

■ Presidential Address

▶ May 22 (Fri.) 11:15-11:35 [Room 1 (Tempyo Hall)]

Moderator: Yoshiyuki Nakajima (President, Social Welfare Organization Imperial Gift Foundation, Inc. Saiseikai Chuwa Hospital)

MPA-1 Masayuki Sho (Department of Surgery, Nara Medical University)

■ JSHBPS Presidential Address

▶ May 22 (Fri.) 11:35-11:55 [Room 1 (Tempyo Hall)]

Moderator: Itaru Endo (Department of Gastroenterological Surgery, Yokohama City University)

JPA-1 Achieving Sustainable HPB Surgery: The role of JSHBPS and responsibility to the next generation
Masayuki Ohtsuka (Department of General Surgery, Graduate School of Medicine, Chiba University)

■ Overseas Honorary Members Commendation

▶ May 22 (Fri.) 11:55-12:25 [Room 1 (Tempyo Hall)]

Moderator: Masayuki Ohtsuka (Department of General Surgery, Graduate School of Medicine, Chiba University)

OHM-1 Building World Class Surgical Programs Requires Mentors and Mentees.
Richard Schulick (University of Rochester Medical Center, United States of America)

OHM-2 From Korea-Japan Collaboration to an Asian HBP Network: Toward Establishing Global Standards in HBP Surgery
Jin-Young Jang (Department of Surgery, Seoul National University Hospital, Seoul, Korea)

■ Project Study Organized by JSHBPS

▶ May 23 (Sat.) 14:20-15:20 [Room 3 (Convention Hall A)]

Moderators: Satoshi Hirano (Department of Gastroenterological Surgery II, Hokkaido University)
Etsuro Hatano (Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Graduate School of Medicine, Kyoto University)

PSH-1 Patients with Pancreatic Cancer with Synchronous Liver Oligometastasis Show a Significant Long-Term Survival Benefit from Resection under Specific Conditions: A Multicenter National Cohort Study
Kohei Nakata (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University, Fukuoka, Japan)

PSH-2 Living-donor liver transplantation using donors older than 50 years of age: Recipient criteria and donor risk: A multicenter study of Japanese Society of Hepato-Biliary-Pancreatic Surgery
Takeo Toshima (Department of Surgery and Science, Kyushu University, Japan)

- PSH-3 Prognostic impact of Pancreatic Body/Tail Cancer Involving the Portal Vein: A Project Study of the Japanese Society of Hepato-Biliary-Pancreatic Surgery
Yusuke Yamamoto (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan/Division of Digestive Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan)
- PSH-4 Real-world short-term outcomes after distal pancreatectomy with en bloc celiac axis resection using the National Clinical Database of Japan
Toru Nakamura (Department of Gastroenterological Surgery II, Faculty of Medicine, Hokkaido University/Department of Gastroenterology, Hokuto Hospital)

■ Plenary Session

▶ May 22 (Fri.) 10:05-11:05 [Room 1 (Tempyo Hall)]

Moderators: Ken Shirabe (Division of Hepatobiliary and Pancreatic Surgery, Department of General Surgical Science, Gunma University)
Toshiki Rikiyama (Department of Surgery, Saitama Medical Center, Jichi Medical University)

- PL-1 PHF14 Regulates p53 via Myc Signaling and Serves as a Prognostic Biomarker in Hepatocellular Carcinoma
Shiori Yamazaki (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
- PL-2 Decellularized Bile Duct Scaffolds Facilitate Autologous Regeneration in a Rat Model of Bile Duct Defect
Yusuke Hanabata (Department of Surgery, Graduate School of Medicine, Kyoto University)
- PL-3 Glyco-Phenotype-Driven Molecular Imaging for Precision HPB Surgery: A Translational Framework from Bench to Operating Room
Ting-Chun Kuo (Department of Surgery, National Taiwan University Hospital, Taipei, Taiwan/
Department of Surgery, University of California San Diego, La Jolla, CA, USA)

■ Special Program

Special Program 1

▶ May 22 (Fri.) 13:30-14:30 [Room 1 (Tempyo Hall)]

Next Generation Initiative 1: An Introduction to Medical Statistics, Specified Clinical Trials, and Computational Analysis

Moderators: Tatsuya Oda (Department of GI&HBP Surgery, University of Tsukuba)
Shinji Tanaka (Department of Molecular Oncology, Institute of Science Tokyo)

- SP1-1 A Practical Introduction to Biostatistics for Clinicians in Cancer Clinical Trials
Toshio Shimokawa (Department of Biostatistics, Wakayama Medical University, Wakayama, Japan)

- SP1-2 臨床研究こと始め (Getting Started with Clinical Research)
Masato Kasahara (Clinical Research Center Nara Medical University)
- SP1-3 Spatial Transcriptomics Unveils the Cellular Society Driving the Tumor Microenvironment
Koshi Mimori (Department of Surgery, Kyushu University Beppu Hospital)

Special Program 2

▶ May 22 (Fri.) 13:30-15:00 [Room 2 (Convention Hall B)]

Lessons Learned from Unforgettable Case Experiences

Moderators: Fumihiko Miura (Department of Surgery, Teikyo University Hospital, Mizonokuchi)
Hironobu Suto (Department of Gastroenterological Surgery, Faculty of Medicine, Kagawa University)

- SP2-1 Delayed Hemobilia Caused by Hepatic Pseudoaneurysm Due to Biliary Stent Irritation after pancreaticoduodenectomy
Shunsaku Furuke (Gunma Prefecture Saiseikai Maebashi Hospital)
- SP2-2 Intraperitoneal Hemorrhage Due to Ruptured Hepatic Subcapsular Hematoma After ERCP for Benign Biliary Stricture Following Living Donor Liver Transplantation: A Case Report
Yoshihito Kotera (Department of Hepato-Biliary-Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- SP2-3 A difficult-to-treat case of acquired hemophilia A diagnosed after repeated bleeding following pancreaticoduodenectomy for distal cholangiocarcinoma
Eisei Mitsuoka (Department of Gastrointestinal Surgery, Shinko Hospital)
- SP2-4 Early Portal Vein Thrombosis After Pancreaticoduodenectomy Following Chemotherapy and Carbon Ion Radiotherapy for Locally Advanced Pancreatic Cancer
Katsuyoshi Baba (Department of Surgery, Shin-Koga Hospital)
- SP2-5 A fatal case of refractory hepatic lymphorrhea-related ascites after conversion surgery for M1 (LYM) pancreatic tail cancer treated with lymphatic embolization
Hironori Yamada (Department of Surgery, Nagoya University Hospital, Aichi, Japan)
- SP2-6 Long-Term Survival after Curative Resection for Chemotherapy-Refractory Liver Metastasis from Pancreatic Cancer: An Unforgettable Experience
Sho Kiritani (Cancer Institute Hospital of JFCR)
- SP2-7 Surgical decision-making and unexpected postoperative cascades in an elderly patient with pancreatic neck cancer
Toshitaka Sugawara (Department of Hepato-Biliary-Pancreatic & Gastrointestinal Surgery, International University of Health and Welfare School of Medicine, Chiba Japan)
- SP2-8 Anastomosis of the Common Hepatic Artery and Round Ligament as Portal Vein Arterialization for Hepatic Artery Occlusion After Deceased Donor Liver Transplantation
Shohei Yoshiya (Department of Surgery and Science, Kyushu University, Fukuoka, Japan)
- SP2-9 A Case of Unresectable Metastatic Pancreatic Cancer with Multiorgan Metastases Achieving Ten-Year Survival After Conversion Surgery Following Multimodal Treatment Guided by Imaging and CA19-9
Masashi Kishiwada (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University)
- SP2-10 Successful Two-Stage Radical Resection for Intrahepatic Cholangiocarcinoma following Aborted Surgery due to Fulminant Piperacillin/Tazobactam-Induced Immune Thrombocytopenia
Masahiko Honjo (Hyogo Prefectural Amagasaki General Medical Center)

Special Program 3

▶ May 22 (Fri.) 13:30-14:30 [Room 9 (201)]

Japan-Korea Joint Next Generation Project Initiative: Mastering and Education of Moderately Complex Cases

Moderators: Susumu Eguchi (Vice President, JSHPBS / Nagasaki University Graduate School of Biomedical Sciences)

Jeong-Ik Park (Ulsan University Hospital, Republic of Korea)

Tomoaki Yoh (Department of Surgery, Kyoto University)

Discussant: Yasuko Matsuo (Nara Medical University)

Norihiro Ishii (Gunma Saiseikai Maebashi Hospital)

Chan Woo Cho (Youngnam University Hospital, Republic of Korea)

Eun Jeong Jang (Dong-A University Hospital, Republic of Korea)

Sang Hyun Shin (Samsung Medical Center, Republic of Korea)

Dakyum Shin (Chosun University Hospital, Republic of Korea)

Hiroko Okinaga (Tokyo Metropolitan Cancer and Infection Diseases Center Komagome Hospital)

Aya Maekawa (Institute of Science Tokyo/University of Padova, Italy)

SP3-1 Should we proceed with minimally invasive or open liver resection in moderately complex cases?

Takanobu Hara (Department of Surgery, Division of Digestive Surgery and Transplantation, Nagasaki University Graduate School of Biomedical Sciences, Nagasaki, Japan)

SP3-2 TBA

Yoo Jin Choi (Korea University Anam Hospital, Republic of Korea)

Special Program 4

▶ May 22 (Fri.) 14:30-16:00 [Room 1 (Tempyo Hall)]

Passing the Torch: The Art and Passion of Surgery from Legends to the Next Generation

Moderators: Shunsuke Shichi (Department of Gastroenterological Surgery 1, Hokkaido University Hospital)

Ko Oshita (Department of Gastroenterological and Transplant Surgery, Graduate School of Biomedical and Health Sciences, Hiroshima University)

Hajime Matsushima (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery and Transplantology, Nagasaki University Graduate School of Biomedical Sciences)

Akihiro Takeuchi (Second Department of Surgery, Wakayama Medical University)

Nana Kimura (Department of Surgery and Science, Faculty of Medicine, Academic Assembly, University of Toyama)

Moe Matsumoto (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)

Shinichiro Nakada (Department of General Surgery, Chiba University Graduate School of Medicine)

Hideaki Sato (Department of Surgery, Tohoku University Graduate School of Medicine)

Yutaka Nakano (Department of Surgery, Keio University School of Medicine)

SP4-1 The Habit of Theoretical Surgical Thinking for the Next Generation

Ken Takasaki (Institute of Gastroenterology Tokyo Women's Medical University Tokyo, Japan)

SP4-2 Extended surgery for advanced perihilar cholangiocarcinoma—Nagoya experience—

Masato Nagino (Department of Surgery, Daido Hospital, Nagoya, Japan)

SP4-3 Isolated pancreatectomy combined with portal vein resection using Nakao mesenteric approach and catheter bypass of the portal vein for pancreatic head cancer

Akimasa Nakao (Nagoya Central Hospital, Nagoya, Japan)

Special Program 5

► May 23 (Sat.) 8:30-10:00 [Room 1 (Tempyo Hall)]

Next Generation Initiative 2: Recruitment and Education of Young Hepato-Biliary-Pancreatic (HBP) Surgeons

Moderators: Toshimichi Asano (Department of Gastroenterological Surgery II, Faculty of Medicine, Hokkaido University)
Saori Umezawa (Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine)

- SP5-1 Keynote Lecture From Halsted to Humanity: Redefining the ‘Joy of Surgery’ for the Next Generation of HBP Leaders
Chi-Chuan Yeh (National Taiwan University Hospital, and College of Medicine, National Taiwan University, Taipei, Taiwan)
- SP5-2 Enhancing Recruitment and Retention of Young Surgeons: The Kobe University Model of Career Support and Training Programs
Shohei Komatsu (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University Graduate School of Medicine)
- SP5-3 Hepatobiliary and Pancreatic Surgical Training at Our Institution from a Trainee’s Perspective: Reflecting Young Surgeons’ Values in Education
Ryohei Takei (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University, Ishikawa, Japan)
- SP5-4 A Stepwise Training System for Laparoscopic Cholecystectomy Using Objective Assessment and Reflective Feedback
Hiroaki Mashima (Department of Surgery, Hiroshima City Hiroshima Citizens Hospital, Hiroshima, Japan)
- SP5-5 “Toyama Style” Multi-Surgeon Rotation System for Pancreatic Surgery: Impact on Safety and Recruitment
Nana Kimura (Department of Surgery and Science, Faculty of Medicine, Academic Assembly, University of Toyama)
- SP5-6 Education in Hepatobiliary Pancreatic Surgery—our department’s efforts centered on MIS
Hiroshi Tajima (Department of General-Pediatric Hepatobiliary Pancreatic Surgery, Kitasato University School of Medicine, Kanagawa, Japan)
- SP5-7 An Evolving and Attractive Training Strategy for Pancreaticoduodenectomy in Young HPB Surgeons During the Early Robotic Era
Eiji Yoshida (Sapporo Medical University, Department of Surgery, Division of Gastroenterological Surgery)
- SP5-8 Initiatives for Human Resource Development and Career Support to Foster the Next Generation of Hepato-Biliary-Pancreatic Surgeons
Yoichiro Uchida (Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Department of Surgery, Graduate School of Medicine, Kyoto University, Kyoto, Japan)

Special Program 6

► May 23 (Sat.) 12:50-14:20 [Room 8 (202)]

The Japan-Korea Collaborative Project Study

Moderators: Yuichi Nagakawa (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
Dongho Choi (Department of Surgery, Hanyang University, Republic of Korea)

- SP6-1 Purely Preoperative Risk Stratification for Early Oncological Futility After Hepatectomy for Hepatocellular Carcinoma: An International Multicenter Study
Hisashi Kosaka (Department of Hepatobiliary Surgery, Kansai Medical University)
- SP6-2 TBA
Boram Lee (Seoul National University Bundang Hospital, Republic of Korea)
- SP6-3 Validated anatomical classification of peripheral and proximal intrahepatic cholangiocarcinoma: a Korea-Japan cooperative study
Shintaro Yagi (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation/Pediatric Surgery, Kanazawa University)
- SP6-4 Optimal surgical strategy of T2 GB cancer: An example of DB usage and proposal of future usage
Wooil Kwon (Department of Surgery, Seoul National University Hospital, Seoul, Republic of Korea)
- SP6-5 International Multicenter Validation of an FDG PET/CT SUVmax 4.0 Threshold to Guide Surgical Selection in Pancreatic Ductal Adenocarcinoma Following Neoadjuvant Therapy
Naoki Ikenaga (Department of Surgery and Oncology, Kyushu University)
- SP6-6 Comparative analysis of preoperative nutrition & inflammatory marker in borderline/resectable pancreatic cancer patients
Hyungsun Kim (Gangnam Severance Hospital, Yonsei University, Republic of Korea)
- SP6-7 Retrospective Data Collection for Comparison of Short-Term Outcomes Between Indocyanine Green Fluorescence-Guided and Conventional Anatomical Liver Resection
Taiga Wakabayashi (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan)
- SP6-8 A Novel Difficulty Scoring System for Minimally Invasive Pancreaticoduodenectomy: a Korea-Japan Collaborative Study
Yoo-Seok Yoon (Department of Surgery, Seoul National University Bundang Hospital, Seoul National University College of Medicine, Seongnam-si, Republic of Korea)

■ Woman in HBP Surgery Session

▶ May 23 (Sat.) 15:30-17:00 [Room 9 (201)]

Students & Residents CLASS- Gender Equity and Generational Dialogue: A Roadmap for Inclusive HPB Surgical Education

Moderators: Hideki Takami (Department of Surgery, Nagoya University Hospital)
Hiroko Okinaga (Cancer and Infectious Diseases Center Tokyo Metropolitan Komagome Hospital)

Discussant: Tomoyuki Abe (Hiroshima University)
Yoriko Nomura (National Hospital Organization Kyushu Medical Center)
Meguri Tanimoto (JR Tokyo General Hospital)
Mai Nakamura (National Center for Global Health and Medicine)
Shiori Yamazaki (Shinshu University)
Ikumi Hamano (Japanese Red Cross Ashikaga Hospital)
Yukiko Kosai (Fukuoka City Hospital)
Mari Miyashita (The University of Tokyo)

- SP7-1 Growing Against the Trend: An Inclusive Career Pathway for Female Surgeons in Hepato-Biliary-Pancreatic Surgery
Mai Kasai (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- SP7-2 The Appeal of Our Hepato-Biliary-Pancreatic Surgery Department from a Junior Resident's Perspective
Chihiro Hashimoto (Department of Surgery, Japanese Red Cross Ashikaga Hospital, Tochigi, Japan)
- SP7-3 Diverse Career Models and Clinical/academic Excellence: A PGY-1 View of UTokyo HBP Surgery
Yuki Ota (Hepato-Biliary-Pancreatic Surgery Division, Department of Surgery, Graduate School of Medicine, The University of Tokyo)
- SP7-4 Toward SDGS: Fostering Inclusive and Sustainable GI Surgical Education
Sarina Yamashita (Department of Digestive Surgery, Kagoshima University, Kagoshima, Japan)
- SP7-5 Survey of Working and Educational Environments in HBP Surgery: Exploring Factors Influencing Career Persistence Among Female Surgeons
Megumi Yamaguchi (Department of Gastroenterological Surgery, NHO Higashihiroshima Medical Center, Higashihiroshima, Japan/The Association of Women Hepato-Biliary-Pancreatic and Transplant Surgeons)

■ Symposium

Symposium 1

▶ May 22 (Fri.) 8:00-9:30 [Room 1 (Tempyo Hall)]

Multidisciplinary Treatment Strategies for Achieving 5-Year Survival in Pancreatic Cancer

Moderators: Satoshi Hirano (Department of Gastroenterological Surgery II, Hokkaido University)
Hidetoshi Eguchi (Department of Gastroenterological Surgery, The University of Osaka)

Special Remarks: Hiroki Yamaue (Pancreatic Cancer Center, Shonan Kamakura General Hospital)

SY1-1 Navigating the Path to 5-Year Survival in Pancreatic Cancer: Current Trends and Future Multidisciplinary Perspectives

Keynote
Lecture

Jin-Young Jang (Department of Surgery, Seoul National University Hospital, Republic of Korea)

- SY1-2 Multimodal Therapeutic Strategies to Achieve 5-Year Survival in Patients with Pancreatic Ductal Adenocarcinoma: Real-World Data from a Single High-Volume Center
Motokazu Sugimoto (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- SY1-3 Treatment Strategies and Outcomes Aimed at Achieving 5-Year Survival After Pancreatic Cancer Surgery
Satoshi Nara (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital, Tokyo, Japan)
- SY1-4 Five-Year Survivors After Pancreatic Cancer Resection: Patterns of Recurrence and the Importance of Surgical Resection After Relapse
Yoshihiro Ono (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital of JFCR, Tokyo, Japan)
- SY1-5 Establishing a Multidisciplinary Strategy Using Neoadjuvant Chemoradiotherapy in Pancreatic Cancer
Kunihito Gotoh (Department of Gastroenterological Surgery, Osaka International Cancer Institute)
- SY1-6 Surgical Strategies for Recurrent PDAC: A Multicenter Analysis Toward Achieving Long-Term Survival
Daisuke Hashimoto (Department of Pancreatobiliary Surgery, Kansai Medical University, Osaka, Japan)
- SY1-7 Treatment Strategies for Pancreatic Cancer Aimed at Improving Prognosis at Our Institution
Hirotaka Ishido (Department of Surgery, Dokkyo Medical University Saitama Medical Center, Saitama, Japan)

Symposium 2

► May 22 (Fri.) 13:30-15:00 [Room 8 (202)]

Treatment Strategies for Long-Term Survival in Biliary Tract Cancer

Moderators: Itaru Endo (Department of Gastroenterological Surgery, Yokohama City University)
Masayuki Ohtsuka (Department of General Surgery, Graduate School of Medicine, Chiba University)
Special Remarks: Masaru Miyazaki (Honorary Director, IUHW Mita Hospital)

- SY2-1 Strategic Surgical Timing in Biliary Tract Cancer: Balancing Oncological Efficacy and Surgical Safety for Long-Term Survival
Yoo-Seok Yoon (Department of Surgery, Seoul National University Bundang Hospital, Republic of Korea)
- SY2-2 Novel treatment strategies for achieving long-term survival in perihilar cholangiocarcinoma
Isamu Hosokawa (Department of General Surgery, Chiba University, Chiba, Japan)
- SY2-3 Potential of Perioperative Chemotherapy for Long-Term Survival in Biliary Tract Cancer
Daisaku Yamada (Department of Gastroenterological Surgery, The University of Osaka, Osaka, Japan)
- SY2-4 Optimization of Preoperative Neoadjuvant Chemotherapy for Locally Advanced Gallbladder Cancer
Akira Shimizu (Department of Surgery, Shinshu University School of Medicine, Matsumoto, Japan)
- SY2-5 Adjuvant radiotherapy for patients with positive surgical margin after resection of biliary tract cancers
Nobuyuki Watanabe (Department of Surgery, Nagoya University)

- SY2-6 Impact of surgical resection for initially unresectable biliary tract cancer following systemic chemotherapy: A single-center retrospective study
Takamichi Ishii (Department of Surgery, Kyoto University, Kyoto, Japan/Department of Surgery for Abdominal Oncology and Organ Regeneration, Kyoto University, Kyoto, Japan)
- SY2-7 Impact of Immune Checkpoint Inhibitors on Conversion Surgery for Unresectable Biliary Tract Cancer
Shuichi Aoki (Department of Surgery, Tohoku University, Sendai, Japan)
- SY2-8 Timing of Conversion Surgery for Initially Unresectable Biliary Tract Cancer
Yasuhiro Yabushita (Department of surgery, Gastroenterological Center, Yokohama City University Medical Center)

Symposium 3

► May 23 (Sat.) 8:30-10:00 [Room 3 (Convention Hall A)]

Essential Factors for Long-Term Survival in Borderline Resectable Hepatocellular Carcinoma

Moderators: Ken Shirabe (Division of Hepatobiliary and Pancreatic Surgery, Department of General Surgical Science, Gunma University)
Akinobu Taketomi (Department of Gastroenterological Surgery I, Hokkaido University)

- SY3-1 Role of MIS in Borderline Resectable Hepatocellular Carcinoma
Ho-Seong Han (Seongnam Citizen Medical Center, Republic of Korea)
- SY3-2 Prognostic factors for patients undergoing 1st line systemic therapy for advanced hepatocellular carcinoma
Junichi Shindoh (Department of Gastroenterological Surgery, Toranomon Hospital, Tokyo, Japan)
- SY3-3 Potential Roles of Major Pathological Response and Vascular Involvement in Determining Survival in Borderline Resectable Hepatocellular Carcinoma
Tomoaki Yoh (Department of Surgery, Kyoto University, Kyoto, Japan)
- SY3-4 Comparison of Long-Term Prognosis and Evaluation of Prognostic Factors in Borderline Resectable Hepatocellular Carcinoma
Masatsugu Ishii (Department of Surgery, Keio University, school of medicine)
- SY3-5 Biomarker-Based Stratification to Identify Long-Term Survivors in Borderline Resectable Hepatocellular Carcinoma
Norifumi Iseda (Department of Surgery and Science, Graduate School of Medical Sciences, Kyushu University)
- SY3-6 Aiming for long-term survival in borderline resectable hepatocellular carcinoma—Novel optimal surgical indications based on both tumor multinodularity and macrovascular invasion—
Yu Saito (Department of Surgery, Tokushima University, Tokushima, Japan)
- SY3-7 Conditions Enabling Long-term Survival in Borderline Resectable Hepatocellular Carcinoma: Impact of a Systemic-first Multidisciplinary Strategy
Keiichi Akahoshi (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo)
- SY3-8 Clinical Significance of Hepatic Resection in Borderline Resectable Hepatocellular Carcinoma: A Stratified Analysis of BR1 and BR2
Shinichiro Hasegawa (Department of Gastroenterological Surgery, The University of Osaka, Osaka, Japan)

- SY3-9 Prognostic Factors for Long-Term Survival in Borderline Resectable Hepatocellular Carcinoma After Curative Hepatectomy
Koichi Nakanishi (Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine)

■ Panel Discussion

Panel Discussion 1

► May 22 (Fri.) 8:00-9:30 [Room 2 (Convention Hall B)]

Treatment Strategies for Improving Outcomes in Perihilar Cholangiocarcinoma

Moderators: Michiaki Unno (Department of Surgery, Tohoku University Graduate School of Medicine)
Tomoki Ebata (Department of Surgery, Nagoya University Hospital)

Special Remarks: Katsuhiko Uesaka (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center)

- PD1-1 Feasibility of Left Trisectionectomy with Combined Hepatic Arterial and Portal Venous Resection for Locally Advanced Perihilar Cholangiocarcinoma
Shunsuke Onoe (Nagoya University Hospital)
- PD1-2 Impact of Residual Segment 8 after left hepatic trisectionectomy for perihilar cholangiocarcinoma
Minoru Esaki (Department of hepatobiliary and pancreatic surgery, National Cancer Center Hospital, Tokyo, Japan)
- PD1-3 Current Status and Perspectives of Preoperative and Surgical Treatment for Perihilar Cholangiocarcinoma
Tsukasa Takayashiki (Department of General Surgery, Graduate School of Medicine, Chiba University)
- PD1-4 Treatment strategies to improve short—and long-term outcomes in perihilar cholangiocarcinoma
Yutaro Kikuchi (Department of Gastroenterological Surgery, Yokohama City University, Yokohama, Japan)
- PD1-5 Major Hepatopancreatoduodenectomy for Biliary Tract Cancer: Impact of Remnant Liver Volume on Postoperative Outcomes Compared with Hepatectomy or Pancreatoduodenectomy
Yu Takahashi (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan)
- PD1-6 Outcomes of Living Donor Liver Transplantation for Unresectable Perihilar Cholangiocarcinoma and a Nationwide Multicenter Prospective Phase I/II Study
Takashi Ito (Department of Surgery, Graduate School of Medicine, Kyoto University, Kyoto, Japan)
- PD1-7 Current issues in clinical staging of perihilar cholangiocarcinoma—results from a pan-European survey
Hannes Jansson (Division of Surgery and Oncology, Department of Clinical Science, Intervention and Technology, Karolinska Institutet, Karolinska University Hospital, Stockholm, Sweden)
- PD1-8 Comparative Analysis of Robot-Assisted and Open Radical Surgical Interventions in Patients with Proximal Biliary Cancers
Mikhail Efanov (Clinical Research Center of Moscow, Moscow, Russia)

Panel Discussion 2

► May 22 (Fri.) 8:00-9:30 [Room 5 (206)]

Liver Transplantation: Achievements and Emerging Challenges from a Long-Term Perspective

Moderators: Tomoharu Yoshizumi (Department of Surgery and Science, Kyushu University)
Taizo Hibi (Department of General & Gastrointestinal Surgery, Tokyo Saiseikai Central Hospital)

Special Remarks: Norihiro Kokudo (Japan Institute for Health Security)

- PD2-1 Surgical advances in liver transplantation
Keynote
Lecture Eduardo Fernandes (Sao Lucas Hospital-Copacabana, Rede Americas, Rio de Janeiro, Brazil)
- PD2-2 Long-term outcomes after liver transplantation: Managements for recurrence of primary disease and de-novo malignancies.
 Shinya Okumura (Department of Surgery, Kyoto University, Kyoto, Japan)
- PD2-3 Long-term Outcomes After Adult Living Donor Liver Transplantation: Achievements and Emerging Challenges Beyond Survival
 Akihiko Ichida (Hepato-Biliary-Pancreatic Surgery Division, Artificial Organ and Transplantation Surgery Division, Department of Surgery, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan)
- PD2-4 Kidney dysfunction at 1 year after liver transplantation and its association with kidney replacement therapy and mortality
 Yasushi Hasegawa (Department of Surgery, Keio University School of Medicine, Tokyo, Japan)
- PD2-5 Preoperative controlling nutritional status score as a risk factor for biliary stricture after living donor liver transplantation
 Ryota Kiuchi (Department of Pediatric Surgery and Transplantation, Kumamoto University Graduate School of Medical Science, Kumamoto, Japan)
- PD2-6 Long-Term Survivorship Issues in AYA Liver Transplantation: The Impact of Health Literacy
 Akira Kenjo (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University, Fukushima, Japan)
- PD2-7 Long-Term Outcomes of Living Liver Donors and Their Recipients: 20 Years Retrospective Cohort Study
 Hayeon Do (Samsung Medical Center, Republic of Korea)

Panel Discussion 3

► May 22 (Fri.) 13:30-15:00 [Room 3 (Convention Hall A)]

Long-Term Prognosis After Resection of Colorectal Liver Metastases

Moderators: Hideki Yokoo (Division of HBP, Transplant and Gastrointestinal Surgery, Department of Surgery, Asahikawa Medical University)

Kiyoshi Hasegawa (Hepato-Biliary-Pancreatic Surgery Division, The University of Tokyo)

Special Remarks: Toru Beppu (Department of Surgery, Yamaga City Medical Center)

- PD3-1 Long-Term Prognosis After Resection of Colorectal Liver Metastases: Contemporary Outcomes and Predictors of Durable Survival
 Jin Hong Lim (HBP Division, General Surgery, Gangnam Severance Hospital University of Yonsei, Republic of Korea)
- PD3-2 Proposal of a resectability classification to achieve long-term survival for colorectal liver metastases: A Multicenter Retrospective Study
 Yutaka Nakano (Department of Surgery, Keio University School of Medicine)

- PD3-3 Discordance between radiologic response and tumor marker dynamics during preoperative chemotherapy and its impact on long-term outcomes in patients undergoing resection for colorectal liver metastases
Yoshinori Takeda (Department of Hepatobiliary and Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- PD3-4 Does Hepatectomy Provide Survival Benefit in Patients With ≥ 10 Colorectal Liver Metastases?
Hisashi Murakami (Department of gastroenterological surgery, Toranomon Hospital)
- PD3-5 Long-term outcomes of patients with technically unresectable colorectal liver metastases
Yosuke Nakao (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Tokyo, Japan)
- PD3-6 Multidisciplinary Treatment Strategy and Prognostic Factors for Colorectal Liver Metastasis: A Multicenter Retrospective Study (HiSCO Study)
Tomoyuki Abe (Department of Gastroenterological and Transplant Surgery, Hiroshima University)
- PD3-7 Post-hepatectomy Chemotherapy was Associated with Prolonged Time to Recurrence in Patients with Resectable Colorectal Liver Metastases: Inverse Probability of Treatment Weighting Analysis for Three Multimodal Treatment Approaches
Mitsuhiro Daimon (Hepato-biliary-Pancreatic Surgery Division and Artificial Organ and Transplantation Division, University of Tokyo, Tokyo, Japan)
- PD3-8 Long-term outcomes of up-front surgery for resectable colorectal liver metastases and an institutional definition of borderline resectable disease
Ryo Ashida (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Japan)

Panel Discussion 4

► May 23 (Sat.) 8:30-10:00 [Room 2 (Convention Hall B)]

Exploring Biological Borderline Resectable Pancreatic Cancer from Both Clinical and Basic Perspectives

Moderators: Toru Ikegami (Division of Hepatobiliary and Pancreas Surgery, Department of Surgery, The Jikei University School of Medicine)

Takayuki Anazawa (Department of Surgery, Sapporo Medical University)

Special Remarks: Toshio Nakagohri (Shiroi Seijinkai Hospital)

- PD4-1 Exploring Biological Borderline Resectable Pancreatic Cancer from Both Clinical and Basic Perspective
Christoph W. Michalski (Department of General, Visceral and Transplantation Surgery, Heidelberg University Hospital, Heidelberg, Germany)
- PD4-2 Redefining the Biological Borderline Resectable Pancreatic Cancer: Validation by Optimal CA19-9 Cutoff and Preoperative Lymph Node Metastasis Prediction Model
Suguru Yamada (Department of Gastroenterological Surgery, Nagoya Central Hospital)
- PD4-3 Clinical significance of CA19-9 dynamics in identifying optimal timing for surgery during neoadjuvant therapy in biological borderline resectable pancreatic cancer
Yasunari Fukuda (Department of Surgery, Osaka International Cancer Institute, Osaka, Japan)
- PD4-4 Beyond Single Tumor Markers: Combined CA19-9 and DUPAN-2 Assessment Identifies Biologically Borderline Resectable Pancreatic Cancer in the Neoadjuvant Era
Kenichiro Uemura (Department of Surgery, Hiroshima University, Hiroshima, Japan/Digestive Disease Center, Hiroshima Memorial Hospital, Hiroshima, Japan)

- PD4-5 Conventional clinical factors for identifying biological borderline resectable pancreatic cancer in the era of neoadjuvant chemotherapy
Takanori Konishi (Department of General Surgery, Chiba University Graduate School of Medicine, Chiba, Japan)
- PD4-6 Re-defining “Biological BR” Pancreatic Cancer Based on Embryologic Tumor Location
Yohei Tabe (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- PD4-7 Reconsidering Biological BR PDAC Using CA19-9 Dynamics and Spatial Transcriptomics After Neoadjuvant Chemotherapy
Hiromitsu Nakahashi (Department of Gastroenterological and Hepatobiliary Surgery, Tsukuba University, Ibaraki, Japan)
- PD4-8 Collagen Fiber Topology to Predict Survival in Patients With Pancreatic Cancer
Yixin Sun (Peking University First Hospital, Beijing, China)

Panel Discussion 5

► May 23 (Sat.) 12:50-14:20 [Room 6 (204)]

Interdepartmental Collaboration in HBP Surgery: Best Practices for Perioperative Management (in collaboration with Gastroenterology, Interventional Radiology, etc.)

Moderators: Hideyuki Yoshitomi (Department of Surgery, Dokkyo Medical University Saitama Medical Center)
Manabu Kawai (Second Department of Surgery, Wakayama Medical University)

- PD5-1 Interdepartmental Collaboration in Hepato-Biliary-Pancreatic Surgery: Best Practices for Perioperative Management
Sung Su Yun (The department of Surgery, HBP division, Yeungnam University Hospital, Republic of Korea)
- PD5-2 Impact of ICU Staffing on Failure to Rescue After High-Risk Hepatobiliary Surgery
Yuki Homma (Department of Gastroenterological Surgery, Yokohama City University, School of Medicine)
- PD5-3 A treatment strategy to avoid mortality in post pancreaticoduodenectomy hemorrhage (PPH)
Tomohiro Yoshimura (Second Department of Surgery, Wakayama Medical University)
- PD5-4 Clinical impact of endovascular stent graft placement for postpancreatectomy hemorrhage ~Is it better than traditional procedures of laparotomic hemostasis or transarterial embolization?~
Hirohisa Okabe (Department of Gastroenterological Surgery, Graduate School of Life Science, Kumamoto University)
- PD5-5 Mechanisms and Management of Symptomatic Portal Vein Occlusion After Pancreaticoduodenectomy With Portal Vein Resection
Ryota Ito (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research/Department of Hepatobiliary-Pancreatic Surgery, Juntendo University Graduate School of Medicine)
- PD5-6 PVE plus HVE as preoperative strategy in collaboration with IVR for right-sided major hepatectomy
Mariko Tsukagoshi (Division of Hepatobiliary and Pancreatic Surgery, Department of General Surgical Science, Gunma University Graduate School of Medicine, Gunma, Japan)

- PD5-7 Interventional radiology for hepatic artery, portal vein, and hepatic vein after liver transplantation
Nobuhisa Akamatsu (Hepato-Biliary-Pancreatic Surgery Division, Artificial Organ and Organ Transplantation Division, Department of Surgery, Graduate School of Medicine, University of Tokyo, Tokyo, Japan)
- PD5-8 Clinical Outcomes After Endoscopic Retrograde Cholangiopancreatography Using Balloon-Assisted Enteroscopy for Benign Anastomotic Stricture of Choledochojejunostomy
Koh Kitagawa (Department of Gastroenterology, Nara Medical University)

Panel Discussion 6

► May 23 (Sat.) 15:30-17:00 [Room 3 (Convention Hall A)]

Treatment Strategies for UR-M Pancreatic Cancer (CY-positive, Hepatic and Pulmonary Metastases)

Moderators: Sohei Satoi (Department of Pancreatobiliary Surgery, Kansai Medical University)
Fuyuhiko Motoi (Department of Surgery I, Yamagata University)

Special Remarks: Minoru Tanabe (Kashiwa Municipal Hospital)

- PD6-1 The Experience of Salvage Surgery for Metastatic Pancreatic Cancer
Keynote Lecture Yan-Shen Shan (Division of General Surgery, Department of Surgery, National Cheng Kung University Hospital, Tainan, Taiwan/Institute of Clinical Medicine, College of Medicine, National Cheng Kung University, Tainan, Taiwan)
- PD6-2 Treatment Strategy for Anatomical Pancreatic Ductal Carcinoma with Potentially CY-Positive
Kazuto Shibuya (Department of Surgery and Science, Faculty of Medicine, Academic Assembly, University of Toyama)
- PD6-3 Conversion Surgery for Pancreatic Cancer with Positive Peritoneal Lavage Cytology
Masahiro Iseki (Department of Surgery, Tohoku University Graduate School of Medicine, Sendai, Japan)
- PD6-4 Clinical Impact of Conversion Surgery After Negative Peritoneal Cytology in Initially Cytology-Positive Pancreatic Cancer: A Single-Institution Retrospective Study
Sho Kiritani (Cancer Institute Hospital of JFCR)
- PD6-5 Efficacy of hyperthermic intraperitoneal chemotherapy for pancreatic cancer with only peritoneal metastases
Yaolin Xu (Department of Pancreatic Surgery, Zhongshan Hospital Fudan University, Shanghai, China)
- PD6-6 CA19-9 With Two-stage Resection Is Useful for Conversion Surgery in PDAC With Synchronous Oligometastases
Koetsu Inoue (Department of Surgery, Tohoku University Graduate School of Medicine)
- PD6-7 Conversion Surgery for Pancreatic Ductal Adenocarcinoma with Liver Metastasis at Initial Diagnosis: A Nationwide Multicenter Study
Daisuke Hashimoto (Department of Pancreatobiliary Surgery, Kansai Medical University, Osaka, Japan)
- PD6-8 Conversion Surgery Vs. Palliative Care in Pancreatic Cancer Oligometastatic to the Liver (SONAR: Surgery in Oligometastatic PaNcreatic CAncer) a Randomized Controlled Trial
Domenico Bassi (Hepato-Pancreato-Biliary and Liver Transplant Surgery Unit, Department of Surgical, Oncological and Gastroenterological Sciences (DiSCOG), University of Padua, Padua, Italy)

■ Workshop

Workshop 1

▶ May 22 (Fri.) 8:00-9:30 [Room 4 (205)]

Challenges in IPMN Management: Treatment of Recurrent/Metastatic Cases and Unresectable Progression During Follow-up

Moderators: Tomio Ueno (Department of Digestive Surgery, Kawasaki Medical School)
Seiko Hirono (Department of Hepato-Biliary-Pancreatic Surgery, Hyogo Medical University)

- WS1-1 Keynote
Lecture Rethinking Recurrence: Implications and Risk of New vs Persisting IPMN After Pancreatic Surgery
Giovanni Marchegiani (Padova University, Italy)
- WS1-2 Optimizing Pancreatic Cyst Surveillance: A Cost-Effectiveness Analysis Using Microsimulation
Giovanni Marchegiani (Padova University, Italy)
- WS1-3 Fate of remnant pancreas after resection of non-invasive IPMN
Hiromichi Ito (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Tokyo, Japan)
- WS1-4 Patterns of Recurrence and Outcomes of Secondary Treatment After Curative Resection of IPMN
Yasuhide Kofunato (Department of Hepato-Biliary-Pancreatic and Transplant Surgery)
- WS1-5 Risk Factors for Remnant Pancreatic Lesions and the Clinical Significance of Completion Total Pancreatectomy after IPMN Resection
Yoshiki Fujiyama (Department of General, Pediatric, and Hepatobiliary-Pancreatic Surgery, Kitasato University Hospital)
- WS1-6 Impact of Surgical Treatment on Survival After Recurrence Following Resection of Intraductal Papillary Mucinous Neoplasm: A Single-Institution Retrospective Study
Kazuki Wakizaka (Department of Surgery, Sapporo-Kosei General Hospital, Sapporo, Japan)
- WS1-7 Treatment strategy for unresectable invasive IPMC and postoperative recurrence after resection of IPMN
Mizuki Yoshida (Department of Hepato-Biliary-Pancreatic Surgery, Hyogo Medical University, Hyogo, Japan)
- WS1-8 Clinically significant remnant pancreatic lesions after resection for IPMN
Yoshihiro Miyasaka (Department of Surgery, Fukuoka University Chikushi Hospital, Chikushino, Japan)
- WS1-9 Clinical Course of Patients Developing High-Risk Lesions in the Remnant Pancreas After Partial Pancreatectomy for IPMN
Noboru Ideno (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University, Fukuoka, Japan)

Workshop 2

► May 22 (Fri.) 9:00-10:00 [Room 8 (202)]

Pathway to Board Certification in Advanced HBP Surgery

Moderators: Tsutomu Fujii (Department of Surgery and Science, Faculty of Medicine, Academic Assembly, University of Toyama)

Akio Saiura (Department of Hepato-Biliary-Pancreatic Surgery Graduate School of Medicine, Juntendo University)

- WS2-1 My experience of obtaining advanced specialist physician certification
Manami Doi (Department of Gastrointestinal and Hepato-Biliary-Pancreatic Surgery, Tsukuba University, Ibaraki, Japan/Moriya Daiichi General Hospital, Ibaraki, Japan)
- WS2-2 A practical pathway toward board certification in advanced hepatobiliary-pancreatic surgery: maximizing learning density in a low-volume training experience
Aya Matsui (Department of Gastroenterological Surgery II, Hokkaido University Faculty of Medicine)
- WS2-3 Building a Sustainable and Efficient Training Pathway to Board-Certificated Expert Surgeon Qualification in Resource-Limited Settings
Masahiro Fukada (Department of Gastroenterological Surgery, Gifu University Hospital)
- WS2-4 The Path to Certification as a Proficient Expert Surgeon of the Japanese Society of Hepato-Biliary-Pancreatic Surgery: Lessons from a Senior Surgeon Through the Eyes of a female Junior Trainee
Naho Ishimura (Department of Gastroenterological Surgery, Ehime Prefectural Central Hospital)
- WS2-5 Training Program for Board Certification in Advanced HBP Surgery in a High-Volume Robotic Surgery Center
Naohiro Okada (Department of Gastroenterological Surgery, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Science, Okayama, Japan)
- WS2-6 An Outcome-Oriented “Candidate System” for Developing Board-Certified Expert HBP Surgeons: Integrating Research Excellence with Intensive Clinical Training
Masaaki Hirata (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Graduate School of Medicine, Kyoto University, Kyoto, Japan)

Workshop 3

► May 23 (Sat.) 8:30-10:00 [Room 4 (205)]

New Developments in Pancreatic NET Treatment

Moderators: Taku Aoki (Department of Hepato-Biliary-Pancreatic Surgery, Dokkyo Medical University)

Masaaki Hidaka (Department of Digestive and General Surgery, Shimane University)

- WS3-1 New Developments in Pancreatic NET Treatment
Ching-Yao Yang (Department of Surgery, National Taiwan University Hospital, and College of Medicine, National Taiwan University, Taiwan)
- WS3-2 Evaluation of the treatment strategy for small non-functioning pancreatic neuroendocrine neoplasm: observation versus surgical resection
Wataru Izumo (Department of Digestive Surgery, University of Yamanashi Hospital, Yamanashi, Japan)
- WS3-3 Surgical Outcomes of Pancreatic Neuroendocrine Neoplasms and the Role of Multimodal Therapy Including PRRT: A Single-Institution Experience
Kosuke Nakamura (Department of Digestive and General Surgery, Shimane University Faculty of Medicine)

- WS3-4 Prediction of Recurrence After Curative Resection for Pancreatic Neuroendocrine Tumors Based on Clinical and Pathological Factors
Shohei Motohashi (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- WS3-5 Indications for Conversion Surgery for NET Liver Metastases Based on PRRT Treatment Outcomes
Toshihiko Masui (Department of Surgery, Kurashiki Central Hospital, Kurashiki, Japan)
- WS3-6 Prognostic and Recurrence Implications of a 10% Ki-67 Threshold Split in World Health Organization Grade 2 Pancreatic Neuroendocrine Tumors
Go-Won Choi (Department of General surgery, Seoul National University Hospital, Seoul, Republic of Korea)
- WS3-7 Optimal Extent of Lymph Node Dissection in Patients Undergoing Resection for Pancreatic Neuroendocrine Neoplasms
Takumi Harada (Department of Surgery, Graduate School of Biomedical & Health Sciences, Hiroshima University)
- WS3-8 Treatment Response and Clinical Course Following Peptide Receptor Radionuclide Therapy (PRRT) in Neuroendocrine Tumor (NET)
Eriko Katsuta (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- WS3-9 PRRT for Neuroendocrine Tumor Liver Metastases: Treatment Outcomes and Future Surgical Perspectives
Shintaro Takeuchi (Department of Gastroenterological Surgery, Hokkaido University, Sapporo, Japan/ NET center, Hokkaido University Hospital)
- WS3-10 Clinical Outcomes of Peptide Receptor Radionuclide Therapy in Our Department
Takayuki Shiraki (Department of Hepato-Biliary-Pancreatic Surgery, Dokkyo Medical University, Tochigi Japan)
- WS3-11 Treatment Outcomes of Peptide Receptor Radionuclide Therapy at Our Institution
Kaoru Enomoto (Department of Hepato-Pancreato-Biliary Surgery, Institute of Science Tokyo, Japan)

Workshop 4

► May 23 (Sat.) 8:30-10:00 [Room 5 (206)]

Optimal Treatment Strategy for Duodenal Cancer Based on Long-Term Outcomes

Moderators: Yoji Kishi (Department of Surgery, National Defense Medical College)
Ken-Ichi Okada (Department of Gastroenterological Surgery, Tokai University School of Medicine)

