| WNP1 | Initial bioenergetic evaluation of rat styloglossus muscle during fatigue  
Glass, Tiffany J. (University of Wisconsin Madison, USA) |
| WNP2 | Atropine facilitates initiation of swallowing evoked by distilled water in anesthetized rats  
Nakajima, Yuta (Division of Dysphagia Rehabilitation, Niigata University Graduate School of Medical and Dental Sciences, Japan) |
| WNP3 | Effectiveness of Formal Dysphagia Screening for Stroke Patients  
Yoo, Mi Ran (Department of Rehabilitation medicine, Asan medical center, Korea) |
| WNP4 | Relationship between expiratory airflow and oropharyngeal dysphagia in parkinson’S disease  
Cobo, Marivi (Department of Speech Therapist Unit - Department Otolaryngology, Hospital General de Granollers, Spain) |
| WNP5 | Tongue pressure as a pre-symptomatic clinical biomarker of dysphagia in neuromuscular diseases  
Mano, Tomoo (Department of Rehabilitation Medicine, Nara Medical University, Japan) |
| WNP6 | The effect of thickened carbonated beverage on swallowing dynamics  
Saiki, Akino (Department of Dysphagia Rehabilitation, Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental University, Japan) |
| WNP7 | Electromyographic Activation Patterns during Swallowing in Older Adults  
Ryu, Ju Seok (Department of Rehabilitation Medicine, Seoul National University Bundang Hospital, Korea) |
| WNP8 | A simple clinical prediction rule for screening dysphagia in acute tetraplegic patients: a retrospective analysis of a database from Thailand  
Pattanakuhar, Sintip (Department of Rehabilitation Medicine, Faculty of Medicine, Chiang Mai University, Chiang Mai, Thailand) |
| WNP9 | Automatic extraction of swallows from patients with dysphagia using non-invasive neck sensors and deep learning  
Donohue, Cara A. (Department of Communication Science and Disorders, University of Pittsburgh, USA) |
| WNP10 | Retrospective case accumulation study for swallowing function evaluation in patients with active pulmonary tuberculosis (Examination using videoendoscopic evaluation of swallowing)  
Ohno, Yohei (Department of Rehabilitation Medicine, National Hospital Organization Tokyo Hospital, Japan) |
| WNP11 | A retrospective study for the effect of head flexion in videofluoroscopic examination of swallowing  
Nagura, Hirotaka (Department of Rehabilitation Medicine I, School of Medicine, Fujita Health University, Japan) |
| WNP12 | Development and Suitability Evaluation of Liquid VFSS Test Diet in accordance with IDDSI Framework  
Kim, Don-Kyu (Department of Physical Medicine & Rehabilitation, Chung-Ang university hospital, Korea) |
| WNP13 | Effects of the ultrasound and sonic toothbrushes on oral hygiene and dysphagia in convalescent post-stroke patients: A randomized controlled study  
Matsumoto, Shuji (Department of Center of Medical Education, Faculty of Health Sciences, Ryotokuji University, Japan) |
| WNP14 | Associations of oral function with food intake status in subacute stroke patients admitting to a convalescent rehabilitation ward  
Sekimoto, Yu (Department of Dentistry and Oral-Maxillofacial Surgery, School of Medicine, Fujita Health University, Aichi, Japan) |
| WNP15 | Effects of contagious yawning on spontaneous saliva swallowing. A case study  
Telford, Isadora J. (Department of Rehabilitation Medicine, Danderyd Hospital, Stockholm, Danderyd Hospital, Sweden) |
| WNP16 | Clinical implication of Helicobacter pylori infection for eosinophilic esophagitis: A single center experience  
Ju, Munjin (Department of Internal Medicine, Seoul National University Bundang Hospital, Korea) |
| WNP17 | Association between texture-modified diets and the prevalence of malnutrition and sarcopenia in older patients after stroke  
Shimizu, Akio (Department of Nutrition, Hamamatsu City Rehabilitation Hospital, Japan / Department of Geriatric Medicine, National Center for Geriatrics and Gerontology / Department of Palliative and Supportive Medicine, Graduate School of Medicine) |
| WNP18 | Prevalence of malnutrition-sarcopenia syndrome and its association with dysphagia among older rehabilitation patients  
Nishioka, Shinta (Department of Human Resource Development, Zeshinkai General Corporation, Japan / Department of Clinical Nutrition and Food Services, Nagasaki Rehabilitation Hospital) |
| WNP19 | Association of number of teeth present with nutrient intake  
Asaeda, Mayuka (Department of Oral Health, Kobe Tokiwa Junior College, Japan / Department of Oral Epidemiology, Graduate School of Biomedical and Health Sciences, Hiroshima University) |
