reiko Ashida

W11-2. The present conditions and the prospects of the specialist in endoscope in the university hospital for women
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, St. Marianna University School of Medicine, Japan
Miki Hattori

W11-3. Gender differences of current state of gastrointestinal endoscopist, problems in the promotion of gender equality
Dept. of Gastroenterology, Osaka City General Hospital, Osaka, Japan
Hiroko Nebiki

W11-4. Present situation and support system of women doctors in bilio-pancreatic medicine
Dept. of Gastroenterology and Hepatology, Yamaguchi Univ. Graduate School of Medicine, Yamaguchi, Japan
Seiji Kaino

W11-5. Rate of women's gastrointestinal specialist of Cancer Institute Hospital
Dept. of Gastroenterology, Cancer Institute Hospital, Tokyo, Japan
Junko Fujisaki

W11-6. The Road to get certified as a Specialist, Caring for 5 kids and 16 Years after Graduation
Dept. of gastroenterology, National Hospital Organization Minamiwakayama Medical Center, Wakayama, Japan
Makiko Kinoshita

W11-7. The child care shorter working hours system by male doctor. Present situation and problems from questionnaire survey
Div. of Gastroenterology, National Hospital Organization Minamiwakayama Medical Center, Wakayama, Japan
Ikuharu Kinoshita

W11-8. Career support for women gastroenterological endoscopists
Career Development Center, Yamaguchi University Hospital, Ube, Japan
Fumie Kurokawa

W11-9. Education and Training System for Female Endoscopists will bring a Brighter Future
National Hospital Organization Kyushu Medical Center, Div. of Endoscopy and Endoscopic Surgery, Japan
Naohiko Harada

W11-10. Endoscopic training efforts in women doctors return to work support
Dept. of Gastroenterology, Okayama City Okayama Citizens Hospital, Okayama, Japan
Masahide Kita

W11-11. Professional reentry support and digestive endoscopy training for female physicians
Institute of Gastroenterology, Tokyo Women's Medical University
Shinichi Nakamura
Special Remarks
Dept. of Gastroenterology and Hepatology, Saitama Medical Center, Saitama Medical University, Japan
Sumiko Nagoshi
Workshop12

Current status of gastrointestinal endoscopy and equipments for next generation

May 14(Sat) 9:00～11:30
Room1 (Hiten, Grand Prince Hotel New Takanawa B1F)

Moderators: Yuko Kitagawa
Dept. of Surgery, Keio University School of Medicine, Japan
Takao Itoi
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan

W12-1. R&D of accessory devices to bridge gaps between flexible endoscopy and laparoscopy
Div. of Next Generation Endoscopic Intervention, Osaka University, Osaka, Japan  Kiyokazu Nakajima

W12-2. Organizing an industry-academia collaboration for R&D of medical devices for minimally invasive endoscopic treatment
Dept. of Surgery, Keio Univ. Sch. of Med., Tokyo, Japan  Norihiro Wada

W12-3. Computer-aided diagnosis for gastrointestinal cancer from endoscopic image by using wavelet transform
Dept. of Internal Medicine, Saga Medical School, Saga, Japan  Yasuhisa Sakata

W12-4. Development of Extra-wide-angle-view colonoscope
Dept. of Gastroenterology, National Hospital Organization Tokyo Medical Center, Japan  Toshio Uraoka

W12-5. Development of The Endoscopic Operation Robot
3rd Dept. of Internal Medicine, UOEH, Kitakyushu, Japan  Keiichiro Kume

W12-6. Computer aided diagnosis system for endocytoscopy with narrow band imaging
Digestive Disease Center, Showa University Northern Yokohama Hospital  Masashi Misawa

W12-7. Reduced port surgery using a short-type flexible endoscope
Dept. of Surgery, Kyorin university School of Medicine, Japan  Nobutsugu Abe

W12-8. Endoscopic submucosal dissection (ESD) using head-mounted display (HMD)
Dept. of Gastroenterology and Hepatology, Prefectual Amagasaki General Medical Center, Hyogo, Japan  Toshiyuki Morisawa

W12-9. Usefulness of prototype multi-bending peroral direct cholangioscope 3rd(MB- PDCS 3rd)
Div. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan  Nobuhiro Ikeuchi

W12-10. Evaluation of Endoscopic therapy using newly developed short double balloon endoscopy in post-operative patients
The Third Dept. of Internal Medicine  Div. of Gastroenterology and Hepatology  Kansai Medical University, Osaka, Japan  Masaaki Shimatani

Special Remarks
Dept. of Gastroenterological Surgery, School of Medicine, Tokai University, Japan  Soji Ozawa
Workshop13

Endoscopic treatment by practicing doctors: Current state and issues

May 14(Sat) 9:30~11:30
Room2 (Keiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Kazumichi Harada
Harada Hospital, Japan
Nobuto Hirata
Dept. of Gastroenterology, Kameda Medical Center, Japan

Keynote Lecture

Director General, Tada Gastroenterological Clinic, Japan  Masahiro Tada

W13-1. The present status of gastrointestinal endoscopy in one medical clinic
Oizumi Gastrointestinal Clinic, Yamagata, Japan  Harufumi Oizumi

W13-2. Contributing to the community healthcare through gastric cancer risk screenings
Masuyama Gastrointestinal Clinic, Tochigi, Japan  Hironori Masuyama

W13-3. Lidocaine spray alone vs viscous combination in pharyngeal anesthesia of transoral endoscopy for pharyngeal observation
Dept. of Gastroenterology, Sch. of Med. Kanzawa Univ., Ishikawa, Japan  Yohei Waseda

W13-4. Safety measure for endoscopic invasive procedure
Dept. of Gastroenterology, Toranomon Hospital, Tokyo, Japan  Daisuke Kikuchi

W13-5. Clinical study on performing upper GI biopsy with small cup biopsy forceps in patients receiving antithrombotic agents
Dept. of Gastroenterology, Kagawa Prefectural Central Hospital, Takamatsu, Japan  Shigenao Ishikawa

W13-6. Precision management in the practical medical doctor participating in gastroscope examination
Ohno Internal Medicine Clinic, Kanzawa, Japan  Hideki Ohno

Oita university faculty of medicine Dept. of gastroenterology, Oita, Japan  Mitsutaka Shuto

W13-8. Gastric mucosa evaluation and Helicobacter pylori infection diagnosis: Essential skills for endoscopic practitioners
Inui Clinic of Internal Medicine, Takasaki, Gunma, Japan  Masayuki Inui

W13-9. Efficacy of 1.2L-method with polyethylene glycol electrolyte with ascorbic acid for bowel preparation for colonoscopy
Div. of Gastroenterology, Takamatsu Red Cross Hospital, Kagawa, Japan  Hiroyuki Tamaki

W13-10. The introduction of clean colon and cold polypectomy at Kameda Medical Center
Dept. of Gastroenterology, Kameda Medical Center, Chiba, Japan  Tatsuo Morinushi

W13-11. Cold sanre polypectomy reducted the hemorrhage after polypectomy for colorectal tumor
Ichikubo clinic, Japan  Tsutomu Ishikubo

Special Remarks

Municipal Tsuruga Hospital, Japan  Manabu Yoneshima

Gastroenterological Endoscopy
Workshop14

The assignment and future prospects of the metallic stent for gastrointestinal stenosis

May 14(Sat) 9:00～11:30
Room3 (Hakuun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Simada Hideo
Dept. of Surgery, Tokai University Oiso Hospital, Japan
Iruru Maetani
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, Toho University, Ohashi Medical Center, Japan

W14-1. Problems and Possibility of Self-expandable Metallic Stent for Advanced Esophageal Cancer
Tokai University Tokyo Hospital, Dept. of Surgery, Tokyo, Japan  Tomoko Hanashi

W14-2. The outcome of esophageal stenting for malignant esophageal stenosis
Dept. of Gastroenterology, Aichi Cancer Center Hospital, Nagoya, Japan  Hirotaka Suzuki

W14-3. Factors Predicting Through-the-Scope Gastroduodenal Stenting Outcomes in Patients with Gastric Outlet Obstruction
Dept. of Gastroenterology and Hepatology, Kinki University School of Medicine, Osaka-sayama, Japan  Kentaro Yamao

The Dept. of Gastroenterology, Graduate School of Medicine, Chiba University, Japan  Harutoshi Sugiyama

W14-5. Endoscopic duodenal stent placement vs. Surgical gastrojejunostomy for GOO in patients with advanced pancreatic cancer
First Dept. of Internal Medicine, Gifu University Hospital, Gifu, Japan  Shinya Uemura

W14-6. Treatment results of endoscopic double stenting for malignant biliary and duodenal obstruction due to pancreatic cancer
Center for Gastroenterology, Okayama University, Okayama, Japan  Kazuyuki Matsumoto

W14-7. Evaluation of second stent for malignant gastric outlet obstruction
Dept. of Gastroenterology, yokohama city university medical center, Japan  Tomohiro Ishii

W14-8. Stage 4 gastric cancer patients with gastric outlet obstruction performed conversion surgery after SEMS and chemotherapy
Dept. of Gastroenterology, The University of Tokyo, Tokyo, Japan  Yumiko Ota

W14-9. The efficacy and safety of the self-expandable metallic stent placement for malignant colorectal obstruction
Div. of gastroenterology, Saiseikai Yokohama–shi Nanbu Hospital, Yokohama, Japan  Rika Kyo

W14-10. Examination about the usability of the colonic stent as Bridge to Surgery for obstructive colorectal cancer
Dept. of Gastroenterology, Saku Central Hospital Advanced Care Center, Nagano, Japan  Takahiro Yamada

W14-11. Clinical outcomes of palliative self-expanding metallic stents
Dept. of Gastroenterology, Kimitu Chuo Hospital, Kisarazu City, Chiba, Japan  Tatsuya Fujimoto

Gastroenterological Endoscopy
W14–12. Palliative stent placement for malignant colorectal obstruction: comparison in colonic versus extra-colonic malignancy
Dept. of Endoscopy and Endoscopic Surgery, The University of Tokyo, Japan Shuntaro Yoshida

W14–13. Efficacy and safety of endoscopic colonic stenting: a retrospective comparison of Wall Flex stent and Niti-S stent
Kure medical center and Chugoku cancer center, Dept. of Gastroenterology, Hiroshima, Japan Sumio Iio

Special Remarks
Dept. of Surgery, Toho University Ohashi Medical Center, Japan Yoshihisa Saida
Workshop15

Endoscopic diagnosis and treatment of acute and chronic pancreatitis: Current state and future prospects

May 14 (Sat) 9:00~11:30
Room6 (Zuiko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Yoshinori Igarashi
Div. of Gastroenterological and Hepatology, Toho University Omori Medical Center
Yoshiaki Kawaguchi
Dept. of Gastroenterology, Tokai University School of Medicine, Japan

W15-1. Medical treatment for pancreatic stone in our hospital
Dept. of Gastroenterology and Metabolism, Hiroshima University Hospital, Hiroshima, Japan
Teruo Mouri

W15-2. Efficacy of endoscopic treatment concurrent with extracorporeal shock wavellithotripsy for pancreatic stones
Dept. of Gastroenterology and Metabolism, Nagoya City University Graduate School of Medical Sciences, Nagoya, Japan
Hiromu Kondo

W15-3. Endoscopic treatment of pancreatolithiasis with pseudocyst
Dept. of Gastroenterology, Second Teaching Hospital, Fujita Health University, Nagoya, Aichi, Japan
Satoshi Yamamoto

W15-4. Endoscopic Treatment of chronic pancreatitis: Current state in our hospital
Div. of Gastroenterology And Hepatology, Toho University Omori Medical Center, Tokyo, Japan
Kensuke Takuma

W15-5. Our treatment strategy for severe refractory pancreatic duct stricture associated with chronic pancreatitis
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan
Saburo Matsubara

W15-6. Treatment for pancreatic duct stones and pancreatic duct stricture in chronic pancreatitis
Dept. of gastroenterology, Gifu Prefectural General Medical Center, Gifu, Japan
Keisuke Iwata

W15-7. Clinical impact of 6mm covered metallic stent placement for pancreatic duct stenosis due to chronic pancreatitis
Second Dept. of Internal Medicine, Osaka Medical College, Japan
Takeshi Ogura

W15-8. Analysys of Endoscopic transpapillary cyst drainage and EUS–guided cyst drainage for chronic pancreatic pseudocyst
Dept. of Gastroenterology and Nephrology, Chiba University Graduate School of Medicine, Chiba, Japan
Rintaro Mikata

W15-9. Endoscopic treatment strategy of pancreatic pseudocyst and walled–off necrosis
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan
Shuntaro Mukai

W15-10. Outcome of endoscopic drainage for cystic lesions of Pancreas in our hospital
Dept. of Gastroenterology, Sch. of Med. Tokay Univ., Isehara, Japan
Yohei Kawashima

W15-11. Treatment Results of EUS–guided Transluminal Drainage for Pancreatic and Peripancreatic fluid collection
Dept. of Gastroenterology, Okayama University Hospital, Okayama, Japan
Syo Mizukawa
W15–12. Endoscopic therapeutic strategy for local complications with pancreatitis
Div. of Gastroenterology, Dept. of Internal Medicine, Graduate Sch. of Med., Kobe Univ., Kobe, Japan
Hideyuki Shiomi

W15–13. Current state of endoscopic necrosectomy for pancreatic necrosis
Div. of Gastroenterology, Sch. of Med., Tohoku Univ., Sendai, Japan
Kiyoshi Kume

W15–14. Clinical outcomes of step-up approach for walled-off necrosis and risk factors for failed endoscopic treatment
Dept. of Gastroenterology and Hepatology, Kinki University Faculty of Medicine, Osaka, Japan
Kosuke Minaga

Special Remarks
The Third Dept. of Internal Medicine Div. of Gastroenterology and Hepatology Kansai Medical University, Japan
Kazuichi Okazaki
Video Workshop 1

Device for colonoscopy insertion

May 12(Thu) 14:00~16:30
Room1 (Hiten, Grand Prince Hotel New Takanawa B1F)

Moderators: Masahiro Igarashi
Endoscopy Division, Cancer Institute Hospital, Japan
Seiji Shimizu
Dept. of Gastroenterology, Osaka General Hospital of West Japan Railway Company, Japan

VW1-1. Master the innermost secret of insertion method and tactics. ~Can you really?~
Digestive disease center, Akita red cross hospital, Akita, Japan Hiro-o Matsushita

VW1-2. The technique of colonoscopy without pain
Institute of Gastroenterology, Tokyo Women’s Medical University, Japan Yuji Inoue

VW1-3. Devised in order to learn the colonoscopy insertion method (non loop method)
Karube Hospital, Ibaraki, Japan Tomoaki Karube

VW1-4. Powerless colonoscopy
Div. of Internal medicine, Izumo-City General Medical Center, Shimane, Japan Mika Yuki

VW1-5. The results of performance of the PCF-PQ260L scope in our hospital
Dept. of Gastrointestinal Endoscopy, National Cancer Center, Tokyo, Japan Hiroki Kuwabara

VW1-6. Efficacy of the thin endoscope for difficult insertion and stenosis in colonoscopy
Div. of Gastroenterology, Showa University Fujigaoka Hospital, Kanagawa, Japan Yuichiro Kuroki

VW1-7. Closing eyes and position conversion and self–abdominal pressure help colonoscopic insertion in difficult cases
Endoscopy Center, NHO Kurihama Medical and Addiction Center, Japan Takeshi Mizukami

VW1-8. The availability of insertion technique in Endocuff assisted colonoscopy
Dept. of Gastroenterology, KKR Hirakata Kousai Hospital, Japan Shuji Kitaoka

VW1-9. Colonoscope Insertion using endocuff
Dept. of General Internal Medicine, Saitama Medical University, Saitama, Japan Minoru Yamaoka

VW1-10. Clinical impact of endoscopy position detecting unit (UPD-3) for a non–sedated colonoscopy
Dep. of Gastroenterology and Hepatology, Tokyo Medical University Hachioji medical center, Tokyo, Japan Masakatsu Fukuzawa

VW1-11. Easy colonoscopy insertion method using abdominal manipulation with collaboration of doctros and endoscopy technicians
Div. of Gastroenterology, Coloproctology Center, Takano Hospital, Kumamoto, Japan Ryoichi Nozaki

VW1-12. Teaching method and objective evaluation of the colonoscopic insertion technique for trainee
Div. of Endoscopy, Shizuoka Cancer Center, Shizuoka, Japan Sayo Ito

VW1-13. The training system of colonoscopy in consideration of endoscopic treatment
Dept. of gastroenterology NTT Medical Center Tokyo, Japan Takashi Muramoto

Gastroenterological Endoscopy
Special Remarks
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Japan  Yoshihiro Sakai
Video Workshop 2

Overcoming current issues and pursuing new developments in upper GI EMR/ESD

May 12(Thu) 14:00~16:30
Room4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Mitsuhiro Fujishiro
Dept. of endoscopy and endoscopic surgery, The Tokyo University, Japan
Hiroyuki Ono
Div. of Endoscopy, Shizuoka Cancer Center, Japan

VW2-1. Validity and problem of ESD for entire circumferential esophageal carcinoma
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan  Yoji Sanomura

VW2-2. The efficacy of polyglycolic acid sheets and fibrin glue for preventing stricture after esophageal ESD
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan  Yosuke Tsuji

VW2-3. Triamcinolone acetonide–filling method for the prevention of esophageal stenosis after ESD
Dept. of Gastroenterology, Faculty of Medicine, Shimane University, Izumo, Japan  Kotoh Shigabaki

VW2-4. Predictors and Measures for treating difficult cases in gastric ESD
Div. of Endoscopy, Shizuoka Cancer Center, Shizuoka, Japan  Tomohiro Iwai

VW2-5. Double–scope ESD for the treatment of early gastric cancer difficult to manage by conventional ESD
Dept. of Gastroenterology, Sch. of Med. Kitasato Univ., Sagamihara, Japan  Takaumi Yanag

VW2-6. Pretreatment gastric lavage reduces postoperative bleeding after ESD for gastric neoplasms
Dept. of gastroenterology and hepatology, Musashino Red Cross Hospital, Japan  Masayuki Kurokami

National Hospital Organization Kyoto Medical Center, Kyoto, Japan  Ken Kumagai

VW2-8. The treatment strategies of superficial non–ampullary duodenal epithelial tumors (SNADET) – EMR, ESD, LECS –
Dept. of Gastroenterology, Kobe University Hospital, Kobe, Japan  Fumiaki Kawara

VW2-9. Evaluation of treatment for superficial non ampullary duodenal tumors
Dept. of Gastroenterology, NTT medical center Tokyo, Tokyo, Japan  Tomoaki Tashima

VW2-10. Efficacy of endoscopic therapy for superficial non–ampullary duodenal epithelial tumors –Short and long term outcomes–
Dept. of Endoscopy, The Jikei University School of Medicine, Japan  Yuko Hara

VW2-11. The superiority in en–bloc and R0 resection of EMRC for non–polypoid non–ampullary duodenal adenoma to conventional EMR
Dept. of Gastroenterology and Nephrology, Grad. Sch. of Med., Chiba Univ., Chiba, Japan  Daisuke Maruoka

VW2-12. Underwater Endoscopic Mucosal Resection of duodenal tumors
Dept. of Gastroenterology, Fukushima Medical University Aizu Medical Center, Aizuwakamatsu, Japan  Goro Shibukawa

VW2-13. Method of device during treatment and prevention of complication after treatment for duodenal ESD
Dept. of Gastroenterology, Takeda General Hospital, Kyoto, Japan  Kengo Takeimoto

Gastroenterological Endoscopy
VW2–14. How to decrease the complications after duodenal ESD
Dept. of Endoscopy, Saku Central Hospital Advanced Care Center, Japan
Nobukazu Yorimitsu

VW2–15. Duodenal ESD using SB knife
Dept. of Therapeutic Endoscopy, Nihonkai General Hosp., Ymagata, Japan
Kiyoaki Homma

VW2–16. A new training model made of non–biological material for Endoscopic submucosal dissectio
Dept. of Endoscopy, Niigata University Medical and Dental Hospital, Niigata, Japan
Kenichi Mizuno

VW2–17. Development of next generation technology for endoscopic submucosal dissection using carbon dioxide laser
Dept. of Gastroenterology, Kobe Univ. Sch. of Med., Kobe, Japan
Yoshinori Morita

Special Remarks
Dept. of Endoscopy, Saku Central Hospital Advanced Care Center, Japan
Tsuneo Oyama
Video Workshop 3

Progress in the diagnosis and treatment of biliary and pancreatic tumors: Measures for treating difficult cases

May 13 (Fri) 9:00~11:30

Room 4 (Suiun, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F)

Moderators: Kazuo Inui
Dept. of Gastroenterology, Second Teaching Hospital, Fujita Health University, Japan
Keiji Hanada
Dept. of Gastroenterology, Onomichi General Hospital, Japan

VW3-1. Are there any feasible EUS findings to predict difficult-to-cannulate ERCP cases?
Section of Digestive Diseases, Dept. of Internal Medicine, Okinawa Chubu Hospital, Okinawa, Japan
Susumu Shinoura

VW3-2. Strategies for diagnosing early pancreatic carcinoma—review of small pancreatic carcinoma including carcinoma in situ—
Dept. of Gastroenterology, Onomichi General Hospital, Japan
Tomoyuki Minami

VW3-3. Diagnostic yield of EUS–FNA in patients with suspected recurrence of pancreaticobiliary cancer after surgical resection
Center for Gastroenterology, Teine–Keijinkai Hospital, Japan
Kei Yane

VW3-4. Diagnostic accuracy of lavage cytology combined with cholangioscopic targeted biopsy for indeterminate biliary lesions
Dept. of Gastroenterology, Aso Iizuka Hospital, Iizuka, Japan
Yasuaki Motomura

VW3-5. Single-center experience of direct peroral cholangioscopy
Digestive disease center, Takeda General Hospital, Kyoto, Japan
Dai Tamaki

VW3-6. A contrivance of endoscopic papillectomy for lateral spreading type ampullary adenomas
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan
Kenjiro Yamamoto

VW3-7. Treatment results and reinterventions of Covered SEMS for unresectable malignant biliary obstructions
Dept. of Gastroenterology, Gifu Municipal Hosp., Gifu, Japan
Tsuyoshi Mukai

VW3-8. ERCP using a short single-balloon enteroscope and interventional EUS in patients with surgically altered anatomy
Dept. of Gastroenterology, Sendai City Medical Center, Sendai, Japan
Kaori Masu

VW3-9. Endoscopic drainage for malignant biliary stenosis with altered gastrointestinal anatomy
Saitama Medical University, International Medical Center, Dept. of Gastroenterology, Saitama, Japan
Kumiko Taba

VW3-10. Comparison of the clinical impact of EUS–CDS and EUS–HGS for bile duct obstruction with duodenal obstruction
2nd Dept. of Internal Medicine, Osaka Medical College, Japan
Takeshi Ogura
Doctor E Session 1

Esophagus, stomach and duodenum

May 12(Thu) 14:00～16:30
Room8 (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Nobuhiro Saksai
Foundation for Detection of Early Gastric Carcinoma, Japan
Kenshi Yao
Dept. of Endoscopy, Fukuoka University Chikushi Hospital, Japan
Yasuo Ohkura
Pathology & Cytology Center Kawagoe Laboratory, PCL JAPAN, INC, Japan

Radiologist: Yuki Maeda
Sendai City Medical Center, Miyagi, Japan
Yoichiro Ono
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Fukuoka, Japan
Kohei Matsumoto
Juntendo University School of Medicine, Dept. of Gastroenterology, Tokyo Japan
Takao Kanemitsu
Sada Hospital, Dept. of Gastroenterology, Fukuoka, Japan
Kunihisa Uchita
Dept. of Gastroenterology, Kochi Red Cross Hospital, Kochi, Japan

Case Presentation-1.
Dept. of Gastroenterology, Saitama cancer center, Saitama, Japan  Miwako Arima

Case Presentation-2.
Osaka Medical Center for Cancer and Cardiovascular Diseases, Gastroenterological Oncology, Osaka, Japan  Ryu Ishihara

Case Presentation-3.
Juntendo University School of Medicine, Dept. of Gastroenterology, Tokyo Japan  Hiroya Ueyama

Case Presentation-4.
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Fukuoka, Japan  Haruhiko Takahashi

Case Presentation-5.
Dept. of Gastroenterology, Ishikawa prefectural central hospital, Ishikawa, Japan  Hisashi Doyama
Doctor E Session 2

Biliary tract and pancreas

May 13(Fri) 9:00~11:30
Room8 (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Hiroyuki Maguchi
Center for Gastroenterology, Teine-Keijinkai Hospital, Japan
Hiroyuki Isayama
Dept. of Gastroenterology, The University of Tokyo, Japan

Pathological Commentator: Kenichi Hirabayashi
Pathological Diagnosis, Tokai University, Japan

Radiologist: kanno atsushi
Div. of Gastroenterology, Tohoku University Graduate School of Medicine, Japan
Takayoshi Tsuchiya
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan
susumu hijioka
Dept. of Gastroenterology, Aichi Cancer Center Hospital, Nagoya, Japan
masatake kikuyama
Dept. of Gastroenterology, Shizuoka General Hospital, Japan

Case Presentation-1.
Center for Gastroenterology Teine-Keijinkai Hospital, Hokkaido, Japan Koh Kitagawa

Case Presentation-2.
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan Suguru Mizuno
Doctor E Session 3

Small and large intestines

May 13(Fri) 14:00~16:30
Room8 (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Shinsaku Fukuda
Dept. of Gastroenterology and Hematology, Hirosaki University, Japan
Noriyuki Horiki
Dept. of Endoscopy, Mie University Hospital, Japan
Yoichi Ajioka
Div. of Clinical Pathology, School of Medicine, Niigata University, Japan