- WS4-1 Stage-Specific Outcomes of Curative-Intent Treatment for Non-Ampullary Duodenal Cancer: Procedure Selection Between Limited Duodenal Resection and Pancreatoduodenectomy
Rika Fujino (Department of Gastroenterological Surgery, Tokai University Hospital, Kanagawa, Japan)
- WS4-2 Clinicopathological characteristics and surgical outcomes of primary duodenal carcinoma: A single-center experience from Kochi Health Sciences Center
Sunao Uemura (Department of Gastroenterological Surgery, Kochi Health Sciences Center, Kochi, Japan)
- WS4-3 Indications for local resection based on surgical treatment outcomes for non-ampullary duodenal carcinoma
Jota Watanabe (Department of Gastroenterological Surgery, Ehime Prefectural Central Hospital)

- WS4-4 Treatment strategy for duodenal cancer based on long-term outcomes of resected cases
Masamichi Mizuma (Department of Surgery, Tohoku University, Sendai, Japan)
- WS4-5 Surgical Procedure for Non-Ampullary Duodenal Carcinoma Based on Long-term Outcomes: A Single-Center Study of 35 Curative Resections
Takehiro Noji (Hokkaido University Hospital Gastroenterological Surgery II/Faculty of Health Sciences Nursing division, Hokkaido University)
- WS4-6 A Study on the Location of Lymph Node Metastasis in Duodenal Cancer Treated with Pancreaticoduodenectomy
Hiroto Kayashima (Department of Surgery, Iizuka Hospital, Fukuoka, Japan)
- WS4-7 Surgical Strategy and Prognostic Factors for Primary Duodenal Cancer: A Single-Center Experience
Masashi Yoshimoto (Department of Surgery, Hiroshima City Hiroshima Citizens Hospital, Hiroshima, Japan)
- WS4-8 Prognostic impact of distribution of lymph node metastasis and adjuvant chemotherapy in non-ampullary duodenal cancer
Yoshihiro Sakano (Department of Gastroenterological Surgery, Osaka International Cancer Institute, Osaka, Japan)
- WS4-9 Distribution of lymph node metastasis by axial or circumferential location in duodenal cancers
Masamichi Hayashi (Department of Surgery, Nagoya University, Nagoya, Japan)

Workshop 5

► May 23 (Sat.) 8:30-10:00 [Room 6 (204)]

Optimal Treatment Strategies for Gallbladder Cancer

Moderators: Hiroaki Nagano (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine)
Toshiki Rikiyama (Department of Surgery, Saitama Medical Center, Jichi Medical University)

- WS5-1 Optimal Surgical Strategy for Gallbladder Cancer Using Preoperative Imaging and Intraoperative Frozen-Section Analysis
Daisuke Hokuto (Department of surgery, Nara Prefecture General Medical Center)
- WS5-2 Reducing Overtreatment in Suspected Gallbladder Cancer: A Classification and Regression Tree-Based Approach
Kota Sahara (Department of Gastroenterological Surgery, Yokohama City University, Japan)
- WS5-3 Surgical Strategy and Clinical Outcomes of Laparoscopic Surgery for Gallbladder Cancer at a Single Institution
Yoshifumi Iwagami (Department of Surgery, Kansai Rosai Hospital, Japan Organization of Occupational Health and Safety, Hyogo, Japan)
- WS5-4 Reappraising the Prognostic Role of Liver Resection as part of Extended Cholecystectomy for T2 Gallbladder Cancer
Hirotoshi Noda (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan)
- WS5-5 Survival Impact of Adjuvant Chemotherapy and Extent of Lymphadenectomy in Node-Positive Gallbladder Cancer: A Multicenter Retrospective Study
Daisuke Noguchi (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University, Mie, Japan/Department of Surgery, Japanese Red Cross Ise Hospital)

- WS5-6 Rational treatment strategies according to extent of disease for gallbladder cancer
Jun Sakata (Division of Digestive and General Surgery, Niigata University Graduate School of Medical and Dental Sciences, Niigata, Japan)
- WS5-7 Feasibility of surgical resection for advanced gallbladder carcinoma based on preoperative clinical T stagings: A multicenter retrospective analysis (SNOW-22-05)
Takashi Mizuno (Division of Surgical Oncology, Department of Surgery, Nagoya University Graduate School of Medicine, Nagoya, Japan)
- WS5-8 Surgical Extent for T2 Gallbladder Cancer: Prognostic Value of Lymphadenectomy and Lack of Benefit from Liver Resection
Won-Gun Yun (Department of Surgery, Seoul Metropolitan Government-Seoul National University Boramae Medical Center, Seoul National University College of Medicine, Seoul, Republic of Korea)

Workshop 6

► May 23 (Sat.) 8:30-10:00 [Room 7 (203)]

The Practice of HBP Surgery in Community Hospitals

Moderators: Shuji Suzuki (Department of Gastroenterological Surgery, Ibaraki Medical Center, Tokyo Medical University)
Hisanori Shiomi (Department of Surgery, Nagahama Red Cross Hospital)

- WS6-1 The Practice of HBP Surgery in Community Hospitals
Ming-Chin Yu (New Taipei Municipal TuCheng Hospital (Built and Operated by Chang Gung Medical Foundation), Taiwan)
- WS6-2 Initiatives to implement safe pancreatic resection in our community hospital
Norifumi Harimoto (Department of Hepato-biliary-pancreatic Surgery, NHO Kyushu Medical Center)
- WS6-3 Current Status and Challenges of Hepatobiliary-Pancreatic Surgery under Limited Human Resources in a Community Hospital
Chie Kitami (Department of Surgery, Nagaoka Chuo General Hospital)
- WS6-4 Implementation and Outcomes of a Multidisciplinary Preoperative Management System for Hepatopancreatobiliary Surgery in a Community Hospital
Tatsuya Orimo (Department of Surgery, Hokkaido Prefectural Welfare Federation of Agricultural Cooperative (P.W.F.A.C.) Sapporo Kosei General Hospital, Sapporo, Japan)
- WS6-5 Refined Perioperative Management for Pancreaticoduodenectomy: Reproducible Short-Term Outcomes in Academic and Community Hospitals
Norihisa Kimura (Department of Surgery, Aomori City Hospital/Department of Gastroenterological Surgery, Hirosaki University Graduate School of Medicine)
- WS6-6 Current Status and Future Challenges of the Department of Surgery at National Hospital Organization Saitama Hospital
Ryusuke Amemiya (Department of Surgery, National Hospital Organization Saitama Hospital)
- WS6-7 Effective domestic fellowship training for HBP surgery in a community hospital
Atene Ito (Department of Surgery, Tsuyama Chuo Hospital, Okayama, Japan)
- WS6-8 Establishing Hepatobiliary and Pancreatic Surgery in an Intermediate-volume Hospital: From Safe Implementation to Sustained Management
Shogo Tanaka (Department of Hepato-Biliary-Pancreatic Surgery, Izumi City General Hospital, Izumi, Japan)

- WS6-9 Maintaining and Ensuring Safety in High-Difficulty Hepato-Biliary-Pancreatic Surgery at a Regional Core Hospital: Initiatives as a Certified Training Facility B through Web-Based Collaboration
Megumi Yamaguchi (Department of Gastroenterological Surgery, NHO Higashihiroshima Medical Center, Hiroshima, Japan)

Workshop 7

► May 23 (Sat.) 10:00-11:30 [Room 1 (Tempyo Hall)]

Benefits and Risks of Conversion Surgery for Locally Advanced Pancreatic Cancer

Moderators: Atsushi Nanashima (Division of Hepato-biliary-pancreas Surgery, Department of Surgery, Faculty of Medicine, University of Miyazaki)

Shugo Mizuno (Department of Hepatobiliary Pancreatic & Transplant Surgery, Mie University)

Special Remarks: Yasuyuki Suzuki (Department of Surgery, Iwasaki Hospital)

- WS7-1 Benefits and Risks of Conversion Surgery for Locally Advanced Pancreatic Cancer
Joon Seong Park (Department of Surgery, Seoul National University, Seoul, Republic of Korea)
- WS7-2 Evaluating PL-SMA Divestment in Locally Advanced PDAC: Clinicopathological Plane Verification and Oncological Outcomes
Haruka Tanaka (Department of Hepatobiliary Pancreatic Surgery, Juntendo University)
- WS7-3 Does Surgical Resection Improve Survival in Patients with Suboptimal Treatment Response after Induction Chemotherapy in Locally Advanced Pancreatic Cancer?
Hyesol Jung (Department of Surgery, Seoul National University Hospital, Seoul, Republic of Korea)
- WS7-4 Identifying Risk Factors for Futile Conversion Surgery in Locally Advanced Pancreatic Cancer
Younsoo Seo (Seoul National University Hospital, Republic of Korea)
- WS7-5 Surgical result and postoperative recurrence in pancreatic cancer with arterial contact or invasion
Isamu Makino (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University)
- WS7-6 Analyses of risk factors for early recurrence and survival after conversion surgery in initially locally advanced unresectable PDAC
Shigetsugu Takano (Department of General Surgery, Chiba University, Chiba, Japan)
- WS7-7 Conversion Surgery After Chemoradiotherapy for Unresectable Locally Advanced Pancreatic Cancer: Focus on 2-Year Postoperative Survival
Aoi Hayasaki (Mie University Hospital, Department of Hepatobiliary Pancreatic and Transplant surgery)

Workshop 8

► May 23 (Sat.) 10:00-11:30 [Room 2 (Convention Hall B)]

Challenges and Management Strategies for Long-term Survivors after Total Pancreatectomy

Moderators: Kenichi Hakamada (Department of Gastroenterology, Hirosaki University)

Ippei Matsumoto (Department of Surgery, Kindai University)

Special Remarks: Yoshifumi Takeyama (Osaka-Gyoumeikan Hospital)

- WS8-1 Total Pancreatectomy: Current Indications and Outcome
Marco Del Chiaro (University of Colorado Anschutz Medical Campus, United States of America)

Keynote
Lecture

- WS8-2 Long-term Outcomes and Management of Diabetes and Nutrition Following Total or Completion Pancreatectomy: A Retrospective Analysis
Hiroko Okinaga (Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital)
- WS8-3 A Study of Short—and Long-term Challenges in Total Pancreatectomy
Tadafumi Asaoka (Department of Gastroenterological surgery, Osaka International & Science Center, Osaka Keisatsu Hospital)
- WS8-4 Comparison of Nutritional Outcomes between Primary and Completion Total Pancreatectomy
Daisuke Sato (Department of Gastroenterological Surgery II, Division of Surgery, Faculty of Medicine, Graduate School of Medicine, Sapporo, Japan)
- WS8-5 Outcomes of Total Pancreatectomy and Completion Pancreatectomy
Atsushi Shimizu (2nd Department of Surgery, Wakayama Medical University)
- WS8-6 Surgical and oncologic outcomes of total pancreatectomy for pancreatic ductal adenocarcinoma: planned resection is associated with poor prognosis
Dongha Lee (Division of Hepatobiliary Pancreatic Surgery, Department of Surgery, Kindai University Faculty of Medicine, Osaka, Japan)
- WS8-7 Age-Related Changes in Bone Mineral Density After Total Pancreatectomy: A Retrospective Study
Saburo Sugita (Department of Gastroenterological Surgery, Nagoya City University Graduate School of Medical Sciences, Aichi, Japan)
- WS8-8 Long-term outcomes after total pancreatectomy including elderly patients: Clinical impact of postoperative nutritional status.
Norihiko Ishii (Department of Surgery, Gunma Saiseikai Maebashi Hospital, Gunma, Japan)
- WS8-9 Impact of the preoperative prognostic nutritional index on the long-term postoperative course after total pancreatectomy
Masaaki Kagoura (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- WS8-10 Risk and recovery factors for metabolic dysfunction-associated steatotic liver disease after total pancreatectomy
Mitsuhiro Shimura (Department of Surgery, Tohoku University Graduate School of Medicine)

Workshop 9

► May 23 (Sat.) 10:00-11:30 [Room 3 (Convention Hall A)]

Treatment Outcomes of Conversion Surgery for Hepatocellular Carcinoma

Moderators: Hiroshi Yoshida (Department of Gastroenterological Surgery, Nippon Medical School)

Yoshihiro Sakamoto (Department of Hepato-Biliary-Pancreatic Surgery, Kyorin University Hospital)

Special Remarks: Hironori Kaneko (Toho University School of Medicine)

- WS9-1 Successful Conversion Surgery for Advanced and Huge Hepatocellular Carcinoma with Vascular Invasion
Ki-Hun Kim (HB Surgery and Liver transplantation, Asan Medical Center and University of Ulsan, Seoul, Republic of Korea)
- WS9-2 Treatment Outcomes of Systemic Therapy with the Intention of Surgical Resection for Borderline Resectable Hepatocellular Carcinoma
Takashi Masuda (Department of Gastroenterological and Pediatric Surgery, Oita University Faculty of Medicine, Yufu, Japan)

- WS9-3 Utility of Robot-Assisted Hepatectomy as Conversion Surgery after Atezolizumab plus Bevacizumab for Initially Unresectable Hepatocellular Carcinoma
Daiki Takeda (Department of Surgery, Iwate Medical University School of Medicine, Iwate, Japan)
- WS9-4 Treatment Outcomes of Conversion Surgery for BCLC Stage B/C Hepatocellular Carcinoma in the Era of Immunotherapy
Shintaro Kuroda (Department of Gastroenterological Surgery, Hiroshima University Hospital)
- WS9-5 Risk Stratification for Early Recurrence After Conversion Surgery in HCC Using Tumor Necrosis rate and Tumor Markers
Yuichi Goto (Division of Hepatobiliary and Pancreatic Surgery, Department of Surgery, Kurume University School of Medicine, Fukuoka, Japan)
- WS9-6 Multidisciplinary Strategies Aimed at Conversion Surgery for Initially Unresectable Hepatocellular Carcinoma
Takahiro Nishio (Department of Surgery, Graduate School of Medicine, Kyoto University)
- WS9-7 Efficacy and safety of conversion surgery for advanced HCC: A comparison with borderline resectable HCC without prior treatment
Akihiro Tanemura (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University, Mie, Japan)
- WS9-8 Aggressive surgical resection for advanced hepatocellular carcinoma after systematic treatments using new agents
Ryota Matsuki (Department of hepato-biliary-pancreatic surgery, Kyorin University hospital, Tokyo, Japan)
- WS9-9 Significance of Conversion Therapy Following Atezolizumab Plus Bevacizumab for Unresectable Advanced Hepatocellular Carcinoma
Kenji Fukushima (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University Graduate School of Medicine, Kobe, Japan)
- WS9-10 Impact of Curative Resection after Atezolizumab plus Bevacizumab on Outcome in Hepatocellular Carcinoma
Shinji Itoh (Department of Surgery and Science, Kyushu University, Fukuoka, Japan)

Workshop 10

► May 23 (Sat.) 10:00-11:30 [Room 5 (206)]

Addressing the Challenge of Improving Prognosis in Intrahepatic Cholangiocarcinoma

Moderators: Keiichi Okano (Department of Gastroenterological Surgery, Kagawa University)
Shigeru Marubashi (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University)

- WS10-1 Clinicopathological significance of cholangiolocarcinoma component in the gross morphologic type of intrahepatic cholangiocarcinoma; a retrospective multicenter study
Shinichi Nakanuma (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University)
- WS10-2 Oncological Resectability in Peripheral and Central Intrahepatic Cholangiocarcinoma
Junichiro Kawamoto (Department of Surgery, Keio University School of Medicine)
- WS10-3 Clinical Implications of Tumor Subclassification in Intrahepatic Cholangiocarcinoma: A Single-Center Retrospective Study
Masahiko Kinoshita (Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine, Osaka, Japan)

- WS10-4 Prognostic Value of Clinicopathological Factors in Resected Intrahepatic Cholangiocarcinoma
Shoji Kawakatsu (Nagoya University Hospital)
- WS10-5 Clinical Impact of Surgical Resection in Multidisciplinary Treatment for Recurrent Intrahepatic Cholangiocarcinoma
Kensuke Suzuki (Department of General Surgery, Chiba University, Chiba, Japan)
- WS10-6 Significance of Lymph Node Dissection and Prognostic Factors in Intrahepatic Cholangiocarcinoma
Makoto Muto (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University, Fukushima, Japan)
- WS10-7 Recurrence Patterns and the Role of Lymph Node Dissection in Peripheral Mass-Forming Intrahepatic Cholangiocarcinoma
Masakazu Hashimoto (Department of Gastroenterological Surgery, Hiroshima Prefectural Hospital, Hiroshima, Japan/Hiroshima Surgical study group of Clinical Oncology (HiSCO), Hiroshima, Japan)
- WS10-9 Optimal Lymph Node Dissection in Intrahepatic Cholangiocarcinoma
Tomoyuki Yoshida (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital, Tokyo, Japan)

Workshop 11

► May 23 (Sat.) 10:00-11:30 [Room 8 (202)]

Landscape of Translational Research in HBP Cancers

- Moderators: Hideki Ohdan (Department of Gastroenterological and Transplant Surgery, Hiroshima University)
Toshifumi Wakai (Division of Digestive and General Surgery, Niigata University Graduate School of Medical and Dental Sciences)
- WS11-1 Normalizing tumor vasculature to limit cancer progression and metastasis
Yuwen Zhu (The University of Colorado Anschutz Medical Campus, United States of America)
- WS11-2 Dual Reprogramming of TAMs and CAFs by Anti-TREM2 Treatment Enhances Anti-PD-1 Immunotherapy Following Neoadjuvant Chemotherapy in PDAC
Kai Chen (Peking University First Hospital, Peking University, Beijing, China)
- WS11-3 Integrated Transcriptomic, Experimental, and Clinical Analysis of Long Non-coding RNA H19 in Pancreatic Ductal Adenocarcinoma: Prognostic and Predictive Implications
Jaeseung Kwak (Division of Hepatobiliary and Pancreas Surgery, Department of Surgery, Yonsei University College of Medicine, Republic of Korea)
- WS11-4 Antigen-presenting CD86⁺ B cells within mature tertiary lymphoid structures promote CD8⁺ T-cell infiltration and favorable clinical outcome in pancreatic ductal adenocarcinoma
Takaomi Seki (Department of Hepatobiliary and Pancreatic Surgery, Gunma University, Graduate School of Medicine, Maebashi, Japan)
- WS11-5 Multi-Omics analysis for the development of novel biomarkers in pancreatic cancer
Satoshi Hamada (Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine)
- WS11-6 Stromal FAP-Driven High-Contrast Imaging of Pancreatic Ductal Adenocarcinoma Using 18F-FAPI-74 PET/CT
Yoshihiro Miyazaki (Department of Gastrointestinal and Hepato-Biliary Pancreatic Surgery, University of Tsukuba)

- WS11-7 Overcoming therapeutic limitation of immune checkpoint inhibitor against HCC using novel combination immune drug
Masao Nakajima (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine, Yamaguchi, Japan)
- WS11-8 NTAQ1 promotes hepatocellular carcinoma growth by facilitating the protein degradation of the tumor suppressor PRDM2
Tomohiko Ikehara (Beppu Hospital/Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
- WS11-9 Feasibility of CLDN18.2 Fluorescent Antibody-Based Navigation in Pancreato-Biliary Surgery
Masafumi Imamura (Department of Surgery, Division of Gastroenterological Surgery, Sapporo Medical University, Sapporo, Japan)

Workshop 12

► May 23 (Sat.) 12:50-14:20 [Room 2 (Convention Hall B)]

Integrating Resection, Transplantation, and Systemic Therapy for Recurrent Hepatocellular Carcinoma

Moderators: Yuji Soejima (Department of Surgery, Shinshu University)
Junichi Arita (Department of Gastroenterological Surgery, Akita University Graduate School of Medicine)

- WS12-1 Prognostic utility of Oncological Resectability Criteria at recurrence after hepatectomy for hepatocellular carcinoma
Koya Yasukawa (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine, Matsumoto, Japan)
- WS12-2 Long-Term Treatment Strategy for Recurrent HCC: Impact of Initial Postoperative Liver Failure, Liver Function at Recurrence, and the Role of Transplantation
Satoshi Ogiso (Department of Surgery, Kyoto University, Kyoto, Japan)
- WS12-3 The strategy of repeat hepatectomy for recurrent hepatocellular carcinoma~the importance of the interval between first and second hepatectomy~
Takehiro Noda (Department of Gastroenterological Surgery, The University of Osaka, Japan)
- WS12-4 Impact of Waiting Time on Outcomes after Liver Transplantation for Recurrent Hepatocellular Carcinoma
Kyohei Yugawa (Department of Surgery and Science, Kyushu University, Fukuoka, Japan)
- WS12-5 Treatment Approach for Recurrent Hepatocellular Carcinoma in the University of Tokyo; Salvage Liver Transplantation, Locoregional Therapy, and Systemic Therapy
Yujiro Nishioka (Division of Hepato-Biliary-Pancreatic Surgery and Artificial-Organ Transplantation, University of Tokyo)
- WS12-6 Multidisciplinary therapy for Intrahepatic Recurrence after Liver Resection for Hepatocellular Carcinoma
Osamu Aramaki (Division of Digestive Surgery, Department of Surgery, Nihon University School of Medicine)
- WS12-7 Comparison of Clinical Outcomes Between Repeat Liver Resection and Radiofrequency Ablation for Recurrent Hepatocellular Carcinoma
Hajime Kamiya (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)

- WS12-8 Treatment strategy for the first and second recurrence of hepatocellular carcinoma after hepatic resection
Hiroji Shinkawa (Department of Hepatobiliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine, Osaka, Japan)

Workshop 13

► May 23 (Sat.) 14:25-15:25 [Room 2 (Convention Hall B)]

Long-term Outcomes of Parenchyma-Sparing Surgery (Central Pancreatectomy, Spleen Preservation, etc.) for Pancreatic Cancer

Moderators: Masaji Tani (Department of Surgery, Shiga University of Medical Science)
Kenichiro Uemura (Department of Surgery, Hiroshima University)

Special Remarks: Kyoichi Takaori (Department of Surgery, Nagahama City Hospital)

- WS13-1 Long-Term Oncological Outcomes of Organ-Sparing Pancreatectomy for Pancreatic Body Cancer
Masataka Wada (Department of Gastroenterological SurgeryII Hokkaido University, Sapporo, Japan)
- WS13-2 Pancreas-preserving distal pancreatectomy for pancreatic ductal adenocarcinoma: impact on oncologic outcomes and postoperative pancreatic function
Toshiya Abe (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University, Japan)
- WS13-3 Clinical Outcomes of Spleen-Preserving Distal Pancreatectomy for Pancreatic Body Cancer
Atsushi Tomioka (Department of General and Gastroenterological Surgery, Osaka Medical and Pharmaceutical University, Osaka, Japan)
- WS13-4 Indication of Central Pancreatectomy for Resectable Pancreatic Body Cancer
Kenjiro Okada (Department of Surgery, Hiroshima University, Hiroshima, Japan)
- WS13-5 Favorable Outcomes Support Central Pancreatectomy for Clinically T1 Pancreatic Body Ductal Adenocarcinoma
Taichi Terai (Department of Surgery, Nara Medical University)

Workshop 14

► May 23 (Sat.) 15:30-17:00 [Room 1 (Tempyo Hall)]

Current Landscape and Future Perspectives of AI Utilization in HBP Surgery: From Basic Research to Clinical Application

Moderators: Yuzo Umeda (Department of Hepato-Biliary-Pancreatic and Breast Surgery, Ehime University Graduate School of Medicine)
Takeshi Takahara (Department of Surgery, Fujita Health University)

- WS14-1 The utilization of AI in HBP Surgery
Wenhui Lou (Department of Pancreatic Surgery, Zhongshan Hospital, Fudan University, China)
- WS14-2 Real-Time AI Navigation Based on Tokyo Guidelines 2018 for Laparoscopic Cholecystectomy: Bridging Deep Learning Development to Clinical Safety Standardization
Keita Sonoda (Department of General and Gastroenterological Surgery, Keio University, Tokyo, Japan)
- WS14-3 AI-Based Automated Surgical Skill Evaluation System for Laparoscopic Cholecystectomy
Kimimasa Sasaki (Department for the Promotion of Medical Device Innovation, National Cancer Center Hospital East, Chiba, Japan/Department of Hepato-Biliary-Pancreatic Surgery, National Cancer Center Hospital East, Chiba, Japan)

- WS14-4 Applying Computer Vision for Automated Objective Surgical Assessment and Education
Chloe Nobuhara (Stanford University, United States of America)
- WS14-5 Development of a Machine Learning-Based Objective Discharge Criteria for Readmission and Prolonged Hospital Stay Following Pylorus-Preserving Pancreaticoduodenectomy (PPPD)
Inhyuck Lee (Department of Surgery, Seoul National University, Seoul, Republic of Korea/Department of Transdisciplinary Medicine, Seoul National University, Seoul, Republic of Korea)
- WS14-6 Transitioning from Rule-Based to Data-Driven R0 Prediction in Pancreatic Cancer: Evaluating the Superiority of Vascular Invasion Patterns and the Additive Value of Tumor Markers
Takehiro Fuji (Department of Hepatobiliary Pancreatic and Transplant surgery, Mie University Hospital, Mie, Japan)
- WS14-7 Effect of pancreatic parenchymal fibrosis on long-term outcomes in pancreatic cancer patients measured using AI-guided MRI image
Ryoichi Miyamoto (Department of Gastroenterological Surgery, Ibaraki Medical Center, Tokyo Medical University, Ibaraki, Japan)
- WS14-8 Development and Early Clinical Use of Real-Time Navigation Using an AI Deformable Model for Minimally Invasive Liver Resection
Yusuke Hanabata (Department of Surgery, Graduate School of Medicine, Kyoto University, Kyoto, Japan)
- WS14-9 Toward Decision Support in HPB Surgery via Automation and Inference of AI-Driven Extended Reality Surgical Assistance
Maki Sugimoto (Innovation Lab, Teikyo University Okinaga Research Institute/HPB Surgery, Teikyo University)

Workshop 15

► May 23 (Sat.) 15:30-17:00 [Room 2 (Convention Hall B)]

Surgical Strategies for Hepatectomy: Balancing Radicality and Functional Preservation

Moderators: Keiji Sano (Department of Surgery, Teikyo University School of Medicine)

Yasuko Matsuo (Department of Surgery, Nara Medical University)

Special Remarks: Yasutsugu Takada (JCHO Yamatokoriyama Hospital)

- WS15-1 Clinical Utility of Modified Functional Remnant Liver KICG in Major Hepatectomy
Yuki Segi (Department of Hepatobiliary Pancreatic and Transplant surgery, Mie University hospital, Mie, Japan)
- WS15-2 Surgical strategy based on liver functional assessment of remnant liver region using EOB-MRI in Hepatocellular carcinoma
Masashi Kudo (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- WS15-3 Development of a Predictive Model for Future Liver Remnant (FLR) Hypertrophy After Portal Vein Embolization Based on Preoperative FLR Function Assessed by EOB-MRI
Tsuoyoshi Notake (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
- WS15-4 A Surgical Strategy for Hepatectomy in Biliary Tract Cancer Based on EOB-MRI-Derived Functional Liver Volume and Sequential Portal and Hepatic Vein Embolization
Norio Kubo (Division of Hepatobiliary and Pancreatic Surgery, Department of General Surgical Science, Gunma University Graduate School of Medicine, Gunma, Japan)

- WS15-5 Liver Resection with Hepatic Vein Reconstruction for Malignant Liver Tumors
Yu Sawada (Department of Gastroenterological Surgery, Yokohama City University Graduate School of Medicine)
- WS15-6 Central Hepatectomy as an Alternative: A Comparative Study with Conventional Major Hepatectomy for Perihilar Cholangiocarcinoma
Masahiro Fujisawa (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- WS15-7 Adequate Surgical Margin, Not Resection type, Determines Long-term Outcomes after Liver Resection for Hepatocellular Carcinoma
Boram Lee (Seoul National University Bundang Hospital, Republic of Korea)

■ Video Symposium

Video Symposium 1

► May 22 (Fri.) 8:00-9:30 [Room 3 (Convention Hall A)]

Minimally Invasive Hepatectomy: Current Status and Future Prospects

Moderators: Osamu Itano (Department of Hepato-Biliary-Pancreatic & Gastrointestinal Surgery, International University of Health and Welfare School of Medicine)
Takeshi Aoki (Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa Medical University)

Special Remarks: Go Wakabayashi (Department of Surgery, Ageo Central General Hospital)

- VS1-1 Robotic Glissonean Approach as a Technical Milestone Toward Complex Liver Surgery Requiring Reconstruction
Taiga Wakabayashi (Department of Surgery, Ageo Central General Hospital)
- VS1-2 Technical Advancements in Robotic Liver Resection: Utilizing the Two-Surgeon Technique for Challenging Cases
Tomokazu Fuji (Department of Gastroenterological Surgery, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama, Japan)
- VS1-3 Surgical techniques for dissection along the hepatic vein and parenchymal transection in cirrhotic liver using robot-assisted liver resection
Yutaka Nakano (Department of Surgery, Keio University School of Medicine)
- VS1-4 Standardized technical approaches and outcomes of minimally invasive high-difficulty liver resections including posterosuperior segments
Kenichiro Araki (Division of Hepatobiliary and Pancreatic Surgery, Gunma University, Gunma, Japan)
- VS1-5 Robot-assisted liver resection with da Vinci and hinotori: a single-center comparative study
Takeshi Urade (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University Graduate School of Medicine, Kobe, Japan)
- VS1-6 Robotic Liver Resection Using the da Vinci SP System—Including a Short-Term Outcomes Comparison With the da Vinci Xi or 5 Using Propensity Score Matching—
Takeshi Takahara (Department of Surgery, Fujita Health University)
- VS1-7 Laparoscopic Isolated Caudate Lobectomy For Hepatocellular Carcinoma Using the Anterior Transhepatic Approach
Sang-Hoon Kim (Division of Liver Transplantation and Hepatobiliary Surgery, Department of Surgery, Asan Medical Center, University of Ulsan College of Medicine, Seoul, Republic of Korea)

- VS1-8 Laparoscopic Left-Sided Approach for Caudate Lobe Metastasectomy Following Rectal Cancer: Technical Feasibility and Surgical Pearls
Naomi Lee (Department of General Surgery, Tan Tock Seng Hospital, Singapore)

Video Symposium 2

► May 22 (Fri.) 13:30-15:00 [Room 5 (206)]

Standardization of Robot-Assisted Pancreaticoduodenectomy

Moderators: Yuichi Nagakawa (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
Yosuke Inoue (Division of Hepato-Biliary-Pancreatic Surgery, Cancer Institute Hospital)

- VS2-1 RPD after Neoadjuvant Therapy: patient selection and quality of surgery
Jin He (Johns Hopkins University School of Medicine, United States of America)
- VS2-2 Robotic Pancreaticoduodenectomy: Challenges for Safe Expansion
Jae Hoon Lee (ASAN Medical Center, University of Ulsan College of Medicine, Republic of Korea)
- VS2-3 Progress in our robot-assisted pancreaticoduodenectomy approach focusing on optimal surgical field exposure
Yoshihide Nanno (Division of HBP Surgery, Kobe university, Hyogo, Japan)
- VS2-4 Standardization of RPD: SMA approach and PJ anastomosis
Yoshiya Ishikawa (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- VS2-5 Standardized procedures and Optimal Device Strategy for Robotic Pancreaticoduodenectomy
Riki Ninomiya (Department of Hepato-biliary-pancreatic Surgery, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital)
- VS2-6 Establishing safe standardization of robotic pancreatoduodenectomy: a single-center experience of 200 consecutive cases
Kosuke Kobayashi (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan)
- VS2-7 Step-by-Step Standardization and Educational Program for Robotic Pancreaticoduodenectomy
Hideki Gon (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- VS2-8 Standardization of Robotic Pancreaticoduodenectomy Using the da Vinci SP System: Differences in Surgical Strategy Compared with Multiarm Robotic Platforms
Yuichiro Uchida (Department of Surgery, Fujita Health University, Aichi, Japan)
- VS2-9 Advancing Minimally Invasive Pancreatic Surgery: Single-Site Plus Two-Port Robotic Pylorus-Preserving Pancreaticoduodenectomy Using the da Vinci SP System
Young Dong Yu (Korea University College of Medicine, Republic of Korea)

Video Symposium 3

► May 22 (Fri.) 13:30-14:30 [Room 6 (204)]

Minimally Invasive Surgery for Biliary Tract Cancer: Indications and Challenges

Moderators: Yutaro Kato (Department of Gastroenterological Surgery, Fujita Health University Bantane Hospital)
Takeaki Ishizawa (Department of Hepatobiliary-Pancreatic Surgery, Osaka Metropolitan University)

- VS3-1 Technical Refinements and Safety of Lymph Node Dissection in Laparoscopic Surgery for Gallbladder Malignancies
Nao Kawaguchi (Department of General and Gastroenterological Surgery, Osaka Medical and Pharmaceutical University Hospital, Takatsuki, Japan)
- VS3-2 Minimally invasive surgical strategy for gallbladder carcinoma and distal cholangiocarcinoma
Takuya Minagawa (Department of Hepato-Biliary-Pancreatic and Gastrointestinal Surgery, School of Medicine, International University of Health and Welfare, Chiba, Japan)
- VS3-3 Robot-Assisted Left Hepatectomy, Resection of the 1 Segment of the Liver, and Resection of Bile Ducts 5,8 Liver Segments Without Resection of the Common Bile Duct
Mikhail Efanov (Clinical Research Center of Moscow, Moscow, Russia)
- VS3-4 Current Status of Minimally Invasive Pancreaticoduodenectomy for Biliary Tract Cancer
Hajime Imamura (Department of Surgery, Hepato-Biliary-Pancreatic Surgery and Transplantation, Nagasaki University, Nagasaki, Japan)
- VS3-5 Robot-Assisted Pancreaticoduodenectomy for Biliary Tract Cancer with Concomitant Cholangitis
Kohei Nishiyama (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- VS3-6 Robotic surgery for distal bile duct and gallbladder cancer
Yutaka Takeda (Department of Surgery, Kansai Rosai Hospital)

■ Video Workshop

Video Workshop 1

► May 22 (Fri.) 14:30-16:00 [Room 6 (204)]

Troubleshooting in Open HBP Surgery

Moderators: Takumi Fukumoto (Division of Hepato-Biliary-Pancreatic Surgery, Department of Surgery, Kobe University Graduate School of Medicine)
Yu Takahashi (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research)

- VW1-1 Pancreatoduodenectomy with combined HA resection in pancreatic cancer
Chang Moo Kang (Division of HBP Surgery, Yonsei University College of Medicine, Seoul, Republic of Korea)
- VW1-2 Surgical Troubleshooting for Catastrophic Events in Open Hepatobiliary and Pancreatic Surgery
Yoshihiro Ono (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital of JFCR, Tokyo, Japan)
- VW1-3 Extended right hepatectomy with IVC replacement under total vascular exclusion for advanced HCC with tumor thrombus extending into the right atrium
Dung Dinh Tran (Organ Transplantation Center, Viet Duc University Hospital, Viet Nam)

- VW1-4 Troubleshooting Experiences Centered on Liver Transplantation
Katsunori Sakamoto (Department of Surgery, Kyoto University)
- VW1-5 Architectural Precision in Pediatric Liver Transplantation: Medial Reduction with Posterior Chip Shot Technique for Sculpting Left Lateral Segment Grafts
Karthic Anbarasu (Star Hospitals, Hyderabad, India/Rainbow childrens Hospitals, Hyderabad, Chennai and Bengaluru, India)
- VW1-6 Surgical Salvage: Unconventional Venous Reconstruction by Vascular Surgeons for Pancreatic Head Cancer with SMV Thrombosis
Shimpei Maeda (Department of Surgery, Tohoku University Graduate School of Medicine)
- VW1-7 Dual SMA-First Periarterial and Sub-Adventitial Divestment with Portal Vein Reconstruction for Locally Advanced Pancreatic Cancer: Surgical Technique and Clinical Outcomes
Van Duy Le (Bach Mai Hospital, Viet Nam)
- VW1-8 Intraoperative Assessment of Resectability at the Proximal Bile Duct Transection Site Based on Tumor Spread Patterns in Hilar Bile Duct Cancer and Mass-Forming Intrahepatic Cholangiocarcinoma Abutting the Hepatic Hilum
Gakushi Kitamura (Division of Digestive Surgery, Kyoto Prefectural University of Medicine)
- VW1-9 Management of Portal Vein Flow Insufficiency After Right Hepatectomy with Portal Vein Resection for Biliary Tract Cancer: Re-reconstruction, Stenting, and Clockwise Rotation
Ryosuke Umino (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital)
- VW1-10 Internalization of mature biliary fistula through Roux en y FistuloJejunostomy
Swamy Rajesh Hudugur (IMS & SUM Hospital, Bhubhanwshwar, Odisha, India/Nizams Institute of Medical Sciences, Hyderabad, India (NIMS))

Video Workshop 2

► May 23 (Sat.) 8:30-9:30 [Room 8 (202)]

Surgical Techniques for Pancreaticobiliary Maljunction and Congenital Biliary Dilatation

Moderators: Satoru Seo (Department of Surgery, Kochi Medical School)
Shintaro Yagi (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation/Pediatric Surgery, Kanazawa University)

- VW2-1 Technical Innovations in Robot-Assisted Surgery for Congenital Bile Duct Dilatation
Norihide Habu (Department of Hepatobiliary-Pancreatic Surgery Juntendo University School of Medicine, Tokyo, Japan)
- VW2-2 Robotic-Assisted Bile Duct Resection for Adult Congenital Biliary
Hirotaka Fukuoka (Department of Surgery, Fujita Health University)
- VW2-3 Outcomes and technical refinements of robot-assisted surgery for congenital biliary dilatation during the introductory phase at our institution
Naoya Miyashige (Department of Gastroenterological Surgery, Hiroshima University, Hiroshima, Japan)
- VW2-4 Robotic-Assisted Surgery for Congenital Biliary Dilatation in Our Department
Tomohiko Adachi (Nagasaki University, Department of Surgery, Hepato-Biliary-Pancreatic Surgery and Transplantation)
- VW2-5 Refined Technique for Intrapancreatic Bile Duct Dissection in Robot-Assisted Surgery for Congenital Biliary Dilatation: A Comparative Study with Laparoscopic Approach
Takayuki Miura (Department of Surgery, Tohoku University Graduate School of Medicine)

- VW2-6 Surgical Outcomes of Robot-Assisted Surgery for Congenital Biliary Dilatation and Evaluation of Biliary Stenosis
Chie Takishita (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University, Tokyo, Japan/Department of Surgery, Tokyo Medical University)

Video Workshop 3

► May 23 (Sat.) 10:00-11:30 [Room 6 (204)]

Technical Refinements and Education in Reconstruction for Robot-Assisted Pancreaticoduodenectomy

Moderators: Takao Ohtsuka (Department of Digestive Surgery, Kagoshima University)
Daisuke Ban (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo)

- VW3-1 Technical Refinements and Education in Reconstruction for Robot-Assisted Pancreaticoduodenectomy
Shin-E Wang (Division of General Surgery, Department of Surgery, Therapeutic and Research Center of pancreatic Cancer, Taipei Veterans General Hospital)
- VW3-2 Technical Refinements of Anastomotic Reconstruction in Minimally Invasive Pancreatoduodenectomy: Short—and Long-Term Outcomes
Kazuyuki Nagai (Department of Surgery, Kyoto University Hospital)
- VW3-3 Technical Ingenuity of the Robot-Assisted Kakita Method for Pancreaticojejunostomy: Comparison Between Robotic and Mini-Laparotomy Reconstruction
Yukihiro Shimogata (Department of General, Pediatric and Hepato-Biliary-Pancreatic Surgery, Kitasato University School of Medicine, Kanagawa, Japan)
- VW3-4 Minimizing Steps to Maximize Consistency: Early Learning Curve Stabilization in RPD Reconstruction
Ryo Saito (First Department of Surgery, University of Yamanashi, Yamanashi, Japan)
- VW3-5 Pancreaticojejunostomy Using the Modified Blumgart Method and Continuous Duct-to-Mucosa Suturing in Robot-assisted Pancreatoduodenectomy
Naohisa Kuriyama (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Graduate School of Medicine)
- VW3-6 Technical Details of Pancreaticojejunostomy and Postoperative Pancreatic Fistula After Robot-Assisted Pancreaticoduodenectomy: A Video-Based Analysis
Shinichi Taniwaki (Department of Surgery, Fujita health University, Aichi, Japan)
- VW3-7 Optimized Reconstruction Procedures in Robot-Assisted Pancreatoduodenectomy
Takeyoshi Nishiyama (Department of Gastroenterological Surgery, Okayama University, Okayama, Japan)
- VW3-8 Technical Modifications of Stapler Method for Soft Pancreas in Robot-Assisted Pancreaticoduodenectomy
Kota Sugiura (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research)
- VW3-9 Comparison of Reduced-Port Totally Robotic Pancreaticoduodenectomy with Conventional Totally Robotic and Laparoscopic pancreaticoduodenectomy
Boram Lee (Seoul National University Bundang Hospital, Republic of Korea)

Video Workshop 4

► May 23 (Sat.) 12:50-14:20 [Room 1 (Tempyo Hall)]

Troubleshooting in Minimally Invasive HBP Surgery

Moderators: Goro Honda (Department of Surgery, Institute of Gastroenterology, Tokyo Women's Medical University)
Hiroyuki Nitta (Department of Surgery, Iwate Medical University School of Medicine)

VW4-1 TBA

Keynote
Lecture

Michael Leland Kendrick (Mayo Clinic Comprehensive Cancer Center)

VW4-2 Strategies for Managing Intraoperative Bleeding During Robot-Assisted Pancreatoduodenectomy

Yui Sawa (Division of Hepato-Biliary-Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan)

VW4-3 Total Laparoscopic RAMPS Using a Left-Posterior SMA First Approach for Distal Pancreatic Cancer: Step-by-Step Technique and Clinical Outcomes

Tuan Hiep Luong (Bach Mai Hospital, Viet Nam)

VW4-4 Unplanned placement of external retrograde transhepatic biliary drainage tubes during minimally invasive pancreaticoduodenectomy

Takuma Okada (Department of Gastroenterological Surgery, Toranomon Hospital, Tokyo, Japan)

VW4-5 Hepatic Vein Root Bleeding in Minimally Invasive Liver Resection: Stepwise Hemostatic Strategy and Laparoscopic-Robotic Considerations

Toru Kato (Department of Surgery, division of Gastroenterological Surgery, Sapporo Medical University)

VW4-6 The Clinical Impact of Visualizing Bile Leakage With Indocyanine Green Fluorescence Imaging During Minimally Invasive Liver Surgery

Hisanobu Terashima (Department of Hepatobiliary pancreatic surgery, Osaka Metropolitan University, Osaka, Japan)

VW4-7 Visualization-related intraoperative difficulty for multiple liver resection in robot-assisted surgery

Hidemasa Kubo (Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan)

VW4-8 Practical Conversion from Robotic to Open Approach in HPB Surgery: Lessons from 386 Cases

Yoshihiro Mise (Department of Hepatobiliary Pancreatic Surgery, Juntendo University Hospital, Tokyo, Japan)

Video Workshop 5

► May 23 (Sat.) 12:50-14:20 [Room 7 (203)]

Tips and Tricks for Difficult Cases of Acute Cholecystitis

Moderators: Manabu Watanabe (Department of Surgery, Toho University Ohashi Medical Center)
Yuichiro Otsuka (Division of General and Gastroenterological Surgery, Department of Surgery, Faculty of Medicine, Toho University)

VW5-1 Clinical Impact of 3D ICG Fluorescence Cholangiography on Subtotal Cholecystectomy in Difficult Acute Cholecystitis—Safety and Radicality in Laparoscopic Cholecystectomy—

Noriyuki Egawa (Department of Surgery, Saga University, Saga, Japan)

- VW5-2 Combination of intraoperative fluorescence cholangiography and blunt dissection method using HiQ+ soft coagulation system is beneficial in highly difficult cases of laparoscopic cholecystectomy
Hironari Kawai (Department of Surgery, Kawaguchi Municipal Medical Center, Saitama, Japan)
- VW5-3 Strategic Bailout Techniques to Prevent Bleeding and Bile duct injury and massive bleeding in Difficult Cholecystitis from Hiroshima Surgical Study Group of Clinical Oncology study
Takahiro Fukuda (Department of Gastroenterological and Transplant Surgery, Hiroshima University, Japan/Department of Surgery, Onomichi General Hospital, Japan)
- VW5-4 Strategic Decision-Making in Difficult Acute Cholecystitis: Timing of Bail-out Procedures and Technical Modifications to Ensure Safe Laparoscopic Cholecystectomy
Yujo Kawashita (Department of Surgery, Fukuoka Seisyukai Hospital, Fukuoka, Japan)
- VW5-5 The gallbladder should be opened to check for residual stones during laparoscopic subtotal cholecystectomy (Lap-SC)
Takuya Okumura (Department of Surgery, Fujinomiya City General Hospital)
- VW5-6 Management of the Gallbladder Remnant After Subtotal Cholecystectomy for Acute Cholecystitis
Mitsuyoshi Okazaki (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University, Kanazawa, Japan)
- VW5-7 Usefulness of Laparoscopic Ultrasound in Laparoscopic Cholecystectomy
Yuta Ushida (Kameda Medical Center)
- VW5-8 Early laparoscopic cholecystectomy with active introduction of bailout procedures for difficult gallbladders in acute cholecystitis
Koji Asai (Department of Surgery, Toho University Ohashi Medical Center)
- VW5-9 Endo-Loop Omental Traction for Enhanced Calot's Triangle Exposure in Difficult Acute Cholecystitis: A Novel Technique and Stepwise Operative Strategy
JangHun Han (Department of Surgery Uijeongbu St. Mary's Hospital, College of Medicine, The Catholic University of Korea, Republic of Korea)

■ Debate

Debate 1

► May 22 (Fri.) 8:00-9:00 [Room 7 (203)]

Spleen-Preserving Distal Pancreatectomy -Splenic Vessel Preservation vs Resection-

Moderators: Takeyuki Misawa (Department of Surgery, Teikyo University School of Medicine)
Sohei Satoi (Department of Pancreatobiliary Surgery, Kansai Medical University)

- DB1-1 Reappraisal of Splenic Vessel Preservation in Spleen-Preserving Distal Pancreatectomy in the Robotic Era
Hironobu Suto (Department of Gastroenterological Surgery, Kagawa University, Kagawa, Japan)
- DB1-2 Why we stand for the Kimura procedure: Insights from 144 consecutive challenges in minimally invasive spleen-preserving distal pancreatectomy
Yusuke Watanabe (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University, Fukuoka, Japan)