| WNP20 | Effect of nutritional status at admission on improving swallowing function  
Kajiura, Shoko (Department of Rehabilitation, Fujita Health University Okazaki Medical Center, Japan) |
| WNP21 | Rheologocal evaluation of heterogeneous foods using ultrasonic spinning rheometry  
Chiba, Haruko (Department of Rehabilitation Medicine, Hokkaido University Hospital, Japan) |
| WNP22 | Effects of neuromuscular electrical stimulation for treatment of dysphagia in acute stroke patients: A randomized controlled trial  
Matsumoto, Shuji (Department of Center of Medical Education, Faculty of Health Sciences, Ryotokuji University, Japan) |
| WNP23 | Effect of catheter balloon dilatation combined with therapeutic feeding on dysphagia caused by cricopharyngeal achalasia  
Huang, Shao-Chun (Department of Rehabilitation, Affiliated Nanjing Brain Hospital, Nanjing Medical University, China) |

2nd World Dysphagia Summit  August 20 (Fri) – 22 (Sun), 2021
| WP8 | Incoordination during the pharyngeal phase in severe dysphagia due to lateral medullary syndrome  
Kunieda, Kenjiro (Department of Neurology, Gifu University Graduate School of Medicine, Japan / Department of Rehabilitation Medicine, Hamamatsu City Rehabilitation Hospital) |
| WP9 | The sensitivity and specificity of dysphagia evaluation with the Chinese version of the volume and viscosity swallow test (VVST-CV)  
Lin, Yiqiu (Department of Rehabilitation Medicine, The Third Affiliated Hospital of Sun Yat-Sen University, China) |
| WP10 | Flavors and swallowing: a challenge to the diagnosis of minimal consciousness  
Prum, Gregoire (Department of Physical and Rehabilitation Medicine, Rouen Normandy University Hospital, France) |
| WP11 | Association of tongue pressure with swallowing function and quality of life in Parkinson’s Disease  
Son, Woochul (Department of Rehabilitation medicine, Asan Medical Center, University of Ulsan, College of Medicine, Korea) |
| WP12 | A Study of Factors Affecting Compliance with Swallowing Instructions in Patients with Parkinson’s Disease  
Nakayama, Keigo (Department of Physical Rehabilitation, National Center of Neurology and Psychiatry, Japan / Speech-Language and Hearing Science, Kitasato University Graduate School of Medical Sciences) |
| WP13 | The usefulness of a novel swallow evaluation method for a patient with Parkinson disease  
Arai, Nobuyuki (Department of Rehabilitation Medicine, Kawasaki Medical School, Japan) |
| WP14 | Effect of mastication on changes in brain activity during food image recognition  
Yoshimura, Tatsuhide (Department of Oral Health and Clinical Science, Division of Dysphagia Rehabilitation, Tokyo Dental College, Japan) |
| WP15 | An examination of the efficacy of head-raising exercise methods for guiding suprahyoid muscle activity  
Arakawa, Takeshi (Tokyo College of Allied Medicine, Japan / Katsushika Rehabilitation Hospital / Graduate School of Gerontology, J. F. Oberlin University) |
| WP16 | Hypothesis and Verification of Oral Intake Standard by Stepwise Drinking Test  
Yanagimoto, Yukiko (Department of Rehabilitation Medicine, Veritas Hospital, Japan) |
| WP17 | Relationship between tongue pressure and body composition, grip strength and blood test results in Japanese elderly women living in the community  
Takeyama, Yumiko (School of Nursing, Faculty of Medicine, University of Miyazaki, Japan) |
| WP18 | Reliability and Validity of the Index of Kyphosis on CT  
Nishimura, Tomoko (Department of Gastroenterology, Nishijin Hospital, Japan) |
| WP19 | Efficacy and problems of swallowing support for patients over 90 years of age in acute care hospital  
Suzuki, Tatsutoshi (Department of Otolaryngology head and neck surgery, Kitasato university school of medicine, Japan) |
| WP20 | Reproducibility of Suprathyroid and Infrahyoid Electromyographic Measurements during Swallowing in Healthy Subjects  
*Park, Myung Woo* (Department of Rehabilitation medicine, Seoul National University Hospital, Korea) |
| WP21 | Oral stage dysphagia and temporomandibular disorders: Management within the Irish Healthcare System  
*Gilheaney, Orla* (Department of Clinical Speech and Language Studies, TCD, Ireland) |
| WP22 | A case of osmotic demyelination syndrome - induced central and entrapontine myelinolysis presenting with dysphagia  
*Matsuura, Hirotaka* (Department of Rehabilitation, Nippon Medical School Chiba Hokusoh Hospital, Japan) |
| WP23 | Is the geniohyoid muscle mass smaller among the patients diagnosed as sarcopenia in post-acute rehabilitation?  
