

PROGRAM

Thursday, September 17, 2026 —Room 6 (Hakodate Arena 1F, Budokan C) —

13:05~14:05 APAGE Special Lecture 1

Chairpersons : Chyi-Long Lee (Chairman of Board of Trustees, Asia-Pacific Association for Gynecologic Endoscopy and Minimally Invasive Therapy (APAGE)/Department of Obstetrics & Gynecology, Linkou Chang Gung Memorial Hospital, Taiwan)

Yutaka Osuga (Teikyo University, Japan)

ASL1-1 First Robotic Myomectomy in a Public University Hospital: Early Experience With Removal of 17 Fibroids

Department of Obstetrics and Gynaecology, Faculty of Medicine, Universiti Malaya and Universiti Malaya Medical Centre, Kuala Lumpur, Malaysia

Aizura Syafinaz Ahmad Adlan

ASL1-2 Radio Frequency Ablation of Adenomyosis under Laparoscopic Guidance: A Minimally Invasive Approach

President of the Indonesian Gynecology Endoscopy Society (IGES)/Department of Obstetric and Gynecology, Darmo Hospital, Indonesia

Relly Yanuari PRIMARIAWAN

ASL1-3 The Path Forward : Divergent Views and Consensus of Robotic Surgery in Gynecologic Oncology

Mackay Memorial Hospital, Taipei, Taiwan/Mackay Medical University, Taipei, Taiwan

Kung-Liahng Wang

ASL1-4 Bowel Endometriosis: #Enzian Distribution, Surgical Strategy and Peri-operative Outcome at a Dedicated Endometriosis Center, Malaysia

Department of Women's Health, Hospital Picaso, Petaling Jaya, Selangor, Malaysia

Sharifah Halimah Jaafar

14:10~15:00 KSGE Session 1

Chairpersons : Tsukasa Baba (Iwate Medical University, Japan)

Jiheum Paek (Ajou University Hospital, Korea)

KS1-1 Revisiting MIS in high-risk early-stage endometrial cancer: oncologic safety in question

Department of Obstetrics and Gynecology, Samsung Medical Center, Sungkyunkwan University School of Medicine, Korea

Yoo-Young Lee

- KS1-2 Development of an AI-based surgical phase recognition model for pelvic lymphadenectomy
Department for the Promotion of Medical Device Innovation, NEXT Medical Device Innovation Center, National Cancer Center Hospital East/Department of Obstetrics and Gynecology, Kurume University School of Medicine, Japan
Shingo Tasaki
- KS1-3 Understanding of robotic radical hysterectomy based on anatomic structures
Department of Obstetrics and Gynecology, School of Medicine, Kyung Hee Medical Center, Kyung Hee University, Seoul, Republic of Korea
Byung Su Kwon
- KS1-4 Operative Efficiency and Instrument Cost Reduction Associated with Reduced Robotic Forceps Surgery in Robotic Hysterectomy
Department of Gynecologic Oncology, Cancer Institute Hospital, Japan
Yoichi Aoki

15 : 00~15 : 30 Overseas Invited Lecture 1

[How Radical Should We Be in Deep Endometriosis?]

Chairperson : Yoshihito Yokoyama (Department of Obstetrics and Gynecology, Hirosaki University Graduate School of Medicine, Japan)

- OIL1 Chairman of Board of Trustees, Asia-Pacific Association for Gynecologic Endoscopy and Minimally Invasive Therapy (APAGE)/Department of Obstetrics & Gynecology, Linkou Chang Gung Memorial Hospital, Taiwan
Chyi-Long Lee

15 : 35~16 : 40 IS Symposium 1

[Current Status of Training the Next Generation of Endoscopic Surgeons~Strategies for Developing Future Surgeons~]

Chairpersons : Michiko Kodama (The University of Osaka, Department of Obstetrics and Gynecology, Japan)

Kaori Koga (Department of Obstetrics and Gynecology, Reproductive Medicine Graduate School of Medicine Chiba University, Japan)

- IS1-1 Training the Robot-Zero Generation: Challenges for Surgical Educators
Department of Obstetrics and Gynecology, Sendai Medical Center, Sendai, Japan
Kojiro Tanabe
- IS1-2 Shaping Competence in Hysteroscopy: A Structured Approach to Mentorship, Simulation, and Assessment
Linkou Chang Gung Memorial Hospital, TaoYuan, Taiwan
Chih-Feng Yen
- IS1-3 Current Status and Challenges of Training Robotic Gynecologic Surgeons: A Survey of Affiliated Institutions
The University of Tokyo Hospital, Japan
Ayumi Taguchi

- IS1-4 Training for Endoscopic Surgeons in Korea: Toward a Competency-Based Curriculum from a Trainee's Perspective
Department of Obstetrics and Gynecology, Ajou University School of Medicine, Suwon, Republic of Korea Jeeyeon Kim
- IS1-5 U.S. Robotic Surgery Observation Tour
Department of Gynecologic Oncology, Cancer Institute Hospital, Japan Yoichi Aoki

16 : 45~17 : 45 APAGE Oral Session 1

Chairpersons : Haruya Saji (Kanagawa Associations of Obstetrics and Gynecology, Japan)

Kung-Liahng Wang (Mackay Memorial Hospital, Taipei, Taiwan / Mackay Medical University, Taipei, Taiwan)

- AOS1-1 Temporary Isthmic Tourniquet Constriction During Robotic Myomectomy: A Simple Technique to Reduce Blood Loss
Department of Obstetrics and Gynecology, Tri-Service General Hospital, National Defense Medical University, Taipei, Taiwan / Department of Obstetrics and Gynecology, School of Medicine, College of Medicine, National Defense Medical University, Taipei, Taiwan Jyun-Cheng Ke
- AOS1-2 Comparative Study on the Use of Absorbable vs. Non-Absorbable Sutures in vNOTES Uterosacral Ligament Suspension for Pelvic Organ Prolapse
Kameda Medical Center, Urogynecology Center, Japan Paul Muwanguzi
- AOS1-3 The Silent Uterus: Hysteroscopic Insights into Chronic Endometritis
Department of Obstetrics and Gynaecology, Kuching Specialist Hospital (KPJ), Malaysia Ng Ying Shan
- AOS1-4 Nerve-Plane Sparing Technique for Deep Endometriosis(DE): The Kurashiki Method
Kurashiki Medical Center, Japan Taisuke Iwata
- AOS1-5 Single Port Laparoscopy for Large Gynaecologic Mass
Advanced O&G Centre, Mount Elizabeth Novena Hospital, Singapore KHOO Chong Kiat
- AOS1-6 From Persistent Myoma Uteri to Disseminated Peritoneal Leiomyomatosis: A Case of Evolving Surgical Management in a 37 year-old Nulligravid
Department of OB-Gyne, Rizal Medical Center, Philippines Isabela Alexa A. Martinez