Radiologist: Takashi Ibuka
Dept. of Gastroenterology, Gifu University School of Medicine, Gifu, Japan
Tsuyoshi Tsui
Dept. of Gastroenterology, Akita City Hospital, Akita, Japan
Hisashi Shiga
Dept. of Gastroenterology, Akita University Graduate School of Medicine, Akita, Japan
Satoshi Osawa
Dept. of Endoscopy, Hamamatsu University School of Medicine, Shizuoka, Japan

Case Presentation–1.
Div. of Gastroenterology, Dept. of Internal Medicine, Iwate Medical University, Japan Keisuke Kawasaki

Case Presentation–2.
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan Masanao Nakamura

Case Presentation–3.
Dept. of Endoscopic Medicine, Mie University Hospital, Tsu, Japan Takahiko Hamada

Case Presentation–4.
Div. of Gastroenterology and Hematology, Dept. of Graduate School of Medicine, Hirosaki University, Aomori, Japan Manabu Sawaya
Plenary Session 1

Pancreatobiliary

May 12(Thu) 10:24~11:44
Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)

Moderators: Naoki Sasahira
Dept. of Gastroenterology, The Cancer Institute Hospital of Japanese Foundation for Cancer Research, Japan

Naoki Okano
Div. of Gastroenterology and Hepatology, Toho University Omori Medical Center, Japan

PL1-1. Analysis of the risk factor for bleeding after endoscopic sphincterotomy in patients administrated antithrombotic drug
Fujita Health Univ., Banbuntanehoutokukai Hospital, Gastroentology, Nagoya, Japan
Hironao Matsuura

PL1-2. Effect of preoperative biliary drainage on postoperative complication after chemoradiation therapy for pancreatic cancer
Dept. of Endoscopic Medicine, Mie University Hospital, Tsu, Japan
Shunsuke Tano

PL1-3. Usefulness of low axial force covered self-expandable metallic stent for distal malignant biliary obstruction
Dept. of Gastroenterology, Kitasato Univ., Kanagawa, Japan
Masafumi Watanabe

PL1-4. Investigation for predictive factors of malignancy in patients with main duct type IPMN
Sendai City Medical Center, Japan
Yoshiharu Masaki

PL1-5. Utility of sedation using Dexmedetomidine hydrochloride in ERCP cases of our hospital
Gastroenterology, Kagawa prefectural central hospital, Kagawa, Japan
Ichiro Sakakihara

PL1-6. A study of the safety of the sedative used during ERCP Associated Procedures enforcement for the elderly
Gastroenterology, Yamaguchi univ., Yamaguchi, Japan
Michitaka Kawano

PL1-7. Utility of convex EUS for preoperative evaluation of cholangiocarcinoma
Dept. of Gastroenterology, Aichi Cancer Center Hospital, Nagoya, Japan
Akahi Fujita

PL1-8. Prospective multicenter study on the usefulness of EUS-FNB for the diagnosis of autoimmune pancreatitis
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan
Tomomasa Morishima

PL1-9. The usefulness of EUS-FNA for the diagnosis of pancreatic neuroendocrine tumors. follow up report
Div. of Gastroenterology, Tohoku University Graduate School of Medicine, Japan
Atsushi Kanno

PL1-10. Utility of EUS-FNA for biliary tract lesion
Dept. of Gastroenterology, Murakami Memorial Hospital, Gifu, Japan
Yasuhiro Ohshima

Gastroenterological Endoscopy
Plenary Session 2

Small intestine

May 13(Fri) 14:00~14:48
Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMiR 1F)

Moderators: Haruhioko Ogata
Center for Diagnostic and Therapeutic Endoscopy, Keio University School of Medicine, Japan
Shunji Fujimori
Dept. of Gastroenterology, Chiba Hokusou Hospital, Nippon Medical School, Japan

PL2-1. Enteral stenting for obstruction of the surgically-reconstructed intestine and small bowel
Dept. of Gastroenterology and Hepatology, St. Marianna Univ. Sch. of Med., Kawasaki, Japan Kazunari Nakahara

PL2-2. Analysis of inhibitory action of GLP-1 receptor agonist on gastrointestinal motility using Capsule Endoscopy
Dept. of Gastroenterology, Utsunomiya National Hospital, Utsunomiya, Tochigi, Japan Mitsunori Maeda

PL2-3. Usefulness of dexmedetomidine for sedation in double-balloon endoscopy
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan Hiroshi Oshima

PL2-4. Usefulness of Balloon-assisted endoscopy for the diagnosis of small bowel lymphomas
Dept. of Gastroenterology, Nippon Medical School, Graduate School of Medicine, Tokyo, Japan Jun Omori

PL2-5. Efficacy of endoscopic ultrasonography under balloon-assisted endoscopy for diagnosing small intestinal tumors
Digestive Endoscopy Center, Sendai Kousei Hospital, Sendai, Japan Tomoki Matsuda

PL2-6. Efficacy of endoscopic metal stent placement for malignant afferent loop obstruction
Dept. of Gastroenterology, Kobe University Hospital, Kobe, Japan Takao Iemoto
Plenary Session 3

Inflammatory bowel disease

May 13 (Fri) 14:48~15:44
Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

Moderators: Yasuo Suzuki
Internal Medicine, Toho University Sakura Medical Center, Japan
Fumiaki Ueno
Center for Gastroenterology and Inflammatory Bowel Disease, Ofuna Chuo Hospital, Japan

PL3-1. Clinical study of 33 patients with Antibiotic–Associated Hemorrhagic Colitis
Digestive Endoscopy Center, TSUYAMA CHUO HOSPITAL, Japan
Kensuke Takei

PL3-2. Comparison of endoscopic assessment of ulcerative colitis disease activity
Div. of Gastroenterology and Hematology/ Oncology, Dept. of Medicine, Asahikawa Medical Univ., Asahikawa, Japan
Masami Ijiri

PL3-3. Mucosal injury in the lower gastrointestinal tract induced by Aspirin and NSAID
Dept. of gastroenterology, Yodogawa Christian Hospital, Japan
Saori Matsui

PL3-4. Early endoscopic findings of Ulcerative colitis associated colorectal cancer
Dept. of Gastroenterology, Tokyo Womens Medical University, Tokyo, Japan
Maria Yonezawa

PL3-5. Consideration of colonoscopy of the introduced case of biologic therapies (IFX/ADM) for ulcerative colitis
Institute of Gastroenterology, Tokyo Women’s Medical University, Japan
Hiroyuki Kashiwagi

PL3-6. Desensitization therapy for 5-ASA intolerant patients with inflammatory bowel disease
Colo-proctology Center Matsushima Clinic, Yokohama, Japan
Koichi Nakajima

PL3-7. Correlation between the endoscopic index and outcomes in acute severe ulcerative colitis
Dept. of Gastroenterology, Saitama Red Cross Hosp., Saitama, Japan
Ryo Chinzei

Gastroenterological Endoscopy
Plenary Session 4

Upper GI Tract

May 14(Sat) 9:00～10:20
Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)

Moderators: Masashi Matsushima
Dept. of Gastroenterological medicine, School of Medicine, Tokai University, Japan
Takuto Hikichi
Dept. of Endoscopy, Fukushima Medical University Hospital, Japan

PL4-1. The treatment strategy of esophageal stricture after complete circular ESD for superficial esophageal cancer
Dept. of Gastroenterology and Hepatology, Nagasaki University Hospital, Nagasaki, Japan
Hiroko Fukuda

PL4-2. The efficacy of steroid injection for stricture after esophageal ESD using propensity score matching
Dept. of Gastroenterology, Osaka City University Graduate school of Medicine, Japan
Yasuaki Nagami

PL4-3. Endoscopic observation for upper gastrointestinal tract
Dept. of Digestive Tract and General Surgery, Saitama Medical Center, Saitama Medical University, Japan
Youichi Kumagai

PL4-4. Histopathological risk factor of gastric carcinogenesis after eradication therapy of H. pylori
Dept. of Gastroenterology, Sch. of Shinshu Univ, Matsumoto, Japan
Junichi Kobayashi

PL4-5. Comparison of short- and long-term period in early gastric cancer after eradication of Helicobacter pylori
Dept. of Gastroenterology, Cancer Institute Hospital, Tokyo, Japan
Kazuhisa Yamaguchi

PL4-6. Risk about antithrombotic drugs and patient background influencing development of bleeding after gastric ESD
Dept. of Medicine, Div. of Gastroenterology and Hepatology, Shinshu University School of Medicine, Matsumoto, Japan
Tomohiro Sekiguchi

PL4-7. Possibility of expanded adoption of endoscopic submucosal dissection for the gastric sub mucosal adenocarcinoma
Dept. of Gastroenterology, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan
Hiroki Osumi

PL4-8. Clinicopathological features of Mixed-type early gastric cancer
Dept. of Gastroenterology, Juntendo University School of Medicine, Tokyo, Japan
Yoichi Akazawa

PL4-9. Sedation with dexmedetomidine versus midazolam for endoscopic submucosal dissection of gastric cancer
Dept. of Gastroenterology, Sch. of Med., Tokai Univ. Kanagawa, Japan
Jin Imai

PL4-10. Usefulness of EUS-FNA with a forward-viewing and curved linear-array echoendoscope for small gastrointestinal SELs
Dept. of Gastroenterology, Fukushima Medical University, Aizu Medical Center, Aizuwakamatsu, Japan
Akane Yamabe

Gastroenterological Endoscopy
Plenary Session 5

Colorectum

May 14(Sat)  10:20~11:40
Room9  (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)

Moderators:  Shunji Ishihara
Dept. of Internal Medicine II, Shimane University Faculty of Medicine, Japan
Fumihito Hirai
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Japan

PL5-1.  Impact of automated diagnostic system by using endocytoscopy for colorectal polyps : an international web-based trial
Digestive Disease Center, Showa University Northern Hospital, Yokohama, Japan  Yuichi Mori

PL5-2.  Examination of CTC for LST of the colorectum
Div. of Gastroenterology, Takano hospital, Kumamoto, Japan  Shinri Hoshiko

PL5-3.  Risk of bleeding after endoscopic submucosal dissection for colorectal tumors in patients with anticoagulant drug
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan  Yuki Ninomiya

PL5-4.  Colonic diverticular bleeding in our hospital
Dept. of Internal Medicine, Tokyo Metropolitan Bokutoh Hospital, Tokyo, Japan  Katsumasa Kobayashi

PL5-5.  Increase in lower gastrointestinal bleeding and colonic diverticular hemorrhage : long-term frequency trend analysis
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Chikushino, Fukuoka, Japan  Ken Kinjo

PL5-6.  Bleeding after colon polypectomy in patients who are receiving antithrombotic therapy
Dept. of Gastroenterology, Second Red Cross Hospital, Kyoto, Japan  Yusuke Okada

PL5-7.  Safety and Efficacy of dexmedetomidine for sedation during colorectal ESD
Dept. of Gastroenterology, Onomichi General Hospital, Onomichi, Japan  Koichi Nakadoi

PL5-8.  Innovative fluorescent imaging for colorectal tumors - Evaluation of GGT using immunohistochemistry
Endoscopy Division, National Cancer Center Hospital, Tokyo, Japan  Kazuya Inoki

PL5-9.  Colonic stenting versus surgery for Stage IV colon cancer with colonic stenosis
Dept. of Gastroenterology, Aomori Prefectural Central Hospital, Aomori, Japan  Norihiro Hanabata

PL5-10.  Utility of palliative insertion of self-expandable metallic colonic stent and systemic chemotherapy
Dept. of Endoscopy, Tokyo Metropolitan Komagome Hospital, Tokyo, Japan  Taku Tabata
# Oral Session

Gastroenterology, National Hospital Organization Sendai Medical Center, Japan
Kenji Noguchi

37 **Stomach: IEE 1** (10:17–10:52)
Surgery Department, Sanno Hospital, International University of Health and Welfare, Japan
Nobuyuki Shimizu

38 **Stomach: IEE 2** (10:52–11:34)
Foundation for Detection of Early Gastric Carcinoma, Japan
Hirotaka Nakashima

39 **Duodenum: Stent 1** (15:44–16:19)
Div. of Endoscopy, Shizuoka Cancer Center, Japan
Kohei Takizawa

---

Gastroenterological Endoscopy
40 Duodenum: Stent 2  
Div. of Gastroenterology, Cancer Institute Hospital, Japan
Yorimasa Yamamoto

41 Duodenum: ESD/EMR  
NTT Medical Center Tokyo, Japan
Kouichi Nonaka

May 13(Fri) Oral  Room 11(Heian, Grand Prince Hotel New Takanawa 3F)

48 Stomach: hemostasis  
Dept. of Gastroenterology, Tokyo Dental College, Ichikawa General Hospital, Japan
Hiroshi Kishikawa

49 Post ESD bleeding  
Dept. of Gastroenterology, Onomichi General Hospital, Japan
Seiji Onogawa

50 Inflammatory Bowel Disease  
Inflammatory Bowel Disease Center, Yokohama City University Medical Center, Japan
Reiko Kunisaki

51 Antithrombotics  
Div. of Endoscopy, Yokohama City University Medical Center, Japan
Kingo Hirasawa

52 Pancreas: EUS-FNA 1  
Osaka Medical Center for Cancer and Cardiovascular Diseases, Japan
Nobuyasu Fukutake

53 Pancreas: EUS-FNA 2  
Div. of Gastroenterology, Tohoku University Graduate School of Medicine, Japan
Atsushi Kanno

54 Small intestine: Capsule Endoscopy 1  
Takarazuka Municipal Hospital, Japan
Takashi Abe

55 Small intestine: Capsule Endoscopy 2  
The Center for Personalized Medicine for Healthy Aging, Japan
Akihiro Araki

56 Small intestine: Neoplasm  
Dept. of Gastroenterology, Karatsu Red Cross Hospital, Japan
Takahiro Noda

57 Small intestine: malignant lymphoma  
Dept. of Gastroenterology, Nippon Medical School, Japan
Shu Tanaka

May 13(Fri) Oral  Room 12(Tempyo, Grand Prince Hotel New Takanawa 3F)

58 Pancreas: ERCP (diagnosis)  
Gastroenterology, Kameda General Hospital, Japan
Toshiyasu Shiratori

59 Pancreas: EUS (diagnosis)  
Dept. of Surgery and Oncology, Kyushu University, Japan
Takao Ohtsuka

60 Pancreas: EUS-FNA 3  
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Japan
Keiichiro Matsumura

Gastroenterological Endoscopy
61 **EUS: Complication** *(10:45~11:20)*  
Dept. of Gastroenterology, Ishikawa Prefectural Central Hospital, Japan  
Kazuhiro Matsunaga

62 **Post operative ERCP 1** *(14:00~14:35)*  
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Japan  
Hirofumi Kogure

63 **Post operative ERCP 2** *(14:35~15:10)*  
Dept. of Gastroenterology and Hepatology, St. Marianna University School of Medicine, Japan  
Kazunari Nakahara

64 **ERCP: Stent** *(15:10~15:45)*  
Dept. of Gastroenterology, Gifu Municipal Hospital, Japan  
Tsuyoshi Mukai

65 **ERCP: Pancreatitis, Treatment** *(15:45~16:20)*  
Dept. of Bilio-pancreatology, Sapporo Kosei General Hospital, Japan  
Hiroyuki Miyakawa

66 **Post ERCP pancreatitis prevention 1** *(16:20~16:55)*  
Dept. of Endoscopic and Photodynamic Medicine, National Defense Medical College, Japan  
Shunsuke Komoto

67 **Post ERCP pancreatitis prevention 2** *(16:55~17:30)*  
Digestive Disease Center, Kohsei Chuo General Hospital, Japan  
Hiroaki Shigoka

---

**May 13(Fri) Oral  Room 13(Ogyoku, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)**

42 **Colorectum: Neoplasm, Others** *(14:00~14:35)*  
Gastroenterology Div., St. Luke’s International Hospital, Japan  
Fumio Omata

43 **Colorectum: Others** *(14:35~15:10)*  
Osaka Medical College, Japan  
Takuya Inoue

44 **Colorectum: stent/dilation 1** *(15:10~15:45)*  
Dept. of Endoscopy and Surgery, The University of Tokyo, Japan  
Shuntaro Yoshida

45 **Colorectum: stent/dilation 2** *(15:45~16:20)*  
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, Toho University Ohashi Medical Center, Japan  
Kenji Tominaga

46 **Colorectum: hemostasis 1** *(16:20~16:55)*  
Dept. of Gastroenterology, Aichi Medical University School of Medicine, Japan  
Naotaka Ogasawara

47 **Colorectum: hemostasis 2** *(16:55~17:30)*  
2nd Dept. of Internal Medicine, Wakayama Medical University, Japan  
Jun Kato

---

**May 14(Sat) Oral  Room 8(Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)**

68 **Endoscopic treatment for elderly patients** *(9:00~9:35)*  
Dept. of Endoscopy, National Hospital Organization (NHO), Shikoku Cancer Center, Japan  
Shinichiro Hori
69  Gastric ESD for elderly patients 1
Dept. of Gastroenterology, Toranomon Hospital, Japan  Toshiro Iizuka
(9:35~10:10)

70  Gastric ESD for elderly patients 2
Todachuo General Hospital, Japan  Youji Harada
(10:10~10:52)

71  Esophagus: malignant stenosis
Dept. of Internal Medicine 2, Shimane University School of Medicine, Japan  Norihisa Ishimura
(10:52~11:27)

May 14(Sat) Oral  Room 10(Ohthei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

72  Esophagus: post operative stenosis
Dept. of Gastroenterological Surgery, Tokai University School of Medicine, Japan  Junya Oguma
(9:00~9:35)

73  Stomach: Sedation
Div. of Endoscopy, Oita University, Japan  Masaaki Kodama
(9:35~10:10)

74  Endoscopy under sedation
Gastroenterology, Dept. of Medicine, Shinshu University School of Medicine, Japan  Tomoaki Suga
(10:10~10:45)

75  Laparoscopy
Center for Epidemiology and Preventive Medicine, The University of Tokyo Hospital, Japan  Keiko Niimi
(10:45~11:27)

May 14(Sat) Oral  Room 11(Heian, Grand Prince Hotel New Takanawa 3F)

76  HP 1
Dept. of Gastroenterology, National Hospital Organization, Hakodate Hospital, Japan  Katsuhiro Mabe
(9:00~9:35)

77  HP 2
Foundation for Detection of Early Gastric Carcinoma, Japan  Takuji Yamasaki
(9:35~10:10)

78  Gastric cancer (post HP edication)
Dept. of Gastroenterology and Endoscopy, Toshiba General Hospital, Japan  Jun Miwa
(10:10~10:45)

79  Metachronous gastric cancers
Div. of Gastroenterology, Nippon Medical School, Japan  Seiji Futagami
(10:45~11:20)

May 14(Sat) Oral  Room 12(Tempyo, Grand Prince Hotel New Takanawa 3F)

80  Stenting for hilar cholangiocarcinoma
Dept. of Gastroenterology, Sendai City Medical Center, Japan  Kei Ito
(9:00~9:35)

81  Billary drainage I
Dept. of Gastroenterology, Onomichi General Hospital, Japan  Akihito Okazaki
(9:35~10:10)
82  **Biliary drainage 2**  
First Dept. of internal medicine, University of Yamanashi, Japan  
Mitsuharu Fukasawa  

83  **Small intestine and colon: infectious diseases**  
Clinical Research Center, Nihon University Itabashi Hospital, Japan  
Kimitoshi Kato
Oral Session

Oral1  PEG  May 12 (Thu)  16:30–17:05  Room7 (Kyo, Grand Prince Hotel New Takanawa, International Convention Center PAMIR1F)
Moderator: Hirokazu Yamaguchi  
Dept. of Surgery, Showa General Hospital, Japan

O1-1 Videoendoscopic evaluation of swallowing by the gastrointestinal endoscopist: good outcome for the patient with PEG tube  
Dept. of Gastroenterological Center, Nara Prefectural Gojo Hospital, Nara, Japan  Hazuki Horiuchi

O1-2 Percutaneous Transesophageal Gastrostomy (PTEG) by endoscopic assistance using overtube with balloon for puncture  
Internal Medicine, Murakami Memorial Hospital, Saijo, Japan  Masato Murakami

O1-3 Is proton pump inhibitor effective for preventing acute bleeding on percutaneous endoscopic gastrostomy?  
Dept. of Gastroenterology, Matsue City Hospital, Japan  Yoshiyuki Murawaki

O1-4 Percutaneous endoscopic gastrostomy in the elderly at our hospital  
Dept. of Gastroenterology and Hepatology, Kobe City Medical Center General Hospital, Hyogo, Japan  Hiroki Kitamoto

O1-5 The new uses of gastrostomy for rescuing the symptom of esophaghiatal hernia and preparing the permanent jejunostomy  
Dept. of Gastroenterological Surgery, Hidaka General Hospital, Wakayama, Japan  Kazuo Arii

Oral2  Pancreas: Neoplasm  May 12 (Thu)  16:30–17:05  Room8 (Kyo, Grand Prince Hotel New Takanawa, International Convention Center PAMIR1F)
Moderator: Yousuke Nakai  
Dept. of Gastroenterology, The University of Tokyo, Japan

O2-1 Cancer associated fibrosis for diagnosis of minute pancreatic cancer  
Medicine of Gastroenterology, Hokuto Hospital, Hokkaido, Japan  Tomoya Kawase

O2-2 Preoperative diagnosis of intraductal papillary neoplasm (IPMN)  
Dept. of Gastroenterology and Hepatology, Mie University Graduate School of Medicine, Japan  Hiroyuki Inoue

O2-3 Analysis of factors lead to misdiagnosed mucinous cystic neoplasm (MCN) using EUS  
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan  Kiyotaka Hashizume

O2-4 Phase 1 study of EUS-guided intratumoral injection of HF10 for unresectable locally advance pancreatic cancer patients  
Dept. of Endoscopy, Nagoya University Hospital, Nagoya, Japan  Yoshiki Hirooka

O2-5 The investigation of the FOLFIRINOX therapy with endoscopic biliary stenting for the unresectable pancreatic cancer  
Div. of Gastroenterology, Dept. of Medicine, Showa University School of Medicine, Tokyo, Japan  Yu Ishii

Gastroenterological Endoscopy
Oral 3  Stomach : ESD device 1
May 12 (Thu)  9:00 – 9:42  Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)
Moderator : Masaharu Sumii
Internal Medicine, Hiroshimaken Hospital, Japan

O3-1  Feasibility of precut coagulation with an endo-knife alone on gastric endoscopic submucosal dissection
Dept. of Gastroenterology, Hiraka General Hospital, Yokote, Akita, Japan  Yohei Horikawa

O3-2  The Endoscopic Treatment using the New Scissors-type Knife
Dept. of Therapeutic Endoscopy, Nihonkai General Hospital, Yamagata, Japan  Tomoki Miura

O3-3  Clinical Experience of New ESD device in gastric cancer
Dept. of Gastroenterology, Kitakyushu Municipal Medical Center, Fukuoka, Japan  Mitsuru Esaki

O3-4  Clinical usefulness of Clutch Cutter ESD for gastric adenoma
Dept. of Gastroenterology, Aso Umezuki Hospital, Umezuki, Japan  Kazuya Akahoshi

O3-5  SB-Knife and Smart Shooter combination ESD
Dept. of Gastroenterology, Yokkaichi Municipal Hospital, Yokkaichi, Japan  Makoto Kobayashi

O3-6  Novel Endoscopic Device for full thickness suture, using curved needle: Ex vivo animal study
Dept. of Gastroenterology, Korea University College of Medicine, Korea  Seung Han Kim

Oral 4  Stomach : ESD device 2
May 12 (Thu)  9:42 – 10:24  Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)
Moderator : Tokuma Tanuma
Center for Gastroenterology, Teine-Keijinkai Hospital, Japan

O4-1  Feasibility and Safety of New Technique for Endoscopic Submucosal Dissection using Carbon Dioxide Laser
Dept. of Gastroenterology, Kobe University Graduate School of Medicine, Kobe, Japan  Tetsuya Yoshizaki

O4-2  The effectiveness of ESD using clip–and–snare method for early gastric cancer: subgroup analyses
Dept. of Gastroenterology, Ishikawa Prefectural Central Hospital, Japan  Naohiro Yoshida

O4-3  The effectiveness and safety of ESD using an overtube with check valve for early gastric cancer: multicenter study
Div. of Gastroenterology and Hepatology, National Hospital Organization, Osaka National Hospital, Japan  Takuya Yamada

O4-4  Efficacy of a patient positioning device (EZ–FIX) during ESD for gastric epithelial neoplasm
Dept. of Gastroenterology, PNUH, Busan, Korea  Moon Won Lee

O4-5  Endoscopic antralplasty for gastroparesis after endoscopic submucosal dissection in the antrum
Div. of Gastroenterology, Dept. of Internal Medicine, Graduate School of Medicine, Kobe University, Kobe, Japan  Ohara Yoshiko

O4-6  Development of the Trident Clip
Dept. of Gastroenterology, Yokkaichi Municipal Hospital, Mie, Japan  Makoto Kobayashi
Oral5  Colorectum: LST
May 12 (Thu)  16:30-17:05  Room9  (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)
Moderator:  Akiko Chino
Div. of Gastroenterology, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Japan

O5-1  What is the Limitation of Diagnosis, Indication and ESD for Colorectal LST? –Pathological Analysis of Submucosal Invasion
Endoscopy Division, National Cancer Center Hospital, Japan  Hiroyuki Takamatu

O5-2  Approach for Colonic LST including difficult cases
Dept. of Gastroenterology and Hepatology, Kinki University Faculty of Medicine, Japan  Yoriaki Komeda

O5-3  The usefulness and limitations of ESD in the treatment of colorectal LST judging from our treatment outcome
Dept. of Gastroenterology and Hepatology, Digestive Disease Center, Kyoto Katsura Hosp, Kyoto, Japan  Toshihiro Kusaka

O5-4  The Usefulness of Colorectal ESD with a Rubber Band Traction Device and Case Analysis of Interruption
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, The Jikei University Hospital, Japan  Daisuke Ide

O5-5  Technique of endoscopic submucosal dissection for difficult cases of colorectal LST
Div. of Gastroenterology, Showa University Fujigaoka Hospital, Kanagawa, Japan  Yuichiro Kuroki