- DB1-3 The Warshaw Technique as a Reasonable Strategy in Spleen-Preserving Distal Pancreatectomy
Keinosuke Ishido (Department of Gastroenterological Surgery, Hirosaki University, Aomori, Japan)
- DB1-4 The Warshaw Technique for Spleen Preservation in Minimally Invasive Distal Pancreatectomy Is Safe, Effective, and Clinically Practical
Monica Dua (Stanford University School of Medicine, United States of America)

Debate 2

► May 23 (Sat.) 10:10-11:10 [Room 7 (203)]

Treatment Strategies for Resectable Multiple Colorectal Liver Metastases: Neoadjuvant Therapy vs Surgery-First Approach

Moderators: Kuniya Tanaka (General and Gastroenterological Surgery, Showa Medical University Fujigaoka Hospital)
Masaki Kaibori (Department of Hepatobiliary Surgery, Kansai Medical University)

- DB2-1 Optimizing Treatment Strategies for High-Risk Colorectal Liver Metastases: The Role of Neoadjuvant Chemotherapy and Risk Stratification
Kosuke Kobayashi (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan)
- DB2-2 Upfront hepatectomy for resectable multiple colorectal liver metastases based on early surgical failure
Kenei Furukawa (Division of Hepatobiliary and Pancreas Surgery, Department of Surgery, The Jikei University School of Medicine)
- DB2-3 Upfront Surgery Remains Standard for Resectable CRLM, but Modified Clinical Scores Identify a Subgroup Benefiting from NAC
Akihiro Nakamura (Department of General and Gastroenterological Surgery, Showa Medical University Fujigaoka Hospital, Yokohama, Japan)
- DB2-4 Prognostic impact of neoadjuvant chemotherapy for colorectal liver metastases: A multicenter retrospective observational study using a propensity score stratification approach
Masaki Ueno (Department of Gastrointestinal Surgery, National Hospital Organization Osaka Minami Hospital, Osaka, Japan)

■ English Training Session

English Training Session 1

► May 23 (Sat.) 8:30-10:00 [Room 9 (201)]

Moderators: Clive Langham (Nihon University School of Dentistry)
Mitsuhiisa Takatsuki (Department of Digestive and General Surgery, University of the Ryukyus)

- ET1-1 Graft Survival after Deceased Donor versus Living Donor Liver Transplantation: A Single-center Experience in Japan
Ryo Ataka (Department of Surgery, Kyoto University Graduate School of Medicine, Kyoto, Japan)
- ET1-2 A successful case of deceased donor liver transplantation for a patient with Leriche Syndrome
Shohei Yokoyama (Department of Gastroenterological Surgery, Okayama University Graduate School of Medicine, Dentistry, and Pharmaceutical Sciences)

- ET1-3 Abnormal Venous Hemodynamics Caused by Hematoma-Induced Compression of the Right Common Iliac Vein After Pancreas Transplantation: A Case Report
Ryota Noguchi (Department of Gastrointestinal and Hepatobiliary Pancreatic Surgery, University of Tsukuba)
- ET1-4 Two Resected Cases of Pathological Complete Response Following Atezolizumab Plus Bevacizumab Therapy for Hepatocellular Carcinoma
Ayako Yamazaki (Institute of Science Tokyo)
- ET1-5 A Case in Which the Minimally Invasive Nature of Liver Resection Using the da Vinci SP System Could Be Comparatively Evaluated
Shotaro Otaki (Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital)
- ET1-6 Laparoscopic Resection of Symptomatic Focal Nodular Hyperplasia of the Caudate Lobe Following Preoperative Angioembolization: A Case Report
Chisato Yonekawa (Department of Surgery, Funabashi Municipal Medical Center, Chiba, Japan)
- ET1-7 A Surgically Resected Case of Bile Duct Adenoma with Difficulties in Preoperative Diagnosis
Ryo Nakashima (Department of Surgery, Kumamoto Regional Medical Center, Kumamoto, Japan)

English Training Session 2

► May 23 (Sat.) 10:00-11:30 [Room 9 (201)]

Moderators: Raoul Breugelmans (Department of English, Kansai Medical University)
Hitoe Nishino (Department of General Surgery, Chiba University)

- ET2-1 Conversion Surgery for Pancreatic Head Adenocarcinoma with Multiple Liver Metastases After Major Response to Chemotherapy: A Case Report
Masamitsu Kamo (Department of Surgery, National Hospital Organization Saitama Hospital)
- ET2-2 Successful Preoperative and Intraoperative Diagnosis of Median Arcuate Ligament Syndrome Allowing Concomitant Release During Pancreaticoduodenectomy
Shiori Kimura (Department of Gastrointestinal Surgery, Kameda General Hospital)
- ET2-3 A Case of Delayed SEMS-Associated Arterial Bleeding with Hemorrhagic Shock Successfully Treated by Transcatheter Arterial Embolization
Miku Mochizuki (Department of Gastroenterological, General and Transplant Surgery, Jichi Medical University)
- ET2-4 Laparoscopic Cholecystectomy for a Left-sided Gallbladder Complicated by Mirizzi Syndrome
Shiho Takaoka (Tsuyama Central Hospital, Okayama, Japan)
- ET2-5 A Case of Pyloric Gland Adenoma Requiring Differentiation from Gallbladder Carcinoma
Shinya Kasagi (Digestive Diseases Center, Showa Medical University Koto Toyosu Hospital)
- ET2-6 Delayed Cholangiocarcinoma Arising from a Prior Choledochoduodenostomy: Diagnostic Challenges and Surgical Management
Hoai Kim Nguyen (Department of Liver Tumor, Binh Dan Hospital, Ho Chi Minh City, Viet Nam)
- ET2-7 Stepwise Indocyanine Green Injection for Enhanced Intraoperative Segmental Visualization: A Mouse Study
Shuheï Kanda (Department of Surgery, Graduate School of Medicine, Kyoto University, Kyoto, Japan)

■ Requested Oral

Requested Oral 1

► May 22 (Fri.) 8:00-9:00 [Room 10 (101+102)]

Treatment Strategies and Outcomes Aiming for Long-Term Survival in Resectable Pancreatic Cancer

Moderators: Masamichi Mizuma (Department of Surgery, Tohoku University Graduate School of Medicine)
Hiroyoshi Matsukawa (Department of Surgery, Hiroshima City Hiroshima Citizens Hospital)

- RO1-1 Optimal indication of neoadjuvant chemotherapy for resectable pancreatic cancer
Takashi Aono (Department of Surgery, Niigata Prefectural Central Hospital)
- RO1-2 Reconsidering Therapeutic Strategies for Resectable Groove Pancreatic Cancer Based on Biological Malignancy and Early Recurrence
Masahiro Yamane (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan)
- RO1-3 Prognostic impact of skeletal muscle loss during neoadjuvant chemotherapy and the role of prehabilitation initiated before chemotherapy in resectable pancreatic cancer
Tsuyoshi Terada (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- RO1-4 Pre-treatment CT Radiomics for Prognostic Stratification in Pancreatic Cancer Patients Undergoing Distal Pancreatectomy after Neoadjuvant Chemotherapy
Kentaro Miyake (Department of Gastroenterological Surgery, Yokohama City University Graduate School of Medicine)
- RO1-5 Tmprss4 expression predicts prognosis and response to neoadjuvant chemotherapy in pancreatic cancer
Kenta Baba (Department of Surgery, NHO Kure Medical Center and Chugoku Cancer Center, Hiroshima, Japan)
- RO1-6 Viability-Adjusted Telomerase-Specific Peritoneal Cytology Predicts Peritoneal Recurrence and Guides Surgical Strategy in Pancreatic Cancer
Masahiro Tanemura (Department of Surgery, Rinku General Medical Center)
- RO1-7 Impact of Neoadjuvant Chemotherapy on Survival in Resectable Pancreatic Cancer: A Propensity Score-Matched Study
Satoshi Matsui (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- RO1-8 A Neoadjuvant Strategy Using Gemcitabine plus Nab-Paclitaxel to Improve Oncologic Outcomes in High-Risk Resectable Pancreatic Body and Tail Cancer: A Prospective single-arm Phase II Study
Kyohei Matsumoto (Second Department of Surgery, Wakayama Medical University, Wakayama, Japan)
- RO1-9 Multidisciplinary Treatment Sequence Incorporating Staging Laparoscopy and Short-Term Neoadjuvant Therapy, with CA19-9-Based Stratification, for Long-Term Outcomes in Resectable Pancreatic Cancer
Kenzo Nakano (Department of Gastroenterological Surgery and Oncology, Medical Research Institute Kitano Hospital, Osaka, Japan)
- RO1-10 Late Recurrence After Pancreatectomy for Pancreatic Ductal Adenocarcinoma: Surgical and Biologic Determinants in a Retrospective Cohort Study
Joonhub Oh (Asan Medical Center, University of Ulsan College of Medicine, Seoul, Republic of Korea)

Requested Oral 2

▶ May 22 (Fri.) 8:00-9:00 [Room 11 (107+108)]

Remnant Organ Function and Late Complications After HBP Surgery

Moderators: Sumihito Tamura (Artificial Organ and Transplantation Division, Department of Surgery, Tissue Bank, The University of Tokyo International Medical Center)
Yusuke Yamamoto (Division of Digestive Surgery, Kyoto Prefectural University of Medicine)

- RO2-1 Age-Stratified Remnant Volume and Steatosis Cutoffs for Safe Right-Lobe Living Donor Hepatectomy: A Clinical ROC-Guided Model
Harilal S L (CLBS, Max Saket, New Delhi, India)
- RO2-2 Postoperative Hyperbilirubinemia as a Prognostic Factor for Graft Dysfunction and Mortality in Adult Liver Transplant: A Systematic Review
Arnetta Naomi Lalisang (Digestive Surgery Department, Cipto Mangunkusumo Hospital, Indonesia/ Faculty Medicine, Universitas Indonesia)
- RO2-3 Three-year postoperative differences in glucose tolerance: a comparison of middle pancreatectomy and distal pancreatectomy
Atsuro Fujinaga (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital, Tokyo, Japan)
- RO2-4 Long-term impact of middle pancreatectomy on diabetes mellitus development and worsening compared with distal pancreatectomy
Masataka Okuno (Department of Gastroenterological Surgery, Aichi Cancer Center, Aichi, Japan)
- RO2-5 Early Surgery vs Delayed Surgery in Chronic Pancreatitis : Does timing influence the Outcomes ??? A Comprehensive Analysis of Clinical Outcomes from a Tertiary Care Center, India
Swamy Rajesh Hudugur (IMS & SUM Hospital, Bhubhanwshwar, Odisha, India/Nizams Institute of Medical Sciences, Hyderabad, India (NIMS))
- RO2-6 The effect of cholelithiasis and early cholecystectomy on the occurrence of diabetic complications in diabetic patients: long-term follow-up of nationwide data
Naru Kim (Department of Surgery, Ewha Womans University Mokdong Hospital, Seoul, Korea, Republic of Korea)
- RO2-7 Celiac Axis Stenosis as an Overlooked Extrapancreatic Predictor of Fistula after Pancreaticoduodenectomy
Yuran Dai (Pancreas Center, The First Affiliated Hospital of Nanjing Medical University, Nanjing, China)
- RO2-8 Clinical Characteristics and Risk Factors of Late Acute Pancreatitis After Pancreaticoduodenectomy
Hanako Tamura (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- RO2-9 A Retrospective Study of Recurrent Cholangitis After Pancreaticoduodenectomy
Hiroki Kishida (Department of surgery, Funabashi Municipal Medical Center)
- RO2-10 Hepatobiliary Scintigraphy-Guided Management of Post-Pancreaticoduodenectomy Cholangitis
Hiroki Ueda (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)

Requested Oral 3

► May 22 (Fri.) 9:05-10:00 [Room 10 (101+102)]

The Evolution of Surgical Treatment for Colorectal Liver Metastases and Its Long-Term Outcomes

Moderators: Keishi Sugimachi (Department of Hapatobiliary and Pancreatic Surgery, Kyushu Cancer Center)
Yoshihiro Kakeji (Division of Gastrointestinal Surgery, Department of Surgery, Kobe University Graduate School of Medicine)

- RO3-1 Comparison of Immediate and Long-Term Outcomes of Laparoscopic and Open Liver Resections in Patients with Colorectal Livermetastases using Pseudorandomization
Mikhail G. Efanov (Moscow Clinical Scientific Center named after A.S. Loginov, Moscow, Russia)
- RO3-2 Prognostic impact of total tumor volume on long-term outcomes in colorectal liver metastases
Yu Norimatsu (Juntendo University Hospital, Department of Hepatobiliary-Pancreatic Surgery, Tokyo, Japan)
- RO3-3 New resectability of CRLM by Maximum Diameter x Number: MDN and treatment strategy using MRI-ADC value
Shinichiro Yamada (Department of Digestive and Transplant Surgery, Tokushima University Hospital)
- RO3-4 Preoperative Prognostic Stratification of Colorectal Liver Metastases Using the Beppu Score and Tumor Biology
Takeshi Koujima (Himeji red cross hospital)
- RO3-5 Impact of KRAS Status and Initial Tumor Burden on Post-Progression Survival After Hepatectomy for Colorectal Liver Metastases
Tomohiro Matsumoto (Department of General Surgery, Graduate School of Medicine, Chiba University)
- RO3-6 A Study of Recurrent Lesions Following Initial Resection of Liver Metastases from Colorectal Cancer
Susumu Suzuki (Department of Surgery, Niigata Prefectural Central Hospital)
- RO3-7 Alpps in Unresectable Liver Tumors: A Decade of Experience at a North American Center
Monica Dua (Stanford University School of Medicine, United States of America)
- RO3-8 Liver Transplantation as a Final Therapeutic Option in Unresectable Colorectal Liver Metastasis: Viability, Outcomes, and Survival Rates After Exhaustion of Conventional Therapies—A Systematic Review
Faiza Hashim Soomro (Department of General Surgery, Mid Yorkshire Teaching Trust, Wakefield, United Kingdom)
- RO3-9 Update of living donor liver tranplantation for non-resectable colorectal liver metastases
Ken Fukumitsu (Depaetment of Surgery, Kyoto Katsura Hospital, Kyoto, Japan/Department of Surgery, Kyoto University Hospital)

Requested Oral 4

▶ May 22 (Fri.) 9:10-9:40 [Room 11 (107+108)]

Long-Term Outcomes and Prognosis Following Robot-Assisted Pancreatectomy for Pancreatic Cancer

Moderators: Keinosuke Ishido (Department of Gastroenterological Surgery, Hirosaki University Graduate School of Medicine)

Takuya Minagawa (Department of Hepato-Biliary-Pancreatic and Gastrointestinal Surgery, School of Medicine, International University of Health and Welfare)

- RO4-1 Short- and Long-term Outcomes of Robotic Pancreatic Resection for Pancreatic Cancer
Nobuyuki Takemura (Department of Hepato-Biliary-Pancreatic Surgery and Pediatric Surgery, Saitama Medical Center, Saitama University, Kawagoe, Japan)
- RO4-2 Surgical and oncological outcomes following robotic distal pancreatectomy for pancreatic cancer
Teijiro Hirashita (Department of Gastroenterological and Pediatric Surgery, Oita University, Oita, Japan)
- RO4-3 Primary Tumor Origin and Short-term Outcomes after Robotic Pylorus-preserving Pancreaticoduodenectomy: Distal Bile Duct Cancer as a High-risk Subgroup in a Multicenter Cohort
Go-Won Choi (Department of General Surgery, Seoul National University Hospital, Seoul, Republic of Korea)
- RO4-4 Surgical Outcomes of Robot-Assisted Distal Pancreatectomy for Pancreatic Cancer According to Diagnostic Pathway
Tomoaki Sawano (Department of Hepatobiliary and Pancreatic Surgery, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital, Tokyo, Japan)

Requested Oral 5

▶ May 22 (Fri.) 13:30-14:30 [Room 11 (107+108)]

Treatment Selection and Long-Term Outcomes in Elderly Patients with HBP Cancers

Moderators: Toshiya Ochiai (Department of Surgery, North Medical Center, Kyoto Prefectural University of Medicine)

Masahiro Ohira (Department of Gastroenterological and Transplant Surgery, Hiroshima University)

- RO5-1 Predictive Validity of the NCD Risk Calculator for Functional and Long-term Outcomes in Super-elderly Patients (≥ 85 years) Undergoing Hepatic Resection for Hepatocellular Carcinoma
Michinori Hamaoka (Department of Surgery, National Hospital Organization Higashihiroshima Medical Center)
- RO5-2 Treatment Outcomes of Elderly Pancreatic Cancer
Yoshihiro Nagao (National Hospital Organization Fukuoka Higashi Medical Center)
- RO5-3 Comparable Short-Term Safety of Pancreatoduodenectomy With Portal Vein Resection for Pancreatic Cancer Between Elderly and Non-Elderly Patients
Tatsunori Miyata (Department of Gastroenterological Surgery, Kumamoto University Hospital)
- RO5-4 Surgical Outcomes of Perihilar Cholangiocarcinoma in Elderly Patients
Tomoaki Takahashi (Department of Surgery, Gastroenterological Center, Yokohama City University Medical Center, Yokohama, Japan/Department of Gastroenterological Surgery, Yokohama City University Graduate School of Medicine, Yokohama, Japan)

- RO5-5 The Impact of Family Background Factors on the Prognosis of Elderly Patients Following Pancreatic Cancer Surgery
Rumi Itoyama (Department of Surgery, Kumamoto Regional Medical Center)
- RO5-6 Prognostic Impact and Therapeutic Limitations Following Resection of Synchronous Colorectal Liver Metastasis in Elderly Patients
Tomohiro Okura (Department of Surgery, Iwakuni Clinical Center, Yamaguchi, Japan)
- RO5-7 Surgical Selection and Perioperative Chemotherapy in Elderly Patients with Pancreatic Cancer
Kazuyasu Takizawa (Division of Digestive and General Surgery Niigata University Graduate School of Medical and Dental Sciences)
- RO5-8 Preoperative Risk Stratification for Pancreatic Cancer in the Late Elderly: A Tumor Biology-Based Approach
Yosuke Mukai (Department of Gastroenterological Surgery Graduate School of Medicine, The University of Osaka)
- RO5-9 Treatment Modifications of Neoadjuvant Chemotherapy for Resectable Pancreatic Cancer in Patients Aged ≥ 80 Years
Takumi Harada (Department of Surgery, Graduate School of Biomedical & Health Sciences, Hiroshima University)
- RO5-10 Efficacy of neoadjuvant chemotherapy followed by patients aged 80 years and older with R/BR Pancreatic Ductal Adenocarcinoma
Kazuki Matsumura (Department of Pancreatobiliary Surgery, Kansai Medical University)

Requested Oral 6

► May 22 (Fri.) 14:40-15:40 [Room 11 (107+108)]

Chemotherapy, Nutritional Management, and Supportive Care for HBP Malignancies

Moderators: Shuji Takiguchi (Department of Surgery, Nagoya City University)

Hisashi Ikoma (Digestive Surgery, Japanese Red Cross Kyoto Daiichi Hospital)

- RO6-1 Claudin-18 could be a marker to identify the primary sites of metastatic cancers originated from pancreatobiliary tract or gastric malignancy
Shang-Ming Tseng (Department of Surgery, National Taiwan University Hospital, and College of Medicine National Taiwan University, Taipei, Taiwan)
- RO6-2 A case of locally advanced pancreatic head cancer with high microsatellite instability achieving a pathological complete response to pembrolizumab
Katsutaka Mitachi (Department of Surgery, Iwaki City Medical Center)
- RO6-3 A case of surgery after gemcitabine and cisplatin plus durvalumab for advanced perihilar cholangiocarcinoma
Hiroaki Fuji (Department of Surgery, Kobe City Nishi-Kobe Medical Center, Hyogo, Japan)
- RO6-4 Pancreaticobiliary Maljunction Is Associated With Increased Conversion Surgery Rates in Initially Unresectable Gallbladder Carcinoma
Daisuke Douchi (Department of Surgery, Tohoku University Graduate School of Medicine)
- RO6-5 Preoperative Sarcopenia Defined by AWGS 2019 Predicts Poor Feasibility of Adjuvant Chemotherapy and Survival After Pancreatectomy for Pancreatic Cancer
Kazuhide Urabe (Department of Gastroenterological Surgery, Hiroshima University Hospital)

- RO6-6 Risk factors for skeletal muscle volume loss during neoadjuvant therapy for pancreatic ductal adenocarcinoma and our preoperative rehabilitation and nutritional therapy
Sho Yasuta (Department of Gastroenterological Surgery, Sendai Kousei Hospital)
- RO6-7 Insights from Continuous and Interaction-Based Analyses of Body Mass Index After Hepatic Resection
Boram Lee (Seoul National University Bundang Hospital, Republic of Korea)
- RO6-8 High Visceral-to-Subcutaneous Fat Ratio and Low Bone Mineral Density Are Independent Prognostic Factors After Pancreaticoduodenectomy for Pancreatic Head Cancer
Shunsuke Tamura (Department of Hepato-Biliary-Pancreatic Surgery, Seirei Hamamatsu General Hospital)
- RO6-9 Nutritive and sarcopenia indicators for elderly pancreatic cancer patients and serial assessment
Hideki Motobayashi (Second Department of Surgery, Wakayama Medical University)
- RO6-10 Enhanced Recovery After Surgery (ERAS) Versus Conventional Care in Pancreaticoduodenectomy for Pancreatic Cancer: A Systematic Review and Meta-analysis of Randomized Controlled Trials
Divya Jyoti Banerjee (Narayana Superspecialty Hospital, Howrah, West Bengal, India)

Requested Oral 7

► May 23 (Sat.) 8:30-9:30 [Room 10 (101+102)]

Simulation and Navigation Technologies in HBP Surgery

Moderators: Zenichi Morise (Department of Gastroenterological Surgery, Fujita Health University Bantane Hospital)
Takeshi Takamoto (Hepato-Biliary-Pancreatic Surgery Division, and Artificial Organ and Transplantation Division, The University of Tokyo)

- RO7-1 Portal branch pattern of segment 6
Jun Yamamoto (Department of Gastroenterological Surgery, Yokohama City University, Yokohama, Japan)
- RO7-2 Preoperative Three-Dimensional Assessment of First Jejunal Vein Anatomy in Pancreaticoduodenectomy
Hideki Shibata (Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University)
- RO7-3 Anatomical simulation for precise S8 segmentectomy and subsegmentectomy using ICG navigation: Insights into P8 ramification pattern, S8 volume and the boundary between Segments 7 and 8
Ryosuke Fukushima (Division of Hepatobiliary and Pancreatic Surgery, Department of General Surgical Science, Graduate School of Medicine, Gunma University)
- RO7-4 Clinical utility of IKOMAP formulas for determining an appropriate liver transection line in ultrasound-guided minimally invasive partial hepatectomy considering liver inclination
Koji Takao (Department of Digestive Surgery, Fukuchiyama City Hospital, Kyoto, Japan)
- RO7-5 Preparatory treatment of the inferior pancreaticoduodenal artery during pancreaticoduodenectomy using a medical imaging projection system
Satoshi Mizutani (Digestive Surgery, Nippon Medical School Musashikosugi Hospital, Kawasaki, Japan)
- RO7-6 Development of a Navigation System for Liver Surgery Using Ultrasound Imaging
Mitsugi Shimoda (Tokyo Medical University Ibaraki Medical Center, Gastroenterological Surgery)

- RO7-7 Systemic ICG Navigation Reduces Bile-Leak Incidence After Hepatectomy: A Prospective, Weighted Clinical Study
Takehiko Hanaki (Division of Gastrointestinal and Pedicatric Surgery, Tottori University, Yonago, Japan/Division of Medical Education, Tottori University, Yonago, Japan)
- RO7-8 Multimodal real time navigation using fluorescent and advanced technologies
Yoshihiko Tashiro (Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University)
- RO7-9 A New Proposal for a Difficulty Score of Minimally Invasive Liver Resection Based on Preoperative CT Applicable to Multiple Resections
Yui Sawa (Department of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital of the Japanese Foundation for Cancer Research, Tokyo, Japan)
- RO7-10 Global trends in perioperative imaging workups and records for hepatobiliary and pancreatic surgery: reports from 103 facilities worldwide
Yoshihiro Sakamoto (Department of HBP Surgery, Kyorin University Hospital)

Requested Oral 8

► May 23 (Sat.) 9:40-10:40 [Room 10 (101+102)]

Strategies and Innovations for the Successful Implementation of Robotic HBP Surgery

Moderators: Yutaka Takeda (Department of Surgery, Kansai Rosai Hospital)
Akishige Kanazawa (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)

- RO8-1 Building a Safe Robot-Assisted Liver Resection Program in a Regional General Hospital
Ikumi Hamano (Department of Surgery, Ashikaga Red Cross Hospital)
- RO8-2 Safe Introduction of Robotic Liver Resection in a Low-volume Center: Strategies and Challenges for a Single Expert Surgeon and Junior Residents
Kan Toriguchi (Department of Gastroenterological Surgery, Osaka Saiseikai Noe Hospital)
- RO8-3 Implementation of Minimally Invasive and Robotic Distal Pancreatectomy in HPB Surgery: Perioperative Outcomes During Program Introduction
Satoru Furuhashi (Department of Surgery, Hamamatsu University School of Medicine, Hamamatsu, Japan)
- RO8-4 Standardized robotic distal pancreatectomy with Three-Point Gastric Retraction Technique (3 P-GRT) for safe early adoption and training
Shingo Kozono (Department of Surgery, Kitakyushu Municipal Medical Center, Kitakyushu, Japan)
- RO8-5 Liver Parenchymal Dissection Using the Trac & Pac Method in Robot-Assisted Laparoscopic Hepatectomy
Kenjiro Kitasato (Department of Surgery, Chiba Tokushukai Hospital, Chiba, Japan)
- RO8-6 Strategic Implementation of Robotic Pancreaticoduodenectomy Through Procedural Standardization: Achieving Safety and Efficiency Under Institutional Constraints
Kimitaka Tanaka (Department of Gastroenterological Surgery 2, Hokkaido University Faculty of Medicine)
- RO8-7 Robotic Pancreatoduodenectomy: Early Experience of a Specialized Department. Comparison with Open Pancreatoduodenectomy
Mikhail Efanov (Moscow Clinical Scientific Center named after Loginov MHD, Russia)

- RO8-8 Challenges and Future Perspectives Identified Through the Introduction of Robot-Assisted Pancreaticoduodenectomy
Hiroyuki Kato (Department of Gastroenterological Surgery Fujita Health University School of Medicine, Bantane Hospital)
- RO8-10 Extended indications of robotic donor right hepatectomy: recommendations based on risk factors
Na Reum Kim (Department of Surgery, Yonsei University College of Medicine, Seoul, Republic of Korea)

Requested Oral 9

► May 23 (Sat.) 10:50-11:20 [Room 10 (101+102)]

Genomic Information-Guided Treatment for HBP Cancers

- Moderators: Hidenori Takahashi (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine)
Daisuke Hashimoto (Department of Pancreatobiliary Surgery, Kansai Medical University)
- RO9-1 A case of locally advanced unresectable pancreatic cancer achieving pathological complete response with remarkable efficacy of pembrolizumab
Takashi Kuise (Department of Gastroenterological Surgery, Japanese Red Cross Okayama Hospital)
- RO9-2 Current Status of Curative Resection Surgery for BRCA Mutation-Positive Pancreatic Cancer in Our Hospital
Toru Watanabe (Department of Surgery and Science, Faculty of Medicine, Academic Assembly, University of Toyama)
- RO9-3 Clinical significance of comprehensive genomic profiling tests for neuroendocrine carcinoma
Suguru Miyazawa (Department of Hepatobiliary and Pancreatic Surgery, Graduate School of Medical and Dental Sciences, Institute of Science Tokyo)
- RO9-4 Pancreatic acinar cell carcinoma: early diagnostic markers and promise of genetic profiling
Aiste Gulla (Department of Surgery, School of Medicine and Health Sciences, George Washington University, Washington DC, USA/Clinic of Surgery, Gastroenterology, Nephrourology, Institute of Clinical Medicine, Faculty of Medicine, Vilnius University, Vilnius, Lithuania)
- RO9-5 Defining molecular and transcriptomic characteristics of short-term and long-term survivors after pancreatic cancer surgery
Oskar Franklin (Division of Surgical Oncology, Department of Surgery, University of Colorado School of Medicine, Aurora, Colorado, United States of America/University of Colorado Cancer Center, Aurora, Colorado, United States)

Requested Oral 10

► May 23 (Sat.) 12:50-13:50 [Room 11 (107+108)]

Approaches to Reducing Postoperative Complications in HBP Surgery 1

- Moderators: Hiroaki Terajima (Department of Gastroenterological Surgery and Oncology, Medical Research Institute Kitano Hospital)
Kenichiro Araki (Division of Hepatobiliary and Pancreatic Surgery, Gunma University Graduate School of Medicine)
- RO10-1 Sarcopenia assessment using machine learning in the real-world scenario and its prediction of outcomes following liver resection
Kaival Ketan Gundavda (Department of Surgical Oncology, Tata Memorial Hospital, Mumbai, India)

- RO10-2 Intraoperative Parkland Grading Scale as a Predictor of Critical View of Safety Attainment in Laparoscopic Cholecystectomy: A Prospective Observational Study
Hoai Kim Nguyen (Department of Liver Tumor, Binh Dan Hospital, Ho Chi Minh City, Vietnam)
- RO10-3 Predictors of postoperative complications after pancreaticoduodenectomy: focus on perioperative procalcitonin
Yusuke Iizawa (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Graduate School of Medicine, Tsu, Japan)
- RO10-4 Elevated risk of complications in patients receiving dual antithrombotic therapy undergoing hepatectomy
Haruki Mori (Department of Surgery, Shiga University of Medical Science, Shiga, Japan)
- RO10-5 Emergency cholecystectomy for high-risk acute cholecystitis: Are TG18 always applicable?
Satoshi Mii (Department of Pancreatobiliary Surgery, Kansai Medical University, Osaka, Japan)
- RO10-6 Intraoperative Blood Loss Normalized by Body Weight as a Predictor of Graft Survival After Liver Transplantation
Ayato Obana (Mayo Clinic Arizona, Scottsdale, AZ, United States of America)
- RO10-7 Impact of donor characteristics on hepatocellular carcinoma recurrence after liver transplantation
Miho Akabane (The Ohio State University, Columbus, Ohio, United States of America)
- RO10-8 Infectious Complications After Hepatectomy in Patients With Prior Biliary-Enteric Anastomosis
Hayata Sano (Department of Surgery Division of Hepato-Biliary-Pancreatic Surgery, Kobe University, Kobe, Japan)
- RO10-9 Impact of Prolonged Hepatic Inflow Occlusion Time on Postoperative Outcomes
Yuta Kimura (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine, Ube, Japan)
- RO10-10 Factors Associated with the Formation of Hypoattenuated Areas on Postoperative CT After Distal Pancreatectomy
Yoriko Nomura (Department of Hepato-biliary-pancreatic Surgery, National Hospital Organization Kyushu Medical Center)

Requested Oral 11

► May 23 (Sat.) 14:00-15:00 [Room 11 (107+108)]

Approaches to Reducing Postoperative Complications in HBP Surgery 2

Moderators: Yuichi Ishida (Department of Medical Insurance Guidance, and Department of Hepato-Biliary-Pancreatic Surgery, Jikei University Hospital)
Masahiro Ito (Department of Surgery and Quality and Safty in Healthcare, Fujita-Health University Hospital)

- RO11-1 Mechanisms of histopathological vascular damage caused by pancreatic juice leakage: Implications for preventing hemorrhagic complications
Yusuke Seki (Hepato-Biliary-Pancreatic Surgery Division, Department of Surgery, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan)
- RO11-2 DSA-First Strategy for Late Postpancreatectomy Hemorrhage
Jishu Wei (Pancreas Center, The First Affiliated Hospital of Nanjing Medical University, Nanjing, China)
- RO11-3 Significance of pancreatogastrostomy in preventing postoperative pseudoaneurysm after pancreatoduodenectomy
Takeshi Gocho (Department of Surgery, Jikei University School of Medicine, Tokyo, Japan)

- RO11-4 Does covering the gastroduodenal artery stump with the round ligament prevent postoperative hemorrhage in laparoscopic pancreaticoduodenectomy?
Junichi Kaneko (Hepato-Biliary-Pancreatic Surgery, Department of Gastrointestinal Surgery, Tokai University, Hachioji Hospital, Tokyo, Japan)
- RO11-5 Prevention of Delayed Gastric Emptying Using Vertical Array Reconstruction Technique in Pylorus-Preserving Pancreaticoduodenectomy
Saori Umezawa (Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine, Kanagawa, Japan)
- RO11-6 Dynamic, risk-based drain management after pancreatoduodenectomy: reappraisal of early fistula predictors in the era of risk stratification and mitigation.
Giampaolo Perri (University of Padova, Italy/Pederzoli Hospital)
- RO11-7 Risk Factors for Postoperative Pancreatic Fistula and a Drain Management Algorithm After Distal Pancreatectomy
Akihiro Takeuchi (Second Department of Surgery, Wakayama Medical University, Wakayama, Japan)
- RO11-8 Comparison of Outcomes Following Completion Total Pancreatectomy Versus Pancreas-Preserving Surgery for Postoperative-Pancreaticoduodenectomy Pancreatic Fistula Requiring Reoperation
Yewon Jeon (Asan Medical Center, Republic of Korea)
- RO11-9 Hydrogel-Based MSC-Conditioned Medium Promotes Liver Regeneration After Hepatectomy in Steatotic Liver Disease
Naoya Kasahara (Department of Surgery, Jichi Medical University, Shimotsuke, Japan)
- RO11-10 A Papillary Function-Preserving Strategy to Reduce Postoperative Retrograde Cholangitis in Hepatopancreatobiliary Surgery-Development of Novel Treatment Approaches Using Bioabsorbable Materials-
Mitsuo Miyazawa (Center for Preventive Medicine, International University of Health and Welfare, Narita Hospital, Chiba, Japan)

■ Mini-Symposium

Mini-Symposium 1

► May 22 (Fri.) 8:00-9:30 [Room 6 (204)]

Colorectal Liver Metastases

Moderators: Hiroyuki Takamura (General and Digestive Surgery, Kanazawa Medical University)
Nobuhisa Matsuhashi (Department of Gastroenterological Surgery/Pediatric Surgery, Gifu University)

- MSY1-1 Which patients with colorectal liver metastases achieve long-term survival?
Hideaki Iwama (Department of Surgery, Fujita Health University, Aichi, Japan)
- MSY1-2 The Prognostic Impact of Adipophilin Expression on Long-Term Survival Following Liver Resection in Patients with Colorectal Liver Metastases
Thanh Tung Lai (Department of Hepatobiliary Surgery, Kansai Medical University, Osaka, Japan/
Department of Surgery, Hanoi Medical University, Hanoi, Vietnam)
- MSY1-3 Factors associated with long-term survival in borderline resectable colorectal liver metastasis
Takashi Motomura (Department of Surgery and Sciences, Kyushu University, Fukuoka, Japan)

- MSY1-4 Neoadjuvant FOLFOXIRI for Borderline Resectable Colorectal Liver Metastases
Masao Nakajima (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine, Yamaguchi, Japan)
- MSY1-5 A Retrospective Study on the Prognosis of All Disappearing Colorectal Liver Metastases
Yuhi Shimura (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University, Kobe, Japan)
- MSY1-6 Role of Adjuvant Chemotherapy in Borderline Resectable Colorectal Liver Metastases
Musashi Takada (Department of Surgery, Dokkyo Medical University Saitama Medical Center)
- MSY1-7 A Strategy to Improve Long-Term Survival in Colorectal Liver Metastases: Risk Stratification Using the Beppu Classification and Active Use of Ablation
Toshiro Masuda (Department of Surgery, Yamaga City Medical Center)
- MSY1-8 Post-progression Survival as a Determinant of Long-term Outcomes After Hepatectomy for Colorectal Liver Metastases
Nozomu Sakai (Department of General Surgery, Chiba University, Chiba, Japan)
- MSY1-9 Treatment strategies for colorectal liver metastases with a view to long-term prognosis at countryside hospital
Takashi Nitta (Department of Surgery, Ako City Hospital, Hyogo, Japan)

Mini-Symposium 2

► May 22 (Fri.) 8:00-8:55 [Room 8 (202)]

Interdepartmental Collaboration 1

- Moderators: Naoki Hiki (Department of Upper Gastrointestinal Surgery, Kitasato University School of Medicine)
Yuji Morine (Department of Surgery, Tokushima University)
- MSY2-2 Collaboration Between Surgery and Interventional Radiology Across Every Phases of Patients
Nozomi Funatsu (Dept. of Gastrointestinal and Breast Surgery, NHO Disaster Medical Center, Tokyo, Japan)
- MSY2-3 Collaboration with Interventional Radiology for Minimally Invasive Major Hepatectomy Requiring Portal Vein Embolization
Shigenori Ei (Department of Gastroenterological Surgery, Tokai University School of Medicine, Kanagawa, Japan)
- MSY2-4 Surgical Management of Benign Biliary-Enteric Anastomotic Stricture
Atsushi Takebe (Department of Surgery, Kindai University)
- MSY2-5 Multidisciplinary Management of the Dilemma Between Thrombosis and Hemorrhage in Surgical Treatment for Extrahepatic Portal Vein Obstruction
Tetsuya Shimizu (Department of Gastroenterological Surgery, Nippon Medical School, Tokyo, Japan/
Diagnostic Oncology, Comprehensive Cancer Center, Nippon Medical School Hospital, Tokyo, Japan)
- MSY2-6 Pancreatic Acinar Cell Carcinoma: A 20-Year Institutional Case Series on Clinical Behavior, Surgical Outcomes, and Prognostic Determinants
Wei-Hsin Lin (National Taiwan University Hospital Jinshan Branch, New Taipei, Taiwan)

Mini-Symposium 3

► May 22 (Fri.) 9:05-9:55 [Room 7 (203)]

Perihilar Cholangiocarcinoma

Moderators: Yuta Abe (Department of Surgery, Keio University)
Takashi Mizuno (Division of Surgical Oncology, Department of Surgery, Nagoya University Graduate School of Medicine)

- MSY3-1 Anatomical and clinical significance of the retroportal area for perihilar cholangiocarcinoma
Yasuhito Iwao (Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University, Kanazawa, Japan)
- MSY3-2 Extent of Surgery for Perihilar Cholangiocarcinoma: Short- and Long-Term Outcomes of Standard Resection, Vascular Resection, and Hepatopancreaticoduodenectomy
Takehiro Noji (Gastroenterological Surgery II, Hokkaido University Hospital/Faculty of Health Sciences Nursing Division, Hokkaido University)
- MSY3-3 A Study of Preoperative Treatment Strategies and Treatment Outcomes for Perihilar Cholangiocarcinoma in Our Department
Kimiya Maemura (Department of Surgery, Saitama Medical Center, Jichi Medical University)
- MSY3-4 Impact of Biliary Infection on Postoperative Surgical Site Infection in Perihilar Cholangiocarcinoma Surgery
Naoya Sato (Department of Hepatobiliary Pancreatic and Transplant Surgery, Fukushima Medical University)
- MSY3-5 Efficacy of modified cachexia index as postoperative early prognostic factor of hilar cholangiocarcinoma
Hiroki Sakai (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
- MSY3-6 Sequentital therapy of portal vein embolization and chemotherapy for patients with perihilar cholangiocarcinoma
Ryuji Yoshioka (Department of Hepatobiliary Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- MSY3-7 Significance of strategy ensuring functional remnant liver volume (fFRLV) in neoadjuvant therapy for perihilar cholangiocarcinoma
Ryo Muranushi (Department of General Surgical Science, Division of Hepatobiliary and Pancreatic Surgery, Graduate School of Medicine, Gunma University)

Mini-Symposium 4

► May 22 (Fri.) 13:30-14:50 [Room 4 (205)]

Pancreatic Cancer 1

Moderators: Kenichi Matsuo (Department of General and Gastroenterological Surgery, Showa Medical University Fujigaoka Hospital)
Suguru Yamada (Department of Gastroenterological Surgery, Nagoya Central Hospital)

- MSY4-1 Biological Determinants of 5-Year Survival in Pancreatic Cancer: Implications for Multidisciplinary Treatment Strategies
Naoki Ikenaga (Department of Surgery and Oncology, Kyushu University)
- MSY4-2 Our challenge to improve the 5-year survival rate after surgery for resectable pancreatic cancer
Takahiro Einama (Department of Surgery, National Defense Medical College, Saitama, Japan)

- MSY4-3 Evolution of a multidisciplinary treatment strategy for resectable and borderline resectable pancreatic cancer centered on preoperative CA19-9 control
Aya Matsui (Department of Gastroenterological Surgery II, Hokkaido University Faculty of Medicine)
- MSY4-4 Investigation of Preoperative Treatment Strategies for Pancreatic Cancer Aiming to Improve Prognosis
Hirofumi Akita (Department of Gastroenterological Surgery, The University of Osaka Graduate School of Medicine)
- MSY4-5 Early diagnosis is essential for improving the prognosis of pancreatic Cancer
Yusuke Kawamoto (Department of Surgery, Institute of Gastroenterology, Tokyo Women's Medical University, Tokyo, Japan)
- MSY4-6 Clinical Impact of the K-sign in Enabling Surgical Intervention for Early-Stage Pancreatic Cancer
Yuki Masuda (Department of Surgery, Tokyo Dental College Ichikawa General Hospital)
- MSY4-7 Who Truly Achieves 5-Year Survival in BR-A Pancreatic Ductal Adenocarcinoma? Insights From Multidisciplinary Treatment
Kenjiro Okada (Department of Surgery, Hiroshima University, Hiroshima, Japan)
- MSY4-8 Two Decades of Multidisciplinary Treatment for Pancreatic Cancer: Biology-driven Strategy Toward Long-term Survival
Hiroyuki Ishida (Department of Pancreatobiliary Surgery, Kansai Medical University)
- MSY4-9 Sequential Induction Chemotherapy and Chemoradiotherapy in Borderline Resectable Pancreatic Cancer for 5-year survival: A Multicenter Phase II Study
Junichiro Kawamoto (Department of Surgery, Keio University School of Medicine)
- MSY4-10 Spatial and Single-Cell multi-omics Profiling Reveals the Niche-Regulated Transition of MACF1+ Initiators to Colonizing Cells in Pancreatic Cancer Liver Metastasis
Xi Chen (State Key Laboratory of Genome and Multi-omics Technologies, China/BGI Research, Shenzhen)

Mini-Symposium 5

► May 22 (Fri.) 13:30-14:30 [Room 10 (101+102)]

Liver Transplantation

- Moderators: Hiroyuki Tahara (Department of Gastroenterological and Transplant Surgery, Hiroshima University Hospital)
Mureo Kasahara (Executive Director of Hospital, National Center for Child Health and Development)
- MSY5-1 Evaluation of the MELD-based allocation system for deceased donor liver transplantation in Japan: A single-institution analysis of waitlist mortality and transplant rates
Ryoichi Goto (Department of Gastroenterological Surgery I, Hokkaido University, Japan)
- MSY5-2 Evaluation of Liver Transplantation Outcomes Using Extended Criteria Donor Deceased Donors at Viet Duc University Hospital
Dang Do Hai (Viet Duc University Hospital, Viet Nam)
- MSY5-3 Is a Remnant Liver Volume Below 30% an Absolute Contraindication for Laparoscopic Living Liver Donors? Donor Safety with Remnant Liver Volume < 30% in Purely Laparoscopic Living Donor Hepatectomy
Sukmin Gwon (Department of Surgery, Samsung Medical Center, Sungkyunkwan University School of Medicine, Seoul, Republic of Korea)

- MSY5-5 Clinical Characteristics and Late Outcomes of Liver Transplant Recipients With More Than 10-Year Survival
Kazuki Sasaki (Department of Gastroenterological Surgery, The University of Osaka, Japan)
- MSY5-6 The impact of de novo malignancies on long-term liver transplant outcomes
Atsuyoshi Mita (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)

Mini-Symposium 6

► May 23 (Sat.) 12:50-14:20 [Room 3 (Convention Hall A)]

Challenging Case Reports

Moderators: Toshimi Kaido (National Taiwan University et al)

Yoichi Kawano (Department of Gastrointestinal Surgery, Nippon Medical School)

- MSY6-1 Time to retire the 'sign of death' ? Benign hepatic portal venous gas after trans-arterial chemoembolisation
Haoyang Huang (The Second Affiliated Hospital of Kunming Medical University, Kunming, Yunnan Province, China)
- MSY6-2 Follicular Cholangitis Mimicking Malignancy Managed by Left Hepatectomy with Extrahepatic Bile Duct Resection: A Case Report
Naoto Koike (Department of Surgery, Seirei Sakura Citizen Hospital, Sakura, Japan)
- MSY6-3 Delayed Diagnosis but Successful Treatment of Postoperative Acquired Hemophilia A after Subtotal Stomach-Preserving Pancreaticoduodenectomy for Carcinoma of the Ampulla of Vater
Munenori Tahara (Department of Surgery, Sapporo Kosei General Hospital)
- MSY6-4 A Catastrophic Cascade of Complications Following Laparoscopic Cholecystectomy: Successful Non-Operative Management of Biliary Leak, Necrotizing Pancreatitis, and Retroperitoneal Duodenal Fistula
Yoo Jin Choi (Department of Surgery, Division of HBP Surgery, Korea University College of Medicine, Seoul, Korea, Republic of Korea)
- MSY6-5 A case of choriocarcinoma of gallbladder which is extremely high malignant biological behavior
Teruhisa Sakamoto (Division of Gastrointestinal and Pediatric Surgery, Department of Surgery, Faculty of Medicine, Tottori University, Tottori, Japan)
- MSY6-6 Diagnostic Challenges of Abdominal Tumors without Typical Imaging Features: From Misdiagnosis of Pancreatic Cystadenoma to Adrenal Pheochromocytoma and the Intraoperative Response
Haoyang Huang (The Second Affiliated Hospital of Kunming Medical University, Kunming, Yunnan Province, China)
- MSY6-7 Pancreaticoduodenectomy for Giant Pancreatic Head Solid Pseudopapillary Neoplasm: Operative Approach and Review of Literature
Gerald Ken C. Tano (Section of HepatoPancreatoBiliary Surgery, Institute of Surgery, St. Luke's Medical Center - Quezon City, Philippines)
- MSY6-9 Salvage hepatectomy and thrombectomy for BDTT-related refractory biliary complications in cirrhotic patients with unresectable HCC and marginal hepatic reserve
Takahiro Hikida (Department of Hepato-Biliary-Pancreatic and Breast Surgery, Ehime University, Ehime, Japan)