*Yamamoto, Sayako* (Department of Rehabilitation medicine, Kawasaki medical school, Japan) |
| WP24 | Comparison of muscle activities during discrete swallow and chew-swallow in normal individuals  
*Nagashima, Yuki* (Department of Dysphagia Rehabilitation, Nihon University School of Dentistry, Japan) |
| WP25 | Comparison of multiple swallowing clinical screening tools for actual presence of dysphagia  
*Ohashi, Miho* (Department of Rehabilitation, Nippon Medical School Hospital, Japan / Department of Rehabilitation, Fujita Health University Bantane Hospital) |
| WP26 | Clinical Experience using the chewing count meter (Bitescan®) for brain injured patients  
*Nagai, Ayako* (Department of Rehabilitation, Fujita Health University Nanakuri Memorial Hospital, Japan) |
| WP27 | Detection of Pharyngeal Residue after Swallowing using Odor Sensor  
*Okawa, Jumpei* (Division of Comprehensive Prosthodontics, Niigata University Graduate School of Medical and Dental Sciences, Japan) |
| WP28 | Evaluation of dysphagia in two elderly patients hospitalized with COVID-19  
*Miyazaki, Akiko* (Department of Rehabilitation Center, Kawasaki Medical School Hospital, Japan / Department of Speech-Language Pathology and Audiology, Faculty of Rehabilitation, Kawasaki University of Medical Welfare) |
| WP29 | Risk assessment of aspiration pneumonia in patients with muscular dystrophy by Flexible endoscopic evaluation of swallowing  
*Hirano, Ai Kawamoto* (Department of Otolaryngology - Head and Neck Surgery, Tohoku University Graduate School of Medicine, Japan) |
| WP30 | Evaluation of Pharyngeal Swallowing and Residue by Fluid Infusion Using Videoendoscopy in elderly patients with dysphagia  
*Shinagawa, Takashi* (Department of Dentistry and Oral Surgery, Heisei Yokohama Hospital, Japan) |
| WP31 | The brain lesion affecting dysphagia in patient with supratentorial stroke  
*Kim, Jaewon* (Department of Rehabilitation Medicine, Incheon St. Marys Hospital, College of Medicine, The Catholic University of Korea, Seoul, South Korea) |
| WP32 | Quantitative videofluorographic evaluation of swallowing class 0j and 0t foods of Japanese Dysphagia Diet 2013  
Takeda, Chiho (Department of Advanced Prosthodontics, Hiroshima University Graduate School of Biomedical and Health Sciences, Japan) |
| WP33 | Differences in dysphagia characteristics between head and neck cancer and non-head and neck cancer  
Cha, Eunsil (Department of Rehabilitation Medicine, Gangnam Severance Hospital, Rehabilitation Institute of Neuromuscular Disease, Yonsei University College of Medicine, Korea) |
| WP34 | A case of twins with cerebro-costo-mandibular syndrome examined by videofluoroscopy  
Wada, Yuji (Department of rehabilitation medicine, Nippon medical school Chiba Hokusoh Hospital, Japan / Tokyo Metropolitan Children’s Medical Center) |
| WP35 | Aggravation of Dysphagia After Surgical Removal of Ossification of Cervical Anterior Longitudinal Ligament: A Case Report  
Go, Young In (Department of Physical Medicine & Rehabilitation, Jeonbuk National University Medical School, Jeonju, 54907, Republic of Korea / Research Institute of Clinical Medicine of Jeonbuk National University - Biomedical Research Institute of Jeonbuk National University Hospital, Jeonju, 54907, Republic of Korea) |
| WP36 | Relationship between saliva aspiration and tongue pressure  
Mikushi, Shinya (Department of Special Care Dentistry, Nagasaki university Hospital, Japan) |
| WP37 | The Standardizing Texture of Thickened Barium Liquids in Videofluoroscopic Swallowing Study in Taiwan  
Cheng, Chien-Hui (National Taiwan University Hospital, Taiwan) |