Oral6  Esophagus: Inflammatory
May 12 (Thu)  9:00-9:35  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator:  Yuichi Shimizu
Div. of Endoscopy, Hokkaido University Hospital, Japan

O6-1  3 cases of the autoimmune blister disease which could be diagnosed with endoscope
Dept. of Surgery, Keio Univ., Sch. of Med., Tokyo, Japan  Masahiro Yura

O6-2  Two examples of esophageal strictures by Autoimmune blisterling diseases
Dept. of Surgery, School of Medicine, Keio University, Tokyo, Japan  Yusuke Maeda

O6-3  Clinical features and pathogenesis of black esophagus
Dept. of Gastroenterology, Kyushu Central Hospital of the Mutual Aid Association of Public School, Japan  Yutarо Ihara

O6-4  Clinical features of histologically esophageal eosinophilia cases, endoscopically showed eosinophilic esophagitis
Dept. of Gastroenterology and Hepatology, Otsu Municipal Hospital, Otsu, Japan  Naoki Wakabayashi

O6-5  Two cases of pemphigoid with esophageal stricture
Dept. of Gastroenterology and Hepatogy, Sch. of Med. Mie Univ., Tsu, Japan  Tetsuо Harada

Oral7  Esophagus: Benign
May 12 (Thu)  9:35-10:17  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator:  Yasushi Funaki
Div. of Gastroenterology, Dept. of Internal Medicine, Aichi Medical University, Japan

O7-1  Is Barrett’s esophagus diagnosed properly in Japan?
Dept. of Gastroenterology and Hepatology, Shimane University School of Medicine, Izumo, Japan  Norihisa Ishimura

Gastroenterological Endoscopy
O7-2 Our surgical results of laparoscopic fundoplication for GERD patients with refractory to proton pump inhibitor
Dept. of Surgery, Kashiwa Kousei General Hospital, Chiba, Japan  Satoshi Inose

O7-3 The remarkably effective two cases of P-CAB treatment against refractory reflux esophagitis following ESD at EG junction
Fukuyama Daiichi Hospital, Fukuyama, Japan  Atsushi Jikuhara

O7-4 Non-biological training model for peroral endoscopic myotomy (POEM)
Gastroenterology and Hepatology, Niigata University Medical and Dental Hospital, Niigata, Japan  Hiroki Sato

O7-5 Diagnosis of esophageal achalasia and effects of POEM
Dept. of Gastroenterology, Faculty of Medicine, Oita University, Oita, Japan  Ryo Ogawa

O7-6 Efficiency of per-oral endoscopic tumor resection (POET) for esophageal SMT
Digestive Disease Center, Showa University Koto Toyosu Hospital, Tokyo, Japan  Jun Nakamura

Oral8 Esophageal varices
May 12(Thu) 10 : 17-10 : 52  Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR1F)
Moderator : Hirokazu Shiozawa
Digestive and Liver Disease Center, Tokai University Tokyo Hospital, Japan

O8-1 Utility consideration of argon plasma coagulation about recurrence of esophageal varices
Dept. of Gastroenterology and Hepatology, Graduate School of Medical Sciences, Kumamoto University, Kumamoto, Japan  Tetsuya Murao

O8-2 A study on cases of esophageal variceal rupture during follow-up
Dept. of Endoscopy, Tokyo Metropolitan Bokutoh Hospital, Tokyo, Japan  Takao Horiuchi

O8-3 Current situation of endoscopic treatment for risky esophageal varices in over 80 years old patients
Div. of Gastroenterology, lizuka Hosp., Fukuoka, Japan  Masaru Kubokawa

O8-4 Prognosis of esophageal varices bleeding
Dept. of Gastroenterology, Akita City Hospital, Japan  Kunio Nakane

O8-5 PH monitoring in the esophago-gastric junction before and after endoscopic esophageal variceal ligation
Dept. of Gastroenterology, Internal Medicine, Kitasato University School of Medicine, Sagamihara, Japan  Hisashi Hidaka

Oral9 Esophagus: Diagnosis
May 12(Thu) 10 : 52-11 : 27  Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR1F)
Moderator : Akihito Kazuno
Dept. of Gastroenterological Surgery, Tokai University School of Medicine, Japan

O9-1 Accuracy of endoscopic invasion depth in cervical superficial esophageal cancer
Dept. of Surgery, Sch. of Med. Keio Univ.,Tokyo, Japan  Rieko Nakamura

O9-2 The feature of superficial esophageal carcinoma with head and neck malignant tumor
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan  Toshihisa Fujiyoshi

O9-3 NBI magnifying endoscopic diagnosis of superficial esophageal squamous cell carcinomas and the prognosis after ER
Dept. of Endoscopy, The Jikei University School of Medicine, Tokyo, Japan  Akira Dobashi
O9-4  The diagnostic accuracy of magnifying endoscope for the depth of superficial esophageal cancer
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan
Kenichi Matsui

O9-5  The characteristics of esophageal squamous neoplasm without lugol–voiding lesions
Dept. of gastroenterology, Omori Red Cross Hospital, Tokyo, Japan  Keiichi Ashikari

Oral10  Esophagus : ESD 1
May 12(Thu)  14 : 00–14 : 42  Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR1F)
Moderator : Hiroharu Yamashita
Dept. of Gastrointestinal Surgery, Graduate School of Medicine, The University of Tokyo, Japan

O10-1  Current status and limitations of endoscopic treatment for superficial esophageal cancer : Analysis of surgical cases
Dept. of Gastroenterological Surgery, Sch. of Med. Tokai Univ., Isehara, Japan  Junya Oguma

O10-2  Lymph and blood vessels invasion or depth of invasion? the right and wrong of additional treatments post esophageal ESD
Div. of Research and Development for Minimally Invasive Treatment, Cancer Center, Keio University, School of Medicine, Tokyo, Japan  Teppei Akimoto

O10-3  Long term outcomes of MM invasive esophageal cancer –Comparizom of endoscopic resection and operation
Dept. of Gastroenterology, Cancer Institute Hospital, Tokyo, Japan  Toshiyuki Yoshio

O10-4  Outcome of endoscopic resection for submucosal esophageal cancer, compared to operation and chemoradiotherapy
Div. of gastroenterology, Cancer Institute Hospital, Tokyo, Japan  Shoichi Yoshimizu

O10-5  Can we expand the indication of ESD for Esophageal SCC?
Dept. of Endoscopy, Saku Central Hospital Advanced Care Center, Japan  Akiko Takahashi

O10-6  Treatment result of ESD for superficial esophageal squamous cell carcinoma in our hospital
Dept. of Gastroenterology, Kyushu Medical Center, Fukuoka, Japan  Hiroyuki Fuji

Oral11  Esophagus : ESD 2
May 12(Thu)  14 : 42–15 : 24  Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR1F)
Moderator : Natsuya Katada
Dept. of Surgery, Toho University Ohashi Medical Center, Japan

O11-1  Endoscopic submucosal dissection for superficial laryngopharyngeal cancer
Dept. of Gastroenterology, Hyogo Cancer Center, Hyogo, Japan  Yoshinobu Yamamoto

O11-2  Benefit of using Anchored Clip during pharyngeal endoscopic submucosal dissection
Dept. of Gastroenterology and Hepatology, Nagasaki University Hospital, Nagasaki, Japan  Hitomi Minami

O11-3  A local recurrence of Esophageal cancer after CRT resected by endoscopic laryngo–pharyngeal surgery
Dept. of Surgery, sch. of Med. Chiba Univ, Chiba, Japan  Akira Nakano

O11-4  Clinical outcome of ESD associated with adjuvant treatment for MM or SM invasion esophageal cancer
Digestive and Life–style Related Disease, Kagoshima University Graduate School of Medical and Dental Sciences, Kagoshima, Japan  Hidehito Maeda

O11-5  The validity of the diagnosis and the ESD treatment selection for superficial esophageal cancer
Dept. of Gastroenterology and Hepatology, Showa General Hospital, Tokyo, Japan  Koji Uraushihara
O11-6  
**Outcome of the ESD for superficial esophageal carcinoma and significance of surgical treatment**  
Dept. of Surgery, Tokai Univ. Sch. of Med. Tokyo Hosp., Tokyo, Japan  
Osamu Chino

**Oral12  Esophageal ESD (salvage)**  
May 12(Thu)  15 : 24-15 : 59  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)  
**Moderator:**  Hajime Takatori  
Dept. of Gastroenterology, Kanazawa University Hospital, Japan

O12-1  
**Salvage ESD of local recurrent or residual superficial esophageal cancer after definitive CRT**  
Dept. of Transplantation, Reconstruction and Endoscopic Surgery, Tohoku University hospital, Sendai, Japan  
Tadashi Sakurai

O12-2  
**Salvage ESD in patients with local failure after definitive chemoradiotherapy for esophageal squamous cell carcinoma**  
Div. of Endoscopy, Shizuoka Cancer Center, Shizuoka, Japan  
Yohei Yabuuchi

O12-3  
**Does orginal tumor depth affect treatment efficacy of salvage ESD against local recurrence of advanced esophageal cancer**  
Kurashiki central hospital, Okayama, Japan  
Shumpei Yamamo

O12-4  
**Long-term outcome of argon plasma coagulation for early esophageal cancer**  
Dept. of Gastroenterology, Hokkaido University Graduate School of Medicine, Sapporo, Japan  
Satoshi Abiko

O12-5  
**Two cases of T1b esophageal cancer performed ESD against local recurrence after carbon ion radiotherapy**  
Dept. of Frontier Surgery, Graduate School of Medicine, Chiba University, Tokyo, Japan  
Akiko Kagaya

**Oral13  Esophageal ESD (complication)**  
May 12(Thu)  15 : 59–16 : 34  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)  
**Moderator:**  Noboru Hanaoka  
Dept. of GI Oncology, Osaka Medical Center for Cancer and Cardiovascular Diseases, Japan

O13-1  
**Associations between hospital volume and adverse events following esophageal endoscopic submucosal dissection**  
Dept. of Clinical Epidemiology and Health Economics, School of Public Health, The University of Tokyo, Tokyo, Japan  
Hiroyuki Odagiri

O13-2  
**Comparison with two point fixed ESD and normal ESD (For the valid submucosal dissection of esophagus)**  
Dept. of Gastroenterology and Endoscopy, Kanagawa Cancer Center, Kanagawa, Japan  
Osamu Motohashi

O13-3  
**Safety and efficacy of steroid injection therapy for preventing esophageal stricture after ESD**  
Dept. of Gastroenterology and Hepatology, Osaka Univ. Gress. Sch. of Med., Suita, Japan  
Yoshiki Tsuji

O13-4  
**Efficacy of polyglycolic acid sheet for preventing esophageal stricture after endoscopic submucosal dissection**  
Dept. of Gastroenterology, Akita University Graduate School of Medicine, Akita, Japan  
Masayuki Sawaguchi

O13-5  
**Utility of Endoscopic Submucosal Dissection to wide spread esophageal superficial carcinoma**  
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan  
Seiichi Yakabi
Oral14  Nasal endoscope
May 12(Thu)  16 : 34–17 : 02  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator :  Mkinori Kataoka
Dept. of Gastroenterology and Hepatology, International University of Health and Welfare Mita Hospital, Japan
O14-1  Ingenuity of the pre-treatment and screening of transnasal endoscopy in our hospital
CHIBA TOKUSHUKAI HOSPITAL, Funabashi, Chiba, Japan  Yuzo Toyama
O14-2  The usefulness of endoscopic water supply system (AF–WP1) in nasal endoscopic examination
Div. of gastroenterology and oncology, Dept. of Internal Medicine, Tokushima university hospital
Shinji Kitamura
O14-3  New suction device with ultra-thin endoscope for gastric contents
Dept. of Gastroenterology, Toranomon Hospital, Tokyo, Japan  Daisuke Kikuchi
O14-4  Utility of transnasal endoscopy for surgical field
Dept. of Surgery, Nippon Medical School, Tama Nagayama Hospital, Japan  Hiroshi Makino

Oral15  Elderly : ERCP 1
May 12(Thu)  9 : 00–9 : 35  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator :  Kazuya Sugimori
Gastroenterological Center, Yokohama City University Medical Center, Japan
O15-1  Analysis of respiratory and circulatory dynamics in ERCP for the elderly
Dept. of Gastroenterology, Sch. of Med. Shinshu Univ., Matsumoto, Japan  Akira Nakamura
O15-2  Usefulness of Capnography (Capnostream™20P) for Endoscopic retrograde cholangiopancreatography
Dept. of Gastroenterology, Maebashi Red Cross Hospital, Gunma, Japan  Toshiya Yamada
O15-3  Endoscopic removal of bile duct stones for the elderly
Dept. of Gastroenterology, Graduate School of Medicine, University of Tokyo, Japan  Ryunosuke Hakuta
O15-4  Current status and safety of emergent ERCP for acute cholangitis of elderly patients
Center of Gastroenterology, Teine Keijinkai Hospital, Japan  Kazumasa Nagai
O15-5  Efficacy and safety of endoscopic stone removal in elderly patients with acute cholangitis due to bile duct stone
Div. of Gastroenterology and Hepatology, St. Marianna University, School of Medicine, Kanagawa, Japan  Ryo Morita

Oral16  Elderly : ERCP 2
May 12(Thu)  9 : 35–10 : 10  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator :  Seiji Kaino
Dept. of Gastroenterology and Hepatology, Yamaguchi University Graduate School of Medicine, Japan
O16-1  The indications for performing ERCP to treat cholangitis in elderly patients evaluated based on bacteriological studies
Gastroenterology Medicine Center, Shonan Kamakura General Hospital, Kanagawa, Japan  Sakue Masuda
O16-2  Outcomes and safety of endoscopic treatment for common bile duct stone in patient with 80-year-old and older
Dept. of Gastroenterology, School of Medicine, Kitasato Univ., Kanagawa, Japan  Kauho Uehara
O16-3  Endoscopic treatment of common bile duct stones for elderly patients
Dept. of Gastroenterology and Hepatology, Saitama Medical Center, Saitama Medical University, Saitama, Japan  Tetsuro Fujita
O16-4  Usefulness of Endoscopic Papillary Large Balloon Dilation (EPLBD) in the older patients in our hospital
NHO Mie Chuo Medical Center, Mie, Japan  Kazunari Kurata
O16-5  Bile duct stone treatment using SES + EPLD to a senior citizen and ELMS–Lithotripsy as complementation
Dept. of Gastrointestinal disease, Tokyo Rinkai Hospital, Kanagawa, Japan  Atsushi Minami

Oral17  EPLBD
May 12(Thu)  10:10–10:45  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Hiroshi Kawakami
Dept. of Gastroenterology and Hepatology, Faculty of Medicine, University of Miyazaki, Japan

O17-1  Study of treatment results for CBDstones (minor axis 10mm or more) of the elderly, including long-term prognosis after EPLBD
Gastroenterology and hepatology, Japanese Red Cross Wakayama Medical Center, Wakayama, Japan  Yoshito Uenoyma

O17-2  Safety and efficacy of EPLBD for large or multiple common bile duct stones in elderly patients
First Dept. of internal medicine, Gifu Univ., Gifu, Japan  Mitsuji Okuno

O17-3  Usefulness and safety of endoscopic papillary large balloon dilatation for choledocholithiasis in the elderly
Dept. of Gastroenterology, Aso Izuka Hospital, Fukuoka, Japan  Hiroko Ikeda

O17-4  Early treatment result of EPLBD in our hospital
Dept. of gastroenterology, National Hospital organization Kanazawa Medical center, Japan  Takashi Kagaya

O17-5  The role of EPLBD for elderly patients with choledocholithiasis
Kokuho Central Hospital, Dept. of Internal medicine, Tawaramoto-cho, Japan  Hiroyuki Ogawa

Oral18  ERCP (safety and risk)
May 12(Thu)  10:45–11:20  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Ken Itto
Dept. of Gastroenterology, Tokyo Rosai Hospital, Japan

O18-1  Management and treatment outcome of hemobilia in our hospital
Div. of Gastroenterology and hepatology, St. Marianna Univ. Sch. of Med., Kawasaki, Japan  Yousuke Michikawa

O18-2  Retrospective study using propensity score analysis on risk factors for aggravation of post-ERCP pancreatitis
Dept. of Gastroenterology, Osaka City University Graduate School of Medicine, Japan  Kunihiro Kato

O18-3  The trend of pathogenic bacteria in acute cholangitis at Kenesei Hospital
Tsugaru Hoken Seikatsu Kyodo Kumiiai KENSEI hospital, Aomori, Japan  Hirotsugu Mikami

O18-4  Safety of ERCP in elderly patients
Dept. of Gastroenterology, Kofu Municipal Hospital, Japan  Makoto Kadokura

O18-5  Prognosis of Biliary Pancreatitis
Div. of gastrointestinal medicine, Dept. of internal medicine, Mitsui Memorial Hospital, Tokyo, Japan  Yuki Karasawa

Oral19  ERCP related procedures 1
May 12(Thu)  14:00–14:35  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Hironao Miyoshi
Dept. of Gastroenterology, Second Teaching Hospital, Fujita Health University School of Medicine, Japan

O19-1  The utility of the sample processing using Hanks Balanced Salt Solution in bile duct brushing cytology
Dept. of Gastroenterology and Hepatology, Kawasaki Municipal Tama Hospital, Kawasaki, Japan  Keigo Suetani
O19-2  Catheter guided biopsy for pancreatobiliary disease  
Gastroenterological medicine, Sendai Kosei hospital, Miyagi, Japan  Toru Okuzono

O19-3  Usefullness of new device for diagnosis of malignant bile duct stricture  
Dept. of Gastroenterology, Gifu Prefectural Tajimi Hospital, Gifu, Japan  Kaiki Anbe

O19-4  Examination of the peroral cholangioscopic findings for biliary tract tumors  
Div. of Gastroenterology, Dept. of Internal Medicine, Sch. of Med. Yamanashi Univ., Yamanashi, Japan  Yoshimitsu Fukasawa

O19-5  7 cases of study with Peroral Cholangioscopy (Spy GlassTM) in our hospital  
Tokyo Metropolitan Health and Medical Corporation, Toshima Hospital, Japan  Kentaro Takagi

Oral20  ERCP related procedures 2  
May 12(Thu)  14:35-15:10  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator: Hiroki Kawashima  
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Japan

O20-1  A prospective randomized study of endoscopic biliary stone extraction using a basket or a balloon catheter  
Dept. of Gastroenterology, Teikyo University Misonokuchi Hospital, Kawasaki, Japan  Noritaka Ozawa

O20-2  The current of EST/EPST in our department  
Dept. of Digestive and Lifestyle Related Disease, Kagoshima University Graduate School of Medical and Dental Sciences, Kagoshima, Japan  Makoto Hinokuchi

O20-3  The influence of a parapapillary diverticulum to endotherapy for choledocholithiasis  
Dept. of Internal Medicine, Hakui Public Hospital, Japan  Ryuhei Nishino

O20-4  Gastrointestinal perforation cases and its consideration with Endoscopic Sphincterotomy at our hospital  
Okazaki City Hospital, Japan  Genya Kaji

O20-5  The results of WGC by Small-J tip guide wire  
Div. of Gastroenterology, Saiseikai Yokohama-shi Nanbu Hospital, Kanagawa, Japan  Seitaro Watanabe

Oral21  EST  
May 12(Thu)  15:10-15:52  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator: Atsushi Sofuni  
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Japan

O21-1  A long-term follow up of minimal EST + EPBD  
Dept. of Gastroenterology, Juntendo University School of Medicine, Tokyo, Japan  Ko Tomishima

O21-2  New EST method concerning about the length of narrow distal segment  
Dept. of Gastroenterology, Sendai City Hospital, Sendai, Japan  Yoshitaka Sakai

O21-3  Is precutting papillotomy a risk factor of post ERCP pancreatitis in the setting of selective biliary deep cannulation?  
Dept. of General Internal Medicine 2, Kawasaki Medical School, Okayama, Japan  Hiroyumi Kawamoto

O21-4  Primary Fistulotomy in Patients with Bile Duct Cannulation  
Dept. of Gastroenterology, PNUH, Korea  SungYong Han

O21-5  Risk factors for bleeding after EST with patients under antithrombotic agents in comparison of EPBD  
Internal medicine of gastroenterology, Mitsui Memorial Hospital, Tokyo, Japan  Toshihiko Arizumi

Gastroenterological Endoscopy
O21-6  The present conditions and problem of the EST after the guidelines revision for the patients of antithrombotic therapy  
Dept. of Gastroenterology, Kagawa Prefectural Central Hospital, Takamatsu, Japan  Masaki Wato

Oral22  Pancreas : EUS guided drainage 1
May 12(Thu)  15 : 52-16 : 27  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator :  Kazuya Kitamura  
Dept. of Gastroenterology, Kanazawa University Hospital, Japan

O22-1  Endoscopic ultrasound-guided treatment of pancreatic pseudocysts and walled-off necrosis after acute pancreatitis  
Second Dept. of Internal Medicine, Wakayama Medical University, Wakayama, Japan  Yasunobu Yamashita

O22-2  Treatment results of walled-off necrosis and pancreatic pseudocyst treated by interventional EUS  
Gastroenterological Center, Yokohama City University Medical Center, Kanagawa, Japan  Kazuya Sugimori

O22-3  Endoscopic management for local complications of acute pancreatitis  
Center for Gastroenterology, Teine-Keijinkai Hospital, Japan  Kensuke Yokoyama

O22-4  Complications of EUS-guided drainage in our hospital  
Dept. of Gastroenterology and Neurology, Faculty of Med. Kagawa Univ., Kagawa, Japan  Kiyoyuki Kobayashi

O22-5  Comparison of clinical outcomes between EUS-guided transluminal drainage and percutaneous drainage for liver abscess  
2nd Dept. of Internal Medicine, Osaka Medical College, Osaka, Japan  Tatsushi Sano

Oral23  Pancreas : EUS guided drainage 2
May 12(Thu)  16 : 27-17 : 09  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator :  Yoshinobu Okabe  
Div. of Gastroenterology, Dept. of Medicine, Kurume University School of Medicine, Japan

O23-1  Study of EUS–guided biliary drainage for the treatment of unresectable malignant biliary obstruction  
Kushiro City General Hospital, Kushiro, Japan  Yujirō Kawakami

O23-2  Outcome and troubleshooting of endoscopic ultrasound-guided biliary drainage in our hospital  
Dept. of Gastroenterology, Toyohashi Municipal Hospital, Toyohashi, Japan  Kunio Kataoka

O23-3  Can EUS–guided biliary drainage offer clinical benefit for elderly patients?  
2nd Dept. of Internal Medicine, Osaka Medical College, Japan  Wataru Takagi

O23-4  Antegrade metallic stenting through hepatogastrostomy (AGMS–HGS) for the patients with altered anatomy  
Dept. of General Internal Medicine 2, Kawasaki Medical School, Okayama, Japan  Hirofumi Kawamoto

O23-5  Reduction of complications in endoscopic ultrasound–guided biliary drainage  
Dept. of Gastroenterology, Saku Central Hospital Advanced Care Center, Nagano, Japan  Takeshi Hisa

O23-6  Comparison of materials for the novel duodenal–jejunal bypass stent for weight loss  
Institute of Gastrointestinal Medical Instrument Research, KoreaUniversity College of Medicine, Korea  Jung Min Lee

Oral24  Colorectum : Preparation
May 12(Thu)  9 : 00-9 : 49  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)  
Moderator :  Kaoru Yokoyama  
Dept. of Gastroenterology, Kitasato University School of Medicine, Japan

O24-1  Current status of our institutional reporting system for quality assessment in colonoscopy  
Div. of Endoscopy, Shizuoka Cancer Center, Shizuoka, Japan  Kenichiro Imai
O24-2 Evaluation of Moviprep® as a preparation
Dept. of Gastroenterology, Naha City Hospital, Okinawa, Japan  Maki Nishizawa

O24-3 The efficacy and safety of polyethylene glycol plus ascorbic acid for the bowel cleansing before colonoscopy in children
Div. of Gastroenterology, Dept. of General Pediatrics, Miyagi Childrens Hospital, Sendai, Japan  Fumihiko Kakuta

O24-4 Tailor-made intestinal washing using Moviprep®
Dept. of therapeutic endoscopy, Nihonkai General Hospital, Sakata, Yamagata, Japan  Shinsuke Nawa

O24-5 Improving the quality of colonoscopy bowel preparation using PEG and ascorbic acid with adjunctive metoclopramide
Dept. of Internal Medicine, Korea University College of Medicine, Korea  Jung Min Lee

O24-6 Tailored bowel preparation according to Bristol stool form scale: a randomized, single–blinded study
Dept. of Gastroenterology, Shandong University Qilu Hospital, China  Yueyue Li

O24-7 A comparison of Bowel preparation between 3L ascorbic acid mixed PEG and 2L ascorbic acid mixed PEG with bisaccodyl
Dept. of Gastroenterology, Korea University College of Medicine, Korea  In Kyung Yoo

**Oral25  Colorectum: Capsule Endoscopy**
May 12(Thu)  9:49-10:24  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Naoki Hosoe

Center for Diagnostic Therapeutic Endoscopy, School of Medicine, Keio University, Japan

O25-1 Diagnostic yield of colonic lesions by colon capsule endoscopy based on histopathological findings
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan  Sayoko Kunihara

O25-2 Current Status and Issues of Colon Capsule Endoscopy
Dept. of Gastroenterology, Asahikawa–Kosei General Hospital, Japan  Takahiro Ito

O25-3 Current state of the Colonoscopy examination, including the colon capsule endoscopy
Dept. of Gastroenterology, KKR Takamatsu Hospital, Kagawa, Japan  Mitsuyoshi Kobayashi

O25-4 Clinical Efficacy of Colon Capsule Endoscopy in Detectability of Polypoid Lesion
Osaka Rosai Hospital, Osaka, Japan  Kazuki Maesaka