- MSY6-10 HELLP Syndrome with subcapsular hepatic hematoma Treated by Hybrid Therapy
Mamiko Miyashita (Department of Surgery, Juntendo University Shizuoka Hospital, Shizuoka, Japan)

Mini-Symposium 7

► May 23 (Sat.) 12:50-14:20 [Room 5 (206)]

Presidential Selected Oral

Moderators: Yukiyasu Okamura (Division of Digestive Surgery, Department of Surgery, Nihon University School of Medicine)

Shinji Tanaka (Department of Molecular Oncology, Institute of Science Tokyo)

- MSY7-1 Survival impact of the Pathological Regression patterns for Pancreatic Ductal Adenocarcinoma after Neoadjuvant Therapy.
Hidetaka Miyazaki (Department of Pancreatobiliary Surgery, Kansai Medical University, Osaka, Japan)
- MSY7-2 Imaging-based automatic deep-learning model for predicting postoperative survival in pancreatic cancer patients
Du Yueshan (Department of Pancreatic Surgery, Zhongshan Hospital, Fudan University, China)
- MSY7-3 Cadaver-Based Classification of Lymphatic Anatomy and a Standardized Approach to Prevent Chyle and Lymphatic Leakage After Open and Robotic Pancreatoduodenectomy
Moe Matsumoto (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- MSY7-4 Systematic Left Trisectionectomy with Upfront Glissonean Approach for Perihilar Cholangiocarcinoma: A Novel Technique and Outcomes Analysis
Yuta Abe (Department of Surgery, School of Medicine, Keio University, Japan)
- MSY7-5 Efficacy of Modified Albumin-Bilirubin Grade as a Predictor of Survival in Resected Biliary Tract Cancer: A Multicenter Propensity Score Matching Analysis
Toru Takahashi (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University Graduate School of Medicine, Kobe, Hyogo, Japan)
- MSY7-6 Pathological Response Following Neoadjuvant Chemotherapy in Locally Advanced Gallbladder Cancer: Prognostic Implications and the Role of Mandard Tumour Regression Grading
Kaival Gundavda (Department of Gastrointestinal and Hepatobiliary Surgery, Department of Surgical Oncology, Tata Memorial Hospital, Homi Bhabha National Institute, Mumbai, India)
- MSY7-7 Association Between Klebsiella pneumoniae Detection in Cultures and Recurrent Primary Sclerosing Cholangitis After Liver Transplantation: A Single-Center Retrospective Cohort Study
Jun Ichikawa (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Graduate School of Medicine, Kyoto University)
- MSY7-9 Post-SVR Hepatic Recovery and Cancer Risk: A Multicenter Cohort Comparing HCV Monoinfection and HIV/HCV Coinfection
Takanobu Hara (Department of Surgery, Nagasaki University Graduate School of Biomedical Sciences, Nagasaki, Japan)
- MSY7-10 Phase I Trial of Olprinone for Low Central Venous Pressure Management Aimed at Hemorrhage Control During Open and Laparoscopic Hepatectomy
Yuya Miura (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan)

Mini-Symposium 8

► May 23 (Sat.) 14:20-15:25 [Room 1 (Tempyo Hall)]

Borderline Resectable HCC

Moderators: Nobuyuki Takemura (Department of Hepato-Biliary-Pancreatic Surgery and Pediatric Surgery, Saitama Medical Center, Saitama Medical University)

Akira Kenjo (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University)

- MSY8-1 Factors determining long-term survival and early recurrence after primary resection for borderline resectable hepatocellular carcinoma
Ko Oshita (Department of Surgery, Chugoku Rosai Hospital, Kure, Japan)
- MSY8-2 Surgical Benefit in Borderline Resectable HCC: Limitations of the 2023 Expert Consensus and Proposal for an Enhanced Model
Atsushi Miyamoto (Department of 2nd Surgery, Wakayama Medical University, Wakayama, Japan)
- MSY8-3 Risk stratification of borderline resectable hepatocellular carcinoma and active salvage treatment for recurrence: implications for multidisciplinary strategies
Koichiro Haruki (Division of Hepatobiliary and Pancreatic Surgery, Department of Surgery, The Jikei University School of Medicine, Tokyo, Japan)
- MSY8-4 Surgical Resection of Primary Hepatocellular Carcinoma Based on an Oncological Resectability Classification
Takashi Hamada (Nagasaki University, Department of Surgery, Hepato-Biliary-Pancreatic Surgery and Transplantation, Nagasaki, Japan)
- MSY8-5 Upfront Hepatectomy versus First-line Atezolizumab plus Bevacizumab for Borderline Resectable Type 2 Hepatocellular Carcinoma: A Propensity Score-Weighted Analysis
Tomoaki Hayakawa (Department of Hepato-Biliary-Pancreatic Surgery, Dokkyo Medical University, Tochigi, Japan)
- MSY8-6 Multidisciplinary treatment including minimally invasive hepatectomy, locoregional therapy and systemic biological therapy for BR multiple hepatocellular carcinomas
Takahisa Fujikawa (Department of Surgery, Kokura Memorial Hospital)
- MSY8-7 Textbook Outcome in Surgery for Hepatocellular Carcinoma
Marina A. Kolupaeva (Moscow Clinical Scientific Center named after A.S. Loginov, Moscow, Russia)

Mini-Symposium 9

► May 23 (Sat.) 14:20-15:25 [Room 5 (206)]

Pancreatic Cancer 2

Moderators: Yasuyuki Fukami (Department of Gastroenterological Surgery, Aichi Medical University)

Minako Nagai (Department of Surgery, Nara Medical University)

- MSY9-1 Treatment Strategy for Borderline Resectable Pancreatic Cancer: A Historical Perspective
Nobuhiko Nakagawa (Department of Surgery, Nagoya University)
- MSY9-2 Identification of Factors Associated With 5 Year Survival and Development of Treatment Strategies Based on Biological and Oncological Profiles in Resectable and Borderline Resectable Pancreatic Cancer
Daisuke Satoh (The Department of Surgery, Hiroshima City Hiroshima Citizens Hospital)

- MSY9-3 The optimization of neoadjuvant chemotherapy for pancreatic cancer patients with high concentration of CA19-9
Junpei Yamaguchi (Department of Surgery, Nagoya University Hospital)
- MSY9-4 Evaluation of conditional survival to predict 5-year survival in pancreatic ductal adenocarcinoma
Yoichi Miyata (Department of Hepato-Biliary Pancreatic Surgery, Saitama Medical Center, Saitama, Japan)
- MSY9-5 Adjuvant Chemotherapy Remains a Strong Prognostic Factor in Resectable Pancreatic Cancer in the Neoadjuvant Era: Importance of Perioperative Management
Yusuke Kazami (Hepato-Biliary-Pancreatic Surgery Division, Department of Surgery, Graduate School of Medicine, The University of Tokyo, Tokyo, Japan)
- MSY9-6 Optimal initiation timing and total dose intensity of adjuvant S-1 following resection for PDAC
Masaru Takeuchi (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- MSY9-7 Treatment Strategies for Recurrent Pancreatic Ductal Adenocarcinoma: A Recurrence-Pattern-Based Systematic Review and Meta-analysis
Aya Maekawa (Hepato-Pancreato-Biliary and Liver Transplant Surgery, University of Padova, Italy)
- MSY9-8 Toward Five-Year Survival: Multimodal Strategies and Surgical Selection After Recurrence Of Resected Pancreatic Cancer
Jun Ishida (Division of Hepato-Biliary-Pancreatic Surgery, Department of Surgery, Kobe University, Hyogo, Japan)

Mini-Symposium 10

► May 23 (Sat.) 14:25-15:25 [Room 6 (204)]

Biliary Tract Cancer

- Moderators: Hiroaki Shimizu (Teikyo University Chiba Medical Center)
Shigeyuki Kawachi (Department of Digestive and Transplantation Surgery, Tokyo Medical University Hachioji Medical Center)
- MSY10-1 Prognostic Value of Combined Carbohydrate Antigen 19-9 and Duke Pancreatic Monoclonal Antigen Type 2 Assessment in Biliary Tract Cancer
Ryuta Shintakuya (Department of Surgery, Graduate School of Biomedical and Health Sciences, Hiroshima University, Hiroshima, Japan)
- MSY10-2 Impact of adjuvant chemotherapy on the short-term outcomes in patients after radical liver resection for intrahepatic cholangiocarcinoma
Hiroyuki Hakoda (Hepato-Biliary-Pancreatic Surgery Division, Department of Surgery, The University of Tokyo Hospital, Tokyo, Japan)
- MSY10-3 Long-Term Outcomes of Preoperative Chemotherapy for Generally Unresectable Locally Advanced Perihilar Cholangiocarcinoma
Atsushi Takahashi (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- MSY10-4 Early Tumor Shrinkage After Triplet Chemotherapy Enables Conversion Surgery in Initially Unresectable Perihilar Cholangiocarcinoma: A Retrospective Analysis
Akira Maki (HPB Surgery, Saitama Medical University Saitama Medical Center, Saitama, Japan)
- MSY10-5 Conversion Surgery for Initially Unresectable Biliary Tract Cancer
Hideyuki Dei (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan)

MSY10-6 Long-term outcomes of unresectable biliary tract cancer: impact of conversion surgery following triplet-based chemotherapy

Hisashi Kosaka (Department of Hepatobiliary Surgery, Kansai Medical University, Osaka, Japan)

Mini-Symposium 11

► May 23 (Sat.) 14:25-15:20 [Room 9 (201)]

Interdepartmental Collaboration 2

Moderators: Kohei Shibata (Tsurumi Hospital, JA Oita Kouseiren)

Sadatoshi Shimizu (Department of Gastroenterological Surgery, Osaka City General Hospital)

MSY11-1 Evaluation of a novel test for early detection of post-pancreatectomy intra-abdominal infection and prompt therapeutic intervention

Mina Fukasawa (Department of Surgery and Science, Faculty of Medicine, Academic Assembly, University of Toyama, Toyama, Japan)

MSY11-2 The Role of Gastroenterologist-Surgeon Collaboration in the Management of Postoperative Pancreatic Fistula

Sachiko Ishida (Digestive Diseases Center, Showa Medical University Koto Toyosu Hospital)

MSY11-3 Management of Postoperative Hemorrhage following major pancreas and liver surgery

Takahiro Ito (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University, Tsu, Japan)

MSY11-4 Emergency Interventions for Post-Pancreatectomy Hemorrhage: A Retrospective Analysis of Cases Requiring Urgent IVR or Surgical Management

Hajime Imamura (Department of Surgery, Hepato-Biliary-Pancreatic Surgery and Transplantation, Nagasaki University)

MSY11-5 A multi-center analysis of collateral arterial pathways after interventional management of pseudoaneurysms following pancreaticoduodenectomy

Kiyotaka Hosoda (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)

MSY11-6 Interventional stenting of the portal vein and Meso-Rex shunt operation against portal hypertension due to portal vein stenosis after pancreaticoduodenectomy

Masaharu Kogure (Department of Hepato-Biliary-Pancreatic Surgery, Kyorin University Hospital)

Mini-Symposium 12

► May 23 (Sat.) 16:00-17:00 [Room 8 (202)]

Biological BRPC

Moderators: Yoichi Matsuo (Department of Gastroenterological Surgery, Nagoya City University East Medical Center)

Tomio Ueno (Department of Digestive Surgery, Kawasaki Medical School)

MSY12-1 Characteristics and Prognosis of Biological Borderline Resectable Pancreatic Cancer among Anatomically Resectable Cases

Shigeyuki Tsukida (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University, Fukushima, Japan)

MSY12-2 Biological Risk Stratification and Neoadjuvant Chemotherapy Improve Survival in Anatomically Resectable Pancreatic Cancer

Hiroaki Osakabe (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University, Tokyo, Japan)

- MSY12-3 Investigation of CRP and NLR as Potential Biomarkers for Redefining Biological Borderline-Resectable Pancreatic Cancer
Keishi Kawasaki (Department of Surgery, Dokkyo Medical University Saitama Medical Center, Saitama, Japan)
- MSY12-4 Risk factors of postoperative early recurrence in resectable pancreatic cancer treated with neoadjuvant therapy: a multicenter retrospective study
Yuta Yoshida (Department of Surgery, Kindai University Faculty of Medicine)
- MSY12-5 Development and Validation of the DASINEL Score: A Novel Definition of Biological Borderline Resectable Pancreatic Cancer Including Patients with Neoadjuvant Therapy
Hiromitsu Maehira (Department of Surgery, Shiga University of Medical Science, Shiga, Japan)
- MSY12-6 SLC35C1 as a Novel Driver of Tumor Aggressiveness in Pancreatic Ductal Adenocarcinoma
Ting-Chun Kuo (National Taiwan University Hospital, Taiwan/University of California San Diego)

■ Mini-Workshop

Mini-Workshop 1

▶ May 22 (Fri.) 15:00-15:55 [Room 10 (101+102)]

Hepatectomy

Moderators: Yoshifumi Beck (Department of Hepato-Biliary-Pancreatic Surgery, Saitama Medical Center, Saitama Medical University)
Orlando Jorge Martins Torres (Federal University of Maranhão, Brazil)

- MWS1-1 Treatment strategies considering the risk of posthepatectomy liver failure and early recurrence in hepatocellular carcinoma
Yoshifumi Morita (Department of Surgery, Hamamatsu University School of Medicine, Japan)
- MWS1-2 Complementary Prediction of Severe Posthepatectomy Liver Failure Using an “ALBI × Liver Resection Rate Heatmap” and ICGKrem After Portal Vein Embolization
Kazuhiro Takahashi (Department of GI and HBP Surgery, University of Tsukuba)
- MWS1-3 Common trunk of left and anterior Glissonean pedicle embolization prior to left trisectionectomy for advanced HCC: Is this feasible?
Huyen Trang T. Dang (Pediatric and neonatal Surgery Department, Viet Duc University Hospital, Ha Noi, Viet Nam)
- MWS1-4 Efficacy of Sequential Hepatic Vein Embolization Following Portal Vein Embolization in Promoting Regeneration of Liver Volume and Function Before Right-Sided Major Hepatectomy
Thanh Tung Lai (Department of Hepatobiliary Surgery, Kansai Medical University, Osaka, Japan/
Department of Surgery, Hanoi Medical University, Hanoi, Vietnam)
- MWS1-5 Surgical complementation for securing the oncological radicality and function of the liver remnant by hepatic vein reconstruction and ALPPS
Hiroshi Sadamori (Department of Surgery, Fukuyama City Hospital, Fukuyama, Japan)
- MWS1-6 How should we perform S6 and S7 segment resection?~Couinaud's liver segment resection vs cone unit resection~—A CT-based 3D-reconstruction study of portal veins of the liver—
Takashi Imanaka (Department of Surgery, Fujita Health University Okazaki Medical Center, Aichi, Japan/Department of Surgery, Fujita Health University Bantane Hospital)

Mini-Workshop 2

► May 23 (Sat.) 12:50-14:15 [Room 4 (205)]

Conversion Surgery for LAPC 1

Moderators: Shinjiro Kobayashi (Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine)
Takeshi Takahara (Department of Surgery, Fujita Health University)

- MWS2-1 Benefits and Limitations of Conversion Surgery after Proton Beam-Based Multimodal Therapy for Locally Advanced Pancreatic Cancer: Insights from Spatial Transcriptomic Analysis of Residual Tumor
Osamu Shimomura (Department of GI&HBP surgery, University of Tsukuba, Ibaraki, Japan)
- MWS2-2 Risk Factors for Early Recurrence of Pancreatic Cancer Resection after Neoadjuvant Chemotherapy: A High-Volume Single-center Study
Atsushi Nara (Division of Surgical Oncology, Department of Surgery, University of Colorado School of Medicine, United States of America/Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo)
- MWS2-3 Early Recurrence After Conversion Surgery for Advanced Pancreatic Cancer: Implications for Patient Selection
Masaaki Murakawa (Department of Gastrointestinal Surgery, Kanagawa Cancer Center)
- MWS2-4 Progression free Survival-Based consideration for Conversion Surgery in Unresectable Locally Advanced Pancreatic Cancer
Masayuki Tanaka (Department of Surgery, Keio University School of Medicine, Tokyo, Japan)
- MWS2-5 Oncologic and Surgical Outcomes of Conversion Surgery for Unresectable Locally Advanced Pancreatic Cancer
Hideki Takami (Department of Surgery, Nagoya University Hospital, Nagoya, Japan)
- MWS2-6 Potential survival benefit of conversion surgery in unresectable locally advanced pancreatic cancer
Yuya Saruta (Department of Hepato-Biliary-Pancreatic Surgery and Artificial Organ and Transplantation Surgery, The University of Tokyo Hospital)
- MWS2-7 Adequate indication and timing of conversion surgery for patients with UR-LA/BR pancreatic cancer
Satoshi Kuboki (General Medical Science, Chiba University, Department of Surgery, Eastern Chiba Medical Center)
- MWS2-8 Twenty conversion Surgery cases after Chemotherapy and Carbon-Ion Radiotherapy for Locally Advanced Pancreatic Cancer
Saki Takei (Department of Surgery I, Yamagata University Graduate School of Medial Science, Yamagata, Japan)
- MWS2-9 Conversion Surgery for SMA-involved Pancreatic Cancer: Benefit and Its Limitations
Atsushi Oba (Division of Surgical Oncology, Department of Surgery, University of Colorado School of Medicine, United States of America)

Mini-Workshop 3

► May 23 (Sat.) 14:20-15:45 [Room 4 (205)]

Conversion Surgery for LAPC 2

Moderators: Masashi Kishiwada (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Hospital)

Shigetsugu Takano (Department of General Surgery, Chiba University)

- MWS3-1 Conversion Surgery for Initially Unresectable Locally Advanced Pancreatic Cancer After Long-term Preoperative Therapy
Katsuhisa Ohgi (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan)
- MWS3-2 Indications and Outcomes of Conversion Surgery for Unresectable Pancreatic Cancer
Hiroki Sato (Okayama Saiseikai General Hospital, Department of Surgery)
- MWS3-3 Reassessment of Indications for Conversion Surgery in Unresectable Locally Advanced Pancreatic Cancer
Kazuya Yasui (Department of Gastroenterological Surgery, Okayama University)
- MWS3-4 Is Conversion Surgery Truly Beneficial for Unresectable Locally Advanced Pancreatic Cancer? An Institutional Assessment of Safety and Survival
Asahi Sato (Department of Surgery, Kyoto University)
- MWS3-5 Benefits and Pitfalls of Conversion Surgery for Pancreatic Cancer: A Single-Institution Strategy and Short-Term Outcomes
Yusuke Mitsuka (Division of digestive surgery, Department of Surgery, Nihon university school of medicine)
- MWS3-6 Perioperative Safety of Conversion Surgery after Multidisciplinary Therapy for LAPC: Comparison with Resection after Neoadjuvant Treatment for Resectable PDAC
Hiroto Takahashi (Department of GI and HBP Surgery, University of Tsukuba, Ibaraki, Japan)
- MWS3-7 Outcomes of Conversion Surgery for Locally Advanced Unresectable Pancreatic Cancer
Momose Hirokazu (Department of Hepato-Biliary-Pancreatic Surgery, Kyorin University Hospital)
- MWS3-8 Prognostic Factors After Conversion Surgery for Locally Advanced Unresectable Pancreatic Cancer
Hisanori Mizutani (Department of gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- MWS3-9 Merits and Demerits of Conversion Surgery for Locally Advanced Pancreatic Cancer: Insights from Cases with Discrepancy between Histological Response and Prognosis
Masanao Kurata (Department of HBP surgery, Tokyo Metropolitan Cancer and Infectious Disease Center, Komagome Hospital, Tokyo, Japan)

Mini-Workshop 4

► May 23 (Sat.) 14:25-15:55 [Room 7 (203)]

Practice in Community Hospitals 1

Moderators: Takashi Ito (Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Department of Surgery, Graduate School of Medicine, Kyoto University)
Hiroyuki Kato (Fujita Health University School of Medicine, Bantane Hospital)

- MWS4-1 Proposal of a new anatomic concept of “the unknown triangle” of the gallbladder for safe laparoscopic cholecystectomy—Improving the quality of both patient safety and education for new surgeons
Seiji Maruyama (Department of Surgery, Tagawa municipal hospital, Tagawa city, Fukuoka, Japan)
- MWS4-2 Expanding Safe Laparoscopic cholecystectomy in Cambodia: A Train-the-Trainers Multidisciplinary Model from Phnom Penh to Provincial Hospitals
Vithiea Dara (Department of Surgery, Calmette Hospital, Phnom Penh, Cambodia)
- MWS4-3 Clinical Characteristics of Gallbladder Torsion: A Single-Center Retrospective Study
Kei Furuya (Kawasaki medical school)
- MWS4-4 HPB Surgical Practice and Training in a Community Hospital Setting
Nobuaki Ishihara (Department of Surgery, Seirei Mikatahara General Hospital)
- MWS4-5 Strategies for safely performing high-difficulty HBP surgery in a regional training center
Daisuke Udagawa (Department of Surgery, NHO Tochigi Medical center, Tochigi, Japan)
- MWS4-6 Restart of pancreaticoduodenectomy after its cessation at a mid-sized hospital
Naoko Iwahashi Kondo (Department of Surgery, Sanraku Hospital, Tokyo, Japan)
- MWS4-7 Vascular inflow control strategies for hepatectomy after biliary-enteric anastomosis: Standardization of complex and open redo-surgery at a board-certified training institution in the MIS era
Toru Goto (Hepato-Biliary-Pancreatic Surgery Division, Department of Gastroenterological Surgery, Toranomon Hospital)
- MWS4-8 High-complexity hepatopancreatobiliary surgery in a municipal hospital: institutional experience with perihilar cholangiocarcinoma and a representative hepatopancreatoduodenectomy
Hisashi Kametaka (Department of General Surgery, Odawara Municipal Hospital, Kanagawa Japan)
- MWS4-9 Standardizing Robotic Surgery for Highly Advanced Hepato Biliary Pancreatic Procedures in a Community Hospital
Yuta Ushida (Department of Surgery, Toyota Kosei Hospital, JA Aichi Koseiren, Japan)
- MWS4-10 Establishment and Practice of a Young Surgeon-Led Robotic Hepatobiliary and Pancreatic Surgery Team in a Secondary Emergency Community Hospital with Limited Human Resources
Naoki Yagi (Department of Surgery, Saiseikai Maebashi Hospital, Gunma, Japan)

Mini-Workshop 5

► May 23 (Sat.) 15:30-17:00 [Room 5 (206)]

Practice in Community Hospitals 2

Moderators: Toshihiko Masui (Department of Surgery, Kurashiki Central Hospital)
Shohei Komatsu (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University Graduate School of Medicine)

- MWS5-1 Advancing HPB Surgery in a Remote Island Community Hospital: Integration of Professional Education, Citizen Awareness, and Regional Collaboration Toward High-Level Training Center A Accreditation
Hiroki Sunagawa (Department of Gastrointestinal surgery, Nakagami Hospital, Okinawa, Japan)
- MWS5-2 Strategies for High-Standard Hepatobiliary-Pancreatic Surgical Care in a Vast, Rapidly Aging Region: A Microcosm of Japan's Future
Yuki Miyazaki (Department of Gastroenterological Surgery, Iwate Prefectural Central Hospital)
- MWS5-3 Hepatobiliary and pancreatic surgery in general hospitals in the era of work style reform: a balance between safety and efficiency
Masato Narita (Department of Surgery, Kobe City Medical Center General Hospital)
- MWS5-4 Hepato-Bilio-Pancreatic Surgery in a Community General Hospital: Outcomes and Resource-Aware Team Management
Motoyasu Tabuchi (Kochi Health Science Center, Department of Gastrointestinal Surgery)
- MWS5-5 Practical implementation of hepatobiliary and pancreatic surgery and surgeon training in a community hospital setting in Japan
Takayoshi Nakajima (Department of Surgery, Meiwa Hospital)
- MWS5-6 Development and Assessment of a Parallel Training Program for Hepatobiliary-Pancreatic Surgery in a Community Hospital
Kazuya Maeda (Department of Surgery, Fukui Prefectural Hospital, Japan)
- MWS5-7 The Educational Significance of Cross-Organ Rotations and Early Robotic Integration for Hepatobiliary and Pancreatic Surgery Residents in General Hospitals: Toward Seamless Skill Acquisition in the Era of Minimally Invasive Surgery
Taku Iida (Department of Surgery, New Tokyo Hospital, Chiba, Japan)
- MWS5-8 Acquiring, maintaining, and teaching expertise in hepato-biliary-pancreatic surgery as a surgeon in emergency medicine
Takahiro Terashi (Emergency Medical Center, Oita Prefectural Hospital, Oita, Japan/Department of Surgery, Oita Prefectural Hospital, Oita, Japan)
- MWS5-9 Hepato-Biliary-Pancreatic Surgery Program in a Community Hospital for at JSHBPS B-Level Training institute
Shoichi Kageyama (Takamatsu Red Cross Hospital)
- MWS5-10 Efforts and outcomes toward accreditation as a certified training institution for board-certified expert surgeons in Hepato-Biliary-Pancreatic surgery at a community-based hospital
Masaki Ueno (Department of Gastrointestinal Surgery, NHO Osaka Minami Medical Center, Osaka, Japan)

Mini-Workshop 6

► May 23 (Sat.) 15:30-16:45 [Room 6 (204)]

Translational Research

Moderators: Nobuhisa Akamatsu (Artificial Organ and Transplantation Division, Department of Surgery, The University of Tokyo)

Takamichi Ishii (Department of Surgery for Abdominal Oncology and Organ Regeneration, Graduate School of Medicine, Kyoto University)

- MWS6-1 A Sarcomatoid Gene Signature Characterizes Mesenchymal Differentiation in Hepatocellular Carcinoma
Ryo Morisue (Division of Pathology, Exploratory Oncology Research and Clinical Trial Center, National Cancer Center, Chiba, Japan/Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East, Chiba, Japan/Department of Surgery, Osaka International Cancer Institute, Osaka, Japan)
- MWS6-2 Integrative analysis of histopathological growth patterns, peritumoral immunity, and genomics in colorectal liver metastases
Shoichiro Mizukami (Division of Hepato-Biliary-Pancreatic, Transplantation, and Gastrointestinal Surgery, Department of Surgery, Asahikawa Medical University, Asahikawa, Hokkaido, Japan)
- MWS6-3 Liver cancer stem cell is localized in the capsule of hepatocellular carcinoma
Takashi Kokudo (National Center for Global Health and Medicine)
- MWS6-4 Evaluation of tumor biological characteristics based on the diversity of oncogenic driver genes in cholangiocarcinoma
Kyosuke Morita (Hepatobiliary Pancreatic and Breast Surgery, Graduate School of Medicine, Ehime University)
- MWS6-5 Exploration of peripheral blood immune biomarkers bridging tumor immunology and immunotherapy resistance in unresectable hepatocellular carcinoma
Hiromasa Namba (Department of Liver Diseases, Japan Institute for Health Security, Chiba, Japan)
- MWS6-6 Association of HAMP expression and CD8+ T-cell infiltration with atezolizumab-bevacizumab response in hepatocellular carcinoma
Shun Nakamura (Department of Gastroenterological and Pediatric Surgery, Oita University, Japan)
- MWS6-7 Perioperative dynamics of KRAS-mutated ctDNA and late recurrence after neoadjuvant chemoradiotherapy in resectable pancreatic cancer
Takuro Fuke (Department of Gastroenterological Surgery, Kagawa University, Kagawa, Japan)
- MWS6-8 Diagnosis of pancreatic cancer using apolipoprotein A2 isoform and evaluation of exocrine pancreatic function after pancreatectomy
Akira Matsushita (Department of Gastroenterological Surgery, Nippon Medical School, Tokyo, Japan)

Mini-Workshop 7

► May 23 (Sat.) 15:30-16:20 [Room 10 (101+102)]

Gallbladder Cancer

Moderators: Shogo Kobayashi (Osaka International Cancer Institute)
Kei Nakagawa (Division of Hepato-Biliary and Pancreatic Surgery, Tohoku Medical and Pharmaceutical University)

- MWS7-1 A review of prognosis and treatment strategy of incidental gallbladder cancer at Mitsubishi Kyoto Hospital
Rei Toda (Department of Surgery, Mitsubishi Kyoto Hospital)
- MWS7-2 Clinical Utility of Intraoperative Frozen Section Evaluation of Lymph Node #12c and Tumor Invasion Depth for Surgical Decision-Making in Clinical T2 Gallbladder Cancer
Toshiro Ogura (Department of Gastroenterological Surgery, Saitama Cancer Center, Saitama, Japan)
- MWS7-3 The clinical impact of bile duct-preserving D2 lymph node dissection in gallbladder cancer
Takeshi Kado (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital)
- MWS7-4 Laparoscopic Extended Cholecystectomy for Suspected Gallbladder Cancer: Surgical Technique at Our Institution
Shuntaro Hirose (Institute of Science Tokyo Hospital)
- MWS7-5 A Novel Potential Pathway of T2 (Subserosal) Gallbladder Cancer Progression Revealed by Indocyanine Green (ICG) Fluorescence Imaging During Minimally Invasive Surgery
Hirotaka Okamoto (Department of Surgery, Tsuru-Municipal General Hospital)

Mini-Workshop 8

► May 23 (Sat.) 15:50-16:55 [Room 4 (205)]

Total Pancreatectomy

Moderators: Teiichi Sugiura (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center)
Keiko Kamei (Department of Surgery, Kindai University Hospital)

- MWS8-2 Three cases of total remnant pancreatectomy after pylorus-preserving pancreaticoduodenectomy
Toru Sano (Department of Digestive and Transplantation Surgery, Tokyo Medical University Hachioji Medical Center)
- MWS8-3 A Comparative Study of One-Stage Versus Two-Stage Total Pancreatectomy
Shuji Suzuki (Department of Gastroenterological Surgery, Ibaraki Medical Center, Tokyo Medical University, Inashikigun, Japan)
- MWS8-4 Short- and Long-Term Outcomes of Total Pancreatectomy and the Efficacy of Insulin and Pancreatic Enzyme Replacement Therapy
Hiroyuki Otsuka (Onomichi General Hospital)
- MWS8-5 Postoperative states and appropriate managements of patients undergoing total pancreatectomy
Hidejiro Urakami (Department of Surgery, National Hospital Organization Tokyo Medical Center)
- MWS8-6 Treatment results and validity of total pancreatectomy
Isaku Yoshioka (Department of Surgery and Science, University of Toyama, Japan)

- MWS8-7 Outcomes of Total Pancreatectomy: A Single-Institution Experience
Keigo Tachibana (Department of Gastroenterological Surgery, New Tokyo Hospital, Chiba, Japan)
- MWS8-8 Long-Term Glycemic Outcomes Following Total Pancreatectomy
Shutaro Hori (Department of Surgery, Keio University, Tokyo, Japan)

■ Mini-Video Symposium

Mini-Video Symposium 1

► May 23 (Sat.) 10:05-11:25 [Room 4 (205)]

Minimally Invasive Hepatectomy 1

Moderators: Yusuke Kumamoto (Department of General-Pediatric Hepatobiliary Pancreatic Surgery, Kitasato University School of Medicine)
Akira Maki (Department of HBP Surgery, Saitama Medical University Saitama Medical Centre)

- MVS1-1 A Structural Geometry Based Approach to Understanding Hepatectomy
Fumiaki Watanabe (Department of Surgery, Saitama Medical Center, Jichi Medical University, Saitama, Japan)
- MVS1-2 Surgical Strategy for the Resection of Right Intersectional Plane in Laparoscopic Right Anterior and Posterior Sectionectomy, and Segmentectomies of Segments VII and VIII, Considering Courses of P6a and RHV
Yusuke Yamamoto (Department of Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan)
- MVS1-3 Extra hepatic Glissonean, Hepatic Vein Guided Approach for Laparoscopic Left Hepatectomy for Left Intra-Ductal Papillary Neoplasm of Bile Duct (IPNB)
Fui Jin Chong (Tan Tock Seng Hospital, Singapore)
- MVS1-4 Tailor-Made Laparoscopic Segmentectomy of the Posterosuperior Segment (S7/8)
Kazuharu Igarashi (Department of General-Pediatric-Hepatobiliary Pancreatic Surgery, Kitasato University School of Medicine)
- MVS1-5 Standardized Laparoscopic Resection of Segments 7 and 8: Surgical Techniques and Perioperative Outcomes
Gen Yamamoto (Department of Surgery, Kobe City Medical Center General Hospital)
- MVS1-6 Standardized Technique for Robot-Assisted S7/S8 Anatomical Liver Resection
Genta Nagakubo (Department of Hepato-Biliary-Pancreatic Surgery and Artificial Organ Transplantation, The University of Tokyo Hospital, Tokyo, Japan)
- MVS1-7 The Significance of Robotic Hepatectomy for Anatomical Resection
Naoki Kamitani (Department of Surgery, Nara Prefecture General Medical Center, Nara, Japan)
- MVS1-8 AI-Driven Liver Segmentation and XR Guidance with Real-Time 3D-to-Field Registration for Minimally Invasive Hepatectomy
Maki Sugimoto (Innovation Lab, Teikyo University Okinaga Research Institute/HPB Surgery, Teikyo University)
- MVS1-9 The proportional mode : tips for more delicate and efficient liver resection with CUSA
Jun Muto (Department of General Surgery, Kurashiki Central Hospital, Okayama, Japan)
- MVS1-10 Totally Laparoscopic Major Hepatectomy for Pediatric Hepatoblastoma
Yasunari Ohno (Department of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Shinshu University, Nagano, Japan)

Mini-Video Symposium 2

► May 23 (Sat.) 12:50-14:20 [Room 9 (201)]

Robotic PD

Moderators: Hirochika Toyama (Department of General and Gastroenterological Surgery, Osaka Saiseikai Nakatsu Hospital)

Kosuke Kobayashi (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research)

- MVS2-1 Standardizing Robotic Pancreatoduodenectomy: How to Use the Fourth Arm
Taisuke Imamura (Department of Surgical Oncology, The University of Texas MD Anderson Cancer Center, Houston, USA/Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan)
- MVS2-2 Standardization of Robot-Assisted Pancreaticoduodenectomy at Our Institution: An Approach Aimed at Reducing Operative Time and Improving Safety
Ryuichi Yoshida (Department of Surgery, Hiroshima Citizens Hospital, Hiroshima, Japan)
- MVS2-3 Overcoming the Learning Curve in Robotic Pancreatoduodenectomy: Standardization using Clockwise Devascularization Technique
Yoshikuni Kawaguchi (Hepato-Biliary-Pancreatic Surgery Division, The University of Tokyo, Tokyo, Japan)
- MVS2-4 Standardizing Superior Mesenteric Artery Dissection in Robotic Pancreaticoduodenectomy: The Right Lateral Approach
Alessandro Furlanetto (Center for Advanced Treatment of Hepatobiliary and Pancreatic Diseases, Ageo Central General Hospital, Saitama, Japan)
- MVS2-5 Tips and standardization of the J1A marked left to right approach in robot-assisted pancreaticoduodenectomy
Jun Hanaoka (Department of gastrointestinal surgery, Ehime prefectural central hospital, Ehime, Japan)
- MVS2-6 A Hybrid SMA-Oriented Approach Following Mesenteric Kocherization in Robotic Pancreaticoduodenectomy: Technical Standardization and Clinical Outcomes
Kohei Mishima (Department of Surgery, Keio University School of Medicine, Tokyo, Japan)
- MVS2-7 Robotic Artery First Pancreatico-Duodenectomy Using Proximal Dorsal Jejunal Vein Pre-Isolation Technique
Aman Bansal (Surgical Gastroenterology, AIIMS Rishikesh, India)
- MVS2-8 Robotic Total pancreatectomy with splenic preservation and islet autotransplantation for chronic pancreatitis
Domenico Bassi (Hepato-Pancreato-Biliary and Liver Transplant Surgery Unit, Department of Surgical, Oncological and Gastroenterological Sciences (DiSCOG), University of Padua, Padua, Italy/Kidney and Pancreas Transplantation Unit, Department of Surgical, Oncological and Gastroenterological Sciences, School of Medicine and Surgery, University of Padua, Padua, Italy)

Mini-Video Symposium 3

▶ May 23 (Sat.) 14:25-15:45 [Room 8 (202)]

Minimally Invasive Hepatectomy 2

Moderators: Toru Hisaka (Division of Hepato-Biliary-Pancreas Surgery, Kurume University)
Hiromitsu Hayashi (Department of Gastroenterological Surgery, Kumamoto University)

- MVS3-1 Indications and limitations of the robot-assisted liver resection
Akishige Kanazawa (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University, Tokyo, Japan)
- MVS3-2 Expanding Robotic Platforms in Liver Surgery: First Experience with Hugo™ Robotic-Assisted Surgery for Left Lateral Sectionectomy and Comparative Insights from da Vinci Xi and Single-Port Experience
Suk Kyun Hong (Seoul National University Hospital, Republic of Korea)
- MVS3-3 Leveraging the Advantages of Robotic Forceps: Monopolar Scissors Push/Scratch/Sweep Liver Parenchymal Transection with VIO 3 using ICG fluorescence on the New Japanese Robot “hinotori” System
Zenichi Morise (Department of Surgery, Fujita Health University School of Medicine Okazaki Medical Center, Okazaki, Japan)
- MVS3-5 Comparison of Robotic Liver Resection Techniques Using da Vinci Xi and SP Systems
Yasuji Seyama (Department of Hepato-Biliary-Pancreatic Surgery, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital, Tokyo, Japan)
- MVS3-6 “The dual Maryland bipolar method” ~a simple and fast parenchymal transection method for robotic liver resection~
Kojiro Taura (Department of Gastroenterological Surgery and Oncology, Medical Research Institute KITANO Hospital)
- MVS3-7 Adjunctive Use of CUSA for Hilar Approach in Robotic Liver Resection: A Practical Technique to Enhance Safety
Kazuki Takeishi (Department of Hepatobiliary Pancreatic Surgery, Kyushu Medical Center, Fukuoka, Japan)
- MVS3-8 Minimally invasive anatomical liver resection utilizing intraoperative 3D ICG navigation system
Takao Ide (Department of Surgery, Saga University Faculty of Medicine)
- MVS3-9 Advanced Minimally Invasive Hepatectomy Based on Hepatic Vein Control—From Laparoscopic Strategies to Robotic Surgery—
Taisuke Imamura (Division of Digestive Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan)
- MVS3-10 FlagAR Navi for Minimally Invasive Liver Resection: Practical “Single-Screen” Intraoperative Ultrasound Navigation to Support Hepatectomy
Takeshi Takamoto (Hepato-Biliary-Pancreatic Surgery Division / Artificial Organ and Transplantation Division, University of Tokyo, Japan)

■ Mini-Video Workshop

Mini-Video Workshop 1

▶ May 22 (Fri.) 15:00-16:10 [Room 2 (Convention Hall B)]

Robotic PD

Moderators: Masafumi Imamura (Department of Surgery, Division of Gastroenterological Surgery, Sapporo Medical University)
Naohisa Kuriyama (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Graduate School of Medicine)

- MVW1-2 Modified Robotic Pancreaticogastrostomy After Robotic Pancreaticoduodenectomy: Technical Refinements and Short-Term Outcomes
Satoshi Okubo (Department of Gastroenterological Surgery, Toranomon Hospital)
- MVW1-3 Precision in Reconstruction: Standardized Robotic Continuous Hepaticojejunostomy for Non-Dilated Bile Ducts
Takatsugu Matsumoto (Department of Hepato-Biliary-Pancreatic Surgery, Dokkyo Medical University)
- MVW1-4 Development of Six-Tail Technique for safe and feasible lost stent placement in robot-assisted pancreatoduodenectomy
Haruyoshi Tanaka (Nagoya University Hospital, Nagoya, Japan)
- MVW1-5 Structured Simulation Training for Pancreatojejunostomy and Outcomes After Robotic Pancreaticoduodenectomy: Impact on Prolonged Hospital Stay
Ryosuke Minagawa (Department of Surgery Matsuyama Red Cross Hospital)

Mini-Video Workshop 2

▶ May 22 (Fri.) 15:00-16:10 [Room 3 (Convention Hall A)]

Difficult Acute Cholecystitis

Moderators: Akiko Umezawa (Minimally Invasive Surgery Center, Yotsuya Medical Cube)
Koji Asai (Department of Surgery, Toho University Ohashi Medical Center)

- MVW2-1 Impact of Early Percutaneous Transhepatic Gallbladder Drainage Followed by Interval Laparoscopic Cholecystectomy in Acute Cholecystitis
Yasuhiro Mitake (Department of surgery, Japanese Red Cross Aichi Medical Center Nagoya Daini Hospital)
- MVW2-2 ICG Fluorescence Cholangiography Enhances Biliary Safety Even in Emergency Laparoscopic Cholecystectomy
Yuta Enami (Digestive Disease Center, Showa Medical University Northern Yokohama Hospital/ Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University)
- MVW2-3 Clinical Impact of Indocyanine Green Fluorescence Cholangiography in Acute Cholecystitis
Yusuke Nie (Ageo Central General Hospital)
- MVW2-4 Bail-out Surgery for Difficult Laparoscopic Cholecystectomy and the Significance of Intraoperative Indocyanine Green Fluorescent Cholangiography
Genki Watanabe (Department of Hepato-Biliary-Pancreatic Surgery, Izumi City General Hospital)

- MVW2-5 Laparoscopic Cholecystectomy for Challenging Cases in Our Department
Yoshio Deguchi (Showa Medical University Koto-Toyosu Hospital)
- MVW2-6 Techniques and Short-Term Outcomes of Subtotal Cholecystectomy for Cholecystitis
Jun Kawashima (Department of Gastroenterological Surgery, Yokohama City University, Yokohama, Japan)
- MVW2-7 Three-Port Laparoscopic Cholecystectomy for Acute Cholecystitis: A Young Surgeon's Perspective
Hoai Kim Nguyen (Department of Liver Tumor, Binh Dan Hospital, Ho Chi Minh City, Vietnam, Viet Nam)

Mini-Video Workshop 3

► May 22 (Fri.) 15:00-16:10 [Room 9 (201)]

Troubleshooting in MIS 1

- Moderators: Shinji Itoh (Department of Surgery and Science, Graduate School of Medical Sciences, Kyushu University)
Naoto Gotohda (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- MVW3-1 Strategies for Managing Intraoperative Complications in Minimal Invasive Liver Resection
Yoichi Kawano (Department of Gastrointestinal Surgery, Nippon Medical School, Tokyo, Japan)
- MVW3-2 Left-to-Right Vein Exposure for Safe Resection of Tumors Close to Major Hepatic Vein Roots
Ryo Takeda (Kyoto Prefectural University of Medicine)
- MVW3-3 Managements for intraoperative bleeding during laparoscopic/robotic liver resection
Shinya Hayami (Second Department of Surgery, Wakayama Medical University, Wakayama, Japan)
- MVW3-4 Hemostasis for Inferior Vena Cava Bleeding During Laparoscopic Hepatectomy
Shin Kobayashi (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East, Japan)
- MVW3-5 Management of Major Hepatic Venous Bleeding During Minimally Invasive Hepatectomy: An Exploratory Study Using an Elastomeric Sealant
Ryo Ashida (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Japan)
- MVW3-6 Strategies of controlling intraoperative complications and overcoming difficulties in robotic pancreatectomy
Yutaka Takeda (Department of Surgery, Kansai Rosai Hospital)
- MVW3-7 Standardized Protocol and Troubleshooting during Robotic Hepato-Biliary-Pancreatic Surgery
Kosei Takagi (Department of Gastroenterological Surgery, Okayama University, Okayama, Japan)

Mini-Video Workshop 4

▶ May 23 (Sat.) 16:00-17:00 [Room 7 (203)]

Troubleshooting in MIS 2

Moderators: Takehiro Noji (Nursing Division, Faculty of Health Sciences, Hokkaido University)
Akihiko Soyama (Department of Digestive Surgery and Transplantation, Tokushima University)

- MVW4-1 Initial Introduction and Early Outcomes of Robot-Assisted Liver Resection at Our Institution: Focusing on Troubleshooting for Intraoperative Bile Leakage
Takahiro Ozaki (National Hospital Organization Shizuoka Medical Center)
- MVW4-2 Tri-Scenario-Based Strategy for Minimally Invasive Extended Left Hepatectomy
Yusuke Yamamoto (Department of Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan)
- MVW4-3 Laparoscopic Segmentectomy 2 Using the Arantius Ligament as an Anatomical Landmark
Kaival Ketan Gundavda (Department of Hepatobiliary-Pancreatic Surgery, Specialty Surgical Oncology, Mumbai, India/Tokyo Women's Medical University, Tokyo, Japan)
- MVW4-4 Glisson first approach for Laparoscopic anatomical hepatectomy on patients with large hepatocellular carcinoma
Jun Muto (Department of General Surgery, Kurashiki Central Hospital)
- MVW4-5 Innovative Approach to Visual Field Expansion During Robot-Assisted Hepatectomy; Flipping of the Left Lateral lobe for Spigel Lobe Resection
Ryo Morimura (Division of Digestive Surgery, Kyoto Prefectural University of Medicine, Kyoto, JAPAN)

■ Resident & Student Session

Resident & Student Session 1

▶ May 22 (Fri.) 8:00-8:55 [Room 9 (201)]

Moderators: Tsuyoshi Kobayashi (Department of Gastroenterological and Transplant Surgery, Hiroshima University)
Jun Sakata (Division of Digestive and General Surgery, Niigata University Graduate School of Medical and Dental Sciences)

- RS1-1 Award Congruence of predictors for pancreatic surgery outcomes—a unifying model
Milos Z Lalovic (The First Department of HPB surgery, Clinic for digestive surgery-First surgical clinic, University of Belgrade, Belgrade, Serbia)
- RS1-2 Additive predictive value of preoperative CT-derived body-composition indicators for postoperative NAFLD after pancreaticoduodenectomy: A Monte Carlo cross-validation study
Mai Nagai (Department of Hepatobiliary-Pancreatic and Transplant Surgery, Mie University Faculty of Medicine, Mie, Japan)
- RS1-3 Award Development and Validation of an Objective Pancreatic Texture Prediction Model using Preoperative CT Radiomics: The Missing Link between Surgeon's 'Palpation' and Pathological 'Fibrosis'
Itsuki Ino (Department of Hepatobiliary-Pancreatic and Transplant Surgery, Mie University Faculty of Medicine)