| WP38 | Prevalence of Vascular Risk Factors and Oral Candidiasis in Patients with Alzheimer’s Disease  
Matsumoto, Yasuhiro (Department of Dentistry, Yokatsu Hospital, Japan) |
| WP39 | Investigation of assessment methods of oral status for older residents in an aged care nursing home  
Konishi, Masaru (Hiroshima University Hospital, Japan / Tango Furusato Hospital) |
| WP40 | Effects of oral care by caregivers before eating on maximum tongue pressure  
Matsumoto, Akihiko (Department of Rehabilitation medicine, Tokushima Municipal Hospital, Japan / Nutrition support team) |
| WP41 | The effect of incompetent lip seal on child development  
Nakamura, Miki (Department of Oral Health, Department of Oral Health, Kobe Tokiwa Junior College, Japan / Department of Oral Health Care and Rehabilitation, Doctor’s Course of Oral Health Science, Tokushima University Graduate School) |
| WP42 | 12-Week Course Using Oral Exercise Module to Delay Oral Muscle Weakness in the Elderly  
Wu, Ming-Feng (Department of Rehabilitation Medicine, Kaohsiung Municipal Siaogang Hospital, Kaohsiung, Taiwan / Kaohsiung Medical University, Taiwan / Kaohsiung Medical University Chung-Ho Memorial Hospital, Taiwan) |
| WP43 | Effect of Epicil® oral liquid on eating and swallowing function in patients with oral ulcer during cancer chemotherapy  
Yoshioka, Yohsuke (Department of Dentistry and Oral Surgery, Hiroshima City Hiroshima Citizens Hospital, Japan) |
| WP44 | A pilot study of quantitative assessment to relation various occlusal support and pharyngeal function using high resolution manometry  
*Ohta, Emi* (Department of Dentistry for Disability and Oral Health Division of Oral Pathogenesis and Disease Control, Asahi University School of Dentistry, Japan) |
|---|---|
| WP45 | The effect of Dysphagia on resting energy expenditure in elderly Japanese hospitalized patients  
*Kawase, Fumiya* (Department of Nutrition, Aseke Hospital Aichi Prefectural Welfare Federation of Agricultural Cooperatives, Japan / Graduate School of Nutritional Science, Nagoya University of Arts and Sciences) |
| WP46 | Exploring the effects of oral frailty and malnutrition overlap on frailty in community-dwelling elderly: a 2-year longitudinal study  
*Motokawa, Keiko* (Tokyo Metropolitan Institute of Gerontology, Japan) |
| WP47 | Influence of nutritional status at admission for patients with severe dysphagia  
*Inagaki, Ayumi* (Department of Nursing, Okazaki Medical Center Fujita Health University, Japan) |
| WP48 | Utility of food odors in facilitating subjective appetites of convalescent rehabilitation patients  
*Nagai, Toru* (Department of Health and Nutrition, Niigata University of Health and Welfare, Japan) |
| WP49 | The comparison of Jaw movement, mastication numbers and duration between Japanese and Myanmar rice in young people  
*Kyaw, Khine Cho* (Department of Speech Language and Hearing Sciences, International University of Health and Welfare, Japan) |
| WP50 | Feasibility of internet application as Home-based telerehabilitation in stroke patients with dysphagia  
*Saentaweesook, Sujitra* (Department of Rehabilitation medicine department, faculty of medicine, KhonKaen university, Khon Kaen University, Thailand) |
| WP51 | Immediate effect of neuromuscular transcutaneous electrical stimulation in patients affected by dysphagia after stroke  
*Ito, Ikuno* (Department of Rehabilitation, National organization Hospital Tokyo National Hospital, Japan) |
| WP52 | The short and long term effects of Interferential Current Stimulation in two bulbar palsy patients  
*Ota, Kikuo* (Department of Community-Based Rehabilitation with Robotic Technology, Fujita Health University, Japan) |