O25-5 The pirot study of pureparation for colon capsule endoscopy by transnasal endoscopy injection
Div. of Internal medicine, Izumo–City General Medical Center, Shimane, Japan  Mika Yuki

**Oral26  Colorectum: diagnosis**
May 12(Thu)  10:24-11:06  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Yutaka Endo

GI/IBD Center, Ofuna Chuo Hospital, Japan

O26-1 Improvement in the Visibility of Colorectal Polyps using Neo–Linked color imaging
Dept. of Molecular Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine, Kyoto, Japan  Naohisa Yoshida

O26-2 Narrow band imaging VS white light for detection of diminutive colorectal adenoma: a randomized controlled trial
Digestive Disease Center, Showa University, Northern Yokohama Hospital, Japan  Atsushi Katagiri

O26-3 The clinical usefulness of The Japan NBI Expert Team (JNET) classification for colorectal polyp
Dept. of Gastroenterology, Maeshashi Red Cross Hospital, Gamma, Japan  Kenichi Iizuka

Gastroenterological Endoscopy
O26-4  The effectiveness of systematic training on the NICE classification for optical diagnosis of colorectal polyps
Dept. of gastroenterology, Beijing Shijitan Hospital, China  Xiangchun Lin

O26-5  Imaging of the mesenchymal stem cell–based TRAIL gene against colon cancer by probe–based confocal laser endomicroscopy
Dept. of Gastroenterology, Qilu Hospital, Shandong University, Jinan, China  Zhang Zhen

O26-6  EUS for Prediction of Invasion Depth in Large Polypoid Type of Colorectal Tumors
Dept. of Internal Medicine, SoonChunHyang University School of Medicine, Korea  Yu Sik Myung

Oral27  Colorectal tumor
May 12(Thu)  11:06-11:41  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator:  Yoshikazu Hayashi
Div. of Gastroenterology, Dept. of Medicine, Jichi Medical University, Japan

O27-1  Long-term colonoscopic observation of patients having diminutive colorectal polyps
Div. of Gastroenterology and Endoscopy, Aomori Rosai Hospital, Japan  Seiji Kimura

O27-2  Possibility of applying "Resect and Discard" strategy to diminutive colorectal polyps
Dept. of Gastroenterology, Juntendo University School of Medicine, Japan  Kentaro Izumi

O27-3  Clinical characteristics of sessile serrated adenoma / polyp (SSA/P) and carcinoma associated with SSA/P
Dept. of Gastroenterology, Kyoto Second Red Cross Hospital, Kyoto, Japan  Naokuni Sakiyama

O27-4  Clinicopathologic and endoscopic characteristics of sessile serrated adenoma/polyp with dysplasia and carcinoma
Dept. of Gastroenterology, Juntendo University School of Medicine, Tokyo, Japan  Takashi Murakami

O27-5  Significant increase of colorectal polyps in patients on maintenance hemodialysis
Tsuyama Chuo Hospital, Okayama, Japan  Shotaro Okanoue

Oral28  Colorectum: CSP
May 12(Thu)  14:00-14:35  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator:  Jun Koike
Dept. of Gastroenterology, Tokai University, School of Medicine, Japan

O28-1  State of cold polypectomy in our hospital
Dept. of Gastroenterology, Sch. of Med., Juntendo Univ, Tokyo, Japan  Yuzuru Tajima

O28-2  The treatment results of Cold snare polypectomy
Dept. of Gastroenterology, Teine Keijinkai Hospital, Sapporo, Japan  Naohiro Komatsu

O28-3  Investigation of treatment of small colorectal polyps in our hospital after introduction of cold polypectomy
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan  Masashi Saito

O28-4  Safety of cold polypectomy for 5mm and less colorectal polyps
Dept. of Gastroenterology, Kagawa Prefectural Central Hospital, Japan  Shigetomi Tanaka

O28-5  New aspiration removal method after polypectomy to prevent specimen damage
Dept. of Gastroenterological medicine, Nagano red cross hospital, Nagano, Japan  Kojiro Tokutake
**Oral 29**  Colorectum: endoscopic treatment 1  
**May 12(Thu) 14:35–15:10**  Room 12 (Tempyo, Grand Prince Hotel New Takanawa 3F)  
**Moderator:** Masayoshi Yamada  
National Cancer Center Hospital, Japan  

O29-1  It is not useful of prophylactic clip application for prevention of delayed postpolypectomy bleeding  
Yokohama sakae kysai hospital, Gastroenterological medicine, Kanagawa, Japan  Renma Itou  

O29-2  New Endoscopic Suturing Method: Slip Knot Clip Suturing  
Div. of Research and Development for Minimally Invasive Treatment, Cancer Center, Keio Univ., Sch. of Med., Tokyo, Japan  Toshihiro Nishizawa  

O29-3  Closure of mucosal defects in colorectal ESD decreased the rate of delayed bleeding  
Itami City Hospital, Dept. of Gastroenterology and Hepatology, Itami, Japan  Hideharu Ogiyama  

O29-4  Efficacy of the traction method for difficult cases of colorectal ESD  
Dept. of Gastroenterology, Juntendo University School of Medicine, Japan  Hideaki Ritsuno  

O29-5  Utility of retroflexion in colorectal endoscopic submucosal dissection.  
Dept. of General Internar Medicine, Faculty of Medicine, Kagawa University, Kagawa, Japan  Tatsuo Yachida  

**Oral 30**  Colorectum: endoscopic treatment 2  
**May 12(Thu) 15:10–15:45**  Room 12 (Tempyo, Grand Prince Hotel New Takanawa 3F)  
**Moderator:** Shiro Oka  
Dept. of Endoscopy, Hiroshima University Hospital, Japan  

O30-1  Actual status of the development of Smart shooter and the utility in colorectal ESD  
Dept. of Gastroenterology, Toranomon Hospital, Tokyo, Japan  Daisuke Kikuchi  

O30-2  Efficacy of clip traction method in endoscopic submucosal dissection for colonic tumor at cecum and ascending colon  
Ishinomaki Redcross Hospital, Japan  Yasuchika Yamamoto  

O30-3  Colorectal ESD using Pocket-Creation Method is useful for colorectal tumor with severe fibrosis in the submucosal layer  
Digestive and Lifestyle Diseases, Kagoshima University Graduate School of Medical and Dental Sciences, Kagoshima, Japan  Fumisato Sasaki  

O30-4  Short term treatment results of underwater endoscopic mucosal resection for colorectal neoplasia  
Dept. of Gastroenterology, Ishikawa Prefectural Central Hospital, Kanazawa, Japan  Yuko Yanase  

O30-5  The usefulness of splash M knife in endoscopic submucosal dissection for colorectal laterally spreading tumor  
Dept. of Gastroenterology, The Tokyo Univ., Tokyo, Japan  Yosuke Kataoka  

**Oral 31**  Colorectum: ESD 1  
**May 12(Thu) 15:45–16:27**  Room 12 (Tempyo, Grand Prince Hotel New Takanawa 3F)  
**Moderator:** Kinichi Hotta  
Div. of Endoscopy, Shizuoka Cancer Center, Japan  

O31-1  Prediction of vertical completely resection in ESD for submucosal invasive colorectal cancer  
Dept. of Gastroenterology, Sch. of Med. Osaka City Univ., Osaka, Japan  Yosuke Kinoshita  

O31-2  T1 and T2 cancer only consisting of well-differentiated adenocarcinoma have low risk of lymph node metastasis  
Dept. of Molecular Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine, Graduate School of Medical Science, Kyoto, Japan  Kiyoshi Ogiso  

Gastroenterological Endoscopy
O31-3 Long-term Outcomes after Endoscopic Resection for Submucosal Invasive Colorectal Cancer
Dept. of Gastroenterology, Chiba Cancer center, Japan Chiaki Inagaki

O31-4 Effectiveness and safety of colorectal ESD in elderly patients
Omori red cross Hospital, Tokyo, Japan Keiichi Ashikari

O31-5 The feasibility of ESD for recurrent colorectal tumor
Div. of endoscopy, Yokohama City University Medical Center, Japan Ryosuke Kobayashi

O31-6 Traction assisted colonic endoscopic submucosal dissection using clip and line: a feasibility study
Dept. of Gastrointestinal Oncology, Osaka Medical Center for Cancer and Cardiovascular Diseases, Osaka, Japan
Yasushi Yamasaki

Oral32 Colorectum: ESD 2
May 12(Thu) 16:27-17:02 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Takeshi Nakajima
Endoscopy Div., National Cancer Center Hospital, Japan

O32-1 Outcomes of ESD of cecal tumors involving the ileocecal valve or appendiceal orifice
Div. of Endoscopy, Shizuoka Cancer Center, Sunto, Japan Kinichi Hotta

O32-2 Endoscopic submucosal dissection of cecal lesions in proximity to the appendiceal orifice
Div. of Gastroenterology, Dept. of Internal Medicine, Graduate School of Medicine, Kobe University, Kobe, Japan
Yoshiko Ohara

O32-3 ESD for cecal LST located near the orifice of vermin appendix
Dept. of gastroenterology, Toranomon Hospital, Tokyo, Japan Toshifumi Mitani

O32-4 Factors affecting the post coagulation syndrome after submucosal dissection for colorectal tumors
Dept. of Gastroenterology, Mizoguchi Hospital, Teikyo University School of Medicine, Japan Koichiro Sato

O32-5 The clinical background and feature of perforation occurring with colorectal endoscopic submucosal dissection
Div. of Gastroenterology, Tohoku University Graduate School of Medicine, Japan Hirofumi Chiba

Oral33 Gastric SMT, others
May 13(Fri) 16:30-17:05 Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)
Moderator: Akiko Takahashi
Dept. of Endoscopy, Saku Central Hospital Advanced Care Center, Japan

O33-1 Development of an endoscopic ultrasound-guided drill-type biopsy needle for a gastric submucosal tumor
Dept. of frontier surgery, Grad. Sch. of Med. Chiba Univ., Chiba, Japan Tomohide Tamachi

O33-2 Rapid on-site evaluation by endosonographer of EUS-FNA diagnosis of submucosal tumor
Second Dept. of Internal Medicine, Wakayama Medical University, Japan Takashi Tamura

O33-3 Usefulness of the Target sample check illuminator in EUS-FNA of gastric subepithelial lesions
Dept. of Internal Medicine, Japanese Red Cross Tottori Hospital, Tottori, Japan Yukako Matsuishi

O33-4 Boring Biopsy for Submucosal Tumors using Hot biopsy forceps
Dept. of Gastroenterology, Yokkaichi Municipal Hospital, Yokkaichi, Japan Tetsuro Miwata

O33-5 The role of endoscopy and abdominal ultrasonography relates to the discovery of gastric submucosal tumor
Dept. of Gastroenterology, Yokohama Rosai Hospital, Kanagawa, Japan Yusuke Sekino

Gastroenterological Endoscopy
Oral34  Gastric adenoma
May 13 (Fri)  17 : 05-17 : 40   Room9 (Matsuba, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 2F)
Moderator: Yoshito Hayashi
Dept. of Gastroenterology and Hepatology, Osaka University Graduate School of Medicine, Japan

O34-1  Analysis of the gastric ESD cases of preoperative biopsy Group 3
Akita kousei medical center, Akita City, Akita, Japan  Shin Tawaraya

O34-2  Investigation of pathological diagnosis of gastric adenoma prior to endoscopic treatment
Institute of Gastroenterology, Nippon Medical School, Musashikosugi Hospital, Kawasaki, Japan  Naoto Chihara

O34-3  Magnifying endoscopic diagnosis for gastric adenomas
Dept. of Endoscopy, Mie University Hospital, Tsu, Japan  Kyosuke Tanaka

O34-4  Clinicopathological characteristics of gastric adenoma performed ESD
Dept. of Endoscopy, Fukushima Medical University Hospital, Fukushima, Japan  Yuichi Waragai

O34-5  The predictive factor of adenocarcinoma in gastric tumor lesions that were diagnosed with Group 3 at preoperative biopsy
Digestive disease center, Dept. of gastroenterology, Yodogawa Christian Hospital, Osaka, Japan  Naohiko Indo

Oral35  Annual endoscopy
May 13 (Fri)  09 : 00-09 : 35   Room10 (Ohte, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Masahiko Ohtaka
Yamanashi Koseiren Health Care Center, Japan

O35-1  The optimal endoscopic screening interval for detecting early gastric cancers
Dept. of Gastroenterology, Kyoto Second Red Cross Hospital, Japan  Atsushi Shirakawa

O35-2  Consideration about the check space of the Upper GI endoscopy
Dept. of gastroenterology, Tokyo Metropolitan Cancer Detection Center, Tokyo, Japan  Tetsuro Yamazato

O35-3  The Character of Gastric Cancer Detected in Gastro Endoscopic Screening in a Health Checkup
Chiba Foundation for Health Promotion and Disease Prevention, Chiba, Japan  Kazuya Yamaguchi

O35-4  Examination of gastric cancers in health care center
Osaka, Japan  Hirosi Sonoo

O35-5  Evaluation of false-negative patients with gastric cancer in gastroscopic screening
Dept. of Gastroenterology, Ishikawa Prefectural Central Hospital, Ishikawa, Japan  Yasuhiro Takeda

Oral36  Gastritis (Kyoto classification), cancer screening
May 13(Fri)  09 : 35-10 : 17   Room10 (Ohte, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Kenji Noguchi
Gastroenterology, National Hospital Organization Sendai Medical Center, Japan

O36-1  Usefulness of gastric cancer risk scoring in the Kyoto classification of gastritis
Dept. of Gastroenterology, Aichi Medical University School of Medicine, Aichi, Japan  Yoshiharu Yamaguchi

O36-2  Evaluation about endoscopic findings of gastritis before and after H. pylori eradication based on Kyoto classification
Div. of Gastroenterology and Hepatology, Digestive Disease Center, Kitano Hospital, Osaka, Japan  Satoshi Nishimura

O36-3  The evaluation of Kyoto classification of gastritis in the patients with gastric cancer kenntou
Dept. of Internal medicine, Hirosaki Municipal Hospital Aomori, Japan  Chikara Iino

Gastroenterological Endoscopy
O36-4 Interobserver agreement for endoscopic findings score in consideration of stomach cancer risk of Kyoto classification
Dept. of Gastroenterology, Dokkyo Medical University Koshigaya Hospital, Koshigaya, Japan Osamu Okawa

O36-5 An investigation of the H.pylori infection diagnosis by the Kyoto classification of gastritis
National Hospital Organization Hokkaido Medical Center, Hokkaido, Japan Ren Yamada

O36-6 Correlation between a novel STORZ Professional Image Enhancement System and nonneoplastic gastric pathology
Digestive Disease Center, CHA Bundang Medical Center, CHA University, Korea Weon Jin Ko

O37 Stomach: IEE 1
May 13(Fri) 10:17-10:52 Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Nobuyuki Shimizu
Surgery Department, Sanno Hospital, International University of Health and Welfare, Japan

O37-1 Efficacy of IEE (BLI-bright, LCI) for the detection of early gastric cancer from the view point of color difference
Dept. of Gastroenterology and Hepatology, Okayama Univ. Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama, Japan Hiromitsu Kanzaki

O37-2 Characteristic patterns of atrophic gastric mucosa on Blue LASER Imaging
Nishikawa Gastrointestinal Clinic, Matsuyama, Japan Yoshiyuki Nishikawa

O37-3 Improved visibility of early gastric cancer after successful Helicobacterpylori eradication therapy with LCI
Dept. of Endoscopy, Hiroshima University Hospital, Hiroshima, Japan Yoshikazu Yoshifuku

O37-4 Study on the Group 2 lesions in the gastric biopsy including image analysis
Dept. of Gastroenterology, Showa University Fujigaoka Hospital, Kanagawa, Japan Yutaka Fumizono

O37-5 The Accuracy of Confocal Laser Endomicroscopy for the Detection of Metaplastic Atrophy
Digestive Disease Center, CHA Bundang Medical Center, CHA University, Korea Weon Jin Ko

O38 Stomach: IEE 2
May 13(Fri) 10:52-11:34 Room10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Hirotaka Nakashima
Foundation for Detection of Early Gastric Carcinoma, Japan

O38-1 A Trial of the diagnostic accuracy of the White Globe Appearance as an Endoscopic Marker for Gastric Cancer
Dept. of Disease Control and Homeostasis, Kanazawa University Hospital, Kanazawa, Japan Hitoshi Omura

O38-2 M-NBI findings of gastric adenocarcinoma of fundic gland type
Dept. of Endoscopy, Fukuoka University Chikushin Hospital, Japan Shoko Fujiwara

O38-3 Diagnosis using NBI magnifying endoscopy of the range of undifferentiated early gastric cancer lesions
Dept. of Surgery, Sch. of Med., Keio Univ., Tokyo, Japan Rieko Nakamura

O38-4 Difference of color of gastric intestinal metaplasia between white light imaging and linked color imaging
Div. of Endoscopy, Hokkaido University Hospital, Sapporo, Japan Shoko Ono

O38-5 Screening for gastric cancer using magnifying endoscopy with narrow band imaging in our hospital
Gastroenterology and Hepatology, NHO Okayama medical center, Okayama, Japan Shinichi Furutachi
O38-6  Real-time observation of microcirculatory hemodynamics in gastric intestinal metaplasia by confocal laser endomicroscopy  
Dept. of Gastroenterology, Qilu Hospital, Shandong University, China  
Yafei Yin

Oral 39  Duodenum: Stent 1
May 13 (Fri)  15:44-16:19  Room 10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)  
Moderator:  Kohei Takizawa  
Div. of Endoscopy, Shizuoka Cancer Center, Japan

O39-1  Stent versus gastrojejunostomy for the palliation of gastric outlet obstruction: A propensity matching analysis  
Dept. of Gastroenterology, Toyonaka Municipal Hospital, Toyonaka, Japan  
Kei Takahashi

O39-2  Endoscopic stenting vs surgery for palliation of malignant gastroduodenal obstruction  
Dept. of Gastroenterology, Kameda General Hospital, Chiba, Japan  
Toshiyasu Shiratori

O39-3  Long-term outcomes after endoscopic stenting and gastrojejunostomy for malignant gastric outlet obstruction  
Dept. of Gastroenterology and Hepatology, Graduate Sch. of Med. Yamaguchi Univ., Ube, Japan  
Manabu Sen-yo

O39-4  Merits and demerits of duodenal stenting for inoperable advanced gastric cancer with gastric outlet obstruction  
Div. of Gastroenterology, Dept. of Surgery, Kansai Rosai Hospital, Japan  
Atsushi Takeno

O39-5  The efficacy of duodenal stenting in late elderly: A comparison with gastrojejunostomy  
Div. of Gastroenterology, Sch. of Med. Akita Univ., Akita, Japan  
Masanari Sekine

Oral 40  Duodenum: Stent 2
May 13 (Fri)  16:19-16:54  Room 10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)  
Moderator:  Yorimasa Yamamoto  
Div. of Gastroenterology, Cancer Institute Hospital, Japan

O40-1  Retrospective analysis of duodenal stent for malignant gastric outlet obstruction  
Div. of Gastroenterology, Tohoku University Sendai, Japan  
Eriko Nakano

O40-2  Clinical role of endoscopic gastroduodenal stenting  
Dept. of Gastroenterology and Hepatology, Yokohama City University Hospital, Yokohama, Japan  
Takamitsu Sato

O40-3  Efficacy of duodenal stent for malignant gastric outlet obstruction  
Dept. of Gastroenterology and Rheumatology, Sch. of Med. Fukushima Medical Univ., Fukushima, Japan  
Hiroyuki Asama

O40-4  Study of duodenal stent for malignant gastric outlet obstruction  
Gastroenterology and Hepatology, Japan Red Cross Society Wakayama Medical Center, Wakayama, Japan  
Keiichi Hatamaru

O40-5  Treatment outcomes of gastroduodenal stent placement and impact of chemotherapy for malignant gastric outlet obstruction  
Dept. of Gastroenterology, The Cancer Institute Hospital of JFCR, Japan  
Takashi Sasaki
Oral 41 Duodenum: ESD/EMR
May 13 (Fri) 16:54–17:29 Room 10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Kouichi Nonaka
NTT Medical Center Tokyo, Japan

O41-1 Therapeutic Strategies for Non-ampullary Duodenal Tumors with Endoscopic Resection
Dept. of Gastroenterology and Neurology 1, Pharmacology 2, Faculty of Medicine, Kagawa University, Kagawa, Japan
Maki Ayaki

O41-2 The complications prevention of duodenum ESD
Div. of Research and Development for Minimally Invasive Treatment, Cancer Center, Keio University Sch. of Med., Tokyo, Japan
Yasutoshi Ochiai

O41-3 The present state of duodenal ESD
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan
Masakazu Kikuchi

O41-4 Feature of ESD using Clutch Cutter for superficial type duodenal lesions in our hospital
Dept. of Gastroenterology, Sch. of Med. Tokai Univ., Kanagawa, Japan
Hirohiko Nakae

O41-5 A study of endoscopic mucosal resection for superficial non-ampullary duodenal epithelial tumor
Dept. of Gastroenterology, Toranomon Hospital, Tokyo, Japan
Takahito Toba

Oral 42 Colorectum: Neoplasm, Others
May 13 (Fri) 14:00–14:35 Room 13 (Ogyoku, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Fumio Omata
Gastroenterology Div., St. Luke’s International Hospital, Japan

O42-1 Clinicopathological feature of colorectal cancer detected by fecal blood test
Div. of Medicine and clinical science, Tottori university Faculty of Medicine, Yonago, Japan
Shuji Sasaki

O42-2 Outcomes of additional surgery after endoscopic removal of colorectal cancer classified by depth and other risk factors
Dept. of Surgical Oncology, Grad. Sch. of Med., Univ. of Tokyo, Tokyo, Japan
Hiroaki Nozawa

O42-3 Risk factors of recurrence after resection of colorectal T1 cancer with high-risk of lymph node metastasis
Dept. of Gastroenterology & Gastrointestinal Oncology National Cancer Center Hospital East, Japan
Maoimi Imajoh

O42-4 Consider endoscopic treatment of rectal neuroendocrine tumor 20 cases were performed in our hospital
Dept. of Gastroenterology, Nishi Kobe Medical Center, Kobe, Japan
Ikuhisa Takimoto

O42-5 Study on endoscopic treatment results and long-term prognosis of rectal NET in Sendai Kosei hospital
Sendai koueI hospital, gastroendoscopy center, Sendai, Japan
Tomoyuki Iwaki

Oral 43 Colorectum: Others
May 13 (Fri) 14:35–15:10 Room 13 (Ogyoku, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Takuya Inoue
Osaka Medical College, Japan

O43-1 Factors which relate to adenoma detection rate: subanalysis of a randomized controlled trial
Digestive Disease Center, Showa University Northern Yokohama Hospital, Yokohama, Japan
Yuichi Mori

O43-2 The method of the colonoscopic examination of the elderly people whom we examined from dementia
Dept. of Internal Medicine, Sapporo Doto Hospital, Sapporo, Japan
Sei Kurokawa

Gastroenterological Endoscopy
Clinical experience with Over-The-Scope-Clip System for iatrogenic perforation at Toyohashi Municipal Hospital  
Dept. of Gastroenterology, Toyohashi Municipal Hospital, Toyohashi, Japan  
Takafumi Yamamoto

Intraoperative and postoperative colonoscopy in laparoscopic low anterior resection  
Dept. of Coloproctological Surgery, Juntendo Univ., Tokyo, Japan  
Kazuhiro Sakamoto

Role of diagnostic laparoscopy in patients with peritoneal surface malignancy  
Div. of Colorectal Surgery, National Center for Global Health and Medicine, Japan  
Ryuichiro Suda

**O43-3**  
**Clinical experience with Over-The-Scope-Clip System for iatrogenic perforation at Toyohashi Municipal Hospital**  
Dept. of Gastroenterology, Toyohashi Municipal Hospital, Toyohashi, Japan  
Takafumi Yamamoto

**O43-4**  
**Intraoperative and postoperative colonoscopy in laparoscopic low anterior resection**  
Dept. of Coloproctological Surgery, Juntendo Univ., Tokyo, Japan  
Kazuhiro Sakamoto

**O43-5**  
**Role of diagnostic laparoscopy in patients with peritoneal surface malignancy**  
Div. of Colorectal Surgery, National Center for Global Health and Medicine, Japan  
Ryuichiro Suda

**O44**  
**Colorectum: stent/dilation 1**  
May 13 (Fri) 15:10–15:45  
Room 13 (Ogyoku, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)  
**Moderator:** Shuntaro Yoshida  
Dept. of Endoscopy and Surgery, The University of Tokyo, Japan

**O44-1**  
A study of preoperative intestinal decompression for obstructive colorectal cancer  
Dept. of Gastroenterology, Matsusaka central Hospital, Mie, Japan  
Masabumi Kaneko

**O44-2**  
Usefulness of Colorectal Stenting as a bridge to surgery in patients with obstructive colorectal cancer  
Dept. of Gastroenterology and Hepatology of Japanese Red Cross Wakayama Medical Center, Wakayama, Japan  
Hiroyoshi Iwagami

**O44-3**  
An outcome of self-expandable metallic stent (SEMS) for malignant large-bowel obstruction  
Yokohama Minami Kyousai Hospital, Yokohama, Japan  
Satoshi Nakao

**O44-4**  
Treatment results of chemotherapy of malignant colonic obstruction treated by self-expanding metallic stent placement  
Kyushu medical center, Dept. of gastroenterology and clinical research institute, Japan  
Sumida Yorinobu

**O44-5**  
Efficacy and safety of self-expandable metal stent placement for malignant colorectal obstruction in the elderly  
National Hospital Organization Kure Medical Center and Chugoku Cancer Center, Dept. of Gastroenterology, Hiroshima, Japan  
Tomoyuki Nishimura

**O45**  
**Colorectum: stent/dilation 2**  
May 13 (Fri) 15:45–16:20  
Room 13 (Ogyoku, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)  
**Moderator:** Kenji Tominaga  
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, Toho University Ohashi Medical Center, Japan