- RS1-4
Award
Histologic and Transcriptomic Characterization of a High Fat Diet (HFD) Murine Model undergoing Hepatic Ischemic Reperfusion Injury (IRI)
Ryan Hackett (The Transplant Institute, Medstar Georgetown University Hospital, Washington, D.C., United States of America)
- RS1-5
Impact of Early Postoperative Acute Kidney Injury on Graft Function and Short-Term Survival after Living Donor Liver Transplantation: Insights from a Decade-Long Single-Center Experience
Vijaykumar B. Ishwarappagol (Centre for liver and biliary sciences, Max Saket, NewDelhi, India)
- RS1-6
A case of pancreatic carcinosarcoma presenting with polypoid growth in the main pancreatic duct
Ibuki Sato (Department of Surgery, Chiba-Nishi General Hospital, Chiba, Japan)
- RS1-7
Giant Pancreatic Acinar Cell Carcinoma with Impending Rupture: A Case Highlighting Distinct Wnt/ β -Catenin Pathway Activation Versus KRAS-Driven Ductal Adenocarcinoma
Rio Akiyama (Fukuoka Seisyukai Hospital, Fukuoka, Japan)
- RS1-8
Clinicomorphological Characteristics and Surgical Outcomes in Chronic Pancreatitis With Emphasis on Non-Alcoholic Etiology: A Prospective Observational Study
Soumyadip Sain (Sir Ganga Ram Hospital, New Delhi, India)
- RS1-9
Comparison of Diagnostic Accuracy of Neutrophil-Lymphocyte Ratio and BISAP Score in Predicting the Severity of Gallstone-Induced Acute Pancreatitis in a Single-Center in the Philippines: A Retrospective Cross-Sectional Study
Eunice Patricia O. Santos (Department of Surgery, Manila Doctors Hospital, Manila, Philippines)

Resident & Student Session 2

► May 22 (Fri.) 9:00-9:55 [Room 9 (201)]

- Moderators: Shunichi Ariizumi (Tokyo Women's Medical University)
Yasuji Seyama (Department of Hepato-Biliary-Pancreatic Surgery, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital)
- RS2-1
Internal Hernia After Robotic-Assisted Pancreaticoduodenectomy: A Case Report
Aika Kobayashi (Department of Surgery, Nagoya University Hospital, Nagoya, Japan)
- RS2-2
A Study of Pancreaticoduodenectomy in the Elderly at Community Hospitals Not Designated as Advanced Skills Training Facilities
Shotaro Yamashita (Department of Surgery, Tamakyuryo Hospital, Tokyo, Japan)
- RS2-3
Award
A Case of Portal Vein Stent Placement for Portal Vein Stenosis After Pancreaticoduodenectomy
Yuima Nakamura (Department of General Surgery, Odawara Municipal Medical Center, Kanagawa, Japan)
- RS2-4
A case of PET-positive ectopic pancreas of the small intestine that was difficult to distinguish from small intestinal cancer
Atsuki Sugimoto (Department of Gastrointestinal Surgery, Toranomom Hospital, Tokyo, Japan)
- RS2-5
A case of laparoscopic distal pancreatectomy for branch-duct intraductal papillary mucinous neoplasm with a preoperatively diagnosed portal annular pancreas
An Hosoe (Department of Hepato-Biliary-Pancreatic Surgery, Kobe University, Kobe, Japan)

- RS2-6
Award
Managing Celiac Axis Stenosis in Pancreaticoduodenectomy: Educational Insights from an Aorta-Guided Approach to the Median Arcuate Ligament
Masaya Kato (Japanese Red Cross Kyoto Daiichi Hospital)
- RS2-7
Defining the Regional Spectrum of Solid Pseudopapillary Neoplasm of Pancreas in Eastern India: A Case Series Contributing to the Global Picture
Monal S. Shah (Department of Surgical Gastroenterology and Liver transplant, Indira Gandhi Institute of Medical Sciences, Patna, Bihar, India)
- RS2-8
Long-term efficacy and safety outcomes of folfinox versus gemcitabine as adjuvant therapy for pancreatic cancer
Ulil Albab Habibah (Islamic University Indonesia, Indonesia)
- RS2-9
Differences in grade C postpancreatectomy hemorrhage with or without clinically relevant pancreatic fistula after pancreaticoduodenectomy
Yuran Dai (Pancreas Center, The First Affiliated Hospital of Nanjing Medical University, Nanjing, China)

Resident & Student Session 3

► May 23 (Sat.) 12:50-14:00 [Room 10 (101+102)]

Moderators: Mitsuhiro Asakuma (Department of General and Gastroenterological Surgery, Osaka Medical and Pharmaceutical University)
Isaku Yoshioka (Department of Surgery and Science, University of Toyama)

- RS3-1
A Case of Primary Hepatic Neuroendocrine Tumor
Kei Fukumori (Osaka International Medical & Science Center, Osaka Police Hospital)
- RS3-2
Award
A Case of G-CSF-Producing Dedifferentiated Liposarcoma Achieving Local Control After Four Resections Including Hepatectomy and Pancreaticoduodenectomy
Teppeki Okawa (Department of Surgery, Saitama Medical Center, Jichi Medical University, Saitama, Japan)
- RS3-3
Award
Radiologic Features Associated with Lymph Node Metastasis in Intrahepatic Cholangiocarcinoma
Nasisorn Chayaronkulrat (Department of surgery, Faculty of Medicine, Khon Kaen University, Khon Kaen, Thailand)
- RS3-4
Non-Cirrhotic Portal Hypertension(NCPH): Exploring the Clinical, Demographic profile, short and long term outcome of Shunt surgery at a tertiary care hospital in Odisha
Swamy Rajesh Hudugur (IMS & SUM Hospital, Bhubhanwshwar, Odisha, India/Nizams Institute of Medical Sciences, Hyderabad, India (NIMS))
- RS3-5
Laparoscopic Extended Right Hemihepatectomy for a Large Hepatocellular Carcinoma with Glisson First Approach: a case report
Kentaro Tachi (Department of Medical Education, Kurashiki Central Hospital, Okayama, Japan)
- RS3-6
A Case of Liver Resection with Combined Resection and Reconstruction of the Right Hepatic Vein after Chemotherapy for Colorectal Liver Metastasis Suspected of Hepatic Vein Invasion
Kana Kamei (Department of Surgery, Kouseiren Takaoka Hospital)
- RS3-7
Award
Laparoscopic Versus Open Surgery for intrahepatic cholangiocarcinoma: Comparative Outcomes in Lymph Node Retrieval, Postoperative Complications, and Survival rate
Apichaya Teeramit (Department of surgery, Faculty of Medicine, Khon Kaen university, Khon Kean, Thailand)

- RS3-9 A case of metachronous liver metastasis 20 years after the local resection of rectal gastrointestinal stromal tumor
Aoi Kubo (Department of Surgery, NHO Kyoto Medical Center)
- RS3-10 De novo inflammatory hepatocellular adenoma in a liver allograft mimicking recurrent hepatocellular carcinoma 16 years after transplantation
Takaya Yasutoko (Hiroshima University)
- RS3-11 Preoperatively Diagnosed and Resected Primary Hepatic Neuroendocrine Tumor: A Case Report
Seiichiro Goka (Department of Surgery, Saitama Medical Center, Jichi Medical University)

Resident & Student Session 4

► May 23 (Sat.) 14:10-15:20 [Room 10 (101+102)]

Moderators: Hidehiro Tajima (Department of Surgery, Dokkyo Medical University, Saitama Medical Center)
Ryusei Matsuyama (Department of Gastroenterological Surgery, Yokohama City University)

- RS4-1 Motion-Label-Guided Forceps Coaching in a Porcine Laparoscopic Cholecystectomy Lab: A First Operative Experience for PGY-1 Residents
Hana Mukuno (Japanese Red Cross Kyoto Daiichi Hospital, Kyoto, Japan)
- RS4-2 The Importance of a “Variant-First” Perspective When Landmarks Collapse in Severe Acute Cholecystitis
Ryoga Okawa (Japan Red Cross Kyoto Daiichi Hospital)
- RS4-3 Three Cases of Complete Gallbladder Torsion Treated with Single-Incision Laparoscopic Cholecystectomy
Masako Taguchi (Department of Surgery, Japanese Red Cross Ashikaga Hospital, Tochigi, Japan)
- RS4-4 A Prospective Single Centre Study Comparing Contious and Interrupted Hepaticojejunostomy
Award
Abhimanyu Vatsa (Department of surgical gastroenterology and liver transplant, Indira gandhi institute of medical sciences, patna, Bihar, India)
- RS4-5 Navigating the Mirror : Laparoscopic approach to Biliary cyst in Situs inversus totalis
Netrananda Acharya (Indira Gandhi Institute of Medical Sciences, India)
- RS4-6 Outcomes of Operative and Non-operative Approaches in Biliary Dyskinesia: Evidence from a Systematic Review and Meta-Analysis
Faiza Hashim Soomro (Mid Yorks Teaching Trust, United Kingdom)
- RS4-7 A Jejunal Loop-Preserving and Mesentery-Sparing Reconstruction for Pancreaticoduodenectomy in a Patient with Prior Total Gastrectomy
Award
Rena Mototani (Department of Professional Development, Institute of Science Tokyo)
- RS4-9 Clinical Analysis of Incidental Gallbladder Cancer at Our Institution
Chihiro Hashimoto (Department of Surgery, Ashikaga Red Cross Hospital, Tochigi, Japan)
- RS4-10 A Case of Mucinous Cystic Neoplasm in a Male
Kohdai Kutsukake (Clinical Training center, Seirei Mikatahara General Hospital, Hamamatsu, Japan)
- RS4-11 A Case of Mucinous Cystic Neoplasm of the Pancreas Occurring in a Male
Hidetaka Nakahara (Ota memorial hospital, Gunma, Japan)

■ E-Poster

E-Poster 1

► May 22 (Fri.) 8:00-8:55 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Anatomy and Resection

Moderators: Moriaki Tomikawa (Department of Hepato-Biliary-Pancreatic Surgery, Tochigi Cancer Center)
Hiroshi Noda (Department of Surgery, Saitama Medical Center, Jichi Medical University)

- FP1-1 Analysis of Treatment Strategies and Recurrence Patterns in Pancreatic Head Cancer With Replaced Hepatic Arteries
Satoru Tsuruta (Department of Gastroenterological Surgery, Hirosaki University School of Medicine)
- FP1-2 Surgical Management and Outcome of Pancreaticoduodenectomy with Concomitant Resection of an Aberrant Right Hepatic Artery for Pancreatic Head Cancer
Naoto Nishida (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University, Kanazawa, Japan)
- FP1-3 Pancreatectomy with simultaneous resection of hepatic artery for pancreatic cancer
Sho Tazuma (Department of Surgery, Hiroshima University, Hiroshima, Japan)
- FP1-4 Optimal SMA/SMV Margin in Pancreatic Cancer Surgery
Shunsuke Nagahama (Department of General Surgery, Kurashiki Central Hospital, Okayama, Japan)
- FP1-5 Prognostic factors in pancreatic cancer surgery of pancreaticoduodenectomy with portal vein resection at our institution
Hideo Tomihara (Department of Gastroenterological Surgery, Sakai City Medical Center, Osaka, Japan)
- FP1-6 Postoperative outcomes of pancreaticoduodenectomy with PVR for pancreatic cancer
Shotaro Kanahara (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- FP1-7 Technical Aspects of Patch Reconstruction during Open and Robotic Pancreatoduodenectomy with Venous Resection: Preserving Venous Axis and Collaterals without Sacrificing Radicality
Domenico Bassi (Hepato-Pancreato-Biliary and Liver Transplant Surgery Unit, Department of Surgical, Oncological and Gastroenterological Sciences (DiSCOG), University of Padua, Padua, Italy)
- FP1-8 Solution in a Resource-limited Setting: Peritoneal Patch Graft in Portal Venous Reconstruction During Pancreaticoduodenectomy
Golam Mahmud Rayhan (Department of Surgical Gastroenterology, National Gastroliver Institute & Hospital, Dhaka, Bangladesh)
- FP1-9 Reconsidering Portal Vein Reconstruction in Distal Pancreatectomy: Patency, Collateral Formation, and Late Complications
Yasuhiro Nunokawa (Department of Hepato-Biliary- Pancreatic Surgery and Pediatric Surgery, Saitama Medical Center, Saitama Medical University)

E-Poster 2

► May 22 (Fri.) 8:00-9:00 [E-Poster Room 2 (Convention Hall C)]

Pancreas, Basic Research

Moderators: Yoshito Tomimaru (Department of Gastroenterological Surgery, Graduate School of Medicine, The University of Osaka)
Kota Nakamura (Department of Surgery, Nara Medical University)

- FP2-1 Identification of Recurrence-Associated Lipid Biomarker Candidates Through Comprehensive Lipid Profiling of Pancreatic Cancer Tissues
Akio Matsumoto (Department of Surgery, Hamamatsu University school of Medicine, Hamamatsu, Japan)
- FP2-2 PLPP4: A Key Lipid Metabolism-Related Prognostic Factor in Pancreatic Ductal Adenocarcinoma
Yukun Hou (Peking University First Hospital, China)
- FP2-3 Spatial Transcriptomics Reveal the Molecular Features of TLS in Pancreatic cancer
Yongsu Ma (Peking University First Hospital, China)
- FP2-5 Cezanne-Mediated Redox Imbalance and Immune Escape Pathways Drive Poor Prognosis in Pancreatic Cancer
Jinuk Jeong (Interdisciplinary Graduate Program in Cancer Biology, Seoul National University College of Medicine, Seoul, Republic of Korea)
- FP2-6 FAM111B Inhibition Restores CXCL10/11-Mediated T cell Recruitment to Overcome Gemcitabine Resistance and Immune Evasion in PDAC
Juhyang Lee (Department of Surgery, Seoul National University Hospital, Seoul, Republic of Korea)
- FP2-7 POH1 promotes therapeutic resistance in pancreatic cancer through endoplasmic reticulum autophagy
Fusheng Zhang (Peking University First Hospital, Peking University, Beijing, China)
- FP2-8 KRAS-Mutant Pancreatic Cancer Regulates Gemcitabine Resistance Through an SLC7A11-Mediated SMAD Signaling Program
Minseo Kim (Department of Surgery, Seoul National University Hospital, Seoul, Republic of Korea)
- FP2-9 Effects of radiation on tumor-nerve crosstalk involved in perineural invasion of pancreatic cancer
Masataka Hirano (Department of Gastroenterological Surgery, Graduate School of Medicine, The Osaka University)
- FP2-10 Efficacy of Near-Infrared Photoimmunotherapy Against Pancreatic Cancer Cell Lines
Yuki Matsui (Department of Pancreatobiliary Surgery, Kansai Medical University, Hirakata City, Osaka, Japan)

E-Poster 3

► May 22 (Fri.) 8:00-8:50 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Biological BR PDAC

Moderators: Tomohiko Adachi (Department of Surgery, Hepato-Biliary-Pancreatic Surgery and Transplantation, Nagasaki University)
Kazuyuki Nagai (Department of Surgery, Graduate School of Medicine, Kyoto University)

- FP3-1 Definition and treatment strategy for biological borderline resectable pancreatic ductal adenocarcinoma in body/tail pancreas
Koji Kubota (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
- FP3-2 Optimal Treatment Strategies for Biological Borderline Resectable Pancreatic Cancer
Shigeto Ochiai (Department of Digestive and Transplantation Surgery, Tokyo Medical University Hachioji Medical Center, Tokyo, Japan)
- FP3-3 Limitations of preoperative GS therapy in improving prognosis for resectable pancreatic cancer and future treatment strategies
Takeshi Sudo (Department of Surgery, NHO Kure Medical Center Chugoku Cancer Center, Hiroshima, Japan)
- FP3-4 Prognostic factors after NAC GS therapy for Resectable Pancreatic cancer
Yoshihiro Shirai (Division of Hepatobiliary and Pancreatic Surgery, Department of Surgery, The Jikei University School of Medicine)
- FP3-5 A Multicenter Retrospective Cohort Study of Neoadjuvant Chemotherapy for Resectable Pancreatic Cancer
Hiroaki Fujita (Department of Gastroenterological Surgery, Hirosaki University, Aomori, Japan)
- FP3-6 Treatment Outcomes and Stratification Factors for Long-Term Survival in Resectable Pancreatic Cancer
Takeshi Kurihara (NHO Kyushu Cancer Center)
- FP3-7 Surgical outcomes and predicting factors for recurrence in resected Stage I pancreatic cancer
Yuki Nunoshita (Nagasaki University, Department of Surgery, Hepato-Biliary-Pancreatic Surgery and Transplantation, Nagasaki, Japan)
- FP3-8 Treatment Strategy and Clinical Outcomes of Neoadjuvant Therapy for Resectable Pancreatic Cancer
Ryosuke Yamanaka (Department of Surgery, Institute of Gastroenterology, Tokyo Women's Medical University)

E-Poster 4

► May 22 (Fri.) 8:00-9:00 [E-Poster Room 4 (Convention Hall C)]

Liver, HCC BR/Multidisciplinary Treatment

Moderators: Hidetake Amemiya (First Department of Surgery, Yamanashi University)
Keiichi Akahoshi (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo)

- FP4-1 Clinical Outcomes of Hepatocellular Carcinoma Stratified by an Institution-Specific Resectability Classification
Ikuo Nakamura (Division of Hepato-Biliary-Pancreatic Surgery, Department of Gastroenterological Surgery, Hyogo Medical University)

- FP4-2 Surgical Outcomes for BR1 Hepatocellular Carcinoma
Yuhei Hamaguchi (Department of Surgery, Japanese Red Cross Osaka Hospital)
- FP4-3 Evaluation of the prognostic effect of the type and extent of vascular invasion in Hepatocellular Carcinoma
Shigeaki Kurihara (Department of Hepatobiliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine, Osaka, Japan)
- FP4-4 Clinical Impact of Preoperative Prognostic Nutritional Index in Patients Undergoing Liver Resection for Hepatocellular Carcinoma
Akihiro Kitagawa (Department of Surgery, Sakai City Medical Center)
- FP4-5 Biological Borderline-Resectable Hepatocellular Carcinoma Based on Resectability Classification: A Nomogram for Early Recurrence Prediction
Yuki Kitano (Department of Gastroenterological Surgery, Kumamoto University Hospital, Kumamoto, Japan)
- FP4-6 A Study of Early Recurrence After Curative Resection of Hepatocellular Carcinom
Mikiya Shine (Department of Hepato-Biliary-Pancreatic and Breast Surgery, Ehime University, Japan)
- FP4-7 Predictive Factors for Rapid Tumor Progression of Hepatocellular Carcinoma after Local Therapy
Wataru Miyoshino (Department of Gastrointestinal and Pediatric Surgery, Oita University Faculty of Medicine, Oita Japan)
- FP4-9 Stereotactic body radiation therapy as an add-on to targeted agents in patients with locally advanced hepatocellular carcinoma
Mohamed Hamouda Elkasaby (Faculty of Medicine, Al-Azhar University, Cairo, Egypt/Faculty of Medicine, Suez University, Suez, Egypt)
- FP4-10 Seven Hepatocellular carcinoma cases achieved Complete response by Immuno-checkpoint inhibitor
Shinsuke Nakashima (Department of Gastroenterological Surgery, Toyonaka Municipal Hospital, Osaka, Japan)

E-Poster 5

► May 22 (Fri.) 8:00-9:00 [E-Poster Room 5 (Convention Hall C)]

Liver, Surgical Procedure

Moderators: Yuta Enami (Digestive Disease Center, Showa Medical University Northern Yokohama Hospital)

Yoichiro Uchida (Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Department of Surgery, Graduate School of Medicine, Kyoto University)

- FP5-1 Preoperative simulation and intraoperative navigation for liver resection in our department
Shintaro Kodai (Department of Gastroenterological Surgery, Osaka City General hospital, Osaka, Japan)
- FP5-2 Outcomes of Hepatic Parenchymal Transection Using a Hook-Shaped Ultrasonic Dissector in a Regional Core Hospital
Shoki Sato (Department of Surgery, Kitami Red cross hospital, Hokkaido, Japan)
- FP5-3 Laparoscopic Fenestration for Hepatic Cysts: Institutional Experience and Surgical Technique Refinements
Haruka Nagamori (Department of Digestive Surgery, Japanese Red Cross Kyoto Daiichi Hospital)
- FP5-4 Omentopexy Fixation After Laparoscopic Fenestration for Symptomatic Hepatic Cysts: Radiologic Recurrence Patterns in 13 Patients
Kazuharu Watanabe (Surgery, Kawasaki Saiwai Hospital, Kanagawa, Japan)

- FP5-5 Safety and Efficacy of Indocyanine Green Fluorescence-Assisted Laparoscopic Fenestration for Hepatic Cysts
Ryosuke Hosogi (Nagoya City University Graduate School of Medical Sciences Department of Gastroenterological Surgery)
- FP5-6 New operative concept for management of bilateral hepatolithiasis—a retrospective study
Bidhan C Das (Bangladesh Medical University, Dhaka, Bangladesh)
- FP5-7 Strategies for ICG Fluorescence-Guided Open Repeat Hepatectomy
Hiroto Nishino (Department of Surgery, Graduate School of Medicine, Kyoto University, Kyoto, Japan)
- FP5-8 A Case Series of Liver Resection for Metastatic Liver Tumors after Pancreatoduodenectomy
Miyuki Takahashi (National Hospital Organization Disaster Medical Center, Department of Gastroenterological and Breast Surgery)
- FP5-9 Usefulness of Prior Excision of the G1Li Branch in Left Hepatectomy for Bulky Hepatocellular Carcinoma with Invasion of the Left Glissonean Pedicle
Yoji Miyahara (Department of General Surgery, Odawara Municipal Medical Center, Kanagawa, Japan)
- FP5-10 Laparoscopic Assisted Associated Liver Partition and Portal vein Ligation for Staged Hepatectomy (ALPPS) for a Giant hepatocellular Carcinoma
JaRyung Han (Department of Hepatobiliary pancreas surgery and Liver transplantation, Daegu Catholic University Medical Center, Daegu, Republic of Korea)

E-Poster 6

► May 22 (Fri.) 8:00-8:55 [E-Poster Room 6 (Convention Hall C)]

Biliary, Laparoscopic Cholecystectomy 1

- Moderators: Shintaro Kuroda (Department of Gastroenterological Surgery, Hiroshima University Hospital)
Eriko Katsuta (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo)
- FP6-1 Association Between Cystic Duct Recanalization After PTGBD for Acute Cholecystitis and Short-Term Outcomes of Laparoscopic Cholecystectomy
Yohei Mano (Department of Surgery, Kyushu Central Hospital, Fukuoka, Japan)
- FP6-2 Preoperative Computed Tomography Gallbladder Wall Thickness Predicts Surgical Difficulty in Elective Laparoscopic Cholecystectomy After Percutaneous Transhepatic Gallbladder Drainage
Shodai Nagaishi (Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa Medical University)
- FP6-3 Optimal interval between laparoscopic cholecystectomy and treatment for choledocholithiasis
Masahiro Shiihara (Department of Gastrointestinal Surgery, Tokyo Medical University Ibaraki)
- FP6-4 Preoperative risk factors for bailout surgery during laparoscopic cholecystectomy for acute cholecystitis
Naoko Kamo (Department of gastrointestinal Surgery, Mitsubishi Kyoto Hospital, Kyoto, Japan)
- FP6-5 A Study on Predictors for Conversion to Bailout Procedures in Acute Cholecystitis
Kei Asukai (Department of Gastrointestinal Surgery, Yao Municipal Hospital, Osaka, Japan)
- FP6-6 Decision-Making Factors to Proceed With Bailout Procedures During Laparoscopic Cholecystectomy
Kazuya Hirukawa (Department of Surgery, Kawasaki Municipal Hospital, Kanagawa, Japan)

- FP6-7 Laparoscopic Subtotal Cholecystectomy for Acute Cholecystitis at Our Institution
Hiroki Koga (Hepato-biliary-pancreatic Surgery, Saga-Ken Medical Centre Koseikan, Saga, Japan)
- FP6-8 Bailout surgery for Acute Cholecystitis at Our Institution
Yoshiaki Ohmura (Department of Surgery, Rinku General Medical Center, Osaka, Japan)
- FP6-9 Perioperative Outcomes of Nurse Practitioner Scopists in Laparoscopic Cholecystectomy Compared with Physicians
Yuki Numata (Department of Nurse Practitioners, Fujita Health University Hospital, Aichi, Japan)

E-Poster 7

► May 22 (Fri.) 9:00-10:00 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Distal Pancreatectomy

- Moderators: Minoru Oshima (Department of Gastroenterological Surgery, Kagawa University)
Moe Matsumoto (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- FP7-2 Clinical Outcomes of Single-Incision Laparoscopic Distal Pancreatectomy: experience from National Taiwan University Hospital
Tyng-Huey Lee (Department of Surgery, National Taiwan University Hospital, Taipei, Taiwan)
- FP7-3 Robot-Assisted Distal Pancreatectomy with Symmetric Trocar Placement
Ryo Nakashima (Department of Gastroenterological Surgery, Fukuoka University, Fukuoka, Japan)
- FP7-4 Utility of Preceding Splenic Mobilization using SUTCHEY Technique in Robot assisted Distal Pancreatectomy
Haruka Ozasa (Kyoto Prefectural University of Medicine, Kyoto, Japan)
- FP7-5 Surgical outcomes of robot-assisted distal pancreatectomy by formalizing and troubleshooting at our institutions
Kyouhei Abe (Saku Central Hospital Advanced Care Center/Department of Surgery, The Jikei University School of Medicine)
- FP7-6 Spleen-preserving distal pancreatectomy: a single-center experience
Sho Uemura (Department of Surgery, NHO Tokyo Medical Center)
- FP7-7 Pancreatic Parenchymal Transection Using a Manual Stapler and Risk Factors for Postoperative Pancreatic Fistula in Distal Pancreatectomy
So Yamaki (Department of PancreatoBiliary Surgery, Kansai Medical University, Hirakata, Japan)
- FP7-8 Impact of stapler type and polyglycolic acid mesh with fibrin glue on postoperative pancreatic fistula after distal pancreatectomy
Tsukasa Taguchi (Department of Gastroenterological Surgery, Graduate School of Medicine, The University of Osaka)
- FP7-9 Plasma apolipoprotein A2-isoforms can predict developing pancreatic fistula following distal pancreatectomy
Takashi Ono (Department of Gastroenterological Surgery, Nippon Medical School)
- FP7-10 Shift in Drainage Methods for Pancreatic Fistula Following Distal Pancreatectomy
Koichi Kimura (Department of Surgery, Matsuyama Redcross Hospital, Ehime, Japan)

E-Poster 8

► May 22 (Fri.) 9:00-10:00 [E-Poster Room 2 (Convention Hall C)]

Pancreas, IPMN and NET

Moderators: Seok-Hwan Kim (Chungnam National University Hospital, Republic of Korea)
Toshitaka Sugawara (Department of Hepato-Biliary-Pancreatic & Gastrointestinal Surgery,
International University of Health and Welfare)

- FP8-1 Surveillance could be possible option based on the natural history of Mucinous cystic neoplasm of pancreas.
Youngmin Han (Seoul National University Hospital, Republic of Korea)
- FP8-2 Long-term Surveillance for Pancreatic Carcinoma Among Patients with Branch Duct Intraductal Papillary Mucinous Neoplasms
Seungeun Lee (Department of Surgery, Chung-Ang University College of Medicine, Republic of Korea)
- FP8-3 Guideline-based risk stratification for intraductal papillary mucinous neoplasm of the pancreas: Evaluation of predictive accuracy for high-grade dysplasia and invasive IPMC. A retrospective cohort study
Yuki Tokuyama (Department of Hepato-Biliary-Pancreatic Surgery, Hyogo Medical University)
- FP8-4 A Clinical Analysis of Surgically Resected IPMN Cases at Our Institution
Tetsuya Nakano (Department of Surgery, Nagaoka Chuo General Hospital, Niigata, Japan)
- FP8-5 Rare types of pancreatic tumor discovered during IPMN long term follow-up
Chikato Koga (Department of Surgery, Kindai University Nara Hospital)
- FP8-6 Resected Solid Pseudopapillary Neoplasms: A Single-Institution Experience
Tetsuzo Tashima (Department of Gastroenterological Surgery, Osaka City General Hospital, Osaka, Japan)
- FP8-8 Lymph Node Metastasis and Its Risk Factors in Resected Non-Functional Pancreatic Neuroendocrine Tumors
Yuji Ikeda (Department of Pancreatobiliary Surgery, Kansai Medical University, Osaka, Japan)
- FP8-9 Patterns of Recurrence and Treatment Strategies for Recurrent Non-Functional Pancreatic Neuroendocrine Neoplasms at a Single Institution
Takuya Ando (Division of Digestive and General Surgery, Niigata University Graduate School of Medical and Dental Sciences, Niigata, Japan)
- FP8-10 Initial experience of PRRT for metastatic pancreatic neuroendocrine neoplasms
Takahiro Murokawa (Department of Gastroenterological Surgery, Nippon Medical School)

E-Poster 9

► May 22 (Fri.) 9:00-9:45 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Miscellaneous

Moderators: Isamu Makino (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University)
Akihiro Takeuchi (Second Department of Surgery, Wakayama Medical University)

- FP9-1 Clinical characteristics and treatment outcomes of 27 patients with Pancreatic adenosquamous carcinoma
Shinichi Matsudaira (Department of Hepato-Biliary-Pancreatic Surgery and Pediatric Surgery, Saitama Medical Center, Saitama Medical University)

- FP9-2 Clinicopathological Characteristics and Surgical Experience with Pancreatic Acinar Cell Carcinoma: A Case Series Report
Atsushi Ozeki (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University, Japan)
- FP9-3 Characteristics of long-term survivors after surgical treatment for metastatic pancreatic tumors
Keisuke Nonoyama (Department of Gastroenterological Surgery, Nagoya City University Graduate School of Medical Sciences, Aichi, Japan)
- FP9-4 Surgical Management of Traumatic Injuries to the Pancreas: Single-Center Outcomes Including Pancreas-Preserving Procedures
Naoko Saito (Department of General Surgery, Kurashiki Central Hospital, Okayama, Japan)
- FP9-5 Prevalence and risk factors of liver disease in patients with idiopathic chronic pancreatitis undergoing surgery: a prospective observational study
Kunal Parasar (Department of Surgical Gastroenterology, All India Institute of Medical Sciences, Patna, India)
- FP9-6 Clinico pathological profile, surgical outcome and survival analysis after pancreaticoduodenectomy: 7 year experience from tertiary care teaching hospital in Odisha
Swamy Rajesh Hudugur (IMS & SUM Hospital, Bhubhanwshwar, Odisha, India/Nizams Institute of Medical Sciences, Hyderabad, India (NIMS))
- FP9-7 ePRO-Based Assessment of QALYs and Medical Costs in Hepato-Biliary-Pancreatic Cancer Surgery
Toru Mizuguchi (Clinical Surgery, Health Science Research, Sapporo Medical University Postgraduate School)

E-Poster 10

► May 22 (Fri.) 9:05-10:00 [E-Poster Room 4 (Convention Hall C)]

Liver, HCC

Moderators: Satoshi Koizumi (Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine)
Hiroji Shinkawa (Department of Hepatobiliary-Pancreatic Surgery, Osaka Metropolitan University)

- FP10-2 Decreased frequency and dysfunction of intra-hepatic NK and cytotoxic T cells in hepatocellular carcinoma
Yuzuru Sakamoto (Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine)
- FP10-3 xCT-Mediated Escape From Disulfidptosis and Ferroptosis Drives Aggressive Hepatocellular Carcinoma
Junya Mita (Department of Surgery and Science, Graduate School of Medical Sciences, Kyushu University)
- FP10-4 Niclosamide Ethanolamine (NEN) Inhibits G9a/EHMT2-Driven Hepatocellular Carcinoma Tumorigenesis Both In *Vitro* and In *Vivo*
Kung-Kai Kuo (Division of General Surgery, Department of Surgery, Eda DaChang hospital, Eda Healthcare group, College of medicine, I-Shou University, Taiwan)
- FP10-5 Enhanced Liver Fibrosis Score (ELF) as a prognostic biomarker for oncologic and postoperative outcomes after curative resection of Hepatocellular carcinoma
Seoung Yoon Rho (Department of Surgery, Yongin Severance hospital, Yonsei University College of Medicine, Republic of Korea)

- FP10-6 The effect of HBV-DNA level changes on tumor recurrence in resected HBV-HCC patients: A multi-center study
Tae Yoo (Hallym University Dongtan Sacred Heart Hospital, Republic of Korea)
- FP10-7 Machine Learning Fusion of Spatial Tumor Architecture and Perioperative Exosomal miRNA Clearance to Personalize Surveillance After Curative Hepatectomy for HCC
Rifaldy Fajar (AI-BioMedicine Research Group, IMCDS-BioMed Research Foundation, Jakarta, Indonesia)
- FP10-8 Two cases of hepatocellular carcinoma with long term prognosis after resection of distant lymph node metastases
Masaya Munekage (Department of Surgery, Kochi Medical School, Kochi University, Kochi, Japan/
Director of hospital, Kochi Medical School Hospital)
- FP10-9 A Real-World Comparison of First-Line Lenvatinib Versus Combination Immunotherapy for Advanced Hepatocellular Carcinoma
Masaya Suenaga (Department of Surgery, NHO Nagoya Medical Center, Nagoya, Japan)

E-Poster 11

► May 22 (Fri.) 9:05-10:00 [E-Poster Room 5 (Convention Hall C)]

Biliary, Case Report, Cancers

Moderators: Akihiro Tanemura (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University)
Hiromitsu Maehira (Department of Surgery, Shiga University of Medical Science)

- FP11-1 A Case of Primary Mixed Neuroendocrine-Non-Neuroendocrine Neoplasm (MiNEN) of the Gallbladder
Hayato Yoshida (Department of Surgery, Sagami-hara Kyodo Hospital, Kanagawa, Japan)
- FP11-2 A Case of Gallbladder Mixed Neuroendocrine-Non-Neuroendocrine Neoplasm (MiNEN)
Takuro Hirano (Department of Digestive Surgery, Kagoshima City Hospital, Kagoshima, Japan)
- FP11-3 A case of small-cell neuroendocrine carcinoma of the ampulla of Vater
Yutaro Hori (Department of Surgery, NHO Kyoto Medical Center, Kyoto, Japan)
- FP11-4 AFP-Negative Hepatoid Adenocarcinoma of the Gallbladder: Diagnostic Difficulty and Literature Review
Masahiro Kobayashi (Dept of Surgery, Sainokuni Higashiomiya Medical Center)
- FP11-5 A case of undifferentiated carcinoma of the gallbladder presenting as a huge intra-abdominal tumor
Suzuka Ikawa (Department of Gastroenterological and General Surgery, Hyogo Prefectural Harima-Himeji General Medical Center, Hyogo, Japan)
- FP11-6 Carcinosarcoma of the Gallbladder Mimicking Xanthogranulomatous Cholecystitis: A Case Report
Shin Sasaki (Department of Surgery, St. Mary's Hospital, Fukuoka, Japan)
- FP11-7 Carcinoma in situ incidentally detected within a gallbladder cholesterol polyp: A case report
Takuma Yoshikawa (Department of Surgery, Fukui Prefectural Hospital, Fukui, Japan)
- FP11-8 Two surgical cases of Intracholecystic papillary neoplasm which were difficult to diagnose preoperatively
Meguri Tanimoto (Department of Gastroenterology, JR Tokyo General Hospital, Tokyo, Japan)

- FP11-9 Inflammatory myofibroblastic tumor of the gallbladder
Akemi Iwamoto (Gastrointestinal Surgery, Tottori Prefectural Kousei Hospital, Kurayoshi, Japan)

E-Poster 12

► May 22 (Fri.) 9:00-9:50 [E-Poster Room 6 (Convention Hall C)]

Biliary, Laparoscopic Cholecystectomy 2

Moderators: Satoshi Nishiwada (Department of Surgery, Minami-Nara General Medical Center)
Takaaki Osawa (Department of Gastroenterological Surgery, Aichi Medical University)

- FP12-1 Safety of early laparoscopic cholecystectomy for acute cholecystitis in high-risk patient
Tomohiro Iguchi (Department of surgery, National Hospital Organization Fukuoka-higashi Medical Center/Department of surgery, National Hospital Organization Oita Medical Center)
- FP12-2 A study of risk assessment and outcome in elderly cholecystectomy patients using the E-PASS scoring system
Hiroki Nakamoto (Wakkanai City Hospital, Surgery)
- FP12-3 Study on the Utility of ICG Fluorescence Cholangiography in Cases of Severe Obesity
Koji Nogaki (Department of Gastroenterological & General Surgery, Showa Medical University, School of Medicine)
- FP12-4 Laparoscopic Cholecystectomy with Clinical Engineers as Scope Operators: Safety Outcomes and Operational Metrics
Tadao Kuribara (Department of Surgery, Saitama Cooperative Hospital, Kawaguchi, Japan)
- FP12-5 Clinical Course of Patients with Surgical Site Infection after Laparoscopic Cholecystectomy
Yukihiko Sekizawa (Department of Surgery, NTT medical center Tokyo, Tokyo, Japan)
- FP12-6 Ile Duct Injury: 5 Year Experience at Tertiary Care Referral Centre in Northern India
Abhimanyu Vatsa (Department of surgical gastroenterology and liver transplant, Indira gandhi institute of medical sciences, patna, Bihar, India)
- FP12-7 Patient Satisfaction with Long-Term Cosmetic Outcomes of Transumbilical vs. Periumbilical Incisions in Laparoscopic Cholecystectomy
Vorapatu Tangsirapat (Panyanantaphikkhu Chonprathan Medical Center, Srinakharinwirot University, Nonthaburi, Thailand)

E-Poster 13

► May 22 (Fri.) 13:30-14:20 [E-Poster Room 1 (Convention Hall C)]

Biliary, Management of Acute Cholecystitis 1

Moderators: Chie Kitami (Department of Surgery, Nagaoka Chuo General Hospital)
Yu Sawada (Department of Gastroenterological Surgery, Yokohama City University School of Medicine)

- FP13-1 Surgical procedures for acute cholecystitis at our hospital
Shinichi Hosokawa (Department of surgery, Kobe City Medical Center West Hospital)
- FP13-2 Roles of certified hepato-biliary-pancreatic surgeons in laparoscopic cholecystectomy for acute cholecystitis in general hospital
Hiroki Kajioka (Department of Surgery, Kurashiki Medical Center, Kurashiki, Japan)
- FP13-3 Laparoscopic cholecystectomy following percutaneous transhepatic gallbladder drainage for acute cholecystitis~Key points in preoperative management and surgical techniques~
Tomokazu Tanaka (Department of Surgery, Saga University, Saga, Japan)

- FP13-4 Surgical Outcomes of Laparoscopic Cholecystectomy Following Endoscopic Ultrasound-Guided Gallbladder Drainage
Keigo Hayashi (Department of surgery, Nakagami Hospital, Okinawa, Japan)
- FP13-5 Subtotal Cholecystectomy as Bailout Procedures for Difficult Cholecystectomy in Severe Inflammatory Cholecystitis
Naoko Yoneura (Department of General Surgery, Japanese Red Cross Narita hospital, Chiba, Japan)
- FP13-6 A study on suture closure of the cystic duct orifice in laparoscopic subtotal cholecystectomy using the fenestrating technique
Hiroto Sakurai (Division of Hepato-Biliary-Pancreatic Surgery, Tohoku Medical and Pharmaceutical University, Miyagi, Japan)
- FP13-7 Clinical Outcomes and Long-term Challenges of Bail-out Procedures in Laparoscopic Cholecystectomy for Difficult Cholecystitis
Marie Uchida (Department of Surgery Yamanashi Red Cross Hospital/Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa Medical University)
- FP13-8 Bailout Surgery for Difficult Gallbladders: Infection Control and Lumen Closure Strategy
Naoya Sasaki (Shizuoka City Shizuoka Hospital)

E-Poster 14

► May 22 (Fri.) 13:30-14:15 [E-Poster Room 2 (Convention Hall C)]

Pancreas, MIS 1

- Moderators: Kohei Nakata (Department of Surgery and Oncology, Kyushu University)
Hiroaki Osakabe (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- FP14-1 Fusion Surgery for Robot-Assisted Pancreatic Resection: Team Coordination and Port-Placement Standardization
Hiroyuki Matsukawa (Department of Gastroenterological Surgery, Kagawa University, Kagawa, Japan)
- FP14-2 Comparative Outcomes of Robotic and Open Pancreaticoduodenectomy for Pancreatic Cancer in Elderly Patients: A Propensity Score-Matched Analysis
Hye-Sol Jung (Department of Surgery and Cancer Research Institute, Seoul National University College of Medicine, Seoul, Republic of Korea)
- FP14-3 Minimally Invasive versus Open Pancreatoduodenectomy for Upfront Resectable Pancreatic Cancer : Oncologic Outcomes and Adjuvant Chemotherapy Compliance in a Propensity Score-Matched Analysis
Keechan Kan (Division of HBP Surgery, Department of Surgery, Yonsei University College of Medicine, Seoul, Republic of Korea)
- FP14-4 Validation of the ISGPS Complexity and Experience Grading System for Predicting Operative Difficulty and Perioperative Outcomes in Robot-assisted Pancreaticoduodenectomy
Younsoo Seo (Department of Surgery and Cancer Research Institute, Seoul National University College of Medicine, Seoul, Republic of Korea)
- FP14-5 Impact of Visceral Obesity on Short-Term Outcomes after Robot-Assisted Pancreaticoduodenectomy
Gaku Shimane (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research, Tokyo, Japan)
- FP14-6 Artificial Intelligence-Based Navigation Improves Vascular Recognition for Surgical Trainees During Robot-Assisted Pancreaticoduodenectomy
Shohei Kamenori (Department of Surgery, Keio University School of Medicine)

- FP14-7 Safety and Clinical Value of Robot-Assisted Spleen-Preserving Distal Pancreatectomy with Preservation of Splenic Vessels
Hirofumi Shirakawa (Department of HepatoBiliary-Pancreatic Surgery, Tochigi Cancer Center, Utsunomiya, Japan)

E-Poster 15

► May 22 (Fri.) 13:30-14:20 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Case Report, IPMN

Moderators: Teruhisa Sakamoto (Division of Gastrointestinal and Pediatric Surgery, Department of Surgery, Faculty of Medicine, Tottori University)
Yota Kawasaki (Department of Digestive Surgery, Kagoshima University Graduate School of Medical and Dental Sciences)

- FP15-1 A case of main-duct IPMC performed with laparoscopic radical distal pancreatectomy preserving function
Koji Takao (Department of Digestive Surgery, Fukuchiyama City Hospital, Kyoto, Japan)
- FP15-2 A resected case of intraductal tubular papillary neoplasm with calcification
Hiromichi Nakayama (Department of Surgery, JCHO Kyushu Hospital)
- FP15-3 Laparoscopic distal pancreatectomy for intraductal papillary mucinous carcinoma with intrasplenic hemorrhage suspected as a splenic tumor
Masaki Matsumura (Department of Gastroenterological and General Surgery, Hyogo Prefectural Harima-Himeji General Medical Center)
- FP15-4 A Case of Intraductal Papillary Mucinous Carcinoma Presenting as an Intramural Gastric Cystic Lesion
Noriki Mitsui (Department of Gastroenterological surgery, Gifu university, Gifu, Japan)
- FP15-5 A Case of Pancreatic Serous Cystic Neoplasm Difficult to Differentiate from Intraductal Papillary Mucinous Neoplasm
Toyoo Nitta (Department of Surgery, Central Japan International Medical Center, Gifu, Japan)
- FP15-6 A Case of Indeterminate Main Pancreatic Duct Dilation Leading to SSPPD, with Final Pathology Revealing Only Low-grade PanIN and No Neoplastic Lesion
Takahide Kawasaki (Department of Surgery, Oita Prefectural Hospital)
- FP15-7 A case of two-stage pancreaticoduodenectomy following choledochojejunostomy for Intraductal Papillary Mucinous Neoplasm with pancreatobiliary fistula
Daiki Sugawara (Department of Gastroenterological Surgery, Sendai Kousei Hospital, Miyagi, Japan)
- FP15-8 Anaplastic carcinoma of the pancreas arising from mucinous cystic neoplasm: A Case Report
Shotaro Horonushi (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East, Kashiwa, Japan)

E-Poster 16

► May 22 (Fri.) 13:30-14:30 [E-Poster Room 4 (Convention Hall C)]

Liver, Case Report, HCC/ICC

Moderators: Yasunaru Sakuma (Department of Surgery, Jichi Medical University)

Masaki Ueno (Department of Gastrointestinal Surgery, National Hospital Organization Osaka Minami Medical Center)