| WP53 | High-resolution manometry evaluation of palatal augmentation prostheses on pharyngeal swallowing function in oropharyngeal cancer patients with dysphagia  
*Nomoto, Akiko* (Department of Dentistry, Hamamatsu City Rehabilitation Hospital, Japan / Dysphagia Rehabilitation, Department of Gerontology and Gerodontontology, Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental University) |
| WP54 | Adopting Newly Designed Oral Appliance for a Home Care Parkinson’s Disease and Dementia Patient with Possible Sarcopenia: A Case Report  
*Lin, Yi-Yueh* (Department of Teaching and Research, Taiwan Society of Home Health Care, Taipei, Taiwan / DDS, PhD, Department of Special Care Dentistry, Kaohsiung Venterans General Hospital Pintung Branch / Department of Home Care, Cozy Dental Clinic) |
| WP55 | Improvement of Dysphagia in a Chronic Brain Injury Patient with Temporomandibular Joint Dysfunction: A Case Report  
*Kwak, Kyu Wan* (Department of Rehabilitation Medicine, Gangnam Severance Hospital, Rehabilitation Institute of Neuromuscular Disease, Yonsei University College of Medicine, Seoul, Korea) |
| WP56 | Effect of Swallowing Rehabilitation in Patients with Parkinsonian Disorders: A Retrospective Study  
*Yun, Seo Jung* (Department of Rehabilitation Medicine, Seoul National University Hospital, Korea) |
| WP57 | Determining the Usability of Voluntary Cough Training Support Application in Patients with Parkinson’s Disease and Dysphagia  
*Iida, Yuki* (Department of Neurology, Hokuyukai Neurological Hospital, Japan) |
| WP58 | Effects of visual biofeedback on tongue pressure in healthy adults using near-infrared spectroscopy  
*Yano, Jitsuro* (Department of Speech-Language Pathology and Audiology, Kawasaki University of Medical Welfare, Japan) |
| WP59 | Aiming to Utilize Robots  
the Effect of Laughter on Swallowing Function and Primary Prevention  
*Tsujimura, Hajime* (Biwako professional University of rehabilitation, Japan / Osaka electro-communication University) |
| WP60 | A case that tried to improve dysphagia due to stimulant psychosis  
*Yoshikawa, Mineka* (Department of Advanced Prosthodontics, Hiroshima University, Japan) |
| WP61 | Effect of feeding guide card in stroke patients with dysphagia  
*Zhou, Fenghua* (Department of Rehabilitation, Shengjing Hospital, China Medical University, China) |
| WP62 | Recurrent Education on Approach to Patients with Dysphagia at Kyushu Dental University  
*Fujii, Wataru* (Department of Dental Center for the Medically Compromised Patient, Kyushu Dental University, Japan / School of Oral Health Sciences, Kyushu Dental University) |
| WP63 | Transoral videolaryngoscopic surgery for pharyngeal stenosis: 2 cases  
*Gwak, Jangwook* (Department of Otorhinolaryngology-Head and Neck Surgery, Department of Otorhinolaryngology-Head and Neck Surgery, Asan Medical Center, University of Ulsan College of Medicine, Seoul, Republic of Korea) |
| WP64 | Potential Prognostic Impact of Dopamine Receptor D1 (rs4532) Polymorphism in Post-stroke Outcome in the Elderly  
*Park, Hae-Yeon* (Department of Rehabilitation Medicine, Seoul St. Mary’s Hospital, College of Medicine, The Catholic University of Korea, Seoul, Republic of Korea) |
| WP65 | Medical and Environmental Responses in Dysphagia Rehabilitation Performed at Home  
*Honda, Yasutoshi* (Department of Dentistry, Fukuyama medical centre, Japan / Department of Dysphasia rehabilitation, Tokyo dental college) |
| WP66 | Is social participation associated with dysphagia in community-dwelling older people? A cross-sectional study from the JAGES 2010 Project  
*Kojima, Kaori* (Department of Community Health and Preventive Medicine, Hamamatsu University School of Medicine, Japan) |