**O45-1**  
The efficacy of Self-Expandable Metallic Stent as BTS in patient with malignant obstruction of colorectal cancer  
Dept. of Internal Medicine (Gastroenterology), Toyama Prefectural Central Hospital, Toyama, Japan  
Atsuyoshi Mizukami

**O45-2**  
Clinical outcome of patients with colorectal malignant obstruction treated by colonic stent in our institution  
Digestive Endoscopy Center, Tsuyama Central Hospital, Japan  
Daisuke Kawai

**O45-3**  
Study of endoscopical colonic stent for malignant stenosis of colon  
Div. of Gastroenterology, Gifu Municipal Hospital, Gifu, Japan  
Tomio Ogiso

**O45-4**  
Expandable metal stents for the treatment of malignant colorectal obstruction  
Dept. of Internal Medicine, NOTO General Hospital, Nanao, Ishikawa Prefecture, Japan  
Kaithe Kakinoki

**O45-5**  
Treatment outcomes of endoscopic colorectal stent placement for malignant colonic obstruction  
Dept. of Gastroenterology, Cancer Institute Hospital of JFCR, Japan  
Takashi Sasaki
Oral46 Colorectum: hemostasis 1
May 13 (Fri) 16:20–16:55 Room13 (Ogyoku, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Naotaka Ogasawara
Dept. of Gastroenterology, Aichi Medical University School of Medicine, Japan

O46-1 Scoring system to predict a successful detection of the bleeding spot in hemorrhagic diverticulosis
Dept. of Gastroenterology, Saitama Medical Center, Jichi Medical University, Japan
Takeshi Uehara

O46-2 The diagnosis of diverticular hemorrhage of the colon by computed tomography
Dept. of Gastroenterology, Kizawa Memorial Hospital, Minokamo, Japan
Hiroshi Sugiyama

O46-3 Clinical features of Acute hemorrhagic rectal ulcer in elderly patients
Dept. of gastroenterology, minamisakura hospital, Japan
Toshikazu Yagyu

O46-4 Efficacy of CT scan in subjects with acute hemorrhagic rectal ulcer
Tokyo Dental College Ichikawa General Hospital, Dept. of Gastroenterology, Chiba, Japan
Sakiko Takarabe

O46-5 Study of acute hemorrhagic rectal ulcer in our hospital
Nishi Kobe Medical Center, Kobe, Japan
Shunya Iseki

Oral47 Colorectum: hemostasis 2
May 13 (Fri) 16:55–17:30 Room13 (Ogyoku, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Jun Kato
2nd Dept. of Internal Medicine, Wakayama Medical University, Japan

O47-1 Investigation of diverticular bleeding of colon at Gifu University Hospital for 5 years
Dept. of gastroenterology, Gifu University Graduate School of Medicine, Gifu, Japan
Taku Mizutani

O47-2 Endoscopic hemostasis for colonic diverticular hemorrhage. Endoscopic band ligation is the first choice
Fukuoka Tokushukai Medical Center, Japan
Yusuke Higuchi

O47-3 Endoscopic Band Ligation for colonic diverticular bleeding at Fuchu Hospital
Dept. of Medicine, Fuchu Hospital, Osaka, Japan
Hajime Hanno

O47-4 Lidocaine is useful for colonoscopic treatment of colonic diverticular bleeding
Dept. of gastroenterology, St Mary’s Hospital, Kurume, Japan
Teppei Kobayashi

O47-5 Re–bleeding risk facter of Colonic diverticular bleeding
Dept. of Gastroenterology, Chikamori hospital, Kochi, Japan
Shin Inoue

Oral48 Stomach: hemostasis
May 13 (Fri) 9:00–9:35 Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Hiroshi Kishikawa
Dept. of Gastroenterology, Tokyo Dental College, Ichikawa General Hospital, Japan

O48-1 The present condition of hemorrhagic gastric ulcer in our hospital
Dept. of Gastroenterology, NTT Medical Center Tokyo, Tokyo, Japan
Yoshitsugu Misumi

O48-2 Current status of the endoscopic treatment for bleeding peptic ulcer of elderly patients
Dept. of Gastroenterology and Hepatology, Japanese Red Cross Wakayama Medical Center, Wakayama, Japan
Takuji Akamatsu

O48-3 2 example of a stomach sporadic vascular ectasia who underwent hemostasis at EBL (Endoscopic band ligation)
Dept. of Gastroenterology, Fukuoka Tokushukai Hospital, Fukuoka, Japan
Taro Abe

O48-4 Management of Uppergastrointestinal Bleeding from the view point of health economics
Div. of Gastroenterology, Tokyo Medical Center, Tokyo, Japan
Yusaku Takatori

Gastroenterological Endoscopy
O48-5  Sturdy of bleeding gastric ulcer surgery cases
Dept. of Gastroenterology, Ogaki Municipal Hospital, Gifu, Japan  Natsuko Kobayashi

Oral49  post ESD bleeding
May 13(Fri)  9:35-10:10  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Seiji Onogawa
Dept. of Gastroenterology, Onomichi General Hospital, Japan

O49-1  The retrospective comparison of rabeprazole and vonoprazan for ulcer healing after ESD
The Cancer Institute Hospital of JFCR, Dept. of gastroenterology, Tokyo, Japan  Yusuke Muramatsu

O49-2  Clinical study comparing the effect of Vonoprazan, on the healing of ESD-derived ulcer with PPI: a case controlled study
Dept. of Gastroenterology, Kagawa Prefectural Central Hospital, Takamatsu, Japan  Tomo Kagawa

O49-3  Endoscopic closure of mucosal defect after gastric ESD using endoloop and endoclips in patients on antithrombotic drug
Endoscopy Div., National Cancer Center Hospital, Japan  Seiichiro Abe

O49-4  Analysis of delayed bleeding with different locations after endoscopic submucosal dissection for gastric tumor
Dept. of Gastroenterology, Seirei Hamamatsu General Hospital, Hamamatsu, Japan  Yashiro Yoshizawa

O49-5  Efficacy of oral esomeprazole compared with injectable omeprazole for the prevention of post-ESD bleeding
Dept. of Endoscopy and Endoscopic Surgery, Kanto Central Hospital of the Mutual Aid Association of Public School Teachers, Tokyo, Japan  Takashi Uchiyama

Oral50  Inflammatory Bowel Disease
May 13(Fri)  10:10-10:45  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Reiko Kunisaki
Inflammatory Bowel Disease Center, Yokohama City University Medical Center, Japan

O50-1  Characteristics of the ulcerative colitis that shifted to a chronic continuous type
Dept. of Gastroenterology, Fujieda Municipal General Hospital, Shizuoka, Japan  Tomohiro Terai

O50-2  Possibility of endoscopic resection as a diagnostic therapy for ALM/ALD in ulcerative colitis
Endoscopy center, Hyogo College of Medicine, Nishinomiya, Hyogo, Japan  Yoshio Ohda

O50-3  Unusual findings seen in the cecum of the two ulcerative colitis patients in remission induced by Qing Dai
Yokoyama IBD Clinic, Nagoya, Japan  Tadashi Yokoyama

O50-4  Efficacy of endoscopic spraying therapy for intestinal Behcet’s disease and simple ulcers
Div. of Gastroenterology, Hachioji hospital Sch. of Med. Tokai Univ., Tokyo, Japan  Takayuki Shirai

O50-5  A case of successful dilatation of a small bowel stricture in Crohn’s disease by a biliary balloon dilatation catheter
Dept. of Gastroenterology, Kagawa Prefectural Central Hospital, Takamatsu, Kagawa, Japan  Sakuma Takahashi
Oral51  Antithrombotics  
May 13(Fri)  10:45–11:20  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator:  Kingo Hirasaki  

Div. of Endoscopy, Yokohama City University Medical Center, Japan

OS1-1  Heparin bridging therapy is a high risk factor for post-polypectomy bleeding even in small polyp  
Dept. of Gastroenterology and Nephrology, Graduate School of Medicine, Chiba University, Chiba, Japan  

Hideaki Ishigami

OS1-2  Multicenter prospective study about safety of forceps biopsy during upper gastrointestinal endoscopy under new guideline  
Dept. of Gastroenterology and Hepatology, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama, Japan  

Hiroyuki Sakae

OS1-3  Post-operative bleeding of gastric ESD according to JGES guidelines about antithrombosis  
Dept. of Gastroenterology, Kobe Univ., Kobe, Japan  

Ryusuke Ariyoshi

OS1-4  Risk factors for bleeding after gastric endoscopic submucosal dissection under heparin replacement  
Dept. of Gastroenterology, Faculty of Med., The Tokyo Univ., Tokyo, Japan  

Iitaru Saito

OS1-5  Influence of antithrombotic therapy on colonic diverticular bleeding  
Dept. of gastroenterology, Toranomon Hospital, Tokyo, Japan  

Yumiko Fukuma

Oral52  Pancreas: EUS-FNA 1  
May 13(Fri)  14:00–14:35  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator:  Nobuyasu Fukutake  

Osaka Medical Center for Cancer and Cardiovascular Diseases, Japan

OS2-1  New technique of EUS-FNA for histological tissue sampling  
Dept. of Internal medicine, Fukuyama City Hospital, Fukuyama, Japan  

Yasuhiro Noma

OS2-2  Predictive factors that required 2 or more needle passes in EUS-FNA for pancreatic lesions  
Div. of Hepatology and Pancreatology, Dept. of Internal medicine, Aichi Medical School of Medicine, Aichi, Japan  

Yuji Kobayashi

OS2-3  Evaluation of the number of passes in EUS-FNA without ROSE and the usefulness of puncturing metastatic lesions  
Gastroenterology Medecine Center, Shonan Kamakura General Hospital, Kanagawa, Japan  

Kazuya Koizumi

OS2-4  Attempt to take full advantage of rapid onsite evaluation of EUS-FNA  
Dept. of Gastroenterology, Aichi Cancer Center Hospital, Aichi, Japan  

Takashi Hirayama

OS2-5  Prospective study of rapid on-site evaluation during EUS-guided fine needle aspiration for solid pancreatic tumor  
Div. of Gastroenterology, Ogaki Municipal Hospital, Gifu, Japan  

Akira Kanamori

Oral53  Pancreas: EUS-FNA 2  
May 13(Fri)  14:35–15:10  Room11  (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator:  Atsushi Kanno  

Div. of Gastroenterology, Tohoku University Graduate School of Medicine, Japan

OS3-1  EUS-FNA for pancreas tumor with or without aspiration  
Gastroenterological medicine, Sendai Kosei hospital, Miyagi, Japan  

Toru Okuzono

OS3-2  Usefulness of EchoTip ProCore for tissue biopsy  
Dept. of Gastroenterology, Sch. of Med. Yamagata Univ., Yamagata, Japan  

Yasuharu Kakizaki

Gastroenterological Endoscopy
O53-3  Diagnostic value of IMP3 in Endoscopic Ultrasound–Guided Fine–Needle Aspiration Biopsy to detect pancreatic malignancy
Dept. of Gastroenterology and Nephrology, Chiba University Graduate School of Medicine, Chiba, Japan
Junichi Senoo

O53-4  Diagnostic efficacy of Liquid–based cytology for the samples of solid pancreatic lesions obtained by EUS–FNA
Digestive and Lifestyle Diseases, Kagoshima University Graduate School of Medical and Dental Sciences, Kagoshima, Kagoshima, Japan  Shinichi Hashimoto

O53-5  Usefulness of Liquid Based Cytology in endoscopic ultrasound–guided fine needle aspiration.
Dept. of Gastroenterology, University of Fukui hospital, Fukui, Japan  Yu Akazawa

Oral54  Small intestine : Capsule Endoscopy 1
May 13(Fri)  15 : 10–15 : 45  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator :  Takashi Abe
Takarazuka Municipal Hospital, Japan

O54-1  Evaluation of capsule endoscopy in Crohn disease patients
First Dept. of Medicine, Hamamatsu School of Medicine, Japan  Ryosuke Takano

O54-2  Radiation dose reduction by low dose CT for PC evaluation "Focusing on radiation dose in CT scanning position"
Dept. of the Center of Gastroenterology, Otaru Ekisaikai Hospital, Japan  Tomoki Fujita

O54-3  Examination of evaluation and course after one year of capsule endoscopy for Crohn’s disease
Gastroenterology and Hepatology, Saitama Medical Center, Saitama Medical University, Saitama, Japan  Kazuhiro Kani

O54-4  Changes in the small intestine capsule endoscope medical care by insurance expanded application
Kure medical center and Chugoku cancer center, Dept. of Gastroenterology, Hiroshima, Japan  Hiroki Imagawa

O54-5  Distal ileum surveillance of Crohn’s disease during a combination MR enterography and PCF–PQ260L colonoscopy
Center for Advanced IBD Research and Treatment, Kitasato University Kitasato Institute Hospital, Tokyo, Japan  Masaru Nakano

Oral55  Small intestine : Capsule Endoscopy 2
May 13(Fri)  15 : 45–16 : 34  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator :  Akihiro Araki
The Center for Personalized Medicine for Healthy Aging, Japan

O55-1  Therapeutic strategy for small intestinal bleeding
Div. of Gastroenterology, National Hospital Organization Higasi–Ohmi General Medical Center, Shiga, Japan  Takehide Fujimoto

O55-2  The efficacy of patency capsule and capsule endoscopy for Obscure gastrointestinal bleeding withNSAIDS and aspirin
The Third Dept. of Kyorin University School of Medicine, Japan  Mari Hayashida

O55-3  Approach to intestinal hemorrhoid in liver cirrhosis patients –limit of endoscopic therapy–
Dept. of Gastroenterology and Endocrinology, Nara Medical Univ., Nara, Japan  Hideto Kawaratani

O55-4  Usefulness of small bowel capsule endoscopy in pediatric patients
Dept. of Endoscopic medicine, Mie University Graduate School of medicine, Mie, Japan  Masaki Katsurahara

O55-5  Evaluation of the ability of colon capsule endoscopy for diagnosis of ileum lesions
Endoscopy Center, Aishinkai Nakaie Hospital, Japan  Kono Naka
O55-6  In the Interpretation of Video Capsule Endoscopy, Role for Pre-Reader
Dept. of Gastroenterology, Korea University College of Medicine, Korea  Jung Min Lee

O55-7  Utilization of diving capsule-endoscopy in diagnosis of small intestinal diseases
Dept. of Gastroenterology, the People Hospital in Southeast Guizhou, China  Xiujiang Huang

Oral56  Small intestine : Neoplasm
May 13(Fri)  16:34-17:09  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator :  Takahiro Noda
Dept. of Gastroenterology, Karatsu Red Cross Hospital, Japan

O56-1  A clinicopathological study of 23 cases of primary small bowel adenocarcinoma
Dept. of Internal Medicine, Osaka Police Hospital, Osaka, Japan  Eri Yoshida

O56-2  Strategy of the small intestine malignant tumor diagnosis in our hospital
Dept. of Gastroenterology, Kobe City Medical Center General Hospital, Hyogo, Japan  Masashi Fukushima

O56-3  Usefulness of balloon-assisted enteroscopy for the diagnosis of small intestinal tumors
Div. of Gastroenterology, Tohoku University Hospital, Miyagi, Japan  Shin Matsumoto

O56-4  Clinical Efficacy of Capsule Endoscopy for Small Bowel Tumors
Div. of Gastroenterology, National Hospital Organization HOKKAIDO Cancer Center, Sapporo, Japan
Tamotsu Sagawa

O56-5  Multiple small intestinal metastasis of paraganglioma that we detected with double-balloon endoscopy : a case report
Dept. of gastroenterology, Tobata Kyoritsu Hospital, Kitakyushu, Japan  Kensei Ohtsu

Oral57  Small intestine : malignant lymphoma
May 13(Fri)  17:09-17:44  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator :  Shu Tanaka
Dept. of Gastroenterology, Nippon Medical School, Japan

O57-1  The endoscopic features of upper GI in patients with Follicular lymphoma
Div. of Gastroenterology, Aomori prefectural central hospital, Aomori, Japan  Shohei Igarashi

O57-2  The strategy for endoscopic diagnosis and treatment of jejunoileal involvements of malignant lymphoma
Dept. of Gastroenterology, Gifu University School of Medicine, Gifu, Japan  Takashi Ibuka

O57-3  Efficacy of gastrointestinal endoscopy for diagnosis of the small intestine malignant lymphoma
Div. of Gastroenterology and Hematology/Oncology, Dept. of Medicine, Asahikawa Medical University, Asahikawa, Hokkaido, Japan  Kazuyuki Tanaka

O57-4  Multiple gastrointestinal tract invasions by type II enteropathy–associated T–cell lymphoma
Dept. of Gastroenterology and Medicine, Faculty of Medicine, Fukuoka Univ., Fukuoka, Japan  Hideki Ishibashi

O57-5  Small intestine malignant lymphoma that are able to maintain remission by the resection and postoperative chemotherapy
Kanazawa Municipal Hospital, Japan  Atsushi Yonejima

Gastroenterological Endoscopy
Oral58 Pancreas: ERCP (diagnosis)
May 13(Fri) 9:00-9:35 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Toshiyasu Shiratori
Gastroenterology, Kameda General Hospital, Japan

O58-1 The role of ERCP in diagnosis of IPMN
Div. of Gastroenterology, Mito Kyodo General Hospital, Mito, Japan
Junya Kashimura

O58-2 The study of the observation of pancreatic ductal epithelium by small-diameter high frequency ultrasound probe
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan
Manabu Kawai

O58-3 Histological diagnosis of pancreatic ductal carcinoma
Dept. of Gastroenterology, Kita–Harima Medical Center, Japan
Tsuyoshi Sanuki

O58-4 Role of pancreatic juice cytology in the preoperative diagnosis for pancreatic cancer
Dept. of Gastroenterology, Kitasato Univ. Sch. of Med., Kanagawa, Japan
Hironori Masutani

O58-5 Investigation of the pathological diagnosis for the pancreas head tumors with the biliary strictures by ERCP and EUS–FNA
Div. of Gastroenterology, Dept. of Medicine, Showa University School of Medicine, Tokyo, Japan
Akira Yamamiya

Oral59 Pancreas: EUS (diagnosis)
May 13(Fri) 9:35-10:10 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Takao Ohtsuka
Dept. of Surgery and Oncology, Kyushu University, Japan

O59-1 Evaluation of EUS findings on Rosemont classification and pancreatic exocrine function test
Dept. of Gastroenterology, Aizu Medical Center, Fukushima Medical Univ., Fukushima, Japan
Ai Sato

O59-2 Is each EUS and IDUS necessary for diagnosis of invasion depth for Vaters papilla lesion?
Div. of Gastroenterology, Dept. of Internal Medicine, Kobe University Graduate School of Medicine, Kobe, Japan
Yui Hirata

O59-3 The role of EUS in diagnosis and treatment of autoimmune pancreatitis
Div. of gastroenterology and hepatology Kinki University, Faculty of Medicine, Osaka, Japan
Shunsuke Omoto

O59-4 Usefulness of Contrast–enhanced EUS and EUS–Elastography in the diagnosis of pancreatic ductal carcinoma
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Fukuoka, Japan
Ryo Ihara

O59-5 Quantitative analysis using contrast–enhanced harmonic EUS help diagnose pancreatic cancer
Dept. of Gastroenterology Kobe University School of Medicine, Hyogo, Japan
Takeshi Ezaki

Oral60 Pancreas: EUS–FNA 3
May 13(Fri) 10:10-10:45 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Keiichiro Matsumura
Dept. of Gastroenterology, Fukuoka University Chikushi Hospital, Japan

O60-1 Study of diagnosis difficult malignancy who underwent EUS–FNA to lymph nodes
Div. of Gastroenterology and Hepatology, Dept. of internal medicine, Sch. of Med. Yokohama city university, Yokohama, Japan
Yusuke Kurita

O60-2 Study of EUS–FNA for metastatic lymph nodes in our hospital
Dept. of Gastroenterology, Saitama Medical University International Medical Center, Saitama, Japan
Yuki Tanisaka
O60-3 The present situation of EUS-FNA for mediastinal lesion in Tokai Central Hospital
Dept. of Endoscopy and Gastroenterology, Tokai Central Hospital of the Mutual Aid Association of Public School Teachers, Gifu, Japan Hiroyuki Tanaka

O60-4 Diagnostic yield of EUS-FNA using rapid on-site evaluation by endoscopist for gastrointestinal subepithelial tumor
St.Luke’s International Hospital, Dept. of Gastroenterology, Tokyo, Japan Kenji Nakamura

O60-5 Efficacy and safety of endoscopic ultrasound-guided fine-needle aspiration through the rectum and sigmoid colon
Kobe City Medical Center General Hospital, Kobe, Japan Yohei Taniguchi

Oral61 EUS: Complication
May 13(Fri) 10:45-11:20 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Kazuhiro Matsunaga
Dept. of Gastroenterology, Ishikawa Prefectural Central Hospital, Japan

O61-1 EUS-related perforations: results from single center experience at the district general hospital in Japan
Dept. of Gastroenterology, Japanese Red Cross Date General Hospital, Date, Japan Hiroyuki Hisai

O61-2 To investigate safety of Single-session EUS-FNA and ERCP for patients with obstructive jaundice from pancreatic tumor
Gifu University Hospital, Gifu, Japan Kensaku Yoshida

O61-3 A study of complications of EUS-FNA in pancreatic disease diagnosis
Div. of Gastroenterology, Yokohama City University Medical center, Yokohama, Japan Kuniyasu Irie

O61-4 How to treat about the complication of EUS-guided therapy for Pancreatic fluid collection
Dept. of gastroenterology, Sch. of Med. Kitasato Univ., Kanagawa, Japan Toru Kaneko

O61-5 Usefulness of Propofol sustained administration at EUS-FNA in the cases the effect of midazolam can not expected
Yokohama City University Medical Center, Kanagawa, Japan Yoshihiro Goda

Oral62 Post operative ERCP 1
May 13(Fri) 14:00-14:35 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Hirofumi Kogure
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Japan

O62-1 To evaluate the endoscopic treatment for the postoperative benign biliary enteric anastomotic strictures
Dept. of Gastroenterology, Aichi Cancer Center Hospital, Nagoya, Japan Hitoshi Shibuya

O62-2 Usefulness of metallic stents for malignant biliary obstruction with surgically altered anatomy
Dept. of Gastroenterology, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan Kazunaga Ishigaki

O62-3 Age specific treatment outcomes of endoscopic pancreaticobiliary therapy using the DBE in post-gastrectomy patients
Div. of Hepatobiliary and Pancreatic Diseases, Dept. of Internal Medicine, Hyogo College of Medicine, Hyogo, Japan Yoshinori Iwata

O62-4 Usage experiences of prototype oblique-viewing endoscope (Y0072) with a long working length in post-gastrectomy state
Dept. of Internal Medicine, Sakuma Hospital, Hamamatsu, Japan Shuzo Terada

O62-5 Usefulness of SEMS for malignant biliary stricture with a short double balloon ERCP
Dept. of Internal medicine, Toyama Prefectural Central Hospital, Toyama, Japan Koichiro Matsuda

Gastroenterological Endoscopy
Oral63  Post Operative ERCP 2
May 13(Fri)  14:35–15:10  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator : Kazunari Nakahara
Dept. of Gastroenterology and Hepatology, St. Marianna University School of Medicine, Japan

O63-1  Treatment result of ERCP for pancreatic and biliary diseases with post–operative reconstruction
testinal tract
Div. of Gastroenterology, Fujigoka Hospital, Showa Univ., Yokohama, Japan  Naotaka Maruoka

O63-2  The study of ERCP–related treatment in the post–operative intestinal tract in our facility
Dept. of Liver, Biliary Tract and Pancreas Diseases, Fujita Health University School of Medicine, Japan
Kazunori Nakaoka

O63-3  Two cases of huge heaped choledocolith with Roux–en Y anastomosis successfully treated
endoscopically using ESWL
Div. of Digestive Disease, Dept. of Internal Medicine, Nara Prefecture General Medical Center, Nara, Japan
Fumimasa Tomooka

O63-4  ERCP in the patient with surgically altered anatomy using upper and lower endoscope
Niigata Cancer Center Hospital, Internal medicine, Japan  Kazuhiko Shioji

O63-5  ERCP using prototype short double balloon enteroscope
Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Tokyo, Japan  Ryosuke Tonozuka

Oral64  ERCP: Stent
May 13(Fri)  15:10–15:45  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator : Tsuyoshi Mukai
Dept. of Gastroenterology, Gifu Municipal Hospital, Japan

O64-1  The Utility of Double Stenting for Biliary and Duodenal Obstruction
Dept. of Gastroenterology, Chiba Cancer Center, Chiba, Japan  Hirosi Imazeki

O64-2  Clinical outcomes of double stenting to both malignant biliary obstruction with Gastric Outlet
Obstruction
Center for Gastroenterology Teine–Keijinkai Hospital, Hokkaidou  Koh Kitagawaga

O64-3  Endoscopic double–metallic stenting for malignant biliary and duodenal obstruction
Dept. of gastroenterology, Kushiro city general hospital, Kushiro, Japan  Koichiro Fukuda

O64-4  Double stenting for the treatment of malignant biliary and duodenal obstruction
Dept. of Gastroenterology, National Hospital Organization Kyushu Medical Center, Japan  Nao Fujimori

O64-5  The outcome of covered self–expandable metallic stent with FOLFIRINOX and Gemcitabine +
 nab–PTX
Dept. of Gastroenterology, Cancer institute hospital, Tokyo, Japan  Kei Saito

Oral65  ERCP: Pancreatitis, Treatment
May 13(Fri)  15:45–16:20  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator : Hiroyuki Miyakawa
Dept. of Bilio–pancreatolagy, Sapporo Kosei General Hospital, Japan

O65-1  Examination of the clinical therapy for the pancreatic pseudocyst and WON
Dept. of Gastroenterology, Hepatology, Saiseikainakatsu Hospital, Oosaka, Japan  Takaaki Eguchi