- FP16-1 Laparoscopic Anatomical Segment 5 and 6 Resection for Liver Tumour in a Cirrhotic Liver
Marjorie T. Q. Hoang (Sengkang General Hospital, Singapore, Singapore)
- FP16-2 Laparoscopic S7 partial hepatectomy for primary hepatocellular carcinoma in a patient with liver cirrhosis and autoimmune hemolytic anemia: a case report
Shoichi Inokuchi (Department of Surgery, Oita Prefectural Hospital, Oita, Japan)
- FP16-3 Laparoscopic Unroofing hepatectomy application of deep-seated HCC: A Case Report
Feng Hsu Wu (Division of General surgery, Department of Surgery, Taichung Veterans General Hospital, Taichung, Taiwan)
- FP16-4 Performing hepatectomy safely in cases of constitutional indocyanine green excretory defect
Toshiki Eryu (Department of Surgery, Shiga University of Medical Science, Shiga, Japan)
- FP16-5 Successful Curative Resection of a Ruptured Giant Hepatocellular Carcinoma Using Atezolizumab plus Bevacizumab Followed by ALPPS
Masumi Kawashima (Yao Tokusyukai General Hospital Liver Surgery)
- FP16-6 A case of combined hepatocellular and cholangiocarcinoma with spontaneous regression before surgery
Naoyuki Tokunaga (Department of Hepato-Biliary-Pancreatic Surgery, National Hospital Organization Fukuyama Medical Center, Hiroshima, Japan)
- FP16-7 A Case of Borderline Resectable Hepatocellular Carcinoma in an Elderly Patient with Heart Failure Treated with Neoadjuvant Immunotherapy Followed by Curative Resection
Takuma Umemura (Department of Surgery, NHO Nagoya Medical Center, Nagoya, Japan)
- FP16-8 A Case of Intrahepatic Cholangiocarcinoma Achieving Pathological Complete Response after Durvalumab plus Gemcitabine and Cisplatin Therapy
Takefumi Yazawa (Department of Surgery, Shiga General Hospital, Shiga, Japan)
- FP16-9 Intrahepatic Cholangiocarcinoma with a Single Paraaortic Lymph-node Recurrence after Four Years Post-hepatectomy in a Young Patient with Primary Sclerosing Cholangitis: A Case Report
Yoshie Kadota (Digestive Diseases Center, International University of Health and Welfare, Mita Hospital)
- FP16-10 A resected case of hepatocellular carcinoma presenting with obstructive jaundice caused by intraductal bile duct extension
Takuhiro Yotsumoto (Department of Gastroenterological Surgery, Kagawa University, Kagawa, Japan)

E-Poster 17

► May 22 (Fri.) 13:30-14:30 [E-Poster Room 5 (Convention Hall C)]

Liver, Elderly, Miscellaneous

Moderators: Takashi Kaizu (Department of Surgery, Kitasato University Medical Center)
Koji Komeda (Department of General and Gastroenterological Surgery, Osaka Medical and
Pharmaceutical University)

- FP17-1 Surgical Outcomes of Hepatectomy for Hepatocellular Carcinoma in Patients Aged 80 Years or Older
Kotaro Ito (SAGA-KEN Medical Centre Koseikan)
- FP17-2 The Validity of Hepatectomy for Liver Tumors in Super-Elderly Patients Aged 85 Years or Older
Kento Awane (Department of General Surgery, Hyogo Prefectural Amagasaki General Medical Center)
- FP17-3 Outcomes of Hepatic Resection in Super-Elderly Patients (Aged 85 Years and Older): A Single-Center Experience
Masahiro Shinoda (Department of Hepato-Biliary-Pancreatic and Gastrointestinal Surgery, Narita Hospital, International University of Health and Welfare)
- FP17-4 Nutritional Risk, Surgical Invasiveness, and Outcomes After Hepatectomy in Elderly Patients: Age-Stratified Analysis
Atsuhito Takagi (Department of Surgery, Gifu Prefectural Tajimi Hospital, Gifu, Japan)
- FP17-5 Factors that influence Postoperative Liver Hypertrophy After Hepatectomy
Naoto Yonamine (Department of Surgery, National Defense Medical College, Saitama, Japan)
- FP17-6 Children Between Temples and Clinics: Diagnostic Delays in Malignant Liver Tumors Linked to Traditional Healing Pathways in Remote Coastal Villages
Riana D. Kurniawati (Health Administration, Temanggung Public Health Center, Indonesia/Faculty of Public Health, Tadulako University, Indonesia)
- FP17-7 Care-Seeking Sequence Disruption, Primary Referral Bypass, and Tumor Stage Escalation Explain Late Detection of Pediatric Hepatic Malignancies in Isolated Coastal Communities across Low-Resource Archipelagic Regions
Mirza Aulia Rahmawati (Social Medicine Unit, Indonesia Health Collaborative Center (HCC), Jakarta, Indonesia)
- FP17-10 Which Patients Gain Most from Major Liver Resection in Under-Equipped Public Hospitals: Cost-Utility and Survival Analysis
Dimas F. Prasetyo (Offshore and Coastal Engineering, The University of Western Australia, Australia/School of Biomedical Engineering, Sepuluh Nopember Institute of Technology)

E-Poster 18

► May 22 (Fri.) 13:30-14:25 [E-Poster Room 6 (Convention Hall C)]

Others, Duodenum

Moderators: Kengo Kanetaka (Department of Surgery, Nagasaki University)
Chie Tanaka (Department of Surgery (Gastrointestinal Surgery), Nagoya University Hospital)

- FP18-1 Surgical outcome of duodenal cancer, single center retrospective study
Noriyuki Tagai (Department of Surgery 1, University of Fukui, Fukui, Japan)

- FP18-2 Optimal Treatment Strategy for Primary Non-Ampullary Duodenal Cancer Based on Long-Term Outcomes and Postoperative Nutritional Assessment
Yusuke Wakasa (Department of Gastroenterological Surgery, Hirosaki University, Aomori, Japan)
- FP18-3 Surgical Outcomes of Non-ampullary Duodenal Cancer and Prognostic Comparison with Ampullary Cancer: A Single-Center Retrospective Study
Koichi Nemoto (Department of Gastroenterological Surgery, New Tokyo Hospital, Chiba, Japan)
- FP18-4 Treatment strategies for duodenal tumors, including D-LECS and pancreas-preserving duodenectomy
Yuichiro Watanabe (Department of Gastroenterological Surgery, Saitama Medical University International Medical Center, Hidaka City, Saitama, Japan)
- FP18-5 A Stepwise Surgical Strategy for a Duodenal Brunner's Gland Hamartoma Difficult to Differentiate from Malignancy
Daiki Nishiwaki (Department of Surgery, Hamamatsu University school of Medicine, Shizuoka, Japan)
- FP18-6 A Case of Duodenal Cancer Treated with Pylorus-Preserving Pancreaticoduodenectomy with Preservation of Gastric Conduit Blood Flow after Esophagectomy
Hiroomi Takayama (Department of Comprehensive Surgery for Community Medicine)
- FP18-7 A Case of Duodenal Cancer with Liver Metastasis Treated with Conversion Surgery after Preoperative Chemotherapy
Yuki Nomura (Uji Tokushukai Hospital)
- FP18-8 Subcutaneous metastasis from non-ampullary duodenal cancer: A case report
Shohei Takaichi (Department of Gastroenterological Surgery, Osaka International Medical and Science Center, Osaka Keisatsu Hospital, Osaka, Japan)
- FP18-9 Pancreatic-type Acinar Cell Carcinoma of the Duodenum
Daisuke Shirai (Department of Surgery, Belland General Hospital, Osaka, Japan)

E-Poster 19

► May 22 (Fri.) 14:25-15:10 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Elderly 1

Moderators: Tetsuya Ikemoto (Department of Digestive and Transplant Surgery, Tokushima University)
Akira Matsushita (Department of Gastroenterological Surgery, Nippon Medical School)

- FP19-1 Preoperative Risk Assessment for Postoperative Complications after SSPPD at Our Institution
Kazuki Kato (Koseiren Takaoka Hospital)
- FP19-2 Perioperative Nutritional Trajectories and Clinical Significance of Preoperative CONUT in Elderly Patients Undergoing Pancreatic Resection
Nobuhisa Tanioka (Department of Surgery, Kochi Medical School, Kochi, Japan)
- FP19-3 Impact of Nutritional Deterioration Before and After Neoadjuvant Chemotherapy or Surgery on Long-Term Outcomes in Pancreatic Cancer
Shota Uemura (Department of Gastroenterological Surgery, Kumamoto University Hospital)
- FP19-4 The Significance of Cachexia Index in Resectable Pancreatic Cancer Following Curative Resection After Neoadjuvant Chemotherapy
Yusuke Okamura (Department of Surgery, Kobe City Medical Center General Hospital, Kobe, Japan)
- FP19-5 Textbook Outcome After Pancreatectomy in Elderly Patients with Pancreatic Cancer
Junya Toyoda (Department of Surgery, Japan Red Cross Kumamoto Hospital, Kumamoto, Japan)

- FP19-6 Risk factors for decline in activities of daily living and quality of life after distal pancreatectomy in elderly patients
Eito Nakagawa (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)

E-Poster 20

► May 22 (Fri.) 14:20-15:15 [E-Poster Room 2 (Convention Hall C)]

Pancreas, MIS 2

Moderators: Aoi Hayasaki (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Hospital)

Mina Fukasawa (Department of Surgery and Science, Faculty of Medicine, Academic Assembly, University of Toyama)

- FP20-1 Early Outcomes of Open Versus Laparoscopic Frey Procedure and Lateral Pancreaticojejunostomy for Chronic Calcific Pancreatitis: Initial Experience from a Tertiary Referral Centre
Netrananda Acharya (Indira Gandhi Institute of Medical Sciences, India)
- FP20-2 Investigation of laparoscopic and robotic distal pancreatectomy for pancreatic cancer
Mitsuru Kinoshita (Department of surgery, Kansai Rosai Hospital)
- FP20-3 The superiority of robot-assisted distal pancreatectomy in splenic vessels and spleen preservation
Katsuya Ami (Division of Hepato-Biliary-Pancreatic Surgery, Department of Surgery, Kindai University Faculty of Medicine, Osaka, Japan)
- FP20-4 Clinical Safety and Long-Term Outcomes of Spleen-Preserving Distal Pancreatectomy: A Single-Institution Analysis of Nine Consecutive Cases of Benign and Low-Grade Malignant Pancreatic Tumors
Daisuke Udagawa (Tochigi medical center, Tochigi, Japan)
- FP20-5 Tips and Benefits of Spleen-Preserving Distal Pancreatectomy (Kimura Procedure) in Minimally Invasive Surgery
Jun Hanaoka (Department of gastrointestinal surgery, Ehime prefectural central hospital, Ehime, Japan)
- FP20-6 Field Exposure in Laparoscopic Distal Pancreatectomy: Mitigating Visualization Challenges with Small-Caliber Devices
Hisataka Matsuo (Department of Digestive Surgery, Japanese Red Cross kyoto Daiichi Hospital, Kyoto, Japan)
- FP20-7 Impact of male sex and umbilical-pancreatic anatomy on surgical difficulty in minimally invasive distal pancreatectomy: a propensity-matched analysis
Masahiro Fukada (Department of Gastroenterological Surgery Gifu University Hospital, Gifu, Japan)
- FP20-8 Our Institutional Experience with the Introduction of Robot-Assisted Distal Pancreatectomy
Nobuyasu Suzuki (Southern Tohoku Research Institute for Neuroscience Southern Tohoku General Hospital, Fukushima, Japan)
- FP20-9 Introduction of Robot-Assisted Distal Pancreatectomy and Short-Term Outcomes at Our Institution
Masanori Tsujie (Department of Surgery, Osaka Rosai Hospital)

► May 22 (Fri.) 14:30-15:25 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Case Report, NET

Moderators: Taisuke Imamura (Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine)

Kyohei Matsumoto (Second Department of Surgery, Wakayama Medical University)

- FP21-1 A Case of Pancreatic Neuroendocrine Carcinoma with Portal Vein Tumor Thrombus Successfully Resected after Etoposide-Cisplatin Chemotherapy
Takuya Oba (Department of GI Surgery, Saitama Medical University International Medical Center, Saitama, Japan)
- FP21-2 A case of long-term survival achieved by PRRT for recurrent liver metastases after resection of a non-functioning pancreatic neuroendocrine tumor
Rie Shibata (Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine)
- FP21-3 Two cases of peptide receptor radionuclide therapy for postoperative recurrence of pancreatic neuroendocrine tumours
Makoto Takeda (Department of Surgery, Hamamatsu University School of Medicine)
- FP21-4 A Case of Pancreatic Neuroendocrine Tumor in a Young Patient Treated by Subtotal Stomach-Preserving Pancreaticoduodenectomy
Takumi Miyamoto (Department of Surgery, Shimane Prefectural Central Hospital)
- FP21-5 Enucleation of a Large 6-cm Neuroendocrine Tumor in Pancreatic Head: First Experience in Cambodia
Pisethsapheareach Keam (Department of Surgery A, Calmette Hospital, Phnom Penh, Cambodia)
- FP21-6 Laparoscopic Spleen-Preserving Left-Sided Pancreatectomy for a Small Insulinoma in the Pancreatic Tail in a Super-Elderly Patient: A Case Report
Nagato Tajiri (Department of Gastrointestinal Surgery, International University of Health and Welfare Narita Hospital)
- FP21-7 Amphicrine Carcinoma of the Pancreas
Kazuki Fujita (Department of Surgery, NTT medical center Tokyo, Tokyo, Japan)
- FP21-8 A case of duct-neuroendocrine-acinar cell carcinoma
Mamoru Sato (Department of Gastroenterological Surgery, Sendai Kousei Hospital)
- FP21-9 A case of collision tumor consisting of pancreatic ductal adenocarcinoma and neuroendocrine tumor treated by laparoscopic distal pancreatectomy
Hiromi Inoue (Department of surgery, Kyoto medical center)

► May 22 (Fri.) 14:35-15:25 [E-Poster Room 4 (Convention Hall C)]

Biliary, MIS

Moderators: Junichi Kaneko (Hepato-Biliary-Pancreatic Surgery, Department of Gastrointestinal Surgery, Tokai University, Hachioji Hospital)
Takeshi Urade (Division of Hepato-Biliary-Pancreatic Surgery, Department of Surgery, Kobe University Graduate School of Medicine)

- FP22-1 Technical Considerations and Short-Term Outcomes of Reduced Port Laparoscopic Cholecystectomy Based on a Single-Incision Approach
Ryota Kogure (Department of Surgery, Sainokuni Higashiomiya Medical Center, Saitama, Japan)
- FP22-2 Minimally Invasive Surgery for Congenital Biliary Dilatation: Laparoscopic Outcomes and Initial Robot-Assisted Experience
Yasuhisa Ando (Department of Gastroenterological Surgery, Kagawa University, Kagawa, Japan)
- FP22-3 Introduction of the da Vinci SP robotic cholecystectomy in acute cholecystitis
Yoo Jin Choi (Department of Surgery, Division of HBP Surgery, Korea University College of Medicine, Seoul, Republic of Korea/Korea University College of Medicine, Seoul, Korea)
- FP22-4 Short-term outcomes during the initial phase of robot-assisted surgery for congenital biliary dilatation in our department
Makoto Shibuya (Department of Surgery, Teikyo University School of Medicine, Tokyo, Japan)
- FP22-5 Laparoscopic Common Bile Duct Exploration (LCBDE): A One-Year Experience in Advancing Minimally Invasive HPB Surgery Service in a Malaysia Tertiary Hospital
Jonathan Chen Ken Seak (Sarawak General Hospital, Sarawak, Malaysia/Hospital Queen Elizabeth, Sabah, Malaysia/Hospital Sultanah Bahiyah, Alor Setar, Malaysia)
- FP22-6 Predictive Factors of Difficulty in Laparoscopic Choledochal Cyst Excision and Roux-En-Y Hepaticojejunostomy: A Single-Center Experience
Can Huy Ta (General Surgery Department, City Children's Hospital, Ho Chi Minh City, Vietnam/General Surgery Department, Children Hospital No.1, Ho Chi Minh City, Vietnam)
- FP22-7 Solution in Resource Limited setting: Segment VI limited Hepatectomy in Bilateral Hepaticolithiasis
Golam Mahmud Rayhan (Department of Surgical Gastroenterology, National Gastroenterology Institute & Hospital, Dhaka, Bangladesh/Bangladesh Medical University, Dhaka, Bangladesh)
- FP22-8 Percutaneous transhepatic cholangioscopy using amplatz protective sheath for treatment of hepatolithiasis: Initial experience at Binh Dan Hospital
Trieu Pham (Department of Hepatobiliary and Pancreatic surgery, Binh Dan Hospital, Ho Chi Minh City, Vietnam, Viet Nam/Department of General Surgery, Pham Ngoc Thach University of Medicine, Ho Chi Minh City, Vietnam)

E-Poster 23

► May 22 (Fri.) 14:35-15:25 [E-Poster Room 5 (Convention Hall C)]

Biliary, Case Report, Complications

Moderators: Tsuyoshi Notake (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
Tomoaki Yoh (Department of Surgery, Kyoto University)

- FP23-1 Biliary Reconstruction for Bile Duct Injury Following Cholecystectomy
Soichi Narumoto (Department of Surgery, Yokohama Rosai Hospital, Yokohama, Japan)
- FP23-2 Entrapment of fractured guidewire in the left portal vein during PTBD: A case report of successful surgical removal
Vutha Meas (Calmette Hospital, Phnom Penh, Cambodia)
- FP23-3 A rare case of Isolated gallbladder injury following blunt trauma
Ryota Sugawara (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University)
- FP23-4 FROM BILE TO BLOOD: A CASE REPORT ON HEMOPERITONEUM SECONDARY TO RUPTURED GALLBLADDER
Alan June Icaonapo (Manila Doctors Hospital, Manila, Philippines)
- FP23-5 Ectopic Papilla of Vater in the Duodenal Bulb Associated with Recurrent Duodenal Ulcer: A Case Report
Atsushi Shimizu (Department of Surgery, Nishikata Hospital/Department of Surgery, Jichi Medical University)
- FP23-6 A surgical case series of cholecystitis complicated by cholecystoenteric fistula
Takahiro Ishimori (Department of Surgery, Yokohama Rosai Hospital, Kanagawa, Japan)
- FP23-7 Three cases of xanthogranulomatous cholecystitis, difficult to diagnose preoperatively
Hiromitsu Hoshino (Department of Surgery, Nippon Life Hospital, Osaka, Japan)
- FP23-8 Laparoscopic Cholecystectomy for Necrotic Acute Cholecystitis in a Patient with Liver Cirrhosis Using Combined Energy Devices: A Case Report
Shintaro Nagashima (Department of surgery, IWAKI City Medical Center, Fukushima, Japan)

E-Poster 24

► May 22 (Fri.) 14:30-15:25 [E-Poster Room 6 (Convention Hall C)]

Biliary, Management of Acute Cholecystitis 2

Moderators: Norihisa Kimura (Department of Surgery, Aomori City Hospital)
Yasuhiro Murata (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University)

- FP24-1 The limits of indication for early surgery for acute cholecystitis in an aging society
Shigeaki Sawada (Department of Surgery, Niigata Federation of Agricultural Cooperative Associations)
- FP24-2 Safety of Laparoscopic Cholecystectomy for Acute Cholecystitis in Elderly Patients Aged 80 Years
Yoshihisa Matsumoto (Japanese Red Cross Kyoto Daiichi Hospital)
- FP24-3 Clinical outcomes of percutaneous transhepatic gallbladder drainage in patients aged ≥ 85 years with acute cholecystitis
Masanori Odaira (Department of Surgery, Tokyo Saiseikai Central Hospital, Tokyo, Japan)

- FP24-4 The management of P2Y12 inhibitor in patients with acute cholecystitis—a single center experience—
Naoki Tanimine (Department of Surgery, Kure Medical Center, Hiroshima, Japan)
- FP24-5 Safety of Early Laparoscopic Cholecystectomy for Acute Cholecystitis in Patients Receiving Antithrombotic Therapy
Yu Shibahara (Department of Surgery, Toho University Ohashi Medical Center)
- FP24-6 Development of a diagnostic model for bacteremia in acute cholecystitis
Satoshi Nishiwada (Department of Surgery, Minami-Nara General Medical Center)
- FP24-7 Predict gangrenous cholecystitis in acute surgical emergencies
Chen-Yu Wang (Division of General Surgery, Department of Surgery, National Taiwan University Hospital, Taipei, Taiwan)
- FP24-8 A study of surgical cases of gangrenous cholecystitis
Kazuaki Hazama (Department of Surgery, Oji General Hospital, Tomakomai, Japan)
- FP24-9 Clinical characteristics and surgical outcomes of acute acalculous cholecystitis requiring emergency cholecystectomy
Shingo Seo (Department of Surgery, Kure Kyosai Hospital, Kure, Hiroshima, Japan)

E-Poster 25

► May 22 (Fri.) 15:15-16:10 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Elderly 2

Moderators: Shutaro Hori (Department of Surgery, Keio University School of Medicine)
Chihoko Nobori (Faculty of Medicine, Kindai University)

- FP25-1 Feasibility and Perioperative and Mid-Term Outcomes of Neoadjuvant Gemcitabine plus S-1 Therapy in Elderly Patients at Our Institution
Tatsuya Kanai (Department of Gastrointestinal Surgery, Kanagawa Cancer Center, Yokohama, Japan)
- FP25-2 The clinical significance of Neoadjuvant chemotherapy in Elderly Patients with Pancreatic Cancer
Tomofumi Ohashi (Department of Gastroenterological surgery, Osaka International & Science Center, Osaka Keisatsu Hospital)
- FP25-3 Treatment selection and long-term outcomes in resectable or borderline resectable pancreatic cancer in patients aged 80 years and older
Takeshi Murakami (Department of Surgery, Division of Gastroenterological Surgery, Sapporo Medical University, Hokkaido, Japan)
- FP25-4 Surgical outcomes of resectable pancreatic cancer in elderly patients at a single institution
Shunsuke Tabe (Department of Gastrointestinal surgery, Saitama red cross hospital, Saitama, Japan)
- FP25-5 Therapeutic Strategy for Elderly Patients with Pancreatic Cancer: A Single-Center Experience
Toshitaka Sugawara (Department of Hepato-Biliary-Pancreatic & Gastrointestinal Surgery, International University of Health and Welfare School of Medicine, Chiba Japan)
- FP25-6 Surgical Outcomes and the Role of Perioperative Chemotherapy in Elderly Patients with Pancreatobiliary Cancer
Chiaki Uchida (Department of surgery, Aomori city hospital, Aomori, Japan)

- FP25-7 An Investigation of the Safety and Postoperative Survival Outcomes of Pancreaticoduodenectomy for Pancreatic Cancer in Elderly Patients
Koji Imai (Division of Hepato-Biliary-Pancreatic, Transplant and Gastrointestinal Surgery, Department of Surgery, Asahikawa Medical University, Asahikawa, Japan)
- FP25-8 Outcomes of pancreaticoduodenectomy for pancreatic cancer in the elderly patients (aged 80 years or older)
Hiroki Teraoku (Department of Surgery, Tokushima University, Tokushima, Japan)
- FP25-9 Safety of Pancreaticoduodenectomy in Patients Aged 80 Years and Older
Takeshi Sonoda (Department of Surgery, Division of Gastrointestinal Surgery and General Surgery, Shiga University of Medical Science, Shiga, Japan)

E-Poster 26

► May 22 (Fri.) 15:20-16:10 [E-Poster Room 2 (Convention Hall C)]

Liver, CRLM

- Moderators: Tsunekazu Mizushima (Department of Colorectal Surgery, Dokkyo Medical University)
Masahiro Shinoda (Department of Gastroenterological Surgery, International University of Health and Welfare Narita Hospital)
- FP26-1 Study of Liver Metastases in Colorectal SM Cancer Cases
Hikaru Hanzawa (Department of Surgery, Yamagata Prefectural Central Hospital, Yamagata, Japan)
- FP26-2 Impact of Neoadjuvant Chemotherapy for Colorectal Cancer Liver Metastasis: Identification of the Subset with Survival Benefit
Koshiro Morino (Department of Gastroenterological Surgery, Tenri Hospital, Tenri, Japan)
- FP26-3 Comparison of Immediate and Long-Term Outcomes of Anatomical Laparoscopic and Open Liver Resections in Patients with Colorectal Liver Metastases
Mikhail G. Efanov (Moscow Clinical Scientific Center named after A.S. Loginov, Moscow, Russia)
- FP26-4 Outcomes of Combined Hepatectomy and Intraoperative Ablation for Colorectal Liver Metastases: A Retrospective Study
Tsukasa Aihara (Department of Surgery, Meiwa Hospital, Nishinomiya City, Japan)
- FP26-5 Analysis of risk factors for early recurrence within 6 months after curative hepatectomy for liver metastases from colorectal cancer
Pipit Burasakarn (Phramongkutklao Hospital, Bangkok, Thailand)
- FP26-6 Prognostic impact of surgical margin and tumor number after hepatectomy for non-colorectal liver metastases
Takuya Harada (Department of Gastroenterological Surgery, Hokkaido Cancer Center, Sapporo, Japan)
- FP26-7 Restoration of Hepatic Reserve Independent of Radiographic Shrinkage Following PRRT in Heavily Pretreated Late-Phase NET Liver Metastases: A Functional Evaluation Using the ALBI Score
Akiko Omori (Department of Gastrointestinal surgery, Tokyo Women's Medical University, Tokyo, Japan)
- FP26-8 Comparison of Serum CEA Levels in Colorectal Cancer Patients With and Without Liver Metastasis: A Retrospective Study
Arnetta Naomi Lalisang (Digestive Surgery Department, Cipto Mangunkusumo Hospital, Indonesia/ Faculty Medicine, Universitas Indonesia)

E-Poster 27

► May 23 (Sat.) 8:30-9:20 [E-Poster Room 1 (Convention Hall C)]

Pancreas, PDAC UR

Moderators: Naohisa Kuriyama (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Graduate School of Medicine)

Aya Matsui (Department of Gastroenterological Surgery II, Faculty of Medicine, Hokkaido University)

- FP27-1 Indications for Staging Laparoscopy According to Tumor Location in Pancreatic Ductal Adenocarcinoma
Mina Nagao (Department of Gastroenterological Surgery, Kagawa University, Kagawa, Japan)
- FP27-3 Multimodal Treatment Including Surgery for Locally Advanced Pancreatic Cancer: A Retrospective Analysis of Patients Who Achieved Two-Year Survival After Surgery
Makoto Takahashi (Department of General Surgery, Tokyo Metropolitan Tama Medical Center, Tokyo, Japan)
- FP27-4 Safety and efficacy of surgical resection following carbon-ion radiotherapy-based multidisciplinary treatment for BR-A and UR-LA pancreatic cancer
Takamichi Igarashi (Division of Hepatobiliary and Pancreatic Surgery, Gunma University Graduate School of Medicine)
- FP27-5 Conversion surgery after intraperitoneal paclitaxel combined with systemic chemotherapy for 8 patients with pancreatic ductal adenocarcinoma positive for peritoneal metastasis
Sho Sekiya (Department of Surgery, Tonan Hospital, Hokkaido, Japan)
- FP27-6 Outcomes of conversion surgery for unresectable pancreatic cancer and challenges based on survival after recurrence
Yoshito Tomimaru (Department of Gastroenterological Surgery, Osaka University)
- FP27-7 Clinical utility of CA19-9 and DUPAN-2 in unresectable locally advanced pancreatic adenocarcinoma
Tatsuaki Sumiyoshi (Department of Surgery, Graduate School of Biomedical and Health Science, Hiroshima University)
- FP27-8 Treatment Strategies for Upper Gastrointestinal Obstruction Caused by Pancreatic and Biliary Malignancies
Kazuhiko Sakamoto (Department of Surgery, National Hospital Organization Kanmon Medical Center)

E-Poster 28

► May 23 (Sat.) 8:30-9:20 [E-Poster Room 2 (Convention Hall C)]

Pancreas, POPF 1

Moderators: Shimpei Maeda (Department of Surgery, Tohoku University Graduate School of Medicine)

Toshiya Abe (Department of Surgery and Oncology, Kyushu University)

- FP28-2 Machine-Learning Prediction of CR-POPF from Preoperative CT Images
Takahiro Maehata (Department of Surgery, Ogaki Municipal Hospital, Japan/Department of Surgery, Toyota Kosei Hospital)
- FP28-3 Skin-to-portal junction distance as a simple CT-based predictor of pancreatic fistula after pancreaticoduodenectomy
Shinichi Ikuta (Department of Surgery, Meiwa Hospital)

- FP28-4 Preoperative MRI T1 Mapping-Based Assessment of Pancreatic Stiffness Is Useful for Predicting Postoperative Pancreatic Fistula After Pancreatic Resection
Takahiro Gunji (Department of Digestive and Transplantation Surgery, Hachioji Medical Center, Tokyo Medical University)
- FP28-5 Does a “Hard” Pancreas by Palpation Truly Prevent Pancreatic Fistula after Pancreatoduodenectomy? Pathological Reclassification Using the Acinar Score
Shoichi Irie (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University Graduate School of Medicine, Tokyo, Japan)
- FP28-6 An excessively high ratio of drain lipase to drain amylase may be a risk factor for post-pancreatectomy pancreatic fistula
Yusuke Saito (Department of Gastrointestinal surgery, Akita University, Japan)
- FP28-7 Impact of Preoperative Nutritional Status on Clinically Relevant Pancreatic Fistula After Pancreatoduodenectomy
Ryosuke Nakano (Department of Gastroenterological and Breast Surgery, Hiroshima Prefectural Hospital, Hiroshima, Japan)
- FP28-8 Risk-stratified Perioperative Prophylactic Antibiotics for Pancreaticoduodenectomy According to POPF Risk
Yoshifumi Mitani (Department of Gastroenterological Surgery, Japanese Red Cross Okayama Hospital, Okayama, Japan)

E-Poster 29

► May 23 (Sat.) 8:30-9:20 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Case Report, Recurrence, Multimodal Treatment

Moderators: Masaharu Ishida (Department of Surgery, Tohoku University)
Kenjiro Okada (Department of Surgery, Graduate School of Biomedical and Health Sciences, Hiroshima University)

- FP29-1 Sustained Complete Remission After RFA for Liver Oligometastasis From PDAC: A Case Report
Yusuke Takahashi (Nagano Municipal Hospital, Nagano, Japan)
- FP29-2 A Case of hepatic resection following chemotherapy for pancreatic cancer liver metastasis
Yuki Takahashi (Department of General and Gastroenterological Surgery, Showa Medical University Fujigaoka Hospital)
- FP29-3 Pathologic Complete Response to Modified FOLFIRINOX Enabling Conversion Surgery in Pancreatic Acinar Cell Carcinoma on Hemodialysis
Sekine Kazuki (Department of Hepato-Biliary-Pancreatic Surgery, Juntendo University School of Medicine)
- FP29-4 A Case of Borderline Resectable Pancreatic Cancer in which Preoperative Chemoradiotherapy Led to a Strategy Change Following Portal Vein Thrombosis
Kohta Iguchi (Department of Gastroenterological Surgery and Oncology, Medical Research Institute KITANO HOSPITAL, PIIF Tazuke-Kofukai, Osaka, Japan)
- FP29-5 A case of UR-LA pancreatic cancer who achieved a curative conversion surgery after multidisciplinary treatments plus overcoming a life-threatening ruptured pseudoaneurysm at right hepatic artery
Munenori Takaoka (Department of General Surgery, Kawasaki Medical School, Okayama, Japan)
- FP29-6 A case of multiple pancreatic cancers associated with IPMN after long-term surveillance
Masaru Koizumi (Department of Surgery, Tochigi Medical Center Shimotsuga, Tochigi, Japan)

- FP29-7 A case of pancreatic tail cancer arising in the remnant pancreas after pancreaticoduodenectomy for pancreatic head cancer that could not be diagnosed as resectable disease
Hiromune Shimamura (Department of Surgery, NHO Sendai Medical Center, Sendai, Japan)
- FP29-8 Resection for isolated abdominal wall recurrence after laparoscopic distal pancreatectomy for pancreatic cancer: surgical indications for palliative pain control and potential prognostic impact
Hitoe Nishino (Department of General Surgery, Chiba University)

E-Poster 30

► May 23 (Sat.) 8:30-9:15 [E-Poster Room 4 (Convention Hall C)]

Liver, Transplantation 1

- Moderators: Yasuhiro Ogura (Department of Transplantation Surgery, Nagoya University Hospital)
Akira Shimizu (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
- FP30-1 Bioelectrical Impedance Analysis for Preoperative Volemia Assessment in Living Donor Hepatectomy
Yoo Shin Choi (Department of Surgery, College of Medicine, Chung-Ang University, Republic of Korea)
- FP30-2 Impacts of controlled attenuation parameter on postoperative liver function and liver regeneration in living liver donors
Hajime Matsushima (Department of Surgery, Hepato-Biliary-Pancreatic Surgery and Transplantation, Nagasaki University, Nagasaki, Japan)
- FP30-3 AI-Assisted Bile Duct Bifurcation Prediction in Laparoscopic Donor Hepatectomy
Jiyoung Baik (Samsung Medical Center, Seoul, Republic of Korea)
- FP30-4 A single trainee surgeon's experience with hepatic arterial reconstruction in liver transplantation
Hidenobu Kojima (Department of Surgery, Graduate School of Medicine, Kyoto University, Kyoto, Japan)
- FP30-5 Impact of Cold Ischemic Time on Rejection After Liver Transplantation: Is There a Safe Window?
Sehyeon Yu (Korea University Medical Center, Seoul, Republic of Korea)
- FP30-6 Short-term External Biliary Drainage in Living Donor Liver Transplantation Using Duct-to-Duct Anastomosis: A single-center experience
Young Chul Yoon (General Surgery, Catholic university of Korea, Incheon, Republic of Korea)
- FP30-7 Normothermic machine perfusion of the rat
Sunao Fujiyoshi (Department of Gastroenterological Surgery 1, Hokkaido University, Hokkaido, Japan)

E-Poster 31

► May 23 (Sat.) 8:30-9:30 [E-Poster Room 5 (Convention Hall C)]

Biliary, Multimodal Treatment

Moderators: Koji Asai (Department of Surgery, Toho University Ohashi Medical Center)
Hisashi Kosaka (Department of Hepatobiliary Surgery, Kansai Medical University)

- FP31-1 Safety and Treatment Outcomes of Neoadjuvant Chemotherapy for Biliary Tract Cancer
Soya Meguro (Department of Surgery, Dokkyo Medical University Saitama Medical Center, Saitama, Japan)
- FP31-2 Cytotoxic chemotherapy and immune checkpoint inhibitor therapy for biliary tract cancer: identification of distinct pathological chemotherapeutic effects
Shuichi Koike (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University School of Medicine, Tokyo, Japan)
- FP31-3 Safety of Gemcitabine plus Cisplatin plus Durvalumab Combination Therapy for Unresectable Biliary Tract Cancer at Our Institution
Takaki Furuyama (Tokyo Metropolitan Toshima Hospital, Department of Surgery, Tokyo, Japan)
- FP31-4 New Outpatient Treatment Introduction of GC with Immune Checkpoint Inhibitor Treatment for Unresectable Biliary Tract Cancer and Multidisciplinary Adverse Event Management
Hiroaki Ono (Department of Hepato-Biliary-Pancreatic Surgery, Saitama Medical University International Medical Center, Saitama, Japan)
- FP31-5 Conversion Surgery for Biliary Tract Cancer at Our Institution
Hisateru Komatsu (Department of Gastroenterological Surgery, Osaka International Cancer Institute)
- FP31-6 Heavy ion radiotherapy for locally advanced cholangiocarcinoma
Norihiko Suzuki (Second Department of Surgery, Wakayama Medical University School of Medicine, Wakayama, Japan)
- FP31-7 Long-Term Outcomes of Endobiliary Radiofrequency Ablation Plus Stenting in Malignant Biliary Obstruction: A Patient-level Meta-Analysis of Randomized Trials
Mohamed Hamouda Elkasaby (Faculty of Medicine, Al-Azhar University, Cairo, Egypt/Faculty of Medicine, Port Said)
- FP31-8 Is Upfront Surgery Always Beneficial? Preoperative Risk Stratification Using SUVmax and CA 19-9 in Distal Cholangiocarcinoma
Inhyuck Lee (Seoul National University Hospital, Republic of Korea)
- FP31-9 Association Between Perioperative Changes in CA19-9 and Recurrence Risk After Pancreaticoduodenectomy for Distal Cholangiocarcinoma and Ampullary Carcinoma
Takuto Nobuhiro (Department of Hepatobiliary and Pancreatic Surgery, Graduate School of Medicine, Institute of Science Tokyo, Tokyo, Japan)
- FP31-10 Clinical significance of bile duct margin carcinoma in situ in distal cholangiocarcinoma undergoing pancreaticoduodenectomy
Yoshiyuki Shibata (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Tokyo, Japan)

E-Poster 32

► May 23 (Sat.) 8:30-9:25 [E-Poster Room 6 (Convention Hall C)]

Biliary, Case Report, Congenital

Moderators: Ryota Higuchi (Tokyo Women's Medical University Yachiyo Medical Center)
Jun Muto (Department of General Surgery, Kurashiki Central Hospital)

- FP32-1 Mirror, Mirror: Management of Choledochal Cyst in an Adult with Situs Inversus Totalis
Swamy Rajesh Hudugur (IMS & SUM Hospital, Bhubhanwshwar, Odisha, India/Nizams Institute of Medical Sciences, Hyderabad, India (NIMS))
- FP32-2 A Case of Congenital Biliary Dilatation with Cholangiocarcinoma and an Anomalous Left Renal Vein Draining into the Left Common Iliac Vein
Shigeru Kato (Department of Surgery, Japanese Red Cross Fukui Hospital, Fukui, Japan)
- FP32-3 Sequential Pancreatic and Intrahepatic Biliary Malignancies After Surgery for Congenital Biliary Dilatation With Pancreaticobiliary Maljunction: Surgical Management Using a Preserved Roux-en-Y Limb: A Case Report
Satoshi Yokoyama (Department of Surgery, Japanese Red Cross Society, Wakayama Medical Center, Wakayama, Japan)
- FP32-4 A Case of Laparoscopic Cholecystectomy for Gallbladder Calculi with Duplicated Bile Duct (Type Vb)
Junichiro Watanabe (Department of Surgery, Yonezawa City Hospital, Yamagata, Japan)
- FP32-5 A Rare Case of Intrahepatic Bile Duct Dilatation Caused by a Cystic Duct Stone in Kuji Classification Type I Biliary Anomaly
Masato Mito (Department of Surgery, Nagaoka Red Cross Hospital, Nagaoka, Japan)
- FP32-6 Laparoscopic Cholecystectomy for Gallbladder Polyp in a Patient with Prepancreatic and Preduodenal Portal Vein, Hepatic Segment Agenesis of the Inferior Vena Cava, and Intestinal Malrotation: A Case Report
Yuji Shimizu (Second Department of Surgery, Hamamatsu University School of Medicine, Hamamatsu, Japan)
- FP32-7 A Case Report: Intraoperative Discovery of a Left-Sided Gallbladder: The Role of Preoperative Imaging
Elizabeth Catameo (Manila Doctors Hospital, Philippines)
- FP32-8 A rare case of multiseptated gallbladder
Tomonari Shimagaki (Department of Surgery, Hiroshima Red Cross Hospital and Atomic-bomb Survivors Hospital)
- FP32-9 Multiseptate Gallbladder with Markedly Elevated Gallbladder Bile Amylase Levels in the Absence of Pancreaticobiliary Maljunction: A case report
So Kobashi (Department of Gastrointestinal Surgery(Liver, Gallbladder, Pancreas), Toranomon Hospital)

E-Poster 33

► May 23 (Sat.) 9:30-10:25 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Prognostic Factor 1

Moderators: Hideki Sasanuma (Department of Surgery, Jichi Medical University)

Koji Imai (Division of Hepato-Biliary-Pancreatic, Transplant and Gastrointestinal Surgery, Department of Surgery, Asahikawa Medical University)

- FP33-1 Prognostic Impact of Positive Peritoneal Cytology in Resected Pancreatic Cancer Treated With Adjuvant Chemotherapy: Comparison With pStage IIA and IIB Disease
Yuuki Sasaki (First Department of Surgery, Fukui University, Fukui, Japan)
- FP33-2 Reappraisal of Peritumoral Lymph Nodes as Predictors of Postoperative Prognosis in Pancreatic Ductal Adenocarcinoma: Direct Lymph Node Invasion is not Equivalent to Lymph Node Metastasis
Yoon Soo Chae (Department of Surgery and Cancer Research Institute, Seoul National University College of Medicine, Seoul, South Korea, Republic of Korea)
- FP33-3 The Clinical Utility of MRI in Assessing Lymph Node Metastasis of PDAC
Masaki Sakaue (Department of Gastroenterological Surgery, Graduate School of Medicine, The University of Osaka)
- FP33-4 Risk Factors Associated with Intraductal Papillary Mucinous Carcinoma in Patients with a Preoperative Diagnosis of IPMN
Risa Muramatsu (Department of Surgery, Hakodate Goryoukaku Hospital)
- FP33-5 Evaluation of pPCM1e in pancreatic cancer and the clinical significance of adjuvant chemotherapy
Taishu Oka (First Department of Surgery, Faculty of Medicine, University of Yamanashi)
- FP33-6 Poor Prognosis for R1 Resection in PD Cases of Pancreatic Cancer Even After NACRT Based on the 1mm Rule
Minoru Oshima (Department of Gastroenterological Surgery, Kagawa University, Kagawa, Japan)
- FP33-7 Prognostic Impact of Tumor Location in Resected Pancreatic Body versus Tail Cancer: A Sensitivity Analysis Considering Boundary Allocation
Takuji Noro (Department of General and Gastrointestinal Surgery, Juntendo University Nerima Hospital, Tokyo, Japan)
- FP33-8 Impact of Tumor Location on Clinical Outcomes in Resected Pancreatic Cancer: Comparing Head Versus Body and Tail
Yi-Fu Chen (Chang Gung Memorial Hospital, Taiwan)

E-Poster 34

► May 23 (Sat.) 9:30-10:25 [E-Poster Room 2 (Convention Hall C)]

Pancreas, POPF 2

Moderators: Takao Ide (Department of Surgery, Faculty of Medicine, Saga University)

Kazuto Shibuya (Department of Surgery and Science, University of Toyama)

- FP34-1 Short-Term Postoperative Outcomes of Pancreaticojejunostomy Using PANC LOOP in Our Department
Yosuke Iwakawa (Department of Gastrointestinal Surgery, Ehime Central Hospital, Ehime, Japan)

- FP34-2 Feasibility of pancreaticojejunostomy using the Pancloop technique for reducing severe POPF in patients with a soft pancreas
Sadaaki Nishimura (Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University, Osaka, Japan)
- FP34-3 Surgical Outcomes of Main Pancreatic Duct Ligation technique in Distal Pancreatectomy
Poramin Muangkaew (Department of surgery, Faculty of Medicine Ramathibodi Hospital, Mahidol University, Thailand)
- FP34-4 Usefulness of Single-Layer Full-Thickness Pancreaticojejunostomy After Pancreaticoduodenectomy: A Retrospective Analysis of Risk Factors for Postoperative Pancreatic Fistula
Noriki Okada (Department of Gastroenterological, General and Transplant Surgery, Jichi Medical University, Tochigi, Japan)
- FP34-5 Effect of a Dual-Incision Large-Invagination Pancreaticogastrostomy on Short- and Long-Term Pancreatic Fistula Outcomes After Pancreaticoduodenectomy
Masayuki Tori (Department of Surgery, Osaka Keisatsu Hospital, Osaka, Japan)
- FP34-6 Afferent Loop Decompression and Outcomes After Pancreaticoduodenectomy: A Prospective Cohort with Propensity Matched Controls
Swamy Rajesh Hudugur (IMS & SUM Hospital, Bhubhanwshwar, Odisha, India/Nizams Institute of Medical Sciences, Hyderabad, India (NIMS))
- FP34-7 Technique and efficacy of protective covering of the GDA stump using ligamentum teres hepatis and absorbable hemostatic agent during PD
Akira Umemura (Department of Surgery, School of Medicine, Iwate Medical University)
- FP34-8 Our surgical technique and perioperative management to prevent severe pancreatic fistula after pancreatoduodenectomy
Akihiro Murata (Department of Gastroenterological Surgery, Osaka City General Hospital)
- FP34-9 Ingenuity to the surgical procedure of pancreatoduodenectomy and perioperative management of pancreatic fistula
Yuko Mataki (Department of Digestive Surgery, Kagoshima University)

E-Poster 35

► May 23 (Sat.) 9:30-10:20 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Case Report, Perioperative Management

Moderators: Koji Kubota (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
Naotake Funamizu (Department of HBP and Breast Surgery, Ehime University Graduate School of Medicine)

- FP35-1 Two surgical cases of pancreaticoduodenectomy performed after surgery for esophageal cancer
Mayuko Korekata (Department of hepato-biliary-pancreatic surgery, Toranomon Hospital, Tokyo, Japan)
- FP35-2 Two cases of pancreaticoduodenectomy after esophagectomy with posterior mediastinal reconstruction: surgical strategies for preserving blood supply to the gastric tube via the gastroepiploic vessels
Daisuke Takei (Department of Gastroenterological Surgery, NHO Shikoku Cancer Center, Ehime, Japan)

- FP35-3 Treatment Strategy for Pancreatic Head Cancer in a Hemodialysis Patient with Prior Coronary Revascularization Using the Right Gastroepiploic Artery in the Era of Neoadjuvant Chemotherapy: A Case Report
Tomoya Shamoto (Department of Gastroenterological Surgery, Nagoya City University East Medical Center, Nagoya, Japan)
- FP35-4 Laparoscopic PPPD in patient with atypical hepatic artery communication caused by common hepatic artery stenosis
Young Seok Han (Liver-Biliary-Pancreas Hospital, Daegu Catholic University Medical Center, Daegu, Republic of Korea)
- FP35-5 A case of pancreaticoduodenectomy for ampullary carcinoma following post-ERCP pancreatitis complicated by WON
Shunya Iio (Department of Digestive Surgery, Kagoshima City Hospital, Kagoshima, Japan)
- FP35-6 Two Cases of Duodenum-Preserving Pancreatic Head Resection for Pancreatolithiasis
Hiroki Tani (Department of Surgery, Fujita Health University School of Medicine, Bantane Hospital)
- FP35-7 MIS management of spontaneous GDA aneurysm
Jae Do Yang (The Department of Surgery, Jeonbuk National University Hospital, Republic of Korea)
- FP35-8 Initial experience of Simultaneous Pancreas-Kidney Transplantation at Ryukyu University Hospital
Shinichiro Ono (Department of digestive and general surgery, Graduate school of medicine, University of Ryukyus)

E-Poster 36

► May 23 (Sat.) 9:30-10:15 [E-Poster Room 4 (Convention Hall C)]

Liver, Transplantation 2

- Moderators: Yasuhiko Sugawara (Department of Pediatric Surgery and Transplantation, Kumamoto University)
Ryoichi Goto (Department of Gastroenterological Surgery I, Hokkaido University Hospital)
- FP36-1 Optimal Treatment Selection for HCC: Hepatectomy vs Liver Transplant Based on Child Class and Risk Factors
Masahiro Ohira (Department of Gastroenterological and Transplant Surgery, Hiroshima University, Japan)
- FP36-2 Outcomes of highly urgent adult ABO-incompatible living donor liver transplantation in national databases: A case-controlled study
Jongman Kim (Department of Surgery, Samsung Medical Center, Sungkyunkwan University School of Medicine, Republic of Korea/Department of Surgery, Asan Medical Center, University of Ulsan College of Medicine)
- FP36-3 Outcome of living donor liver transplantation for primary biliary cholangitis in a single center experience
Takaaki Kato (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- FP36-4 An Analysis of Small-for-Size Syndrome After Living Donor Liver Transplantation
Hiroyuki Ogasawara (Department of Surgery, Tohoku University, Miyagi, Japan)
- FP36-5 Correlation of Early Post-Operative Outcomes on Graft Weight Variations in Right Lobe Recipient Living-Donor Liver Transplantation: A Single Center Retrospective Study
Meynard Keynes Q. Dela Cruz (Center for Liver and Biliary Sciences, Max Superspeciality Hospital, Saket, New Delhi, India/Region 2 trauma and Medical Center, Bayombong, Nueva Vizcaya, Philippines)

- FP36-6 Impact of Point-of-Care TEG6s Monitoring on Transfusion Requirements Following Liver Transplantation
Muneyuki Matsumura (Tohoku University Hospital, Department of Surgery)
- FP36-7 Clinicopathological outcomes of rabbit anti-thymocyte globulin for steroid-refractory acute cellular rejection after liver transplantation: two case reports
Minami Maruyama (Department of Gastroenterological Surgery, The University of Osaka)

Others, Education, Miscellaneous

Moderators: Naoki Ikenaga (Department of Surgery and Oncology, Kyushu University)
Hideki Takami (Department of Surgery, Nagoya University Hospital)

- FP38-2 Robotic Surgery Centered Education and Recruitment to Sustain the HBP Surgical Workforce
Kenta Saito (Department of Gastroenterological Surgery, Nagoya city university, Nagoya, Japan)

- FP38-4 Training of academic surgeon in local city hospital
Masashi Utsumi (Department of Surgery, NHO Fukuyama Medical Center, Hiroshima, Japan)
- FP38-5 Fast and easy research using AI
Jun Suh Lee (Bucheon Sejong Hospital, Republic of Korea)
- FP38-6 From Black-Box AI to Surgeon-Designed Intelligence: A Programmable Digital System for Hepatobiliary and Pancreatic Surgery
Takashi Kimura (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University, Fukushima, Japan)
- FP38-7 AI-Driven Real-Time Surgical Field Occlusion Detection System to Support Video Recording for the Board Certification System
Shuta Kuchida (Department of Surgery, School of Medicine, Iwate Medical University)
- FP38-9 Discontinuation of Pancreatic Cancer Clinical Studies: A Cross-Sectional
Yousef Radwan Alnomani (Faculty of Medicine Benha University, Egypt)

E-Poster 39

► May 23 (Sat.) 10:30-11:20 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Prognostic Factor 2

Moderators: So Yamaki (Department of Pancreatobiliary Surgery, Kansai Medical University)
Chikato Koga (Department of Surgery, Kindai University Nara Hospital)

- FP39-1 Is the combined use of CA19-9 and DUPAN-2 useful in both pancreatic head and body and tail cancers?
Takayuki Kira (Department of Surgery, Graduate School of Biomedical & Health Sciences, Hiroshima University, Hiroshima, Japan)
- FP39-2 Persistently Elevated CA19-9 After Two-Course Neoadjuvant Gemcitabine Plus S-1 Therapy Is Associated With Early Recurrence in Resectable and Borderline Resectable Pancreatic Cancer
Kenji Umeda (Department of Surgery, Oita Prefectural Hospital)
- FP39-3 Prognostic Value of Perioperative CA19-9 Fluctuation Patterns in Patients Undergoing Curative-Intent Resection for Pancreatic Cancer
Naoki Matsuya (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University School of Medicine, Tokyo, Japan)
- FP39-4 Biological Recurrence Defined by Postoperative CA19-9 Elevation Predicts Radiological Recurrence After Curative Resection for Pancreatic Cancer
Ken Oh (Department of HBP Surgery, Institute of Science Tokyo, Tokyo, Japan)
- FP39-5 Postoperative CA19-9 as a predictor of the efficacy of S-1 adjuvant chemotherapy in pancreatic cancer
Kenichi Matsuo (Department of General and Gastroenterological Surgery, Showa Medical University Fujigaoka Hospital, Kanagawa, Japan)
- FP39-6 Risk factors of Early Recurrence After Curative Resection for Pancreatic Cancer
Yuki Adachi (Department of Gastroenterological Surgery, Medical Science, Kumamoto University, Kumamoto, Japan)
- FP39-7 Risk factors for recurrence and their impact on long-term survival after pancreatic cancer resection
Pavinee Hemprommarach (Faculty of Medicine Ramathibodi Hospital, Mahidol University, Bangkok, Thailand)

- FP39-8 Prognostic Nomogram for Predicting Disease-Free Survival in Patients with Resected Pancreatic Ductal Adenocarcinoma
Han-Hsi Chiu (Chang Gung Memorial Hospital, Linkou, Taiwan)

E-Poster 40

► May 23 (Sat.) 10:30-11:20 [E-Poster Room 2 (Convention Hall C)]

Pancreas, NAT

Moderators: Yoshihiro Mise (Department of Hepatobiliary Pancreatic Surgery, Juntendo University Hospital)
Hirofumi Akita (Department of Gastroenterological Surgery, The University of Osaka Graduate School of Medicine)

- FP40-1 The outcomes of resectable pancreatic cancer after neoadjuvant gemcitabine and S-1 chemotherapy at our institution
Soichiro Mori (Surgery, Osaka Rosai Hospital)
- FP40-2 Neoadjuvant Gemcitabine Plus S-1 Therapy for Resectable Pancreatic Cancer: A Single-Institution Experience
Ryota Saito (Department of Surgery, The Jikei University Kashiwa Hospital)
- FP40-3 Evaluation of Neoadjuvant Chemotherapy in Small Resectable Pancreatic Ductal Adenocarcinoma
Chikara Shirata (Department of Gastroenterological Surgery, Ibaraki Cancer Center, Ibaraki Prefectural Central Hospital, Ibaraki, Japan)
- FP40-4 Outcomes of Gemcitabine plus S-1 Neoadjuvant Chemotherapy in Resectable Left-Sided Pancreatic Cancer: A Single-Center Study
Akitsugu Fujita (Department of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan)
- FP40-5 Treatment outcomes for borderline-resectable pancreatic cancer in our hospital
Yuta Yoshioka (Department of Surgery, Kakogawa Central City Hospital)
- FP40-6 Impact of perioperative chemotherapy completion on prognosis and its predictive factors in patients with pancreatic cancer
Naoki Iwanaga (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University School of Medicine, Tokyo, Japan)
- FP40-7 Long-Term Survival Factors After Resection Following S-1 Plus Gemcitabine-based Neoadjuvant Chemoradiotherapy for Resectable Pancreatic Adenocarcinoma
Yasuhiro Murata (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University)
- FP40-8 Clinical Impact of Postoperative Intramesenteric Vein Chemotherapy in Patients With Resectable Pancreatic Cancer: A Retrospective Study
Masahiko Kubo (Department of Gastroenterological surgery, Osaka international cancer institute, Osaka, Japan)

E-Poster 41

► May 23 (Sat.) 10:30-11:20 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Case Report, Conversion Surgery

Moderators: Masayuki Tanaka (Department of Surgery, Keio University School of Medicine)
Young Mok Park (Pusan National University School of Medicine, Republic of Korea)

- FP41-1 A Study of Pancreatic Cancer Achieving Pathological Complete Response Following Preoperative Therapy
Takahiro Haruna (Department of Gastroenterological Surgery, Nippon Medical School TamaNagayama Hospital, Tokyo, Japan)
- FP41-2 A case of pancreatic cancer treated with successful response to the 2nd line nal-IRI and conversion surgery
Kosei Niwano (Department of Surgery, National Hospital Organization Kyoto Medical Center, Kyoto, Japan)
- FP41-3 A Case of Pancreaticoduodenectomy Following Chemotherapy for locally advanced Pancreatic Cancer
Kaede Iwama (Department of Surgery, Hachinohe City Hospital, Aomori, Japan)
- FP41-4 Successful Conversion Surgery Following Multidisciplinary Treatment Resulting in Long-Term Survival in Unresectable Pancreatic Cancer with Liver Metastases
Tarou Tosa (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University, Fukushima, Japan)
- FP41-5 A case of conversion surgery for UR-M pancreatic cancer with only para-aortic lymph node metastasis
Naoki Okada (Department of Gastroenterological Surgery, NHO Hokkaido Cancer Center, Sapporo, Japan)
- FP41-6 Conversion Surgery Following Carbon-Ion Radiotherapy for Locally Advanced Pancreatic Cancer: A Report of Three Cases
Hiroki Hayashi (Department of Surgery, NHO Sendai Medical Center)
- FP41-7 Conversion Surgery After Chemotherapy and Carbon-Ion Radiotherapy for Unresectable or Borderline Resectable Pancreatic Cancer: A Three-Case Series
Shigemasa Suzuki (Department of Surgery, Gunma Prefecture Saiseikai Maebashi Hospital, Maebashi, Japan)
- FP41-8 Resection of Locally Advanced Pancreatic Cancer with Superior Mesenteric Vein Occlusion Using a Temporary Venous Bypass with an Anthron Tube: A Case Report
Hayama Satoshi (IMS Sapporo Digestive Disease Central General Hospital, Sapporo, Japan)

E-Poster 42

Liver, Case Report Cystic Disease

Moderators: Atsushi Takebe (Department of Surgery, Faculty of Medicine, Kindai University)
Taiga Wakabayashi (Division of Hepatobiliary and Pancreatic Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research)

- FP42-1 Simple hepatic cyst is not always simple
Chin Yee Mah (General Surgery Department, Dalin Tzu Chi Hospital, Buddhist Tzu Chi Medical Foundation, Taiwan)

- FP42-2 Two cases of hemorrhagic hepatic cysts managed by hemihepatectomy
Yoshikuni Inokawa (Department of Surgery, Gifu Prefectural Tajimi Hospital)
- FP42-3 A resected mucinous cystic neoplasm of the liver treated as a simple hepatic cyst for 20 years
Hiroki Tomita (Department of Gastrointestinal surgery and general surgery, Hyogo Prefectural Harima-Himeji General Medical Center, Himeji, Japan)
- FP42-4 A case of intraductal papillary neoplasm of the bile duct underwent extended left hepatectomy with a preoperative diagnosis of mucinous cystic neoplasm
Yusuke Kimura (Department of Surgery, Hirakata Kohsai Hospital, Osaka, Japan)
- FP42-5 ICG fluorescence-guided laparoscopic deroofing for a giant liver cyst after rupture; a case report
Satoshi Eguchi (Department of Gastroenterological Surgery, Nippon Life Hospital, Osaka, Japan)
- FP42-6 A case of laparoscopic deroofing for two giant liver cysts compressing the IVC and causing lower limb edema
Noriyuki Kitagawa (Department of Gastrointestinal Surgery, Iida Municipal Hospital, Iida, Japan)
- FP42-7 A case of EBV-positive inflammatory follicular dendritic cell sarcoma with diagnostic difficulties
Naganori Yamada (Hepatobiliary and Pancreatic Surgery and Pediatric Surgery, Saitama Medical Center, Saitama, Japan)
- FP42-8 A Case of Epstein-Barr Virus-Positive Inflammatory Pseudotumor-Like Follicular Dendritic Cell Tumor of the Liver
Teruhiko Kitabatake (Department of Gastroenterological Surgery and Pediatric Surgery, Hirosaki University Graduate School of Medicine)
- FP42-9 Chronic Expanding Hematoma of the Liver
Makoto Watanabe (Saitama City Hospital)

E-Poster 43

Liver, MIS 1

Moderators: Takehiro Noda (Department of Gastroenterological Surgery, The University of Osaka)
Masayuki Kojima (Department of Surgery, Fujita Health University)

- FP43-1 Safety and Feasibility of Hepatectomy Using the da Vinci SP Surgical System
Kenichiro Takase (Department of Hepato-Biliary-Pancreatic Surgery, Saitama Medical University International Medical Center, Saitama, Japan)
- FP43-2 Perioperative Outcomes of Robotic Liver Resection: A Propensity Score-Matched Comparison With Laparoscopic Surgery
Yu Onaya (Department of Surgery, Keio University, Tokyo, Japan)
- FP43-3 Preoperative Simulation-Guided ICG Fluorescence Navigation Using the Negative Staining Method in Laparoscopic Anatomical Liver Resection
Masashi Inoue (Hepato-Biliary-Pancreatic Surgery, Hiroshima City North Medical Center Asa Citizens Hospital)
- FP43-4 Caudo-peripheral approach for minimally invasive left hemihepatectomy for hepatocellular carcinoma: a propensity score-matched study
Hisamune Sakai (Department of Surgery, Kurume University School of Medicine)

- FP43-5 Comparison of Open and Laparoscopic Partial Resection for Caudate Lobe Tumors: Surgical Outcomes According to Tumor Location
Daisuke Takimoto (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University Graduate School of Medicine, Kobe, Japan)
- FP43-6 Short-Term and Long-Term Outcomes of Minimally Invasive and Open Resection for Gallbladder Cancer
Irina Nadina (Moscow Clinical Scientific Center n.a. A.S. Loginov, MHD Moscow, Russia)
- FP43-7 Combined Transarterial Embolization and Laparoscopic-Assisted Microwave Ablation for Hepatic Hemangioma: An Efficacy Study
Changle Wu (Chinese PLA Medical School, China/The First Medical Center of Chinese PLA General Hospital)
- FP43-8 A comparison of postoperative complications following advanced hepatectomies
Keisuke Okura (Department of Surgery, Kyoto University, Kyoto, Japan)

E-Poster 44

► May 23 (Sat.) 10:30-11:00 [E-Poster Room 6 (Convention Hall C)]

Biliary, Basic Research

Moderators: Junpei Yamaguchi (Aichi Cancer Center Hospital)

Atsushi Oba (Division of Surgical Oncology, University of Colorado Anschutz)

- FP44-1 Genetic aberration from normal tissues adjacent to biliary tract cancers
Myeong Hun Oh (Department of Surgery, Biomedical Research Institute and Pusan National University Hospital, Republic of Korea)
- FP44-2 Transcriptomic landscape analysis reveals cell-cycle activation and immune-related features in extrahepatic cholangiocarcinoma
Hyeon Woong Kang (Biomedical Research Institute, Seoul National University Hospital, Seoul, Republic of Korea)
- FP44-3 Single-cell and spatial transcriptomics reveal an aging-associated immunosuppressive niche in gallbladder cancer
Lei Kong (Xinhua Hospital, Shanghai Jiao Tong University School of Medicine, Shanghai, China)
- FP44-4 Tumor-suppressive CAFs in biliary tract cancers: A functional role for IL-6 and IL-8 in the tumor microenvironment
Ryota Tanaka (Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine, Osaka, Japan)
- FP44-5 Stromal-immune crosstalk through COL1A1-LAIR1 drives an immunosuppressive niche and NK-cell dysfunction in gallbladder cancer
Lei Kong (Xinhua Hospital, Shanghai Jiao Tong University School of Medicine, Shanghai, China)

E-Poster 45

Pancreas, Prognostic Factor 3

Moderators: Masaharu Kogure (Department of Hepato-Biliary-Pancreatic Surgery, Kyorin University Hospital)
Mikiya Shine (Department of Hepato-Biliary-Pancreatic and Breast Surgery, Ehime University Hospital)

- FP45-1 Association of Post-CRT NL/M With Survival in Borderline Resectable Pancreatic Cancer After Neoadjuvant Chemoradiotherapy
Haruna Komatsubara (Department of Hepatobiliary Pancreatic and Transplant Surgery, Mie University Graduate School of Medicine, Mie, Japan)
- FP45-2 Preoperative Systemic Immune-Inflammation Index and Recurrence Risk After Curative Pancreatectomy for Pancreatic Cancer
Masashi Shimasaki (Department of Gastroenterological Surgery, Kumamoto University Hospital, Kumamoto, Japan)
- FP45-3 Treatment Strategy and Long-term Outcomes of Resectable Pancreatic Cancer: Analysis of Inflammatory, Nutritional, and Tumor Markers as Prognostic Factors
Takamune Yamaguchi (Department of Surgery, Tokyo Metropolitan Bokutoh Hospital, Tokyo, Japan)
- FP45-4 Clinical Utility of the Preoperative AST/ALT Ratio in Pancreatic Cancer
Daiji Mori (Department of Gastroenterological Surgery, Kumamoto University-Hospital)
- FP45-5 Prognostic Role of the FIB-4 Index in Resected Pancreatic Ductal Adenocarcinoma
Koichi Mohri (Hyogo Cancer Center)
- FP45-6 Impact of Modified Frailty Score on Outcomes After Pancreatic Cancer Resection in the Era of Perioperative Systemic Therapy
Teruki Sakoh (Department of Gastroenterological Surgery, Graduate School of Medical Sciences, Kumamoto University, Kumamoto, Japan)
- FP45-7 Determination of Pancreatic Cancer Mortality: The Role of Health Expenditure, Hypertension, and Employment Structure
Derizal (Alumnus of IP Trisakti, Indonesia)
- FP45-8 Preoperative Urine pH as a Prognostic Marker for Perioperative and Survival Outcomes in Pancreatic Ductal Adenocarcinoma
Seoung Yoon Rho (Department of Surgery, Yongin Severance hospital, Yonsei University College of Medicine, Republic of Korea)

E-Poster 46

► May 23 (Sat.) 12:50-13:35 [E-Poster Room 2 (Convention Hall C)]

Pancreas, Postoperative Complication 1

Moderators: Riki Ninomiya (Hepato-biliary-pancreatic Surgery, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital)
Sachiyo Nomura (Clinical Pharmaceutical Sciences, Hoshi University)

- FP46-1 Impact of postoperative hyperamylasemia(POH) and post-pancreatectomy acute pancreatitis (PPAP) following pancreaticoduodenectomy: a single-center cohort applying ISGPS criteria
Ativitch Asavachaisuvikom (Faculty of Medicine Ramathibodi hospital, Mahidol University, Thailand)

- FP46-2 Equivalence of Embolization and Stent Placement for Delayed Hemorrhage after Pancreaticoduodenectomy: A Multicenter Comparative Analysis
Yong Gao (The First Affiliated Hospital with Nanjing Medical University, China)
- FP46-3 Risk factors for postoperative chyle leakage after pancreaticoduodenectomy
Takahito Kawaguchi (Cancer Institute Hospital, Japanese Foundation for Cancer Research Hepatobiliary and Pancreatic Surgery)
- FP46-4 Portal Vein Stenting for Jejunal Variceal Bleeding in the Afferent Limb after Pancreaticoduodenectomy: Report of Two Effective Cases
Takahiro Ikeda (Department of Surgery, Sasebo City General Hospital, Nagasaki, Japan)
- FP46-5 Risk Factors for Infectious Liver Cysts After Pancreaticoduodenectomy
Ryuhei Noda (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- FP46-6 Usefulness of Barbed Sutures for Fascial Closure of a Midline abdominal incision in Pancreaticoduodenectomy
Kazuhiro Takami (Division of Hepato-biliary-pancreatic surgery, Tohoku Medical and Pharmaceutical University, Sendai, Japan)
- FP46-7 Risk Factors for 30-day Readmission after Pancreaticoduodenectomy
Takahisa Hirano (Department of Pancreatobiliary Surgery, Kansai Medical University, Osaka, Japan)

E-Poster 47

► May 23 (Sat.) 12:50-13:50 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Case Report, Metastatic Tumor, Rare Histology

Moderators: Ikumi Hamano (Ashikaga Red Cross Hospital)

Aya Maekawa (HPB and Liver Transplant Surgery, Department of Surgery, Oncology and Gastroenterology, University of Padova, Italy)

- FP47-1 A case of pancreaticoduodenectomy for a metastatic pancreatic tumor 16 years after renal cell carcinoma surgery
Yu Matsumoto (Department of Surgery, Toho University Omori Hospital, Tokyo, Japan)
- FP47-2 A Case of Late-Onset Pancreatic Metastasis from Renal Cell Carcinoma
Arata Nishigaki (Department of Gastrointestinal Surgery, Kagawa University, Kagawa, Japan)
- FP47-3 A Case of Pancreatic Serous Cystadenoma Mimicking Metastatic Renal Cell Carcinoma During Treatment with Lenvatinib and Pembrolizumab
Ryosuke Gabata (Department of Surgery, Toyama Prefectural Central Hospital)
- FP47-4 Pancreatic Metastasis Occurring 15 Years after Surgical Resection of Papillary Thyroid Carcinoma: A Case Report
Tomoyuki Ida (Department of Surgery, Kyoto Medical Center)
- FP47-5 Distal Pancreatectomy for Pancreatic Metastasis from Transverse Colon Cancer: A Case Report
D Rikiya Miyahara (Ina Central Hospital)
- FP47-6 Robotic splenectomy with pancreatic tail resection for isolated splenic metastasis from colon cancer: A rare case report
Thanh Sang Nguyen (Department of PancreatoBiliary Surgery, Kansai Medical University, Osaka, Japan/Department of Surgery, Trung Vuong Hospital, Ho Chi Minh, Viet Nam)

- FP47-7 A Case of Myxofibrosarcoma Originating in the Left Popliteal Fossa with Metastasis to the Peripancreatic Adipose Tissue
Kana Kobayashi (Department of Gastroenterological Surgery, Hirosaki University Graduate School of Medicine, Aomori, Japan)
- FP47-8 Anaplastic Pancreatic Carcinoma with Cardiac Metastasis after Robot-Assisted Distal Pancreatectomy: A Case Report
Yuka Iwami (Department of Gastroenterological Surgery, Osaka International Medical and Science Center, Osaka Keisatsu Hospital, Osaka, Japan)
- FP47-9 Laparoscopic Liver Resection with Pringle Maneuver for Metachronous Liver Metastasis from Pancreatic Acinar Cell Carcinoma after Pancreaticoduodenectomy: A Case Report
Yasutaka Kuno (Department of Gastroenterological Surgery, Toranomon Hospital, Tokyo, Japan)
- FP47-10 A case of pancreatic adenosquamous carcinoma with no pathologically detected adenocarcinoma component, in which left upper abdominal viscerectomy was performed and R0 resection was achieved
Tomonori Tsuchiya (Department of Surgery, Shizuoka Saiseikai General Hospital)

E-Poster 48

► May 23 (Sat.) 12:50-13:40 [E-Poster Room 4 (Convention Hall C)]

Liver, MIS 2

- Moderators: Shinya Hayami (Second Department of Surgery, Wakayama Medical University)
Tatsunori Miyata (Department of Gastroenterological Surgery, Graduate School of Life Sciences, Kumamoto University)
- FP48-1 The Safety Limits of Laparoscopic Liver Resections for Hepatocellular Carcinoma
Pavel V. Tarakanov (Moscow Clinical Scientific Center named after A.S. Loginov, Moscow, Russia)
- FP48-2 Surgical Techniques and Perioperative Outcomes of Laparoscopic Liver Resection as Minimally Invasive Surgery
Naokazu Chiba (Department of Digestive and Transplantation Surgery, Tokyo Medical University Hachioji Medical Center)
- FP48-3 Laparoscopic right hepatectomy after Portal vein embolism in Hepatocellular Carcinoma
Young Seok Han (Liver-Biliary-Pancreas Hospital, Daegu Catholic University Medical Center, Daegu, Republic of Korea)
- FP48-4 Percutaneous radiofrequency ablation versus minimally invasive liver resection for small solitary hepatocellular carcinoma (3cm) with MRI features for predicting microvascular invasion
Na Reum Kim (Department of Surgery, Yonsei University College of Medicine, Seoul, Republic of Korea)
- FP48-5 Multicenter Study on Risk Factors and a Risk Score for Conversion to Open Surgery During Repeat Laparoscopic Hepatectomy for HCC with the Hiroshima Surgical Study Group of Clinical Oncology (HiSCO)
Takashi Onoe (Surgery, NHO Kure Medical Center, Kure, Japan/Gastrointestinal and Transplant Surgery, Hiroshima University Hospital, Hiroshima, Japan)
- FP48-6 Technical Strategies and Outcomes of Minimally Invasive Re-Hepatectomy: A Single-Center Experience
Toyonari Kubota (Department of Surgery, Kyoto City Hospital, Kyoto, Japan)

- FP48-7 Less Invasiveness of Laparoscopic Repeat Liver Resection for HCC can make long-term survival with repeated treatments possible
Zenichi Morise (Department of Surgery, Fujita Health University School of Medicine Okazaki Medical Center)
- FP48-8 Our surgical outcome of recurrent hepatocellular carcinoma
Yoshihiro Matsumoto (Department of Surgery, Steel Memorial Yawata Hospital)

Biliary, Case Report, Advanced Stage

Moderators: Daisuke Hokuto (Department of Gasroloenterological and Hepato-Biliary-Pancreatic Surgery, Nara Prefecture General Medical Center)
Shunsuke Onoue (Department of Surgery, Nagoya University Graduate School of Medicine)

- FP50-1 Conversion surgery after gemcitabine- cisplatin plus durvalumab therapy for initially unresectable advanced intrahepatic cholangiocarcinoma: A Case Report
Hiroyuki Nojima (Department of Surgery, Japanese Red Cross Narita Hospital, Chiba, Japan)

- FP50-2 Conversion to Curative Resection After Long-Term GCD and GCS Chemotherapy in Intrahepatic Cholangiocarcinoma with Liver Metastasis: A Case Report
Shuji Komori (Department of Surgery, Gifu Prefectural General Medical Center, Gifu, Japan)
- FP50-3 Successful Conversion Surgery Following Chemotherapy for Initially Unresectable Gallbladder Cancer: A Report of Two Cases
Yukinori Koyama (Department of Surgery, Fukui Red Cross Hospital, Fukui, Japan)
- FP50-4 A case of conversion surgery for initially unresectable BRAF V600E-mutated intrahepatic cholangiocarcinoma after BRAF/MEK- inhibitors combination therapy
Yuji Yoshida (Department of Surgery, Gastroenterology Center, Kyoto Katsura Hospital)
- FP50-5 Bile Duct Metastasis from Rectal Cancer Four Years After Hepatectomy: A Case Report
Kenya Nakamura (Department of Surgery, Ina Central Hospital)
- FP50-6 Aggressive resection of metachronous triple cancers of the biliary tract: a case report
Nao Kinjo (Department of Surgery, Urasoe General Hospital)
- FP50-7 A case of hepatic artery aneurysm rupture caused by delayed bile leakage after surgery for intrahepatic cholangiocarcinoma
Tadatoshi Kakimoto (Department of Gastrointestinal Surgery, Shinkoga Hospital)
- FP50-8 The Effectiveness of Cholangiography using Indocyanine Green compared to Standard Techniques in Preventing Bile Duct Injury during Laparoscopic Cholecystectomy: A Systematic Review and Meta Analysis
Alyssa Katrin O. Chang (Department of Surgery, The Medical City, Philippines)

E-Poster 51

► May 23 (Sat.) 13:50-14:40 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Prognostic Factor 4

- Moderators: Naoya Imamura (Department of Surgery, Faculty of Medicine, University of Miyazaki)
Masahiro Fukada (Department of Gastroenterological Surgery, Gifu University Hospital)
- FP51-1 Surgical Outcomes and Prognostic Factors for Early Recurrence in Resectable Pancreatic Cancer
Kazuhiro Matsuda (Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University)
- FP51-2 Early Recurrence Factors After the Introduction of Neoadjuvant Therapy for Resectable Pancreatic Cancer
Hiromichi Kawaida (First department of Surgery, Yamanashi University Hospital)
- FP51-3 Prognostic Impact of Recurrence Patterns After Curative Resection for Pancreatic Cancer
Taku Higashihara (Department of General Surgery, Tokyo Metropolitan Tama Medical Center, Tokyo, Japan)
- FP51-4 Association Between Relative Dose Intensity of S-1 Based on BBT Formula and Survival Outcomes in Adjuvant Chemotherapy for Pancreatic Cancer
Miku Obayashi (Department of Surgery, Hamamatsu University School of Medicine, Shizuoka, Japan)
- FP51-5 The impact of reduced-dose adjuvant S-1 therapy on prognosis in resectable pancreatic cancer
Nobuhito Nitta (Department of Surgery, Shiga University of Medical Science)

- FP51-6 Ideal outcome and long term prognosis after pancreaticoduodenectomy for pancreatic cancer
Aso Kenta (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University School of Medicine, Tokyo, Japan)
- FP51-7 Prognostic factors for achieving 5-year survival after resection of pancreatic cancer
Yoshitaro Shindo (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine, Yamaguchi, Japan)
- FP51-8 NCCRP1 Promoter Hypermethylation Predicts Poor Prognosis in Pancreatic Cancer
Mai Nakamura (National Center for Global Health and Medicine)

Pancreas, Case Report, SPN, Rare Tumors

Moderators: Makoto Shibuya (Department of Surgery, Teikyo University School of Medicine)
Yoshihide Nanno (HBP Surgery, Kobe University)

- FP53-1 A case of small Solid-pseudopapillary neoplasm (SPN) of Pancreatic tail that could not be diagnosed before operation
Masaki Tokumo (Department of Hepato-Biliary-Pancreatic Surgery, Kagawa Rosai Hospital, Japan)
- FP53-2 Subtotal stomach-preserving pancreaticoduodenectomy for solid pseudopapillary neoplasm after preoperative diagnosis by endoscopic ultrasound-guided fine-needle aspiration biopsy: report of two cases
Hideaki Uchiyama (Department of Surgery, Fukuokahigashi Medical Center, Fukuoka, Japan)
- FP53-3 A case of leiomyosarcoma originating from the splenic vein diagnosed preoperatively as a primary pancreatic tumor
Yuji Yamamoto (Department of Surgery, Yokohama Medical Center, Kanagawa, Japan)
- FP53-4 Mixed Acinar-Ductal Carcinoma Treated With Laparoscopic Distal Pancreatectomy
Shoichiro Arai (Division of Hepatobiliary and Pancreatic Surgery, Department of Surgery, Kurume University School of Medicine, Fukuoka, Japan)
- FP53-5 A Case of Multiple Pancreatic Hemangiomas Preoperatively Diagnosed as Pancreatic Neuroendocrine Tumors
Tomoyuki Kato (Department of General, Pediatric and Hepato-Biliary-Pancreatic Surgery, Kitasato University Hospital, Kanagawa, Japan)
- FP53-6 A Case of Giant Pancreatic Lymphangioma Difficult to Differentiate from Malignant Pancreatic Cystic Tumor
Hirofumi Shimoda (Department of Hepato-Biliary-Pancreatic Surgery, Tochigi Cancer Center, Tochigi, Japan)
- FP53-7 A Case of an Epidermoid Cyst Arising in an Intrapancreatic Accessory Spleen Mimicking Pancreatic Mucinous Cystic Neoplasm (MCN)
Kaori Katsumata (Department of Surgery, KKR Tachikawa Hospital, Tokyo, Japan)
- FP53-8 Robot-assisted spleen-preserving distal pancreatectomy for an epithelial cyst arising from an intrapancreatic accessory spleen: a case report
Masaki Ueno (Department of Gastrointestinal Surgery, NHO Osaka Minami Medical Center, Osaka, Japan)
- FP53-9 A Case of Granular Cell Tumors in the Pancreatic Tail and Vulva Treated by Surgical Resection
Yuma Suno (Department of Hepatobiliary and Pancreatic Surgery, Shonan Kamakura General Hospital Kamakura, Japan)

E-Poster 54

► May 23 (Sat.) 13:50-14:40 [E-Poster Room 4 (Convention Hall C)]

Liver, Case Report, Malignant

Moderators: Ryo Morimura (Department of Digestive Surgery, Kyoto Prefectural University of Medicine, Graduate School of Medical Science)

Takahiro Yoshikawa (Department of Gastroenterology and Hepatobiliary-Pancreatic Surgery, Nara Prefecture General Medical Center)

- FP54-1 Primary Hepatic Neuroendocrine Tumor: A Case Report
Shingo Saeki (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine)
- FP54-2 Primary Hepatic Neuroendocrine Tumor Successfully Treated by Surgical Resection: A Case Report
Kakeru Tawada (Department of Surgery, Gifu Prefectural General Medical Center, Gifu, Japan)
- FP54-4 A case of hepatic angiosarcoma treated by central bisectionectomy
Masaki Takeshita (Department of Surgery, Toyama Central Prefectural Hospital, Toyama, Japan)
- FP54-5 Multifocal hepatic epithelioid hemangioepithelioma with lung metastasis curatively resected by endoscopic surgery: a case report
Masahiro Minagawa (Nagaoka Red Cross Hospital)
- FP54-6 Repeat hepatectomy for intrahepatic recurrence of primary epithelial-myoepithelial carcinoma in the liver: A Case Report
Ryo Nagao (Department of Gastroenterological and Transplant Surgery, Hiroshima University Hospital, Hiroshima, Japan)
- FP54-7 A Case of Hepatic Spindle Cell Tumor Requiring Multiple Hepatectomies
Tatsuma Abe (Junior Resident, Ina Central Hospital)
- FP54-8 A Resected Case of Primary Hepatic Neuroendocrine Carcinoma
Kei Fukumori (Department of Gastroenterological surgery, Osaka International & Science Center, Osaka Keisatsu Hospital)

E-Poster 55

► May 23 (Sat.) 13:50-14:40 [E-Poster Room 5 (Convention Hall C)]

Biliary, IHCC

Moderators: Hiroshi Wada (Department of Surgery, JCHO Osaka Hospital)

Kazuyasu Takizawa (Division of Digestive and General Surgery, Niigata University Graduate School of Medicine, Dentistry and Health Sciences)

- FP55-1 Validation of the Current T-Category Assessment According to the Subclassification of Intrahepatic Cholangiocarcinoma
Daisuke Inoue (Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine)
- FP55-2 Clinical Impact and Immunosuppressive Role of Perineural Invasion in Intrahepatic Cholangiocarcinoma
Junichiro Yoshii (Department of Hepatobiliary and Pancreatic Surgery, Graduate school of Medical and Dental Sciences, Institute of Science Tokyo, Tokyo, Japan)

- FP55-3 Adipophilin Expression as an Independent Prognostic Biomarker in Patients with Resected Intrahepatic Cholangiocarcinoma
Hoang Hai Duong (Department of Hepatobiliary Surgery, Kansai Medical University, Osaka, Japan)
- FP55-4 Lean body mass-corrected standardized uptake value (SULmax) is a superior prognostic marker to SUVmax in intrahepatic cholangiocarcinoma
Takahiro Shimaoka (Graduate of Medicine, Department of Gastroenterological Surgery, The University of Osaka, Osaka, Japan)
- FP55-5 Development of a Prognostic Risk Score Model for Predicting Disease-Free and Overall Survival in Resected Intrahepatic Cholangiocarcinoma
Natcha Khuntikeo (Department of Surgery, Faculty of Medicine, Khon Kaen University, Thailand/ Medical Oncology Program, Department of Medicine Srinagarind Hospital, Khon Kaen University, Khon Kaen, Thailand/Department of Pathology, Faculty of Medicine, Khon Kaen University, Khon Kaen, Thailand/Cholangiocarcinoma Research Institute, Khon Kaen University, Khon Kaen, Thailand)
- FP55-6 Impact of Background Liver Fibrosis on Postoperative Outcomes in Patients Undergoing Curative Resection for Intrahepatic Cholangiocarcinoma
Takeshi Aiyama (Department of Gastroenterological Surgery I, Hokkaido University, Hokkaido, Japan)
- FP55-7 Study Protocol of a Randomized Controlled Trial of Hepatectomy versus Hepatectomy plus Regional Lymphadenectomy in Patients with Clinical N0 Intrahepatic Cholangiocarcinoma
Tomoaki Yoh (Department of Surgery, Kyoto University)
- FP55-8 Conversion Surgery Following Immunotherapy Combined with Chemotherapy for Intrahepatic Cholangiocarcinoma with Distant Metastasis: A Report of Three Cases
Ryo Ga (Department of gastroenterological surgery, Nippon Medical School Chiba Hokusoh Hospital, Chiba, Japan)

E-Poster 56

► May 23 (Sat.) 13:50-14:40 [E-Poster Room 6 (Convention Hall C)]

Biliary, Case Report, Multidisciplinary Treatment

Moderators: Mihoko Yamada (Department of Surgery, Nagoya University Graduate School of Medicine)
Masahiko Kinoshita (Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine)

- FP56-1 A case of hilar bile duct cancer with pathological complete response after GCD therapy with conversion surgery
Masanori Akashi (Department of Surgery, Kurume University School of Medicine)
- FP56-2 A Case of Pathologic Complete Response Following Conversion Surgery for Initially Unresectable Perihilar Cholangiocarcinoma After Chemotherapy
Takuya Futagami (Department of Hepato-Biliary-Pancreatic and Breast Surgery, Ehime University, Ehime, Japan)
- FP56-3 A case of cystic duct carcinoma with multiple liver metastases achieving a pathological complete response following Gemcitabine, Cisplatin, and Pembrolizumab therapy: a case report
Kotaro Suda (Department of Surgery, Japanese Red Cross Ashikaga Hospital, Tochigi, Japan)
- FP56-4 A Case of Pathological Complete Response to Chemotherapy with Pembrolizumab plus Gemcitabine and Cisplatin in Unresectable Gallbladder Cancer with Peritoneal Dissemination
Masaomi Ichinokawa (Department of Surgery, Obihiro Kosei Hospital, Hokkaido, Japan)

- FP56-5 A case of distal cholangiocarcinoma with para-aortic lymph node metastasis achieving pathological complete response with durvalumab plus gemcitabine and cisplatin
Ken Hatano (Department of Surgery and Transplantation, Kobe City Medical Center General Hospital, Hyogo, Japan)
- FP56-6 Conversion surgery after gemcitabine and cisplatin plus durvalumab combination chemotherapy for advanced unresectable biliary tract cancer: A case report
Yuka Kanno (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University)
- FP56-7 A Case of Adenosquamous Carcinoma of the Gallbladder Achieving Complete Response With Chemo-Immunotherapy
Ryusei Takahashi (Department of Hepato-Biliary-Pancreatic Surgery, NHO Fukuyama Medical Center, Fukuyama, Japan)
- FP56-8 A Case of Gallbladder Cancer Successfully Treated with R0 Resection Following Effective Preoperative Chemotherapy
Ryoma Sakamoto (Department of Gastrointestinal Surgery, Kameda Medical Center, Chiba, Japan)

E-Poster 57

► May 23 (Sat.) 14:50-15:45 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Total Pancreatectomy

Moderators: Yoshihito Kotera (Department of Hepatobiliary Pancreatic Surgery, Juntendo University)
Wataru Izumo (Department of Digestive Surgery, University of Yamanashi)

- FP57-1 Total Pancreatectomy for Pancreatitis Associated with Vasculitis Mimicking IPMN: A Case Report
Kentaro Fukushima (Department of Surgery, Ina Central Hospital)
- FP57-2 A Case of Total Pancreatectomy for a Pancreatic Neuroendocrine Tumor with Agenesis of the Dorsal Pancreas
Jun Sugitani (Department of Hepatobiliary-Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- FP57-3 Total pancreatectomy combined with portal vein resection for malignant pancreatic main-duct intraductal papillary mucinous neoplasm: A case report
Lan Nguyen Thi (Viet Duc University hospital, Viet Nam)
- FP57-4 Safety and Efficacy of Completion Total Pancreatectomy: A Comparison with Single-Stage Total Pancreatectomy
Yusuke Kawachi (Division of Digestive and General Surgery, Niigata University Graduate School of Medical and Dental Sciences)
- FP57-5 Clinical Outcomes of Total Pancreatectomy
Keisuke Ohta (Department of Gastroenterological Surgery, Kawasaki Medical School, Okayama, Japan)
- FP57-6 Surgical Outcomes and Long-term Complications in Patients Undergoing Total Pancreatectomy
Toshiya Takei (Department of Surgery, Division of General and Gastroenterological Surgery, Showa Medical University)
- FP57-7 Postoperative Nutritional Status and Metabolic Outcomes After Total Pancreatectomy: A Retrospective Analysis of Long-Term Survivors
Takayuki Tanaka (Department of Digestive and General Surgery Shimane University Faculty of Medicine)

- FP57-8 Risk factors of gastric venous congestion and bleeding after total pancreatectomy
Koji Kikuchi (Department of Surgery, Iwate Medical University)
- FP57-9 Jejunal variceal bleeding at the site of hepaticojejunostomy treated with repeated endoscopic injection sclerotherapy, 5 years after total pancreatectomy: a case report
Atsushi Urakami (Department of General Surgery, Kawasaki Medical School General Medical Center, Okayama, Japan)

E-Poster 58

► May 23 (Sat.) 14:50-15:40 [E-Poster Room 2 (Convention Hall C)]

Pancreas, Surgical Procedure 1

Moderators: Yasuhide Kofunato (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University)
Chie Takishita (Department of Surgery, Toda Chuo General Hospital)

- FP58-1 Utility of Preoperative External Elastography for Predicting Pancreatic Hardness: A Comparative Study with Intraoperative Palpation
Tatsuya Yamazaki (Department of Surgery, Division of General and Gastroenterological Surgery, Showa Medical University, Tokyo, Japan)
- FP58-2 Four-Stitch Duct-to-Mucosa Pancreatojejunostomy Using the Modified Blumgart Technique in Patients Aged 75 Years or Older
Hiroyoshi Otake (Department of Surgery, Tane General Hospital, Osaka, Japan)
- FP58-3 An Exploratory Randomized Trial Comparing the Safety and Efficacy of a Novel Pancreaticojejunostomy (IIDH Method) with the Conventional Blumgart Technique
Shinji Hashimoto (Department of Surgery, University of Tsukuba/Department of Surgery, Mito Kyodo Hospital)
- FP58-4 Two Cases of Non-reconstruction of the Remaining Pancreas Following Pancreaticoduodenectomy with Favorable Postoperative Course
Tomohito Shinoda (Department of Surgery, Ichinomiya West Hospital, Aichi, Japan)
- FP58-5 Comparison of remnant pancreatic volume between invagination and duct-to-mucosa pancreaticojejunostomy
Hidenori Ojio (Department of Gastroenterological Surgery, Aichi Cancer Center Hospital)
- FP58-6 Retrospective analysis of short-term outcomes after open pancreaticoduodenectomy with or without feeding jejunostomy
Kazuharu Kukita (Department of Surgery, Division of Gastroenterological Surgery, Sapporo Medical University)
- FP58-7 Pancreaticoduodenectomy with Preservation of the Right Gastroepiploic Vessels After Proximal Gastrectomy: Technical Considerations
Shingo Nakashima (Department of Digestive Surgery, Nara City Hospital, Nara, Japan)
- FP58-8 Long-term outcomes of resection for recurrent pancreatic cancer after pancreatectomy
Yuki Hirose (Division of Digestive and General Surgery, Niigata University, Niigata, Japan)

E-Poster 59

► May 23 (Sat.) 14:55-15:40 [E-Poster Room 3 (Convention Hall C)]

Pancreas, Case Report, Complication, Emergency, Trauma

Moderators: Osamu Shimomura (Department of GI & HBP Surgery, University of Tsukuba)
Mamiko Miyashita (Department of Surgery, Juntendo University Shizuoka Hospital)

- FP59-1 Two Cases of Successful Endoscopic Ultrasound-Guided Transgastric Pancreatic Duct Drainage for Delayed Postoperative Pancreatic Fistula
Takashi Miyata (Department of General and Digestive Surgery, Kanazawa Medical University Hospital, Ishikawa, Japan)
- FP59-2 Extremely Late-Onset Postoperative Pancreatic Fistula 9 Months After Robotic Distal Pancreatectomy: A Case Report
Ryutaro Satomi (Department of Surgery, Sainokuni Higashiomiya Medical Center, Saitama, Japan)
- FP59-3 Portal Vein Stenting Followed by Selective Collateral Embolization for Refractory Gastrointestinal Bleeding Caused by Post-Pancreatoduodenectomy Portal Vein Stenosis
Masato Haeuchi (Department of Gastrointestinal Surgery, Japanese Red Cross Society Kyoto Daiichi Hospital)
- FP59-4 Life-Saving Three-Stage Surgical Approach for Pancreatic Head Hemorrhage Including Emergency Pancreaticoduodenectomy
Muneyasu Kiriyama (Department of Surgery, Japan Community Healthcare Organization Chukyo Hospital)
- FP59-5 Traumatic Rupture of the Inferior Pancreaticoduodenal Artery and Vein with Successfully Management by Definitive Surgical Hemostasis: A Case Report
Yu-Yang Lee (Division of General Surgery, Department of Surgery, National Taiwan University Hospital, Taipei, Taiwan)
- FP59-6 Two Cases of Traumatic Pancreatic Injury Treated with Non-Operative Management
Kosuke Tsutsumi (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine, Yamaguchi, Japan)
- FP59-7 A Case of Type 1 Autoimmune Pancreatitis with Diaphragmatic Perforation Presenting with Hemoptysis
Shunichi Imai (Department of Surgery, Kawasaki Municipal Hospital)

E-Poster 60

► May 23 (Sat.) 14:50-15:50 [E-Poster Room 4 (Convention Hall C)]

Liver, RLR 1

Moderators: Yasushi Hasegawa (Department of Surgery, Keio University School of Medicine)
Hirohisa Okabe (Department of Gastroenterological Surgery, Graduate School of Life Sciences, Kumamoto University)

- FP60-1 Verification of the safety of robotic liver resection: a multicenter prospective study
Yusuke Uemoto (Department of Surgery, Kokura memorial hospital, Fukuoka, Japan)
- FP60-2 Introduction and results of robot-assisted liver resection
Taro Ando (Department of Surgery, Iwate medical University, Iwate, Japan)
- FP60-3 Introduction of Hepatectomy Using the Hugo RAS System
Katsunori Sakamoto (Department of Surgery, Kyoto University)