O65-2  Effectiveness and limitations of endoscopic pancreatic stenting in chronic pancreatitis
Dept. of Gastroenterology & Hepatology, Yamaguchi University Graduate School of Medicine, Yamaguchi, Japan
Shuhei Shinoda
O65-3 Experience of the pancreatic stone treatment with 72 line basket Reforma
Yokkaichi Hazu Medical Center, Japan  Shigehito Nakashima

O65-4 Efficacy and safety of endoscopic pancreatic stenting in the treatment of chronic pancreatitis
Osaka Police Hospital, Osaka, Japan  Eiji Kimura

O65-5 Investigation of treatment with a double balloon scope for recurrent pancreatitis after pancreaticoduodenectomy
Dept. of Gastroenterology, Faculty of Medicine, Yamagata University, Japan  Tetsuya Ishizawa

Oral66  Post ERCP pancreatitis prevention1
May 13(Fri)  16 : 20-16 : 55  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator : Shunsuke Komoto
Dept. of Endoscopic and Photodynamic Medicine, National Defense Medical College, Japan

O66-1 Study of effectiveness of pancreatic duct drainage for prevention of post-ERCP pancreatitis
Institute of Gastroenterology, Tokyo Women’s Medical University, Japan  Takahiro Ajihara

O66-2 Propensity analysis of prophylactic pancreatic duct stent within the high risk group of post ERCP pancreatitis
Div. of gastroenterology, Toyonaka municipal, Osaka, Japan  Shiro Hayashi

O66-3 Risk factors of Post-ERCP pancreatitis for naive papilla
Gifu municipal Hospital, Gastroenterology, Japan  Junji Kawaguchi

O66-4 What should we note in ERCP to the high risk group of PEP (the previous pancreatitis group)?
Div. of Gastroenterology, Dept. of Internal Medicine, Kobe University Graduate School of Medicine, Japan
Mamoru Takenaka

O66-5 Clinical examination of post-ERCP pancreatitis in our hospital
Dept. of Gastroenterology, Yamagata Prefectural Central Hospital, Yamagata, Japan  Yoshiaki Ando

Oral67  Post ERCP pancreatitis prevention 2
May 13(Fri)  16 : 55-17 : 30  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator : Hiroaki Shigoka
Digestive Disease Center, Kohsei Chuo General Hospital, Japan

O67-1 Relation between post-ERCP pancreatitis and asymptomatic hyperamylasemia
Dept. of Gastroenterology and Metabolism, Hiroshima University Hospital, Hiroshima, Japan  Keisuke Kurihara

O67-2 Low dose NSAID intravenous injection could reduce the rate of the post ERCP pancreatitis in patients with high risks
Dept. of Gastroenterology and Hepatology, Yokohama City University School of Medicine, Yokohama, Japan  Yuji Fujita

O67-3 Efficacy of low-dose rectal diclofenac for prevention of post-ERCP pancreatitis
Div.of Gastroenterology, Gifu Prefectual Tajimi Hospital, Tajimi, Japan  Shigeki Fukusada

O67-4 Prophylaxis of post-ERCP pancreatitis using temporary pancreatic stent vs rectal nonsteroidal anti-inflammatory drug
Dept. of Gastroenterology, JCHO Kobe Central Hospital, Kobe, Japan  Yoshitomo Konaka

O67-5 Analysis of severe post ERCP pancreatitis
The Second Dept. of Internal Medicine, Osaka Medical College, Japan  Daisuke Masuda
Oral68  Endoscopic treatment for elderly patients
May 14(Sat)  9:00-9:35  Room8  (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Shinichiro Hori
Dept. of Endoscopy, National Hospital Organization (NHO), Shikoku Cancer Center, Japan

O68-1  Safety assessment of carbon dioxide insufflation in endoscopy for elderly patients using end-tidal carbon dioxide
Gastroenterology Center, Ehime Prefectural Central Hospital, Matsuyama, Ehime, Japan  Nobuaki Azemoto

O68-2  Sarcopenia as a clinical prognostic factor in elderly patients with early gastric cancer
Dept. of Gastroenterology, Fukui Prefectural Hospital, Fukui, Japan  Yoshiaki Hayashi

O68-3  Clinical features of acute upper gastrointestinal bleeding in the elderly
Center of Gastroenterology, St. Marianna Toyoko Hospital, Kawasaki, Japan  Satoko Nakatsu

O68-4  Analysis of factors influencing the observation of the esophagogastric junction in elderly person
Div. of Gastroenterology and Hepatology, St. Marianna Univ. School of Medicine, Kanagawa, Japan  Yasumasa Matsuo

O68-5  Photodynamic Therapy for Gastrointestinal Cancer in the Elderly
Div. of Gastroenterology, Faculty of Medicine, Univ. of Tsukuba, Ibaraki, Japan  Tsuyoshi Kaneko

Oral69  Gastric ESD for elderly patients 1
May 14(Sat)  9:35-10:10  Room8  (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Toshiro Iizuka
Dept. of Gastroenterology, Toranomon Hospital, Japan

O69-1  Safety and efficacy of endoscopic submucosal dissection for early gastric cancer in elderly patients
Dept. of Gastroenterology and Hepatology, Osaka University Graduate School of Medicine, Osaka, Japan  Shunsuke Yoshii

O69-2  Safety and efficacy of gastric endoscopic submucosal dissection in elders
Dept. of Internal Medicine, Gastroenterology, Shinshu University School of Medicine, Matsumoto, Japan  Akihiro Ito

O69-3  Short, and long-term prognosis after endoscopic submucosal dissection for early gastric cancer in the elderly
Dept. of Internal Medicine & Gastrointestinal Endoscopy, Saga Medical School, Japan  Kohei Yamanouchi

O69-4  Clinical outcomes of endoscopic submucosal dissection in octogenarian patients with early gastric cancer
Dept. of Gastroenterology, Osaka City University Graduate School of Medicine, Japan  Hiroaki Minamino

O69-5  Clinicopathological study of esophagogastric ESD in the elderly
Div. of Endoscopy, Yokohama City University Medical Center, Yokohama, Japan  Ryosuke Ikeda

Oral70  Gastric ESD for elderly patients 2
May 14(Sat)  10:10-10:52  Room8  (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator: Youji Harada
Todachuo General Hospital, Japan

O70-1  The outcome of the endoscopic submucosal dissection of the superficial gastric neoplasia for elderly person aged over 80
Dept. of Gastroenterology, Japanese Red Cross Medical Center, Tokyo, Japan  Shinzo Yamamoto

O70-2  Consideration of endoscopic submucosal dissection in elderly patients with early gastric cancer in our hospital
Kawasaki Municipal Tama Hospital, Dept. of Gastroenterology and Hepatology, Japan  Nozomi Sato

**Oral 71: Esophagus: Malignant Stenosis**

May 14 (Sat) 10:52-11:27 Room 8 (Gyoko, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

**Moderator:** Norihisa Ishimura

- O71-1 The small-diameter metallic stent placement for malignant esophageal stenosis after RT, improve safely the QOL
  Dept. of gastroenterology, Sendai Medical Center, National Hospital Organization, Sendai, Japan
  Kenji Noguchi

- O71-2 Treatment outcome of endoscopic stent placement for malignant esophageal strictures
  Shizuoka Cancer Center, Div. of Endoscopy, Shizuoka, Japan
  Katsuyuki Murai

- O71-3 Efficacy of esophageal stenting using the OTSC for malignant strictures of esophagus
  Dept. of Endoscopy, Fukushima Medical University Hospital, Fukushima, Japan
  Ko Watanabe

- O71-4 The present state of stenting for advanced esophageal cancer after radiotherapy
  Dept. of Gastroenterology and Hepatology, Kyoto Prefectural Univ. of Medicine, Kyoto, Japan
  Tomoyo Yasuda

- O71-5 Outcome of stent placement for marignant strictures and fistula of the esophagus
  Div. of Gastroenterology, Fukuyama Medical Center, Fukuyama, Hiroshima, Japan
  Isao Fujita

**Oral 72: Esophagus: Post Operative Stenosis**

May 14 (Sat) 9:00-9:35 Room 10 (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)

**Moderator:** Junya Oguma

- O72-1 The possibility of temporary stenting for refractory benign esophageal stricture
  Osaka Medical College second internal medicine, Osaka, Japan
  Yoshiaki Takahashi

- O72-2 Consideration of the treatment of benign esophagogastric anastomotic strictures
  Div. of Gastroenterology, Sch. of Med. Gifu Univ., Gifu, Japan
  Masaya Kubota

- O72-3 The transition of endoscopic dilatation against anastomotic stricture after esophageal cancer resection
  Dept. of Gastroenterologic Surgery, Kanazawa Univ., Japan
  Koichi Okamoto

- O72-4 Our experience of using steroid to prevent a stenosis after esophageal ESD
  Dept. of fronrier surgery, Graduate school of medicine, Chiba university, Japan
  Shinsuke Kakuta

- O72-5 Early balloon dilatation for anastomotic leakage after esophagectomy for esophageal cancer
  Dept. of Upper Gastrointetinal Surgery, Hyogo College of Medicine, Japan
  Masashi Takemura
O73  Stomach : Sedation
May 14(Sat)  9 : 35–10 : 10  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator : Masaaki Kodama
Div. of Endoscopy, Oita University, Japan

O73-1  Trial of novel breathe monitoring in patients under the sedation during gastric ESD
Dept. of Frontier Surgery, Sch. of Med. Chiba Univ., Chiba, Japan  Masaya Uesato

O73-2  Risk factor of severe respiratory depression in patients during ESD under sedation
Dept. of Frontier Surgery, Graduate School of Medicine, Chiba University, Chiba, Japan  Mizuho Aikawa

O73-3  The efficiency and safety of fentanyl-propofol sedation for endoscopic treatment in upper gastrointestinal tract
Endoscopy Division, National Cancer Center Hospital, Tokyo, Japan  Yosuke Minoda

O73-4  Efficacy and safety of sedation with propofol for esophageal endoscopic submucosal dissection by trainees
Molecular Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine Graduate School of Medical Science, Kyoto, Japan  Naoto Iwai

O73-5  Sedation with dexmedetomidine and midazolam during esophageal ESD
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Nagoya, Japan  Hiromitsu Asai

O74  Endoscopy under sedation
May 14(Sat)  10 : 10–10 : 45  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator : Tomoaki Suga
Gastroenterology, Dept. of Medicine, Shinshu University School of Medicine, Japan

O74-1  Usefulness of Propofol for Endoscopic Procedure
Dept. of Gastroenterology and Hepatology, Osaka Rosai Hospital, Japan  Makoto Fukuoka

O74-2  Safety and effectiveness of propofol sedation during and after outpatient GI endoscopy
Digestive Disease Center, Showa Inan General Hospital, Komagane, Japan  Naoyuki Fujiwara

O74-3  Examination of the adaptation condition of dexmedetomidine in upper endoscopic rejection
Div. of Research and development for Minimally Invasive Treatment, Cancer Center, Keio University, School of Medicine, Tokyo, Japan  Seiji Sagara

O74-4  Safety of conscious sedation for colonoscopy
National Hospital Organization, Tokyo Medical Center, Dept. of Gastroenterology, Japan  Shigeo Banno

O74-5  Management of sedation in digestive endoscopies in hospital accredited by Joint Commission International
St.Luke’s International Hospital, Dept. of Gastroenterology, Tokyo, Japan  Kenji Nakamura

O75  Laparoscopy
May 14(Sat)  10 : 45–11 : 27  Room10  (Ohtei, Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F)
Moderator : Keiko Niimi
Center for Epidemiology and Preventive Medicine, The University of Tokyo Hospital, Japan

O75-1  A case of follicular B cell lymphoma with Castleman disease feature diagnosed by LADG and LN biopsy
Dept. of Surgery, Noto General Hospital, Nanao, Ishikawa, Japan  Satoshi Ushijima

O75-2  Preoperative endoscopic marking in totally laparoscopic distal gastrectomy
Dept. of Surgery, Otori Stomach and Intestines Hospital, Japan  Takaya Tokuhara
O75-3  Preoperative evaluation of esophagus and stomach using upper gastrointestinal endoscopy before sleeve gastrectomy  
Dept. of Gastroenterol Pediatr Surg, Oita Univ, Oita, Japan  Masayuki Ohta

O75-4  Laparoscopic and endoscopic cooperative surgery for gastric submucosal tumor  
Dept. of Surgery, Kochi Medical School, Kochi, Japan  Tsutomu Namikawa

O75-5  5 cases of Laparoscopy and Endoscopy Cooperative Surgery for gastrointestinal SMT  
Div. of Gastroenterology, Yao municipal Hospital, Osaka, Japan  Yuki Maegawa

O75-6  Efficacy and safety of laparoscopic assisted endoscopic submucosal dissection for duodenal tumor  
Dept. of Gastroenterology and Hematology, Kyoto Pref. Univ. of Med, Kyoto, Japan  Osamu Doha

Oral76  Hp 1  
May 14(Sat)  9:00-9:35  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator: Katsuhiro Mabe  
Dept. of Gastroenterology, National Hospital Organization, Hakodate Hospital, Japan

O76-1  3 cases of Helicobacter pylori negative and differentiated early gastric cancer  
Div. of Gastroenterology, NTT West Osaka Hospital, Osaka, Japan  Narihiro Shibukawa

O76-2  Consideration about 7 examples of gastric adenocarcinoma of fundic gland type in our hospital  
Div. of Gastroenterology, Tonami general Hospital, Tonami, Japan  Katsuhisa Inamura

O76-3  Examination of false negative of serum anti-Helicobacter pylori antibody for patients undergone gastric ESD  
Dept. of Gastroenterology, South Miyagi Medical Center, Ogawara, Japan  Sho Asonuma

O76-4  Diagnosis of H pylori infection by endoscopic findings in young subjects  
Dept. of General Internal Medicine 2, Kawasaki Hospital, Kawasaki Med. Sch., Okayama, Japan  Mitsuhiro Suehiko

O76-5  Clinical analysis of nodular gastritis in our hospital  
Gastroenterological medicine, Tokyo Women’s Medical University Hospital, Tokyo, Japan  Yuko Tamura

Oral77  Hp 2  
May 14(Sat)  9:35-10:10  Room11 (Heian, Grand Prince Hotel New Takanawa 3F)  
Moderator: Takuji Yamasaki  
Foundation for Detection of Early Gastric Carcinoma, Japan

O77-1  Investigation of endoscopic findings of Helicobacter heilmannii-like organisms (HHLO)  
Internal medicine, Kenwakai Hospital, Iida, Japan  Toshihisa Tsukadaira

O77-2  Evaluation of nutritional condition after Helicobacter pylori eradication  
Dept. of Gastroenterology, National Hospital Organization, Nagoya Medical Center, Nagoya, Japan  Masaaki Shimada

O77-3  Clinical Characteristics of anti-parietal cell-positive gastritis found in the practice for H. pylori infection  
Center for Clinical Research, Hamamatsu University School of Medicine, Japan  Takahisa Furuta

O77-4  Helicobacter pylori antibody titer in Group D subjects  
Dept. of Gastroenterology, Tokyo Dental College, Ichikawa General Hospital, Japan  Hiroshi Kishikawa

O77-5  Helicobacter pylori eradication rate of 3 combination therapy with Vonoprazan  
Yamanashi Koseiren Health Care Center, Japan  Mika Miura
Oral78  Gastric cancer (post Hp eradication)
May 14(Sat) 10:10-10:45 Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Jun Miwa
Dept. of Gastroenterology and Endoscopy, Toshiba General Hospital, Japan

O78-1  Endoscopic surveillance after successful H.pylori eradication
Dept. of Gastroenterology and Hepatology, Kyoto Prefectural University of Medicine, Kyoto, Japan  Atsushi Majima

O78-2  Clinicopathological study of gastric cancer after H.pylori eradication therapy
Dept. of Endoscopy, Aichi Cancer Center Hospital, Nagoya, Japan  Tsutomu Tanaka

O78-3  Characteristic of Helicobacter pylori eradicated Gastric Cancer
Dept. of Endoscopy, Nagasaki University Hospital, Nagasaki, Japan  Ken Ohnita

O78-4  Difficulty of endoscopic diagnosis of gastric cancers after Helicobacter pylori eradication therapy
Div. of Gastroenterology, Asa Citizens Hospital, Hiroshima, Japan  Shinichi Mukai

O78-5  Early gastric cancers after eradication therapy of Helicobacter pylori, a study of cases operated by ESD in a hospital
Dept. of Gastroenterology, Machida Municipal Hospital, Tokyo, Japan  Emiko Tanida

Oral79  Metachronous gastric cancers
May 14(Sat) 10:45-11:20 Room11 (Heian, Grand Prince Hotel New Takanawa 3F)
Moderator: Seiji Futagami
Div. of Gastroenterology, Nippon Medical School, Japan

O79-1  Study of synchronous and metachronous lesions after gastric ESD
Dept. of Gastroenterology, Gifu University, Gifu, Japan  Tomohiko Sugiyama

O79-2  Examination on the occurrence of metachronous cancer in H.pylori regression cases after ESD of gastric cancer
Div. of Gastroenterology and Hepatology, Digestive Disease Center, Kitano Hospital, Osaka, Japan  Kotaro Watanabe

O79-3  Clinicopathological features of metachronous gastric cancer after Helicobacter Pylori eradication
Dept. of gastroenterology, Chiba cancer center, Chiba, Japan  Rino Nankinzan

O79-4  Characteristic of a gastric cancer recurrence group and identification of the group using serum H. pylori IgG subclass
Dept. of Gastroenterology and Hepatology, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama, Japan  Ko Miura

O79-5  Study of ectopic simultaneous gastric cancer / stomach adenomas found in the ESD preoperative examination of the stomach
Dept. of Gastroenterology, NTT Medical Center Tokyo, Tokyo, Japan  Hiromichi Tsunashima

Oral80  Stenting for hilar cholangiocarcinoma
May 14(Sat) 9:00-9:35 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Kei Ito
Dept. of Gastroenterology, Sendai City Medical Center, Japan

O80-1  Clinical significance of multi-stenting for malignant hilar biliary strictures
Dept. of General internal Medicine 2, Kawasaki Medical School, Okayama, Japan  Tomohiro Tanikawa

O80-2  Placement of multiple stenting for hilar malignant biliary obstruction—approach in our hospital—
Dept. of Gastroenterology, Osaka City University Graduate School of Medicine, Japan  Hirotsugu Maruyama
O80-3 Biliary drainage with stents for the malignant hilar biliary strictures
Dept. of Gastroenterology, Hiroshima City Asa Hospital, Hiroshima, Japan Masanobu Yukutake

O80-4 Preoperative biliary drainage for hilar cholangiocarcinoma during Neoadjuvant therapy
Dept. of Gastroenterology, Mie University Hospital, Mie, Japan Naohiko Yoshizawa

O80-5 Unresectable hilar malignant biliary stricture treated with self-expandable metallic stents using Side–by–side method
Div. of Hepatobiliary and Pancreatic Disease, Dept. of Internal Medicine, Hyogo College Of Medicine, Nishinomiya, Japan Kunihiro Hasegawa

Oral 81 Biliary drainage 1
May 14(Sat) 9:35–10:10 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Akihito Okazaki
Dept. of Gastroenterology, Onomichi General Hospital, Japan

O81-1 Feasibility of endoscopic biliary drainage in patients with an indwelling duodenal stent
Div. of Hepatology and Pancreatobiliary Medicine, Aichi Medical University School of Medicine, Nagakute, Japan Tadahisa Inoue

O81-2 A retrospective study on the increase in the common bile duct stones by biliary plastic stent (PS) long–term indwelling
Dept. of gastrointestinal medicine, municipal–hospital, Shimada, Shizuoka, Japan Junichi Kaneko

O81-3 Endoscopic biliary drainage for biliary stenosis of post living donor liver transplantation
Fukushima medical University School of Medicine, Dept. of Gastroenterology and Rheumatology, Fukushima, Japan Naoki Konno

O81-4 Benefit of Endoscopic Naso–Gallbladder Drainage (ENGBD) in patients with acute cholecystitis
Dept. of Digestive Disease Center, Showa University Koto Tohoku Hospital, Tokyo, Japan Dai Sakuma

O81-5 The role of inside plastic stent for patients with malignant biliary stenosis
Kokusho Central Hospital, Dept. of Internal medicine, Tawaramoto–cho, Japan Akitoshi Douhara

Oral 82 Biliary drainage 2
May 14(Sat) 10:10–10:45 Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)
Moderator: Mitsuharu Fukasawa
First Dept. of internal medicine, University of Yamanashi, Japan

O82-1 The efficiency of ERCP for non resectable malignant hilar bile duct stenosis
Gastroenterology and Hepatology, Japan Red Cross Society Wakayama Medical Center, Wakayama, Japan Keiichi Hatamaru

O82-2 Bilateral stent–in–stent placement of Metallic Stents in patients with malignant hilar biliary obstruction
Dept. of medical gastroenterology, Osaka General Medical Center, Osaka, Japan Toshihiro Imai

O82-3 The comparative study of MS VS PS of preoperative biliary drainage for malignant biliary tract stenosis
Dept. of Gastroenterology & Neurology, Faculty of Medicine, Kagawa University, Kagawa, Japan Takuma Yamashita

O82-4 Multiple deployment of metallic stents is safe and effective in the treatment of unresectable hilar cholangiocarcinoma
Dept. of Gastroenterology and Hepatology, Tottori Municipal Hospital, Tottori, Japan Daisuke Goto

O82-5 A clinical study of Double Stent for distal biliary tract obstruction in the unresectable malignancy
Dept. of Gastroenterology and Hepatology, Osaka Rosai Hospital, Japan Makoto Fukuoka
Oral83  Small intestine and colon: infectious diseases
May 14(Sat)  10:45-11:20  Room12 (Tempyo, Grand Prince Hotel New Takanawa 3F)

Moderator: Kimitoshi Kato
Clinical Research Center, Nihon University Itabashi Hospital, Japan

O83-1  A clinical survey using colonoscopy of patients with Strongyloides stercoralis infection in Ryukyu University Hospital
Dept. of Infectious, Respiratory, and Digestive Medicine, Faculty of Medicine, University of the Ryukyus, Japan
Teruhisa Tanaka

O83-2  The clinical study of strongyloidiasis in inflammatory bowel disease
Div. of Gastroenterology, Dept. of Internal Medicine, Naha City Hospital, Okinawa, Japan
Ryosaku Tomiyama

O83-3  Severe duodenal erosion and enteroparalysis due to refractory strongyloides stercoralis infection: a case report
Urasoe General Hospital, Japan
Akira Teramoto

O83-4  A case of colitis due to the intestinal spirochete which showed apparent endoscopic inflammatory findings
Dept. of Gastroenterology and Surgery, Sch. of Tane General Hospital, Osaka, Japan
Kotaro Takeshita

O83-5  Two cases of the small intestinal anisakiasis diagnosed and treated by using a enteroscope
Div. of Gastroenterology, National Hospital Organization, Higashi-Ohmi General Medical Center, Shiga, Japan
Hiroo Mizuta
Poster Session

May 12(Thu) Poster  (Sakura, Grand Prince Hotel New Takanawa B1F)

1 GI Tract: Antithrombotics, GI Tract Bleeding  (14:00~14:24)
Teikyo University Chiba Medical Center, Japan  Tomoki Michida

2 GI Tract: Antithrombotics 1  (14:24~14:54)
Div. of Gastroenterology, Tokai University, Hachioji-Hospital, Japan  Takayuki Shirai

3 GI Tract: Antithrombotics 2  (14:54~15:24)
Kyoto Pref. University of Med., Japan  Yuji Naito

4 GI Tract: Amyloidosis  (15:24~15:48)
Dept. of Internal Medicine 2, Kawasaki Hospital, Kawasaki Medical School, Japan  Mitsuhiro Suehiro

5 GI Tract: Endoscopic Treatment  (14:00~14:30)
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Japan  Ryoji Miyahara

6 GI Tract: Foreign Body  (14:30~14:54)
Tokai University Oiso Hospital, Japan  Ryuzo Deguchi

7 Stomach: Neoplasm (English Session)  (14:54~15:24)
Dept. of Gastroenterology, Kameda Medical Center, Japan  Tatsuo Morinushi

8 Stomach: Neoplasm (EUS) (English Session)  (15:24~16:00)
Self Defense Forces Central Hospital, Japan  Shigeaki Aono

9 Colorectum: Educational Training 1  (14:00~14:24)
Showa University Northern Yokohama Hospital, Japan  Toyoki Kudo

10 Colorectum: Educational Training 2  (14:24~14:48)
The Third Dept. of Internal Medicine, Kyorin University School of Medicine, Japan  Mari Hayashida

11 Colorectum: CSP  (14:48~15:30)
Takahiro Fujii Clinic, Japan  Takahiro Fujii

12 Colorectum: Case  (15:30~16:06)
Dept. of Coloproctology, Fukushima Medical University Aizu Medical Center, Japan  Shungo Endo

13 Colorectum: Preparation 1  (14:00~14:24)
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, The Jikei University School of Medicine, Japan  Tomohiro Kato

14 Colorectum: Preparation 2  (14:24~14:54)
Gastroenterology and Hepatology, Tokyo Medical University Hospital, Japan  Kenji Yagi

15 Colorectum: Others 1  (14:54~15:30)
 Digestive Disease Center, Showa University Northern Yokohama Hospital, Japan  Yuichi Mori
16 Colorectum: Others 2  
Depart. of Endoscopy, The Jikei University School of Medicine, Japan  
Naoto Tamai

17 Upper GI Tract: Neoplasm  
Div. of Gastroenterology, Dept. of Internal Medicine, Jichi Medical University, Japan  
Yoshimasa Miura

18 Systemic Disorders  
Depart. of Gastroenterology, Onomichi General Hospital, Japan  
Koichi Nakadoi

19 Stomach: Others  
Dept. of Cardiovascular, Thoracic, and General Surgery, Kanazawa University, Japan  
Hideki Moriyama