- FP60-4 Minimally invasive liver surgery in our non-academic general institution
Kentaro Yasuchika (Department of Surgery, Japanese Red Cross Wakayama Medical Center, Wakayama, Japan)
- FP60-5 Implementation of robotic hepatectomy and comparison of short-term outcomes with laparoscopic partial hepatectomy
Junji Ueda (Department of Gastroenterological Surgery, Nippon Medical School)
- FP60-6 Impact of robot-assisted partial liver resection for hepatic tumors in patients with F4-liver cirrhosis at an intermediate-volume hospital
Ryoko Aoyama (Department of Hepato-Biliary-Pancreatic Surgery, Izumi City General Medical Center, Osaka, Japan)
- FP60-7 Surgical Outcomes and Technical Refinements of Robotic Liver Resection at Our Institution
Tomokatsu Kato (Nagoya City University, Nagoya, Japan)
- FP60-8 Surgical Outcomes of Robot Liver Resection
Go Shinke (Department of Surgery, Kansai Rosai Hospital)
- FP60-9 TEXTBOOK OUTCOMES IN ROBOTIC HEPATECTOMY: A SINGLE-INSTITUTION EXPERIENCE
Eun Jeong Jang (Department of general surgery, Dong-A university, Busan, Republic of Korea)
- FP60-10 Surgical Technique and Short-Term Outcomes of Liver Resection Using da Vinci SP System at Our Institution
Yosuke Uematsu (Department of Surgery, Saiseikai Yokohamashi Tobu Hospital, Kanagawa, Japan)

E-Poster 61

► May 23 (Sat.) 14:50-15:45 [E-Poster Room 5 (Convention Hall C)]

Liver, Case Report, Imaging

- Moderators: Satoshi Ogiso (Department of Surgery, Graduate School of Medicine, Kyoto University)
Shinichi Nakanuma (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University)
- FP61-1 A Case of Hepatic Sclerosing Hemangioma with Difficult Preoperative Diagnosis
Ryo Nakajima (Department of Gastroenterological Surgery, Nagoya City University Hospital East Medical Center, Aichi, Japan)
- FP61-2 A Case of Sclerosed Hemangioma of the Liver Incidentally Discovered During Surgery for Hepatic Cysts
Atsuro Hamano (Aizawa Hospital, General Surgery Center)
- FP61-3 A Case of Intrahepatic bile adenoma occurring in the caudate lobe
Tomoaki Furuta (Department of Gastrointestinal and Hepatobiliary-Pancreatic Surgery, Faculty of Medicine, University of Tsukuba)
- FP61-4 A case of progressing focal nodular hyperplasia
Kojiro Nakamura (Department of Surgery, Kyoto Medical Center)
- FP61-5 Robot-Assisted partial hepatectomy with Indocyanine Green Fluorescence Imaging for Peribiliary Gland Hamartoma: A Case Report
Takayasu Azuma (Department of Hepato-Biliary-Pancreatic and Transplant Surgery, Fukushima Medical University)

- FP61-6 Hepatic Angiomyolipoma with Multilocular Cystic Features: An Unexpected Postoperative Diagnosis
Tsuyoshi Okada (Tsuyama Chuo Hospital, Okayama, Japan)
- FP61-7 INFLAMMATORY MYOFIBROBLASTIC TUMOR (IMT) OF LIVER: A DIAGNOSTIC CHALLENGE
Aman Bansal (Surgical Gastroenterology, AIIMS Rishikesh, India)
- FP61-8 A case of intrahepatic hematoma mimicking hepatocellular carcinoma in Fontan-associated liver disease
Daisuke Taguchi (Department of Gastroenterological Surgery, The University of Osaka, Japan)
- FP61-9 A case report of an unidentified tumor with complete necrosis that existed simultaneously with intrahepatic cholangiocarcinoma in the liver
Takeshi Nagai (Department of Digestive Surgery, Tsukuba Memorial Hospital, Ibaraki, Japan)

E-Poster 62

Biliary, Case Report, Surgery

Moderators: Shuichiro Sugawara (First Department of Surgery, Yamagata University)
Nobuyuki Watanabe (Department of Surgery, Nagoya University)

- FP62-1 Two cases of pancreaticoduodenectomy requiring preservation of the right gastroepiploic artery
Toma Kawashima (Department of Surgery, School of Medicine, Iwate Medical University, Tokyo, Japan)
- FP62-2 Reconstructive gastric tube-preserving, radical pancreaticoduodenectomy for distal cholangiocarcinoma after esophagectomy: report of a case
Rei Okada (Department of Cardiovascular Surgery, Toho University, Tokyo, Japan)
- FP62-3 A Case of Distal Cholangiocarcinoma with an Aberrant Caudate Lobe Bile Duct Treated by Hepatopancreatoduodenectomy
Toshimitsu Irei (Department of Surgery, Center for Gastroenterology, Urasoe General Hospital)
- FP62-4 A Case of Distal Cholangiocarcinoma with a PET-Positive Splenic Tumor in Which Treatment Strategy Was Challenging
Tetsuji Harada (Department of Surgery, Centers for Gastroenterology, Urasoe General Hospital)
- FP62-5 Intraoperative Sentinel Lymph Node Metastasis Leading to Extended Resection in Gallbladder Cancer: A Case Report
Junya Kawasoe (Shimane Prefectural Central Hospital)
- FP62-6 A Resected Case of Distal Bile Duct Carcinoma with Concomitant Gastric Submucosal Tumor-like Lesion
Hiroki Kitabayashi (Department of Surgery, Kouseiren Takaoka Hospital, Toyama, Japan)
- FP62-7 Laparoscopic gallbladder bed resection and subtotal cholecystectomy for chronic cholecystitis with cholecystohepatic duct: a case report
Shohei Hirano (Department of Hepato-Biliary-Pancreatic Surgery, Nagano Red Cross Hospital, Nagano, Japan)
- FP62-8 Emergency Surgery for Acute Cholecystitis with a Cystohepatic Duct: A Case Report
Ai Ishiyama (Hepatobiliary Pancreatic Surgery, Saitama Medical Center, Saitama, Japan)

- FP62-9 Injury of B5 branch behind the cystic duct during laparoscopic cholecystectomy
Takahide Sasaki (Department of Gastroenterological Surgery, Faculty of Medicine, Fukuoka University, Fukuoka, Japan)

E-Poster 63

► May 23 (Sat.) 15:50-16:45 [E-Poster Room 1 (Convention Hall C)]

Pancreas, Surgical Procedure 2

Moderators: Kosei Takagi (Department of Gastroenterological Surgery, Okayama University Hospital)
Hiroyuki Ishida (Department of Pancreatobiliary Surgery, Kansai Medical University)

- FP63-1 Proactive Segmental Pancreatic Blood Flow Control to Facilitate Precise Tumor Enucleation
Ailin Wu (Pancreatic Surgery, West China Hospital, Sichuan University)
- FP63-2 Technical detail of pancreas preserving duodenectomy for duodenal GIST
Hiroyuki Makinodan (Department of Hepato-Biliary-Pancreatic Surgery, Juntendo University, Tokyo, Japan)
- FP63-3 Central Pancreatectomy for Benign Diseases of the Pancreatic Body at Our Hospital
Hideyuki Oi (Department of Digestive Surgery, Kagoshima University, Kagoshima, Japan)
- FP63-4 Evaluation of Central Pancreatectomy at Our Institution
Shuta Tamura (Department of Gastrointestinal and General Surgery, Kochi Health Sciences Center, Kochi, Japan)
- FP63-5 Usefulness of Intraoperative Indocyanine Green Fluorescence Imaging for Reducing Complications in Pancreatic Resection
Ryo Katayama (Division of Gastroenterological & General Surgery, Department of Surgery, school of Medicine, Showa Medical University, Tokyo, Japan)
- FP63-6 Usefulness of Intraoperative Indocyanine Green Fluorescence Imaging for Preserving the Remnant Stomach During Laparoscopic Distal Pancreatectomy After Distal Gastrectomy
Ryota Masui (Department of Digestive and General Surgery, Shimane University Faculty of Medicine)
- FP63-7 Expanding the Surgical Field in MIS Pancreatectomy Using the Nathanson Retractor
Takafumi Sato (Department of Gastroenterological Surgery, Nagoya City University, Nagoya, Japan)
- FP63-8 Impact of Thoracic Configuration on Operative Time in Laparoscopic Distal Pancreatectomy
Keisuke Ida (Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine)
- FP63-9 Hepatobiliary Pancreatic Surgical Techniques to Reduce Complications in Perihepatic Peritonectomy for Peritoneal Surface Malignancies
Kenya Yamanaka (Department of Surgery, Shiga General Hospital)

E-Poster 64

► May 23 (Sat.) 15:50-16:45 [E-Poster Room 2 (Convention Hall C)]

Liver, Postoperative Complication

Moderators: Atsuyoshi Mita (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)
Atsushi Miyamoto (2nd Department of Surgery, Wakayama Medical University)

- FP64-1 Bayesian Mathematical Modeling Digital Twin of Post-Hepatectomy Regeneration: EGFR-Hepsin Priming and RAD51 DNA-Repair Constraint Define Patient-Specific Safe Resection Limits
Prihantini (AI-BioMedicine Research Group, IMCDS-BioMed Research Foundation, Jakarta, Indonesia)
- FP64-2 Forecasting Post-Hepatectomy Liver Failure in Frail Elderly Using Joint Longitudinal-Survival Trajectories From Multicenter Asian Cohorts
Rani Sulvianuri (Industrial and Financial Science Center, Bandung Institute of Technology, Indonesia/
Faculty of Public Health, State University of Padang, Indonesia)
- FP64-3 Frailty Burden, Functional Liver Reserve, and Inflammatory Stress Indices Predict Post-Hepatectomy Liver Failure in Multimorbid Older Adults Undergoing Major Hepatic Resection
Ayuni Kemala Safira (Industrial and Financial Science Center, Bandung Institute of Technology,
Bandung, Indonesia)
- FP64-4 Development of a Bleeding Prevention Protocol Following Cases of Postoperative Liver Failure from Massive Intraoperative Hemorrhage
Keita Shimata (Department of Digestive and General Surgery, University of Ryukyus, Okinawa, Japan)
- FP64-5 Bile Leak After Major Hepatectomy: Higher Risk in Procedures Without Bile Duct Resection
Vasin Thanasukarn (Department of surgery, Faculty of Medicine, Khon Kaen University, Khon Kaen,
Thailand)
- FP64-6 Prophylactic Use of Negative-Pressure Wound Therapy to Prevent Bile Leakage After Hepatectomy
Hiroshi Sakai (Onomichi General Hospital)
- FP64-7 Effect of Perioperative Artificial Pancreas Therapy on the Prevention of Infectious Complications
Kazune Fujisawa (Department of Surgery, Kochi Medical School, Kochi, Japan)
- FP64-8 Surgical outcome of hepatectomy in patients with steroid usage
Takuro Takeuchi (Department of Gastroenterological Surgery, Graduate School of Medicine, The
University of Osaka, Suita, Japan)

E-Poster 65

► May 23 (Sat.) 15:50-16:40 [E-Poster Room 3 (Convention Hall C)]

Liver, Case Report, Metastatic/Recurrence

Moderators: Kazuhiro Takahashi (Department of GI and HBP Surgery, University of Tsukuba)
Mariko Tsukagoshi (Division of Hepatobiliary and Pancreatic Surgery, Department of General Surgical Science, Gunma University Graduate School of Medicine)

- FP65-1 A case of simultaneous double cancer of colon cancer and HCC after surgery diagnosed as simultaneous recurrence, which had difficulty in diagnosis and treatment
Tomohiro Mizutani (Department of Surgery, Takeda General Hospital, Fukushima, Japan)

- FP65-2 A case of liver metastasis with biliary tumor thrombus from colon cancer in right sided round ligament liver
Kazuaki Seita (Department of Surgery, Tsushima City Hospital, Aichi, Japan)
- FP65-3 Retroperitoneal Metastasis of Hepatocellular Carcinoma Resected Laparoscopically: Report of a case
Tatsunori Nadaya (Department of Hepato-Biliary-Pancreatic Surgery, Yamanashi Prefectural Central Hospital, Kofu, Yamanashi, Japan)
- FP65-4 Surgical Resection of Adrenal Metastasis from Hepatocellular Carcinoma after Immunotherapy: A Case Report
Taku Kimura (Department of Surgery, Iwate Medical University, School of Medicine, Yahaba, Japan)
- FP65-5 Significance of Surgical Resection for Adrenal Metastasis from Hepatocellular Carcinoma: A Retrospective Analysis of Four Cases
Yuhei Endo (Department of Surgery, Saitama Medical Center, Jichi Medical University)
- FP65-6 Atezolizumab plus bevacizumab induced complete response in left adrenal metastasis after hepatocellular carcinoma resection: A case report
Yuta Hiura (Department of Gastroenterological Surgery, National Hospital Organization (NHO) Higashihiroshima Medical Center)
- FP65-7 A case of multimodal treatment for blunt liver injury associated with bile duct injury
Yusuke Kyoden (Department of surgery, Ibaraki prefectural central hospital, Ibaraki, Japan)
- FP65-8 A Case of Disconnection-Type Bile Leakage after Hepatectomy Successfully Treated with Absolute Ethanol Injection Therapy
Seiko Suzushino (Department of Gastrointestinal Surgery, Aizu Medical Center, Fukushima Medical University)

E-Poster 66

► May 23 (Sat.) 15:55-16:50 [E-Poster Room 4 (Convention Hall C)]

Liver, RLR 2

Moderators: Hisamune Sakai (Department of Surgery, Kurume University School of Medicine)
Takeo Toshima (Department of Surgery and Science, Kyushu University)

- FP66-1 Technical Modifications for Hepatic Parenchymal Transection in Robot-Assisted Laparoscopic Liver Resection at Our Institution
Hidetake Amemiya (First Department of Surgery, Yamanashi University, Yamanashi, Japan)
- FP66-2 Current Status of Minimally Invasive Liver Resection
Takahiro Yoshikawa (Department of Surgery, Nara Prefecture General Medical Center)
- FP66-3 Laparoscopic versus Robotic Minimally Invasive Left Hemihepatectomy: Short-Term Outcomes and Approach Selection in Our Initial Experience
Koji Kitamura (Hyogo Prefectural Amagasaki General Medical Center, Hyogo, Japan)
- FP66-4 Robotic Hepatic Lobectomy Using Indocyanine Green Fluorescence Cholangiography
Daisuke Asano (Department of Hepatobiliary and Pancreatic Surgery, Institute of Science Tokyo, Tokyo, Japan)
- FP66-5 Positive Staining by Intraperitoneal Puncture During Robot-Assisted Anatomical Hepatectomy
Masaharu Tada (Department of Hepato-Biliary-Pancreatic Surgery, Hyogo Medical University)

- FP66-6 Approaches and Outcomes of Minimally Invasive Partial Hepatectomy for Cases with Adhesions
Yukio Tokumitsu (Department of Gastroenterological, Breast and Endocrine Surgery, Yamaguchi University Graduate School of Medicine)
- FP66-7 Short-term Outcomes of Laparoscopic versus Robotic Repeat Hepatectomy for Recurrent Hepatocellular Carcinoma
Shogo Fukutomi (Department of Surgery, Kurume University School of Medicine)
- FP66-8 Postoperative Length of Stay After Robot-Assisted Versus Laparoscopic Liver Resection According to Surgical Difficulty
Akihisa Nagatsu (Department of Gastroenterological Surgery 1, Hokkaido University)
- FP66-9 The Role and Educational Significance of the Assistant in Robot-Assisted Liver Resection: A Young Surgeon's Perspective
Takashi Takashima (Department of Gastrointestinal Surgery, Kobe City Medical Center West Hospital, Kobe, Japan)

E-Poster 67

► May 23 (Sat.) 15:50-16:50 [E-Poster Room 5 (Convention Hall C)]

Biliary, Perihilar Cholangiocarcinoma

Moderators: Kojiro Taura (Department of Gastroenterological Surgery and Oncology, Tazuke Kofukai, Medical Research Institute, Kitano Hospital)
Shuichi Aoki (Department of Surgery, Tohoku University Graduate School of Medicine)

- FP67-1 Comparison between technetium99m galactosyl-serum-albumin scintigraphy and gadoxetic-acid-enhanced MRI to estimate the regional liver function in perihilar cholangiocarcinoma patients
Ming Xiao (Hepatopancreatobiliary Center, Beijing Tsinghua Changgung Hospital, Key Laboratory of Digital Intelligence Hepatology (Ministry of Education), School of Clinical Medicine, Tsinghua University, Beijing, China)
- FP67-2 Optimal surgical procedure for perihilar cholangiocarcinoma: right hepatectomy vs. left hepatectomy
Takahiro Mizui (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital)
- FP67-3 Perioperative Outcomes and Prognosis of Major Hepatopancreatoduodenectomy for Biliary Tract Cancer at Our Department
Tatsuhiko Kakisaka (Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine, Hokkaido, Japan)
- FP67-4 Factors of Development of Severe Biliary Complications of Radical Surgical Treatment of Proximal Tumor Lesions of the Bile Ducts
Mikhail Efanov (Clinical Research Center of Moscow, Moscow, Russia)
- FP67-5 Clinical Significance of Enterococcus Species Detected in Bile Under a Prophylaxis-based Antibiotic Strategy in Surgery for Distal Cholangiocarcinoma
Naohiko Matsushita (Department of Gastrointestinal Surgery, Hepato-Biliary-Pancreatic, Kanagawa Cancer Center, Kanagawa, Japan)
- FP67-6 Impact of Postoperative Cholangitis on Prognosis in Patients with Perihilar Cholangiocarcinoma
Hiroaki Horio (Department of Hepato-Biliary-Pancreatic Surgery and Transplantation, Kanazawa University, Ishikawa, Japan)

- FP67-7 Prognostic Factors and Risk Stratification in Pathologically Node-Negative Perihilar Cholangiocarcinoma
Katsuya Sakashita (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan)
- FP67-8 Pathological Perineural Invasion Predicts Late Recurrence of Perihilar Cholangiocarcinoma
Hideaki Sato (Department of Surgery, Tohoku University Graduate School of Medicine)
- FP67-9 Endobiliary radiofrequency ablation in recurrence and unresectable perihilar cholangiocarcinoma
Apiwat Jarearnrat (Department of surgery, Khon Kaen University, Thailand)
- FP67-10 Central bisectionectomy with caudate lobectomy for Bismuth type IV perihilar cholangiocarcinoma: A liver-sparing surgical strategy
Shimpei Otsuka (Division of Hepato-biliary-pancreatic Surgery, Shizuoka Cancer Center, Shizuoka, Japan)

E-Poster 68

► May 23 (Sat.) 15:50-16:45 [E-Poster Room 6 (Convention Hall C)]

Others, Miscellaneous

- Moderators: Masamichi Hayashi (Department of Surgery, Nagoya University)
Kenji Nakagawa (Department of Surgery, Yamato Takada Municipal Hospital)
- FP68-2 Postoperative Monitoring Intensity, Interhospital Transfer Latency, and Surgical Complexity Explain Excess Failure-to-Rescue Following High-Risk Hepatobiliary Pancreatic Procedures in Socioeconomically Deprived Catchment Areas
Nurlia (Biomedicine Program, Faculty of Medicine, Pattimura University, Maluku, Indonesia)
- FP68-3 Ritual-Based Care Pathways, Preoperative Attrition, and Catastrophic Expenditure Risks Reveal Guideline Blind Spots for Hepatobiliary Cancer Resection in Indigenous and Marginalized Populations across Southeast Asia
Novita Sari (Faculty of Medicine, Universitas Malikussaleh Aceh, Indonesia)
- FP68-5 A Review of 6 Cases of Duodenal Neuroendocrine Tumor Resection at Our Hospital
Yoshinaga Nomoto (Department of Hepato-Biliary-Pancreatic Surgery, Chiba Cancer Center, Chiba, Japan)
- FP68-6 A case of a duodenal papillary tumor suspected to be a gastrointestinal stromal tumor (GIST) preoperatively and pathologically diagnosed as a duodenal schwannoma after surgical resection
Tomoya Shimizu (Department of General and Gastrointestinal Surgery, Jichi Medical University Saitama Medical Center)
- FP68-7 A Case of Pancreaticoduodenectomy for Tumor-Forming Localized Amyloidosis of the Duodenum
Kenichiro Yambe (Division of Hepato-Biliary and Pancreatic Surgery, Tohoku Medical and Pharmaceutical University, Miyagi, Japan)
- FP68-8 A case of gradual enlargement splenic angiosarcoma resected after 10 years of long-term follow up
Akira Watanabe (Department of Gastroenterological Surgery, Gunma Prefectural Cancer Center)

- FP68-9 A Case of Portal Hypertension and Shock Associated with Splenic Artery Aneurysm and Arteriovenous Fistula Successfully Treated by Splenectomy and Resection of Aneurysm: A Case Report
Makoto Kurimoto (Department of Surgery, Shiga General Hospital)

■ Luncheon Seminar / ランチョンセミナー

Luncheon Seminar 1 / ランチョンセミナー 1

▶ May 22 (Fri.) 12:30-13:20 [Room 1] / 5月22日(金) 12:30~13:20 (Room 1)

Update on Gut Microbiome Research in Biliary Tract and Pancreatic Cancer Treatment /

胆道・膵癌治療における腸内細菌叢研究アップデート

Moderator: Yuko Kitagawa (Executive Vice President, Keio University)

北川 雄光 (慶應義塾 副学長・常任理事)

LS1 Itaru Endo (Department of Gastroenterological Surgery, Yokohama City University)

遠藤 格 (横浜市立大学大学院医学研究科 消化器・腫瘍外科学)

Co-Sponsor: Miyarisan Pharmaceutical Co., Ltd. / ミヤリサン製薬株式会社

Luncheon Seminar 2 / ランチョンセミナー 2

▶ May 22 (Fri.) 12:30-13:20 [Room 2] / 5月22日(金) 12:30~13:20 (Room 2)

Current status and challenges of “minimally-invasive” conversion surgery for advanced hepatic malignancies /

腫瘍学的観点に立脚した肝悪性腫瘍に対する「低侵襲」コンバージョン手術の現状と課題

Moderator: Ken Shirabe (Division of hepatobiliary and pancreatic surgery, Department of General Surgical Science, Gunma University)

調 憲 (群馬大学大学院医学系研究科 総合外科学講座 肝胆膵外科学分野)

LS2 Junichi Shindoh (Hepatobiliary-Pancreatic Surgery Division, Department of Gastroenterological Surgery, Toranomon Hospital)

進藤 潤一 (虎の門病院 消化器外科 (肝・胆・膵))

Co-Sponsor: Oncology Medical, AstraZeneca K.K. / アストラゼネカ株式会社 メディカル本部

Luncheon Seminar 3 / ランチョンセミナー 3

▶ May 22 (Fri.) 12:30-13:20 [Room 3] / 5月22日(金) 12:30~13:20 (Room 3)

Da Vinci 5: The value for HPB surgery /

Da Vinci 5 : 肝胆膵領域にもたらすバリュー

Moderator: Takeshi Takahara (Department of Surgery, Fujita Health University)

高原 武志 (藤田医科大学 総合消化器外科)

LS3-1 Kohei Nakata (Diagnostic and Therapeutic Endoscopy, Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University)

仲田 興平 (九州大学病院 光学医療診療部)

LS3-2 Shinji Itoh (Department of Surgery and Science, Graduate School of Medical Sciences, Kyushu University)

伊藤 心二 (九州大学大学院医学研究院 消化器・総合外科学分野)

Co-Sponsor: Intuitive Surgical G.K. / インテュイティブサージカル合同会社

Luncheon Seminar 4 / ランチョンセミナー 4

▶ May 22 (Fri.) 12:30-13:20 [Room 4] / 5月22日(金) 12:30~13:20 (Room 4)

Multidisciplinary Treatment for Pancreatic Diseases—Can We Achieve Zero Postoperative Complications? /

膵疾患に対する集学的治療—術後合併症ゼロは実現できるのか—

Moderator: Kiyoshi Hasegawa (Hepato-Biliary-Pancreatic Surgery Division, Artificial Organ and Transplantation Division, Department of Surgery, Graduate School of Medicine, The University of Tokyo)

長谷川 潔 (東京大学大学院医学系研究科 臓器病態外科学 肝胆膵外科、人工臓器・移植外科)

LS4-1 Is It Possible to Achieve Both Functional Preservation and Zero Complications in Pancreatic Surgery? /

機能温存膵切除術と合併症ゼロの両立は可能か?

Takao Ohtsuka (Department of Digestive Surgery, Graduate School of Medical Sciences, Kagoshima University)

大塚 隆生 (鹿児島大学大学院 医歯学総合研究科 消化器外科学)

LS4-2 Pancreatic Surgery in the Era of Multidisciplinary Treatment: Toward Zero Postoperative Complications /

集学的治療時代における膵臓外科手術—合併症ゼロを目指して—

Ippeï Matsumoto (Division of Hepato-Biliary-Pancreatic Surgery, Department of Surgery, Kindai University Faculty of Medicine)

松本 逸平 (近畿大学医学部 外科 肝胆膵部門)

Co-Sponsor: GUNZE MEDICAL LIMITED / グンゼメディカル株式会社

Luncheon Seminar 5 / ランチョンセミナー 5

▶ May 22 (Fri.) 12:30-13:20 [Room 5] / 5月22日(金) 12:30~13:20 (Room 5)

Safety Strategies to Enhance the Reproducibility of MIS Hepatectomy / 再現性を高める MIS 肝切除の安全戦略

Moderator: Takeshi Aoki (Department of Digestive and General Surgery, Showa Medical University)

青木 武士 (昭和医科大学医学部 消化器・一般外科学部門)

LS5-1 Minimally Invasive Liver Resection: Bridging Practice and Standardization Across Laparoscopic and Robotic Approaches /

低侵襲肝切除：ラパロとロボットに共通する実践から標準化への道筋

Kenichiro Araki (Division of Hepatobiliary and Pancreatic Surgery, Gunma University Graduate School of Medicine)

新木 健一郎 (群馬大学大学院 総合外科学講座 肝胆膵外科学分野)

LS5-2 Device selection in minimally invasive liver resection—Right devices, Right times, Right places.— /

低侵襲肝切除におけるデバイス選択—Right devices, Right times, Right places.—

Akihiko Soyama (Department of Digestive and Transplant Surgery, Tokushima University)

曾山 明彦 (徳島大学大学院 医歯薬学研究部消化器・移植外科学)

Co-Sponsor: Johnson & Johnson Medtech / ジョンソン・エンド・ジョンソン メドテック

Luncheon Seminar 6 / ランチョンセミナー 6

▶ May 22 (Fri.) 12:30-13:20 [Room 6] / 5月22日(金) 12:30~13:20 (Room 6)

Advancing Minimally Invasive Care for Acute Cholecystitis: Where EUS-GBD Fits In /
急性胆嚢炎に対する低侵襲治療の最前線：EUS-GBD の役割と位置付け

Moderator: Shomei Ryozaawa (Department of Gastroenterology, Saitama Medical University International Medical Center)

良沢 昭銘 (埼玉医科大学国際医療センター 消化器内科)

LS6-1 Koji Asai (Department of Surgery, Toho University Ohashi Medical Center)
浅井 浩司 (東邦大学医療センター大橋病院 外科)

LS6-2 Yousuke Nakai (Department of Gastroenterology, Tokyo Women's Medical University)
中井 陽介 (東京女子医科大学 消化器内科)

Co-Sponsor: Boston Scientific Japan K.K. / ポストン・サイエンティフィックジャパン株式会社

Luncheon Seminar 7 / ランチョンセミナー 7

▶ May 22 (Fri.) 12:30-13:20 [Room 7] / 5月22日(金) 12:30~13:20 (Room 7)

Next Challenge in Robotic Liver Resection: Conflicts and Real Needs Revealed by
Widespread Adoption /

ロボット肝切除の次なる課題：普及で見えてきた葛藤とリアルニーズ

Moderator: Akinobu Taketomi (Hokkaido University Hospital)

武富 紹信 (北海道大学病院)

LS7-1 Next move in solo liver surgery: Robot-assisted CUSA liver parenchymal transection /
Solo liver surgery 次なる一手～ロボットによる CUSA 肝実質切離～

Takao Ide (Saga University Faculty of Medicine)

井手 貴雄 (佐賀大学医学部一般・消化器外科)

LS7-2 Toward Bona Fide Anatomic Robotic Liver Resection: Integrating the Chicken-Claw Sign
with Surgeon-Controlled CUSA /

真の解剖学的ロボット肝切除を目指して：CCS と術者主導 CUSA

Osamu Itano (IUHW Narita Hospital)

板野 理 (国際医療福祉大学成田病院)

Co-Sponsor: Integra Japan K.K. / Integra Japan 株式会社

Luncheon Seminar 8 / ランチョンセミナー 8

▶ May 22 (Fri.) 12:30-13:20 [Room 8] / 5月22日(金) 12:30~13:20 (Room 8)

A Surgeon's Perspective on Multidisciplinary Treatment Strategies for HCC /
外科医が考える肝細胞癌の集学的治療戦略

Moderator: Hiroaki Nagano (Kaizuka City Hospital President)
永野 浩昭 (市立貝塚病院 総長/病院事業管理者)

LS8-1 Future Prospects of Perioperative Therapy for Hepatocellular Carcinoma: Pathological Response and Clinical Outcomes of LEN-TACE /
肝細胞癌に対する周術期治療のこれからの展開：LEN-TACE がもたらす病理学的効果と臨床成績

Hideki Sasanuma (Department of Surgery, Division of Gastroenterological, General and Transplant Surgery, Jichi Medical University)
笹沼 英紀 (自治医科大学 消化器一般移植外科)

LS8-2 Combination Treatment Strategies to Defeat Hepatocellular Carcinoma: A Surgeon's Perspective /
外科医が考える：肝癌に勝つためのコンビネーション治療戦略

Shohei Komatsu (Department of Surgery, Division of Hepato-Biliary-Pancreatic Surgery, Kobe University Graduate School of Medicine)
小松 昇平 (神戸大学大学院医学系研究科外科学講座 肝胆膵外科学分野)

Co-Sponsor: Eisai co., Ltd. / エーザイ株式会社

Luncheon Seminar 9 / ランチョンセミナー 9

▶ May 22 (Fri.) 12:30-13:20 [Room 9] / 5月22日(金) 12:30~13:20 (Room 9)

A HBP Surgeon's Zinc Story—How Biological Responses Shape Recovery /
肝胆膵外科医が紐解く亜鉛ストーリー—生体反応が描く回復のシナリオ

Moderator: Hidetoshi Eguchi (Osaka University, Graduate School of Medicine, Department of Gastroenterological Surgery I)

江口 英利 (大阪大学大学院医学系研究科 外科系臨床医学専攻 外科学講座消化器外科学I)

LS9 Yoichi Matsuo (Department of Gastroenterological Surgery, Nagoya City University East Medical Center)
松尾 洋一 (名古屋市立大学医学部附属東部医療センター 消化器外科)

Co-Sponsor: Nobelpharma Co., Ltd./MEDIPAL HOLDINGS CORPORATION / ノーベルファーマ株式会社/株式会社メディアパルホールディングス

Luncheon Seminar 10 / ランチョンセミナー 10

▶ May 22 (Fri.) 12:30-13:20 [Room 10] / 5月22日(金) 12:30~13:20 (Room 10)

Rediscovery of Microwave Energy in HBP Surgery: New Horizons Opened by Acrosurg /
肝胆膵手術におけるマイクロ波エネルギーの再発見 —アクロサージが切り拓く新展開

Moderator: Michiaki Unno (Department of Surgery, Graduate School of Medicine, Tohoku University)
海野 倫明 (東北大学大学院 消化器外科学)

LS10-1 Application of Microwave Device (Acrosurg.) in HBP Surgery
—From Basic Science to Clinical Practice— /
マイクロ波メス (Acrosurg.) の肝胆膵手術への応用—基礎と臨床から—
Shigeyuki Naka (Department of Surgery, Hino Memorial Hospital)
仲 成幸 (日野記念病院 外科)

LS10-2 Stress-Free HBP Surgery Enabled by Acrosurg /
アクロサージが実現するストレスフリーな肝胆膵手術
Takamichi Ishii (Department of Surgery for Abdominal Oncology and Organ Regeneration,
Graduate School of Medicine, Kyoto University)
石井 隆道 (京都大学大学院医学研究科 消化器腫瘍制御・臓器再生外科)

Co-Sponsor: NIKKISO CO., LTD. / 日機装株式会社

Luncheon Seminar 11 / ランチョンセミナー 11

▶ May 22 (Fri.) 12:30-13:20 [Room 11] / 5月22日(金) 12:30~13:20 (Room 11)

HBP with hinotori™~latest updates and practical insights~/
hinotori™×HBP 最新アップデートと使用経験による Tips

Moderator: Hideyuki Yoshitomi (Department of Surgery, Dokkyo Medical University Saitama Medical Center)
吉富 秀幸 (獨協医科大学埼玉医療センター 外科)

LS11-1 Takeshi Urade (Department of Hepato-Biliary-Pancreatic Surgery, Kobe University)
浦出 剛史 (神戸大学大学院 肝胆膵外科学分野)

LS11-2 Yuichiro Uchida (Department of Surgery, Fujita Health University)
内田 雄一郎 (藤田医科大学 総合消化器外科)

Co-Sponsor: Sysmex Corporation / Medicaroid Corporation / シスメックス株式会社/株式会社メディカロイド

Luncheon Seminar 12 / ランチョンセミナー 12

▶ May 23 (Sat.) 11:50-12:40 [Room 1] / 5月23日(土) 11:50~12:40 (Room 1)

Update on BTC treatment /
胆道癌治療 Update

Moderator: Toshiaki Rikiyama (Department of Surgery, Saitama Medical Center, Jichi Medical University)
力山 敏樹 (自治医科大学附属さいたま医療センター 一般・消化器外科)

LS12-1 What do medical oncologists expect for HBP surgeons in Multidisciplinary treatment for BTC /

内科医が考える胆道癌の集学的治療

Tatsuya Ioka (Oncology Center, Yamaguchi University Hospital)

井岡 達也 (山口大学医学部附属病院 腫瘍センター)

LS12-2 What do HBP surgeons do in Multidisciplinary treatment for BTC /
外科医が考える胆道癌の集学的治療

Shogo Kobayashi (Department of Gastroenterological Surgery, Osaka International Cancer Institute)

小林 省吾 (大阪国際がんセンター 消化器外科)

Co-Sponsor: MSD K.K. / MSD株式会社

Luncheon Seminar 13 / ランチョンセミナー 13

▶ May 23 (Sat.) 11:50-12:40 [Room 2] / 5月23日(土) 11:50~12:40 (Room 2)

Frontiers in Multidisciplinary Treatment for Hepatocellular Carcinoma /
肝細胞癌に対する集学的治療の最前線

Moderator: Akinobu Taketomi (Department of Gastroenterological Surgery I Hokkaido University Graduate School of Medicine)

武富 紹信 (北海道大学大学院消化器外科学教室I)

LS13-1 Multidisciplinary treatment and the optimal MIS approach for super-difficult repeat hepatectomy for HCC /

肝細胞癌に対する集学的治療と高難度再肝切除に対する低侵襲アプローチのコツ

Junichi Shindoh (Department of Gastroenterological Surgery, Toranomon Hospital)

進藤 潤一 (国家公務員共済組合連合会 虎の門病院 消化器外科)

LS13-2 Achieving Long-Term Survival in Hepatocellular Carcinoma Through Multidisciplinary Treatment ~ Focusing on the Combination of Pharmacotherapy and Surgical Intervention ~ /

集学的治療で目指す肝細胞癌の長期生存 ~ 薬物治療と外科治療のコンビネーションを中心に ~

Shinji Itoh (Department of Surgery and Science, Graduate School of Medical Sciences, Kyushu University)

伊藤 心二 (九州大学大学院医学研究院 消化器・総合外科学分野)

Co-Sponsor: CHUGAI PHARMACEUTICAL CO., LTD. / 中外製薬株式会社

Luncheon Seminar 14 / ランチョンセミナー 14

▶ May 23 (Sat.) 11:50-12:40 [Room 3] / 5月23日(土) 11:50~12:40 (Room 3)

Conversion resection for locally unresectable disease: new challenge with TOPAZ-1 /
TOPAZ-1 が外科医に与える新たな試練：局所進行切除不能症例に対するコンバージョン切除

Moderator: Masayuki Otsuka (Department of General Surgery, Chiba University)

大塚 将之 (千葉大学大学院医学研究院 臓器制御外科学)

LS14 Tomoki Ebata (Division of Surgical Oncology, Department of Surgery, Nagoya University Graduate School of Medicine)

江畑 智希 (名古屋大学大学院医学系研究科 腫瘍外科学)

Co-Sponsor: AstraZeneca K.K. / アストラゼネカ株式会社

Luncheon Seminar 15 / ランチョンセミナー 15

▶ May 23 (Sat.) 11:50-12:40 [Room 4] / 5月23日(土) 11:50~12:40 (Room 4)

Moderator: Sohei Satoi (Department of Pancreatobiliary Surgery, Kansai Medical University)

里井 壯平 (関西医科大学医学部 胆膵外科学講座)

LS15-1 **Pancreatic Cancer Surgery at the Cutting Edge: Japan and the World /**
膵癌外科治療の Cutting Edge 世界と日本

Yosuke Inoue (Department of Surgery, Teikyo University School of Medicine)

井上 陽介 (帝京大学医学部 外科学講座)

LS15-2 **The Future Landscape of Multidisciplinary Treatment in Pancreatic Cancer by Advances**
in Chemotherapy /

薬物療法の進歩がもたらす膵癌集学的治療の未来像

Manabu Kawai (Second Department of Surgery, Wakayama Medical University)

川井 学 (和歌山県立医科大学 外科学 第2講座)

Co-Sponsor: Nihon Servier Co., Ltd. / 日本セルヴィエ株式会社

Luncheon Seminar 16 / ランチョンセミナー 16

▶ May 23 (Sat.) 11:50-12:40 [Room 5] / 5月23日(土) 11:50~12:40 (Room 5)

High-Complexity MIS Liver Resection: Approaches and Practice /
高難度 MIS 肝切除：アプローチと実践

Moderator: Yuji Soejima (Division of Gastroenterological, Hepato-Biliary-Pancreatic, Transplantation and Pediatric Surgery, Department of Surgery, Shinshu University School of Medicine)

副島 雄二 (信州大学医学部外科学教室 消化器・移植・小児外科分野)

LS16-1 **Robotic Liver Resection: Evolving Techniques with an Unchanging Commitment to Planning for Future Repeat Resection /**

ロボット肝切除：進化する手術手技と再肝切除を見据えた不変の戦略

Yoshikuni Kawaguchi (Hepato-Biliary-Pancreatic Surgery Division, Department of Surgery, The University of Tokyo)

河口 義邦 (東京大学医学部附属病院 肝胆膵外科・人工臓器移植外科)

LS16-2 **Robotic Liver Resection in Preparation for Biliary Cancer Surgery: Standardization of Techniques and Team Building /**

胆道癌肝切除を見据えたロボット支援肝切除—手技の定型化とチームビルディング—

Takashi Mizuno (Division of Surgical Oncology, Department of Surgery, Nagoya University Graduate School of Medicine HBP Unit, Department of Gastrointestinal Surgery, Nagoya University Hospital)

水野 隆史 (名古屋大学大学院医学系研究科腫瘍外科)

Co-Sponsor: Terumo Corporation / テルモ株式会社

Luncheon Seminar 17 / ランチョンセミナー 17

▶ May 23 (Sat.) 11:50-12:40 [Room 6] / 5月23日(土) 11:50~12:40 (Room 6)

The Journey of Laparoscopic Hepatectomy —Legacy, Innovation, and the Future— /
腹腔鏡下肝切除術の軌跡 —継承と発展、そして未来へ—

Moderator: Takeshi Aoki (Showa Medical University)

青木 武士 (昭和医科大学)

LS17-1 Mariko Tsukagoshi (Gunma University Graduate School of Medicine)

塚越 真梨子 (群馬大学)

LS17-2 Hiroyuki Nitta (Iwate Medical University School of Medicine)

新田 浩幸 (岩手医科大学)

Co-Sponsor: Stryker Japan K.K. / 日本ストライカー株式会社

Luncheon Seminar 18 / ランチョンセミナー 18

▶ May 23 (Sat.) 11:50-12:40 [Room 7] / 5月23日(土) 11:50~12:40 (Room 7)

New Value in Hepato-Biliary-Pancreatic Surgery: The Hugo™ RAS System /
肝胆膵外科における新たな価値、Hugo™ RAS System

Moderator: Susumu Eguchi (Department of Surgery, Nagasaki University Graduate School of Biomedical Sciences)
江口 晋 (長崎大学大学院 移植・消化器外科学分野)

LS18-1 Kazuyuki Nagai (Department of Hepato-Biliary-Pancreatic Surgery and Breast Surgery, Kyoto University)
長井 和之 (京都大学大学院 肝胆膵・移植外科学)

LS18-2 Takeshi Takahara (Department of Surgery, Fujita Health University)
高原 武志 (藤田医科大学 総合消化器外科)

Co-Sponsor: Covidien Japan, Inc. / コヴィディエンジャパン株式会社

Luncheon Seminar 19 / ランチョンセミナー 19

▶ May 23 (Sat.) 11:50-12:40 [Room 8] / 5月23日(土) 11:50~12:40 (Room 8)

New stage of Hepato-Biliary-Pancreatic Surgery with Cutting-Edge AI /
最新 AI で変わる肝胆膵外科手術

Moderator: Etsuro Hatano (Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Department of
Surgery, Graduate School of Medicine, Kyoto University)
波多野 悦朗 (京都大学大学院医学研究科 肝胆膵・移植外科)

LS19-1 **Leading the New Era of Japanese HBP Surgery: Real-Time Navigation Beyond 3D
Simulation /**
リアルタイムナビゲーションが照らす肝胆膵外科の新時代
Takeshi Takamoto (Hepato-Biliary-Pancreatic Surgery Division, Artificial Organ and Transplantation
Division, The University of Tokyo)
高本 健史 (東京大学医学部附属病院 肝胆膵・人工臓器移植外科)

LS19-2 **Utilizing latest AI technology in Pancreatic surgery /**
膵臓手術における最新 AI 技術の活用
Yuichi Nagakawa (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
永川 裕一 (東京医科大学 消化器・小児外科学分野)

Co-Sponsor: FUJIFILM Medical Co., Ltd. / 富士フイルムメディカル株式会社

Luncheon Seminar 20 / ランチョンセミナー 20

▶ May 23 (Sat.) 11:50-12:40 [Room 9] / 5月23日(土) 11:50~12:40 (Room 9)

Learning the Fundamentals of Laparoscopic cholecystectomy from Expert Surgeons:
From Surgery to Education /
Expert Surgeons から学ぶラパコレのイロハ～手術から教育まで～

Moderator: Goro Honda (Department of Surgery, Institute of Gastroenterology, Tokyo Women's Medical University)
本田 五郎 (東京女子医科大学 消化器病センター 外科)

LS20-1 Hitoe Nishino (Department of General Surgery, Chiba University)
西野 仁恵 (千葉大学大学院医学研究院 臓器制御外科学)

LS20-2 Yuta Abe (Department of Surgery, Keio University School of Medicine)
阿部 雄太 (慶應義塾大学医学部 一般・消化器外科 肝胆膵・移植班)

Co-Sponsor: Olympus Marketing, Inc. / オリンパスマーケティング株式会社

Luncheon Seminar 21 / ランチョンセミナー 21

▶ May 23 (Sat.) 11:50-12:40 [Room 10] / 5月23日(土) 11:50~12:40 (Room 10)

EUREKA: Can AI Truly Learn Surgical Precision?—Insights from HBP Surgery— /
AIは肝胆膵外科手術の精緻さをどう学ぶのか～EUREKAによる手術認識支援の可能性～

Moderator: Keichi Okano (Kagawa University)
岡野 圭一 (香川大学医学部附属病院 消化器外科学)

LS21-1 Daisuke Ban (Institute of Science Tokyo Hospital)
伴 大輔 (東京科学大学病院 肝胆膵外科学分野)

LS21-2 Osamu Itano (International University of Health and Welfare)
板野 理 (国際医療福祉大学 消化器外科学)

Co-Sponsor: Anaut Inc. / アナウト株式会社

■ Evening Seminar / イブニングセミナー

Evening Seminar 1 / イブニングセミナー 1

▶ May 22 (Fri.) 15:20-16:00 [Room 4] / 5月22日(金) 15:20~16:00 (Room 4)

Team-based Robotic Liver Resection: Considering both Education and Complex Cases /

チームで取り組むロボット肝切除：教育と高難度領域の両側で考える

Moderator: Shigeru Marubashi (Fukushima Medical University Hospital)

丸橋 繁 (福島県立医科大学附属病院)

ES1-1 Revisiting the dilemma of robotic liver resection /

ロボット肝切除のジレンマを再考する

Mariko Tsukagoshi (Gunma University Hospital)

塚越 真梨子 (群馬大学医学部附属病院)

ES1-2 Strategic Use of the Two-Surgeon Method in Robotic Liver Resection Across Different Robotic Platforms /

ロボットプラットフォーム別でのロボット肝切除における Two-Surgeon Method の活用

Takeshi Takahara (Fujita Health University Hospital)

高原 武志 (藤田医科大学病院)

Co-Sponsor: Integra Japan K.K. / Integra Japan 株式会社

Evening Seminar 2 / イブニングセミナー 2

▶ May 22 (Fri.) 15:20-16:00 [Room 5] / 5月22日(金) 15:20~16:00 (Room 5)

MPH: Advancing safer Surgical Environments /

MPH が変える安全な手術環境

Moderator: Akio Saiura (Department of Gastroenterological Surgery and Hepatobiliary-Pancreatic Surgery, Juntendo University Graduate School of Medicine)

齋浦 明夫 (順天堂大学大学院医学研究科 肝・胆・膵外科学講座)

ES2-1 Technical Tips for Bleeding Control During Creation of Irregular Hepatic Transection Surfaces in Robot-Assisted Surgery /

肝離断面が複雑なロボット支援手術で出血をコントロールするコツ

Takeaki Ishizawa (Department of Hepato-Biliary-Pancreatic Surgery, Osaka Metropolitan University Graduate School of Medicine)

石沢 武彰 (大阪公立大学大学院肝胆膵外科学)

ES2-2 Toward Safer Pancreatic Surgery: Controlling Intraoperative Bleeding and Reducing Complications /

安全な膵臓外科手術を目指して—術中出血対策と合併症低減の取り組み—

Ippei Matsumoto (Division of Hepatobiliary and Pancreatic Surgery Department of Surgery Kindai University Faculty of Medicine)