20 Laparoscope: Others  
Depart. of Gastroenterology, Aichi Medical University School of Medicine, Japan  
Masahide Ebi

21 IBD  
Depart. of Internal Medicine, National Defense Medical College, Japan  
Ryota Hokari

22 IBD: Case Reports  
Div. of Gastroenterology and Hepatology, Keio University, Japan  
Makoto Naganuma

23 Colorectum: Stent 1  
Depart. of Surgery, Toho University Ohashi Medical Center, Japan  
Toshiyuki Enomoto

24 Colorectum: Urgent Endoscopy  
Depart. of Gastroenterology, Cancer Institute Hospital, Japan  
Toshiaki Hirasawa

25 ERCP: Treatment 1  
Dept. of Liver, Biliary Tract and Pancreas Diseases, Fujita Health University, Japan  
Senju Hashimoto

26 ERCP: Treatment 2  
Tokyo Kamata Medical Center, Japan  
Takahiko Mimura

27 Elderly: ERCP  
Div. of Gastroenterology, Dept. of Internal Medicine, Showa University Fujigaoka Hospital, Japan  
Masatsugu Nagahama

28 ERCP: Others  
Dept. of Gastroenterology, Yokohama Rosai Hospital, Japan  
Yusuke Sekino

Poster Session
Venue: Sakura, Grand Prince Hotel New Takanawa B1F

May 12(Thu)  Afternoon Session

Poster1  Gl Tract : Antithrombotics, Gl Tract Bleeding  14:00-14:24
Moderator : Tomoki Michida
Teikyo University Chiba Medical Center, Japan

P-001  A study of endoscopic biopsy and colon EMR of antithrombotic drugs while taking
Dept. of Gastroenterology, Ebina General Hospital, Japan  Masami Inase

P-002  A single center study of GI bleeding cases who were taking Non-vitamin K antagonist oral
anticoagulants (NOAC)
Div. of Gastroenterology, Saiseikai Fukuoka General Hospital, Fukuoka, Japan  Kojiro Niho

P-003  Difference of gastrointestinal adverse effect among non-vitamin K antagonist oral anticoagulants
Teikyo university school of medicine, Tokyo, Japan  Yu Kawashima

P-004  Management of antithrombotic agents for endoscopic procedures
Dep. of Gastroenterology, Toyama Red Cross Hospital, Toyama, Japan  Kazuko Shinagawa

Poster2  Gl Tract : Antithrombotics 1  14:24-14:54
Moderator : Takayuki Shirai
Div. of Gastroenterology, Tokai University, Hachioji-Hospital, Japan

P-005  The effect of antithrombotic agents to postoperative hemorrhage of the gastric ESD
O0mori Red Cross Hospital, Tokyo, Japan  Akihiro Takahashi

P-006  Issues related to guidelines for GI endoscopy in patients taking antithrombotic agents—study in ESD
for gastric lesions—
Dept. of gastroenterology and Endocrinology and Metabolism, Nara medical university, Nara, Japan
Motoyuki Yoshida

P-007  Intraoperative bleeding during gastric ESD with heparin bridging
Div. of Endoscopy, Shizuoka Cancer Center, Japan  Kimihiro Igarashi

P-008  Examination of the ESD after–bleeding risk by the antithrombotic drug
Dept. of Internal Medicine, Hiroshima City Hospital, Hiroshima, Japan  Masayuki Maruo

P-009  The preventive hemostasis measures in the Second–look endoscopy after ESD are not necessary in
patients
Dept. of Gastroenterology, Kagawa Prefectural Central Hospital, Kagawa, Japan  Koichi Izumikawa

Poster3  Gl Tract : Antithrombotics 2  14:54-15:24
Moderator : Yuji Naito
Kyoto Pref. University of Med., Japan

P-010  Clinical features of hemorrhagic gastroduodenal ulcer patients with antithrombotic agents
Dept. of Internal medicine Tokyo Metropolitan Bokutoh Hospital, Tokyo, Japan  Takahito Nozaka

Gastroenterological Endoscopy
P-011 Evaluation of bleeding after gastric endoscopic submucosal dissection in patients with antithrombotic therapy
Second Dept. of Internal Medicine, National Defense Medical College, Tokorozawa, Japan  Nao Sugihara

P-012 Pathogenetic Risk analysis of post gastric ESD bleeding and thromboembolism in Antithrombotic agent recipients
Div. of Gastroenterology, Ome Municipal General Hospital, Tokyo, Japan  Yumi Ito

P-013 Evaluation for the safety of the endoscopic treatment in the person with antithrombotic agent
Gastrointestinal medicine, sasebokyouusi hospital, sasebo city, Nagasaki Pref, Japan  Maruyama Yuji

P-014 A study on the complication of endoscopic procedure to the recipient of antithrombogenic agents
Institute of Gastroenterology, Nippon Medical School Musashikosugi Hospital, Kanagawa, Japan  Masanori Watanabe

Poster4  GI Tract : Amyloidosis  15 : 24-15 : 48
Moderator : Mitsuhiko Suehiro
Dept. of Internal Medicine 2, Kawasaki Hospital, Kawasaki Medical School, Japan

P-015 Investigation of Lanthanum deposition in the gastric mucosa, association with dialysis amyloidosis
Dept. of Endoscopy, Shimane Prefectural Central Hospital, Shimane, Japan  Youichi Miyako

P-016 A Case of Secondary Gastrointestinal Amyloidosis with Multiple myeloma Under a Diagnosis of Bowel Obstruction
Nishinomiya municipal central hospital, Hyogo, Japan  Hirofumi Kashihara

P-017 A case of amyloidosis difficult to differentiated with submucosal tumor on appendix
JCHO Osaka Hospital, Osaka, Japan  Mina Kato

P-018 A case of localized rectal amyloidosis
Dept. of Gastroenterology, Tokushima Prefectural Central Hospital, Tokushima, Japan  Koji Takahashi

Poster5  GI Tract : Endoscopic Treatment  14 : 00-14 : 30
Moderator : Ryooji Miyahara
Dept. of Gastroenterology and Hepatology, Nagoya University Graduate School of Medicine, Japan

P-019 Three duodenal ulcer cases related to torrential rains in Kanto and Tohoku, September 2015
TSUKUBA memorial Hospital, Japan  Daisuke Suganuma

P-020 Prognostic factor of perforated peptic ulcer
Dept. of Gastroenterology, Kyushu Central Hospital, Fukuoka, Japan  Kazuoki Hizawa

P-021 A case of successful hemostasis for Pancreateojenuno anastomotic hemorrhage by use of single balloon enteroscopy
Okayama City Hospital, Okayama, Japan  Hiroyuki Kageyama

P-022 A case of ectopic varices post choledochojejunostomy treated by EIS with double-balloon enteroscopy
Dept. of Gastroenterology, Oiso Hosp. Sch. of Med. Tokai Univ., Kanagawa, Japan  Yoshitaka Arase

P-023 Experiences of endoscopic ballon dilatation for post gastrointestinal operative benign stenosis
Dept. of Surgery, Shimotsuga General Hospital, Tochigi Medical Center, Tochigi, Japan  Atsushi Yoshida

Poster6  GI Tract : Foreign Body  14 : 30-14 : 54
Moderator : Ryuzo Deguchi
Tokai University Oiso Hospital, Japan

P-024 Clinical consideration of the foreign bodies in the digestive tract in our hospital
National Hospital Organizaition Kumamoto Medical Centar, Kumamoto, Japan  Taichi Matsuyama
P-025  Foreign objects in the digestive tract at our hospital: Retrospective analysis of 101 cases
Dept. of Gastroenterology, Ageo Central Hospital, Saitama, Japan  Haruhiko Kondo

P-026  Examination of endoscopic removal of foreign body
Saint Mary’s Hospital, Fukuoka, Japan  Naoki Kamachi

P-027  Permeability and elemental changes of a persimmon phytobezoar in Coca-Cola dissolution
Dept. of Gastroenterology, Okayama Univ. Hospital, Okayama, Japan  Masaya Iwamuro

Poster 7  Stomach : Neoplasm  14 : 54-15 : 24
Moderator:  Tatsuo Morinushi
Dept. of Gastroenterology, Kameda Medical Center, Japan

P-028  ESD for EGC with undifferentiated–type histology in the forceps biopsy: a clinical simulation
Dept. of Medicine, Sungkyunkwan University School of Medicine, Korea  Jun Haeng Lee

P-029  Comparison of Endoscopic Submucosal Dissection and Surgical Resection for Treating Gastric Subepithelial Tumors
Dept. of Internal Medicine, Hallym University Sacred Heart Hospital, Korea  Jae Seung Soh

P-030  Lymph node metastasis risk for histologic type with poorly cohesive components in EGC confined to mucosa
Dept. of Internal Medicine, SoonChunHyang University School of Medicine, Korea  Jae Pil Han

P-031  Efficacy of PET/CT in Gastric MALT Lymphoma
Dept. of Gastroenterology, Inje University School of Medicine, Korea  DW Lee

P-032  Relapse-free survival in gastric mucosa–associated lymphoid tissue lymphoma after complete remission
Div. of Gastroenterol, SNUBH, Korea  Chang Min Lee

Poster 8  Stomach : Neoplasm(EUS)  15 : 24-16 : 00
Moderator:  Shigeaki Aono
Self Defense Forces Central Hospital, Japan

P-033  Accuracy of endoscopic ultrasonography for ulcerative early gastric cancers
Inha University School of Medicine, Korea  Jin-Seok Park

P-034  Accuracy of Endoscopic Ultrasonography in the Gastric Subepithelial Tumor Required for Treatments
Dept. of Internal Medicine, Pusan National University Yangsan Hospital, South Korea  Jung Min Park

P-035  Impact of additional miniprobe–endoscopic ultrasound after endoscopy in determining treatment of early gastric cancer
Dept. of Internal Medicine, Pusan National University Yangsan Hospital, South Korea  Joon Ho Jeon

P-036  Performance of EUS-Guided Fine–Needle Biopsy Using a 19-Gauge ProCore Needle in Small Subepithelial lesions
Dept. of Internal Medicine, The Catholic University of Korea, Korea  Yu Kyung Cho

P-037  Pathologic analysis of total 52 subepithelial tumors
Dept. of Internal Medicine, Hanyang University Hospital, Seoul, Korea  Joo Hee Kwak

P-038  Dose pathological uniformity exists between periphery and center of gastric gastrointestinal stromal tumors?
Dept. of Internal Medicine, Hanyang University Hospital, Seoul, Korea  Joo Hee Kwak

Gastroenterological Endoscopy
Poster9  Colorectum : Educational Training 1  14 : 00-14 : 24
Moderator : Toyoki Kudo
Showa University Northern Yokohama Hospital, Japan

P-039  Study of the endoscope insertion difficult factor for the training system development appropriate colonoscopy
Yamaguchi University Graduate School of Medicine, Dept. of Gastroenterology and Hepatology, Yamaguchi, Japan
Ryo Kawasato

P-040  Failure and refractory case for colonoscopy insertion
Kinki University Faculty of Medicine, Osaka-sayama, Japan
Mitsunari Yamada

P-041  Colonoscopy insertion method by shaft holding foreshortening with transparent hood and changing position
Japan Labour Health and Welfare Organization, Tokyo Rosai Hospital, Japan
Naoki Hirano

P-042  Our TCS training system
Hukuoka Tokusyukai Hospital, Japan
Koji Nakamichi

Poster10  Colorectum : Educational Training 2  14 : 24-14 : 48
Moderator : Mari Hayashida
The Third Dept. of Internal Medicine, Kyorin University School of Medicine, Japan

P-043  Coloring of colonoscopy shaft every 20cm and tubercle on Upside portion of the scope is very useful on insertion
Div. of Endoscopy, IWATSUKI NAIKAITYOUKA Clinic, Iwatsuki-ku, Saitama-city, Japan
Hironari Matsumoto

P-044  New colonoscopy makes insertion time Shorter? Definition of Insertion Time and its Importance. [Insertion time] & [ADR]
Div. of Endoscopy, IWATSUKI NAIKAITYOUKA Clinic, Iwatsuki-ku, Saitama-city, Japan
Hironari Matsumoto

P-045  The pit fall of a screening colonoscopy –learn from the false–negative early colorectal cancer–
Dept. of gastroenterology, Omori Red Cross Hospital, Tokyo, Japan
Hideyuki Chiba

P-046  Our water immersion technique
Fukuoka Tokusyukai Hospital, Japan
Koji Nakamichi

Poster11  Colorectum : CSP  14 : 48-15 : 30
Moderator : Takahiro Fujii
Takahiro Fujii Clinic, Japan

P-047  Cold polypectomy in our hospital
Tokyo Metropolitan Bokutoh Hospital, Tokyo, Japan
Masami Ike

P-048  A study of the usefulness and safety of the Cold snare polypectomy for colorectal polyps
Tokatsu Tsujinaka Hospital, Japan
Daisuke Kitayama

P-049  Safety of cold snare polypectomy
Osaka red cross hospital, Gastroenterology, Japan
Manabu Fukuhara

P-050  The effectiveness and problem of cold snare polypectomy for diminutive colonic neoplasms
Div. of Gastroenterology, Dept. of Medicine, Akashi Medical Center, Hyogo, Japan
Nobuaki Ikezawa

P-051  No Risk Polypectomy Method "cold polypectomy"
The Insitutute of Tadatomohiro Gastroenterokogy, Saitama, Japan
Tomohiro Tada

P-052  Current state of the cold snare polypectomy in the induction phase of in our hospital
Dept. of Gastroenterological medicine, School of Medicine, Tokai University, Kanagawa, Japan
Fumio Nakahara

Gastroenterological Endoscopy
P-053 Usefulness and safety of Cold Snare Polypectomy
Gastroenterology, Murakami Memorial Hospital, Asahi University, Gifu, Japan Akira Tomie

Poster12 Colorectum: Case  15:30-16:06
Moderator: Shungo Endo
Dept. of Coloproctology, Fukushima Medical University Aizu Medical Center, Japan

P-054 A Case of Goblet Cell Carcinoid of the Appendix Diagnosed After Appendectomy
Dept. of Surgery, Fuchu Hospital, Japan Naoki Aomatsu

P-055 One cases of colon anastomatic stricture transanal endoscopic balloon bougie
Dept. of Frontier Surgery, Graduate School of Medicine, Chiba University, Japan Yorihiko Muto

P-056 A case of patient with diarrhea due to Sevelamer Hydrochloride
Dept. of Gastroenterology, Aomori city hospital, Aomori, Japan Tetsuro Yoshimura

P-057 One case that were observed squamous metaplasia in transverse colon sm1 cancer
Digestive Disease Center, St. Marianna University School of Medicine, Toyoko Hospital, Kanagawa, Japan Yoshihito Yoshida

P-058 A Rectal submucosal tumor diagnosed by ESD as a calcified nodule in the submucosal vessel
Dept. of gastroenterology, Hyogo College Of Medicine, Hyogo, Japan Masaya Kobayashi

P-059 A case of rectal tumor close to the dental line who developed bowel stenosis after ESD
Div. of Gastroenterology, Hiratsuka City Hospital, Kanagawa, Japan Hisakuni Tomonari

Poster13 Colorectum: Preparation 1  14:00-14:24
Moderator: Tomohiro Kato
Div. of Gastroenterology and Hepatology, Dept. of Internal Medicine, The Jikei University School of Medicine, Japan

P-060 New colon preparation study for colon capsule endoscopy
Div of Gastroenterology, Dept. of Internal Medicine, Kawasaki Medical School, Okayama, Japan Hiroshi Matsumoto

P-061 Randomized controlled trial of Moviprep® versus Nifec® as preparations for colonoscopy
Dept. of Gastroenterology, Yokohama Kousei Hospital, Yokohama, Japan Suguru Sawada

P-062 Examination of patient tolerability and intestinal cleanliness of MOVIPREP in our hospital
Dept. of Gastroenterology Sendai City Medical Center, Miyagi, Japan Tetsuya Ohira

P-063 Safety and efficacy of MOVIPREP in the hemodyalysis patient, at the preparation of the colonoscopy
Japanese Red Cross Fukuoka Hospital, Fukuoka, Japan Tetsuji Kudo

Poster14 Colorectum: Preparation 2  14:24-14:54
Moderator: Kenji Yagi
Gastroenterology and Hepatology, Tokyo Medical University Hospital, Japan

P-064 What is the appropriate bowel preparation for colonoscopy in the elderly (80 years and above)
Dept. of Endoscopy, Aichi Cancer Center Hospital, Nagoya, Japan Masahiro Tajika

P-065 The efficacy of Moviprep for elderly patients as a preparation for colonoscopy
Kameda Medical Center Dept. of Gastroenterology Kenji Yamauchi

P-066 Low-volume polyethylene glycol solution (PEG) vs. standard PEG preparation for colonoscopy
Div. of Gastroenterology Dept. of Internal Medicine 577 Matsushima, Kawasaki City, Okayama, Japan Makiko Kawakami
P-067  Seeking for the best preparation on Colonoscopy. Comparison between hypertonic PEG and isotonic citrate magnesium  
Div. of Endoscopy, IWATSUKI NAIKAIYOKA Clinic, Iwatsuki-ku, Saitama-city, Japan  
Hironari Matsumoto

P-068  The efficacy and time of bowel preparation for colonoscopy among young and non constipated patients  
Dept. of Gastrointestinal Oncology, Osaka medical center for cancer and cardiovascular diseases, Osaka, Japan  
Noriko Matsuura

Poster 15  Colorectum: Others 1  14:54-15:30
Moderator:  Yuichi Mori  
Digestive Disease Center, Showa University Northern Yokohama Hospital, Japan

P-069  Computer analysis for vessels of colorectal lesions by using endocytoscopy  
Digestive Disease Center, Showa University Northern Yokohama Hospital, Kanagawa, Japan  
Kenichi Takeda

P-070  Evaluation of the colon capsule endoscopy in the detection of colonic polyp  
Div. of Gastroenterology, Dept. of Internal Medicine, Hyogo College of Medicine, Hyogo, Japan  
Tomohiro Ogawa

P-071  Cap with a disk attached colonoscopy makes good visibility, easy detection of lumen, Pull and Telescope technique easy  
Div. of Endoscopy, IWATSUKI NAIKAIYOKA Clinic, Iwatsuki-ku, Saitama-city, Japan  
Hironari Matsumoto

P-072  Three cases report: Colovesical fistula treated by OTSC method  
Suita Municipal Hosp, Japan  
Shinya Kanou

P-073  The role of the endoscopic examination for the anastomotic leakage after surgery for the rectal cancer patients  
Dept. of Digestive Surgery, KAKEN Hospital, International University of Health and Welfare  
Longxue Jin

P-074  Utility of the preoperative stent insertion for the patients of obstructive colorectal cancer  
Dept. of Gastroenterological and Pediatric Surgery, Oita University Faculty of Medicine, Oita, Japan  
Takahiro Hiratsuka

Poster 16  Colorectum: Others 2  15:30-15:54
Moderator:  Naoto Tamai  
Dept. of Endoscopy, The Jikei University School of Medicine, Japan

P-075  Investigation of enterohemorrhagic Escherichia coli infection  
Kurume Coloproctology Center, Kurume, Japan  
Hiroyuki Ozasa

P-076  Retrospective analysis of human intestinal spirochetosis  
Dept. of Gastroenterology, Kitasato institute hospital, Tokyo, Japan  
Satoko Umeda

P-077  Six Cases of Antibiotic-Associated Hemorrhagic Colitis after Therapy for Helicobacter Pylori  
Dept. of Colorectal Surgery, Tokatsu Tsujinaka Hospital, Abiko, Japan  
Ryoichi Ikekami

P-078  The endoscopic and clinical findings of Aeromonas enteritis in our hospital  
Dept. of Gastrointestinal Medicine, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital, Tokyo, Japan  
Akinari Takao

Poster 17  Upper GI Tract: Neoplasm  14:00-14:36
Moderator:  Yoshimasa Miura  
Div. of Gastroenterology, Dept. of Internal Medicine, Jichi Medical University, Japan

P-079  Successful Management of Synchronous of Esophageal, Gastric and Pharyngeal Cancer  
Dept. of surgery, Tokyo Metropolitan Komagome Hospital, Japan  
Soshi Hori
P-080 Superficial esophageal cancer (moderately differentiated squamous cell carcinoma) resembling a submucosal tumor
Div. of Internal Medicine, Okayama Saiseikai General Hospital, Okayama, Japan  Daisuke Kametaka

P-081 A case report of delayed perforation and necrosis of gastric tube after endoscopic submucosal dissection
Dept. of Surgery, Keio University School of Medicine, Japan  Yuki Hirata

P-082 A case of circumferential esophageal carcinoma which was preventable post-ESD stricture by steroid "combination" therapy
Div. of Gastroenterology, Fukaya red cross hospital, Saitama, Japan  Hiroyuki Eto

P-083 Early colorectal cancer with Metachronous gastric double cancer
Okazaki, Aichi, Japan  Fukashi Sugiuara

P-084 A case of poorly differentiated adenocarcinoma of the sigmoid colon associated with synchronous multiple gastric Cancers
Koyoshi Gastroenterologist Clinic, Ibusuki, Japan  Nobuaki Nishimata

Poster 18  Systemic Disorders  14:36-15:00
Moderator: Koichi Nakadoi
Dept. of Gastroenterology, Onomichi General Hospital, Japan

P-085 A case of pelvic inflammatory disease diagnosed by laparoscopy
Moriei general hospital, Dept. of Surgery, Kuwana, Japan  Tooru Masuda

P-086 Clinical examination of gastrointestinal complications seen in an HIV infected person
Dept. of Internal Medicine, Fukuyama Medical Center, Japan  Katsunori Matsueda

P-087 2 cases of IgG4-related disease diagnosed by gastroendoscopic and colonoscopy random biopsy
Chiba Rosai Hospital, Dept. of Internal medicine, Chiba, Japan  Masami Awatsu

P-088 A study of IgA vasculitis in our hospital
Dept. of medical gastroenterology, Japanese Red Cross Wakayama Medical Center, Wakayama, Japan  Keiji Okada

Poster 19  Stomach: Others  15:00-15:30
Moderator: Hideki Moriyama
Dept. of Thoracic, Cardiovascular and General Surgery, Kanazawa University, Japan

P-089 Discovery opportunities and Problems of the diagnosis of type A gastritis
Dept. of Fujieda Municipal General Hospital, Shizuoka, Japan  Maruyama Yasuhiko

P-090 Nodular gastritis is useful for identifying high-risk groups of Gastric cancer not detected by serum pepsinogen tests
Dept. of the first internal medicine, Hidaka general hospital, Japan  Izumi Nishikawa

P-091 Utility of gastrointestinal endoscopy in the elderly for diagnosis of gastric and colon carcinoma
Dept. of Surgery, Nerima General Hospital, Tokyo, Japan  Naoto Kurihara

P-092 Necessary ‘or not’ of endoscopic ultrasonography at a diagnosis of invasion depth for early gastric cancer
Dept. of Gastroenterology, Akashi Medical Center, Akashi, Japan  Masao Hanafusa

P-093 Comparison of early phase of gastric emptying in the FD patients with pancreatic dysfunction with without it
Div. of Gastroenterology, Nippon Medical School, Tokyo, Japan  Hiroshi Yamawaki
**Poster 20** | Laparoscope: Others 15:30–16:06  
**Moderator:** Masahide Ebi  
Dept. of Gastroenterology, Aichi Medical University School of Medicine, Japan

P-094 | The outcomes of Laparoscopic Gastrectomy for T1 gastric cancer  
Div. of surgical oncology, Nagasaki University Hospital, Nagasaki, Japan  
Masaki Kunizaki

P-095 | Malignant peritoneal mesothelioma, diagnosed laparoscopy  
Saiseikai Matsuyama Hospital, Ehime, Japan  
Shogo Kitahata

P-096 | Intraoperative Endoscopic Resection of Left Ventricular Tumors  
Div. of Gastroenterology, Hirastuka City Hospital, Kanagawa, Japan  
Jun Arimoto

P-097 | System cart PC-45L makes it possible to use both the endoscope system of Olympus and it of Fuji Film medical  
Happy GI clinic, Mie, Japan  
Hideki Toyoda

P-098 | Usefulness of lens cleaner for contact lens and tangle anti-fogging agent during esophagogastroduodenoscopy  
Dept. of Gastroenterology, Sch. of Med., Wakayama Medical Univ., Wakayama, Japan  
Takao Maekita

P-099 | Non fluoroscopic method of a nasoenteric feeding tube placement beyond the pylorus performed with an endoscopy  
Dept. of Gastrointestinal and Hepato-Biliary–Pancreatic Surgery, Nippon Medical School, Tokyo, Japan  
Nobutoshi Hagiwara

**Poster 21** | IBD 14:00–14:36  
**Moderator:** Ryota Hokari  
Dept. of Internal Medicine, National Defense Medical College, Japan

P-100 | Comparison of the endoscopic severity diagnosis and immunohistochemistry in prognosis of ulcerative colitis  
Div. of Gastroenterology & Hepatology, Dept. of Internal Medicine, Kanagawa, Japan  
Shingo Tsuda

P-101 | The Mesalamine suppositories use in-use experience to ulcerative colitis at Matsue Red Cross Hospital  
Div. of Gastroenterology, Matsue Red Cross Hospital, Shimane, Japan  
Takafumi Yuki

P-102 | Endoscopic therapy for ulcerative colitis–associated colorectal cancers  
Dept. of Gastroenterology, Toranomon Hospital, Japan  
Akira Matsui

P-103 | Retrospective consideration of six cases used Biologics for intestinal Behcet disease  
Japanese Red Cross Nagoya Daiiti Hospital, Japan  
Ryo Nishio

P-104 | Clinical approach of 15 cases diagnosed collagenous colitis at our hospital  
Kishiwada Tokushukai Hospital, Osaka, Japan  
Rika Kakihara

P-105 | Two cases of the ulcerative colitis that endoscopic mucosal appearance were useful for the introduction of infliximab  
Dept. of Gastroenterological Medicine, Medical Corporation ISHINKAI YAO General Hospital, Osaka, Japan  
Masatoshi Ishikawa

**Poster 22** | IBD: Case Reports 14:36-15:06  
**Moderator:** Makoto Naganuma  
Div. of Gastroenterology and Hepatology, Keio University, Japan

P-106 | A case of intestinal Bechet' disease using anti-TNF agents  
Dept. of Gastroenterology, Oita Red Cross Hospital, Oita, Japan  
Tetsuya Ishida
P-107 Adalimumab-resistant intestinal Behcet’s disease : report of a case
Dept. of Gastroenterological Medicine, Steel Memorial Yawata Hospital, Kitakyushu, Japan Shigeo Nakamura

P-108 Crohn’s disease seen in monozygotic twins
Nishinomiya Municipal Central Hospital, Hyogo, Japan Sari Yairi

P-109 A case of crohn’s disease with typical endoscopic features of intestinal tuberculosis
Dept. of Gastroenterology, Kure Kyoai Hospital, Kure, Hiroshima, Japan Kyoko Yoshioka

P-110 A case of ulcerative colitis in the elderly involved with volvulus of the sigmoid colon
Dept. of Gastroenterology, Nishimurakai koyo hospital, Wakayama, Japan Kazuyuki Nakazawa

Poster23 Colorectum : Stent 1 15 : 06-15 : 30
Moderator: Toshiyuki Enomoto
Dept. of Surgery, Toho University Ohashi Medical Center, Japan

P-111 Clinical result of self-expandable metallic stent placement for malignant colonic obstruction
Div. of Gastroenterology, Iwate Prefectural Isawa Hospital, Oshu, Iwate, Japan Ryo Ichikawa

P-112 Consideration of Self-Expandable Metal Stent for Malignant Large-Bowel Stenosis In Our Hospital
Takatsuki General Hospital, Japan Takaaki Matsumoto

P-113 The efficacy and safe examination of the Colonic stent placement case for colonic cancer ileus in this hospital
Yao municipal hospital, Osaka, Japan Masashi Nakamura

P-114 Efficacy of endoscopic self-expandable metallic stent placement for the treatment of malignant colorectal obstruction
Dept. of Gastroenterology, Gifu Prefectural General Medical Center, Japan Takayuki Nakanishi

Poster24 Colorectum : Urgent Endoscopy 15 : 30-16 : 06

P-254 Role of endoscopic therapy for pancreatico-jejunostomy strictures after pancreatoduodenectomy  
Dept. of Gastroenterology, Saiseikai Kanazawa Hospital, Japan  Yuji Hodo

P-255 Analysis of ERCP using balloon-assisted enteroscope in patients with altered gastrointestinal anatomy  
Dept. of Gastroenterology, Gifu Municipal Hospital, Gifu, Japan  Ryuichi Tezuka
P-256 Study of ERCP-related procedures using single balloon endoscope for the patients with surgical altered anatomy
Digestive Diseases Center, Showa University Koto Toyosu Hospital, Tokyo, Japan Masashi Satoh

P-257 Utility of oblique-viewing endoscopic approach to obstructive jaundice after Billroth II
Toyohashi municipal hospital, Japan Kazuhiro Yamamoto

Poster52 ERCP: Cases 15:30-16:00
Moderator: Junichi Miyazaki
Dept. of Gastroenterology and Hepatology, Takarazuka Municipal Hospital, Japan

P-258 A case of hilar cholangiocarcinoma with migration of biliary stent
Dept. of Gastroenterology, Clinical Research Institute, National Kyushu Medical Center, Fukuoka, Japan Kazuhide Matsumoto

P-259 A case of IgG4-related sclerosing cholangitis with no biliary stricture but severe thickening of the bile duct wall
Dept. of Gastroenterology, Japanese Red Cross Nagoya Daini Hospital, Nagoya, Japan Shuya Shimizu

P-260 A case of intramural cyst of the common bile duct with acute cholecystitis
Div. of Gastroenterology, Sendai Medical Center, Sendai, Miyagi, Japan Tetsuya Takikawa

P-261 Two cases of obstructive jaundice due to small cell lung carcinoma
Dept. of Gastroenterology, Iwate Prefectural Isawa Hospital, Oshu, Iwate, Japan So Takahashi

P-262 A case of neuroendocrine tumor arising from the major and minor papilla in a patient with von Recklinghausen disease
Dept. of Gastroenterology, Japanese Red Cross Date General Hospital, Date, Japan Tamaki Sakurai

May 14(Sat) Morning Session
Poster53 Stomach: Neoplasms 1 10:00-10:36
Moderator: Takashi Nagahama
Gastroenterology, Fukuoka University Chikushi Hospital, Japan

P-263 A family case of Gastric adenocarcinoma and proximal polyposis of the stomach (GAPPS)
Gastroenterology, Kumamoto University Hospital, Kumamoto, Japan Junko Yoshida

P-264 A case of gastric inflammatory fibroid polyp covered by cancerous mucosa
Dept. of Surgery, Fukui Kosei Hospital, Fukui, Japan Takeshi Osawa

P-265 A Gastric Hamartomatous Inverted Polyp Preoperatively Diagnosed as a lyomioma Treated by LECS
Dept. of surgery, Toyama Saiseikai Takaoka Hosp. Takaoka, Toyama, Japan Tetsuji Yamaguchi

P-266 A case of early gastric cancer arising in gastric hyperplastic polyps before and after eradication of H. Pylori
Dept. of Gastroenterology, Hamamatsu Medical Center, Hamamatsu City, Japan Yasushi Iwaoka

P-267 A case of type 0-I with CA19–9 producing undifferentiated intramucosal gastric cancer
Dept. of Gastroenterology, Osaka, Japan Masanori Furukawa

P-268 A case of hamartomatous inverted polyp of the stomach which caused anemia
Dept. of Gastroenterology, Kita-harita Medical Center, Japan Shohei Abe
Posters

**Poster54** Stomach: Neoplasm 2 10:36-11:00

**Moderator:** Yasuhiro Abe  
Dept. of Gastroenterology, Yamagata University Faculty of Medicine, Japan

Day before : May 11(Wed)  18:00~21:00  NEW PIER HALL

Moderator  The Institute of Gastroenterology, Tokyo Women’s Medical University, Japan  Shinichi Nakamura
Moderator  Center for Preventive Medicine, Keio University Hospital, Japan  Yasushi Iwao
Moderator  Dept. of surgical pathology, Toho University Medical Center, Omori Hospital, Japan  Tetsuo Nemoto

Case presentation  Saitama prefectural Cancer Center, Japan
Case presentation  The Institute of Gastroenterology, Tokyo Women’s Medical University, Japan
Case presentation  Div. of Research and Development for Minimally Invasive Treatment Cancer Center, Keio University, School of Medicine, Japan

Non-neoplastic polyps
Image Diagnosis Education Instructor  Osaka Medical College Hospital, Japan  Yutaro Egashira
Case presentation  Dept. of Endoscopy, TheJikei University School of Medicine, Japan
Case presentation  Dept. of Gastroenterology, Akita Red Cross Hospital, Japan

Sponsor : EA Pharma Co., Ltd.

May 12(Thu)

Luncheon Seminar 1

Day 1 : May 12(Thu)  12:00~12:50  Room 2  (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Keiun, 3F)

Present status of endoscopic examination in upper GI tract—from screening to detailed examination and treatment.

Moderator  Dept. of Gastroenterology, Murakami Memorial Hospital, Asahi University, Japan  Nobuaki Yagi
Speaker  Medical Treatment Corporate Foundation Group Hakuaikai Medical Checkup Center Wellness, Japan  Rie Yoshimura
Speaker  Nagoya University Graduate School of Medicine Gastroenterology and Hepatology, Japan  Ryouji Miyahara

Sponsor : FUJIFILM Medical Co., Ltd.

Luncheon Seminar 2

Day 1 : May 12(Thu)  12:00~12:50  Room 6  (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Zuiko, 1F)

Time to start EUS-guided true histological tissue sampling

Moderator  School of Medicine and Dept. of Gastroenterology, Azabu Medical Center, Fukushima Medical University, Japan  Atsushi Irisawa
Speaker  First Dept. of Internal Medicine, Gifu University Hospital, Japan  Takuji Iwashita
Speaker  Dept. of Cancer Surgery and Gastrointestinal Oncology, Osaka Prefectural Hospital Organization, Osaka Medical Center for Cancer and Cardiovascular Diseases, Japan  Reiko Ashida

Sponsor : Cook Japan Inc.
Luncheon Seminar 3

Day 1: May 12(Thu) 12:00~12:50 Room 7 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Kyokko, 1F)

Let’s Opt for GMA Efficacy before Introducing Biologics.

Moderator  Centre for Gastroenterology and Inflammatory Bowel Disease Research, Hamamatsu South Hospital, Hamamatsu, Japan  Hiroyuki Hanai

Indications for GMA therapy based on endoscopic findings and disease severity in ulcerative colitis patients.

Speaker  St. Luke’s International Hospital Dept. of Gastroenterology chief, Japan  Katsuyuki Fukuda

Re-Visiting the Clinical Efficacy and Immunoregulatory Actions of the Adacolumn GMA in Ulcerative Colitis Patients

Speaker  First Dept. of Medicine, Hamamatsu University School of Medicine, Japan  Ken Sugimoto

Sponsor: JIMRO Co. Ltd.

Luncheon Seminar 4

Day 1: May 12(Thu) 12:00~12:50 Room 8 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Gyoko, 1F)

How to use NOACs properly and what points you should be careful about.

Moderator  Dept. of Internal Medicine, Saga Medical School, Japan  Kazuma Fujimoto

Point of Gastrointestinal Endoscopy for Patients with Oral Anti-coagulants

Speaker  National Hospital Organization Hakodate Hospital, Japan  Mototsugu Kato

Pathophysiology and Treatment of Atrial Fibrillation: How to use different NOACs.

Speaker  Dept. of Cardiovascular Medicine, Graduate School of Medicine, Nippon Medical School, Japan  Wataru Shimizu

Sponsor: Bristol-Myers Squibb K.K. / Pfizer Japan Inc.

Luncheon Seminar 5

Day 1: May 12(Thu) 12:00~12:50 Room 11 (Grand Prince Hotel New Takanawa, Heian, 3F)

Basic techniques of ERCP—message from expert to beginner

Moderator  Center for Gastroenterology, Teine-Keijinkai Hospital, Japan  Akio Katanuma

Speaker  Dept. of Gastroenterology, Saitama Medical University International Medical Center, Japan  Shomei Ryozawa

Speaker  Dept. of Gastroenterology, Teikyo University Mizonokuchi Hospital, Japan  Ichiro Yasuda

Sponsor: Toshiba Medical Systems Corporation
Luncheon Seminar 6

Day 1 : May 12(Thu) 12 : 00~12 : 50  Room12 (Grand Prince Hotel New Takanawa, Tempyo, 3F)
It can never die by colon cancer. The availability update of Fuse 330° panoramic viewing colonoscope
- No detection, no diagnosis. No diagnosis, no treatment -

Moderator  Showa University Yokohama Northern Hospital, Japan  Shin-ei Kudo

Best practice for Fuse endoscope –Focusing on insertion and observation–

Speaker  National Cancer Center Hospital East, Japan  Hiroaki Ikematsu

Extra-wide angle colonoscopy –Global trend and future perspective in Japan–

Speaker  National Cancer Center Hospital, Japan  Yutaka Saito

Sponsor : Adachi. Co.,Ltd.

Satellite Seminar 1

Day 1 : May 12(Thu) 17: 00~19: 00  Room 5 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Koun, 3F)
New Standards of Treatment and Diagnosis: Next-generation Cholangioscopy and ERCP

Moderator  Fukushima Medical University Aizu Medical Center, Japan  Atsushi Irisawa

Moderator  Kyushu University Hospital, Japan  Takao Otsuka

Paradigm Shift in Biliary Stone Removal

Speaker  Sendai Open Hospital, Japan  Kei Ito

Assessing SpyGlass DS Efficacy in Cholangiocarcinoma Extension Diagnosis

Speaker  Okayama University Hospital, Japan  Hironari Kato

The Role of Pancreatoscop in the Diagnosis and Treatment of IPMN: Assessing Lesion Visibility and Biopsy Diagnosis

Speaker  Chiba Cancer Center, Japan  Emiri Kita

Potential Applications of SpyGlass DS in Pancreatobiliary Treatment

Speaker  Tokyo Medical University Hospital, Japan  Reina Tanaka

Sponsor : Boston Scientific Japan K.K.

* There will be a discussion at “Zuiko” (Grand Prince Hotel New Takanawa, International Convention Center PAMIR 1F) after Satellite Seminar.
May 13(Fri)

Morning Seminar 1

Day 2: May 13(Fri) 8:00~8:50 Room 7 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Kyokko, 1F)
The biliary plastic stent ----Dawn of new era----

Moderator Dept. of Gastroenterology, Saitama Medical University International Medical Center, Japan Shomei Ryozawa
Feasibility of Through Pass K–Hilar stent for biliary drainage in malignant hilar biliary obstruction
Speaker Dept. of Internal Medicine, Kawasaki Hospital, Kawasaki Medical Center, Japan Hirofumi Kawamoto
The biliary and/or pancreatic plastic stent; available from tomorrow
Speaker Dept. of Gastroenterology, Sendai Open Hospital, Sendai City Medical Center, Japan Kei Ito
Sponsor: GADELIUS MEDICAL K.K.

Morning Seminar 2

Day 2: May 13(Fri) 8:00~8:50 Room 8 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Gyoko, 1F)
Usefulness and points to be noted of the pH–dependent oral mesalazine preparation in the treatment of ulcerative colitis
Moderator Endoscopy, University Hospital of Medicine, Tokyo Medical and Dental University, Japan Kazuo Ohtsuka
Speaker Dept. of Gastroenterology and Hepatology, Osaka Saiseikai Nakatsu Hospital, Japan Takumi Fukuchi
Sponsor: ZERIA Pharmaceutical Co., Ltd. / Kyowa Hakko Kirin Co., Ltd.

Luncheon Seminar 7

Day 2: May 13(Fri) 12:00~12:50 Room 2 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Keiun, 3F)
What is there beyond the colonic stent? –The role of total colonoscopy before surgery–

Moderator Dept. of Internal Medicine, Tokyo Metropolitan Komagome Hospital, Tokyo, Japan. Koichi Koizumi
Significance of preoperative total colonoscopy through the metallic stent
Speaker Dept. of Gastroenterology, Iwate Prefectural Isawa Hospital, Tokyo, Japan. Rintaro Moroi
Bridge to Surgery with colonic stent –present and future–
Speaker Div. of Surgery, Gastrointestinal Center, Yokohama Shin-Midori General Hospital, Tokyo, Japan. Shuji Sito
Sponsor: Century Medical, Inc.
Luncheon Seminar 8
Day 2: May 13(Fri) 12:00~12:50  Room 3 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Hakuen, 3F)
Updates of NBI diagnosis for colorectal diseases
Moderator  Dept. of Gastroenterology and Hepatology, Kinki University, Japan  Hiroshi Kashida
JNET (The Japan NBI Expert Team) Classification ~The birth of colorectal M~NBI classification, and future prospects~
Speaker  Endoscopy Div., National Cancer Center Hospital, Japan  Yutaka Saito
Comparison between the new version of NBI and panchromoendoscopy for surveillance colonoscopy in patients with long-standing ulcerative colitis: a prospective multicenter randomized controlled trial, Navigator Study
Speaker  Gastroenterology, Osaka City General Hospital, Japan  Kenji Watanabe
Sponsor : OLYMPUS CORPORATION

Luncheon Seminar 9
Day 2: May 13(Fri) 12:00~12:50  Room 4 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Suiun, 3F)
What is the optimal GERD treatment for current situation? ~Efficacy and Safety~
Moderator  Dept. of General Internal Medicine 2, Kawasaki Hospital, Kawasaki Medical School, Japan  Ken Haruma
Speaker  Dept. of Gastroenterology, Osaka City University Graduate School of Medicine, Japan  Yasuhiro Fujiwara
Speaker  Dept. of Gastroenterology, Saiseikai-Noe Hospital, Japan  Yasuki Habu
Sponsor : DAIICHI SANKYO CO., LTD/AstraZeneca K.K.

Luncheon Seminar 10
Day 2: May 13(Fri) 12:00~12:50  Room 6 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Zuiko, 1F)
"Functional", "Dyspepsia" and "Functional Dyspepsia", all elusive?
Moderator  Professor Emeritus, Dept. of Medicine, Jichi Medical University, Japan  Kentaro Sugano
Speaker  Medical Education Center, Keio University School of Medicine, Japan  Hidekazu Suzuki
Sponsor : Astellas Pharma Inc. / ZERIA Pharmaceutical Co., Ltd.
Luncheon Seminar 11
Day 2: May 13(Fri) 12:00~12:50 Room 7 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Kyokko, 1F)
Presenting evidence: patient-friendly APC ablation for early-stage cancers as a standard therapy - "Are you ready for the super-aging society?"
Moderator: Satoshi Tanabe
A retrospective study of APC ablation for early stage gastrointestinal tumors in high-risk patients.
Keynote lecture: Satoshi Tanabe
Long-term follow-up after complete ablation of early esophageal squamous cell carcinoma with argon plasma coagulation
Speaker: Kenro Kawada
Sponsor: AMCO Incorporated.

Luncheon Seminar 12
Day 2: May 13(Fri) 12:00~12:50 Room 8 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Gyoko, 1F)
From Basic to Advanced ESD in Upper GI and Colon~Use the Device More Effectively~
Moderator: Ken Ohnita
Speaker: Dai Hirasawa
Speaker: Katsumi Yamamoto
Sponsor: PENTAX Medical, HOYA Corporation

Luncheon Seminar 13
Day 2: May 13(Fri) 12:00~12:50 Room 9 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Matsuba, 2F)
The world’s leading endoscopic diagnosis—the future is now—
Moderator: Shinee Kudo
For the world’s leading CLE in monotone image—proposal for new classification—
Speaker: Kouichi Nonaka
Endocytoscopy in combination with ICT can realize future diagnosis
Speaker: Yuichi Mori
Sponsor: EA Pharma Co., Ltd.
Luncheon Seminar 14

Day 2: May 13(Fri)  12:00~12:50  Room11 (Grand Prince Hotel New Takanawa, Heian, 3F)
New knowledge and positioning of Colon Capsule Endoscopy
Moderator  Dept. of Gastroenterology and Hematology, Hiroaki University Graduate School of Medicine, Japan  Shinsaku Fukuda

Novel Modality for Ulcerative Colitis ~How to utilize PillCam COLON 2~
Speaker  Dept. of Endoscopic and Photodynamic Medicine, Hamamatsu University School of Medicine, Japan  Satoshi Osawa

Knowledge from a Prospective Comparative Trial: 4CF Study ~Capsule Colonoscopy versus CT Colonography in Patients with Flat Tumors: A Prospective Trial~
Speaker  Dept. of Coloproctology, Fukushima Medical University Aizu Medical Center, Japan  Kazutomo Togashi
Sponsor : Covidien Japan Inc.

Luncheon Seminar 15

Day 2: May 13(Fri)  12:00~12:50  Room12 (Grand Prince Hotel New Takanawa, Tempyo, 3F)
Clinical utility of serum GTA-446 levels for colorectal cancer risk in Cologic™
Moderator  Japanese Foundation for Cancer Research, Cancer Institute Hospital, Japan  Morito Monden
Speaker  Sapporo Medical University, Dept. of Surgery, Surgical Oncology and Science, Japan  Ichiro Takemasa
Sponsor : BML, Inc

Satellite Seminar 2

Day 2: May 13(Fri)  17:15~19:15  Room 3 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Hakuun, 3F)
Suiun is a relay room.

Room 4 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Suiun, 3F)

The role of EUS in pancreatic cancer diagnosis – screening, early diagnosis and the positioning of FNA –
Moderator  Center for Gastroenterology, Teine–Keijinkai Hospital, Japan  Hiroyuki Maguchi
Moderator  Dept. of Gastroenterology, Fukushima Medical University Aizu Medical Center, Japan  Atsushi Irisawa

Image findings and pathological features for early diagnosis of pancreatic carcinoma
Keynote lecture  Dept. of Gastroenterology, Onomichi General Hospital, Japan  Keiji Hanada
Strategy of diagnostic EUS for pancreatic cancer
Speaker  Gastroenterology, Kobe University Hospital, Japan  Hideyuki Shiomi
Actual techniques in EUS–FNA for pancreatic lesions
Speaker  First Dept. of Internal Medicine, Gifu University Hospital, Japan  Takuji Iwashita
FNA advance – indication using new needle–
Speaker  Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Japan  Takao Itoi
Recapitulation  Narita Memorial Hospital  Kenji Yamao
Sponsor : OLYMPUS CORPORATION

※ There will be a discussion at “Keiun” (Grand Prince Hotel New Takanawa, International Convention Center PAMIR 3F) after Satellite Seminar.

Gastroenterological Endoscopy
Satellite Seminar 3

Day 2: May 13(Fri) 17:00~19:00  Room 5  (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Koun, 3F)

The potential of LASEREO for endoscopic diagnosis of Colon.

Moderator  Dept. of Gastroenterology Fukuoka University Chikusho Hospital, Japan  Toshiyuki Matsui
Moderator  The Third Dept. of Internal Medicine, Kyorin University School of Medicine, Japan  Tadakazu Hisamatsu
Speaker  Molecular Gastroenterology and Hepatology  Kyoto Prefectural University of Medicine Graduate School of Medical Science, Japan  Kazuhiro Uchiyama
Speaker  Dept. of Gastroenterology Fukuoka University Chikusho Hospital, Japan  Fumihito Hira
Speaker  Dept. of Gastroenterology Internal Medicine Tokushima University Hospital, Japan  Koichi Okamoto
Speaker  Dept. of Gastroenterology & Gastrointestinal Oncology National Cancer Center Hospital East, Japan  Hiroaki Ikematsu

Sponsor: FUJIFILM Medical Co. , Ltd.

May 14(Sat)

Luncheon Seminar 16

Day 3: May 14(Sat) 12:00~12:50  Room 2  (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Keiun, 3F)

A new trend in the treatment of upper gastrointestinal disease

Moderator  Dept. of Endoscopy and Endoscopic Surgery, Gunma University Hospital, Japan  Motoyasu Kusano
Endoscopic assessment of esophageal motility disorders
Speaker  Clinical Investigation and Research Unit, Gunma University Hospital, Japan  Shiko Kuribayashi

How to treat low-grade reflux esophagitis?

Speaker  Dept. of Gastroenterology, Nippon Medical School, Japan  Katsuhiko Iwakiri
Special remarks  Professor Emeritus, University of Toyama, Japan  Michio Tanaka

Sponsor: Otsuka Pharmaceutical Co., Ltd./Takeda Pharmaceutical Company Limited

Luncheon Seminar 17

Day 3: May 14(Sat) 12:00~12:50  Room 7  (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Kyokko, 1F)

Advanced strategy in endoscopic management of difficult bile duct stones.

Moderator  Dept. of Gastroenterology, Saitama Medical University International Medical Center, Japan  Shomei Ryozawa
A case of hepatolithiasis successfully treated with Crusher Catheter M
Speaker  Dept. of Gastroenterology, Sendai Kousei Hospital, Japan  Toru Okuzono

How to determine the therapeutic strategy for bile duct stones

Speaker  Dept. of Gastroenterology, Kurashiki Central Hospital, Japan  Etsuji Ishida

Sponsor: ZEON MEDICAL INC.
Luncheon Seminar 18
Day 3 : May 14(Sat) 12 : 00~12 : 50  Room 8 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Gyoko, 1F)
Basic to advanced stenting for Hiller Biliary Obstruction
Moderator  Dept. of Gastroenterology and Hepatology, Center for Digestive Diseases, The University of Miyazaki, Japan  Hiroshi Kawakami
Speaker  Nagoya City University, Dept. of Gastroenterology and Metabolism, Japan  Kazuki Hayashi
Speaker  Kameda Medical Center, Dept. of Gastroenterology, Japan  So Nakaji
Sponsor : Piolax Medical Devices. Inc

Luncheon Seminar 19
Day 3 : May 14(Sat) 12 : 00~12 : 50  Room 9 (Grand Prince Hotel New Takanawa, International Convention Center PAMIR, Matsuba, 2F)
Cutting edge of pancreatobiliary endoscopy
Moderator  President, Japan Gastroenterological Endoscopy Society/Dept. of Innovative Interventional Endoscopy Research, The Jikei University School of Medicine, Tokyo JAPAN  Hisao Tajiri
Speaker  Dept. of Gastroenterology and Hepatology, Tokyo Medical University, Japan  Takao Itoi
Sponsor : Hitachi, Ltd.

Luncheon Seminar 20
Day 3 : May 14(Sat) 12 : 00~12 : 50  Room11 (Grand Prince Hotel New Takanawa, Heian, 3F)
The role of HUMIRA in IBD treatment
Moderator  IBD center Fukuoka University Chikushi Hospital, Japan  Fumihito Hirai
Optimization of CD treatment by HUMIRA –From endoscopic and pharmacokinetic point of view–
Speaker  Osaka City General Hospital Gastroenterology, Japan  Kenji Watanabe
Possibility of HUMIRA in UC treatment
Speaker  Yokohama City University Medical Center IBD Center, Japan  Reiko Kunisaki
Sponsor : Abbvie. G.K/Eisai Co, Ltd./EA Pharma Co, Ltd

Luncheon Seminar 21
Day 3 : May 14(Sat) 12 : 00~12 : 50  Room12 (Grand Prince Hotel New Takanawa, Tempyo, 3F)
Usefulness of Fecal Calprotectin as a biomarker for IBD treatment
Moderator  Dept. of Medicine, Shiga University of Medical Science, Japan  Akira Andoh
Speaker  Dev. of Internal Medicine, Dept. of Inflammatory Bowel Disease, Hyogo College of Medicine, Japan  Shiro Nakamura
Sponsor : MOCHIDA PHARMACEUTICAL CO., LTD.
